ONE CENT per word each insertion for advertising in this column. Cash must accompany order. Minimum charge twenty-five cents.

LIMELIGHT ARRIVES.—The Schooner Limelight arrived in Souris Saturday where she will again load for St. Pierre. Capt. Bushey reports very favorable weather on this trip.

SUBSCRIBERS should renew a week or two before the time they have paid for has expired and thus not miss an issue, as all papers are discontinued promptly on expiry date.

ROCK BARRA.—The concert and pie social held in Rock Barra School House on Friday night was a grand success, notwithstanding the inclemency of the weather, the building was filled to its utmost capacity to enjoy an excellent and well rendered program. The sale of pies followed which were ably auctioned off by Mr. John A. McPhee and the sum of seventy-five dollars realized, which goes to fencing and improving the school.

EXAMINATION.—The closing exercises of the Lower Montague School were held on the afternoon of Thursday, June 26th, quite a number of the parents and friends of the pupils being present. After the examination, the teacher, Mr. Harry Dunn, who is leaving the school, treated the children to confectionery and they in turn presented him with an address and gift in memory of the occasion. Mr. Dunn has done good work in the school and the ratepayers regret that he cannot be persuaded to remain with them. Mr. Fred W. Lelachur of Murray Harbor was in Georgetown Friday.—G.

CONCERT.—The teachers and pupils of the Georgetown High School held a very successful concert on the evening of Saturday, June 28th, Mr. A. D. McPhee filling the chair. The program was as follows: Opening Chorus—by the School; Solo—Miss June Stewart; Recitation—Dorothy Doyle; Motion Song—Little Girls; Pantomime—"The Dumb Twins"; Trio—Misses Genevieve, Mary and Ruth McPhee; Taper Drill—20 little girls; Solo—Miss Ruth Campbell; Chorus—Plantation Song, Melody; Recitation—Ruth McPhee; Harmonica; Selections—Miss Genevieve McPhee; Dialogue—Harold Barnes, Alex. McPhee and Edna McDonald; Quartette—May Jerrier, Laura Yoston, Kathleen Manuel and Roma Stewart; Children's Chorus; Pantomime—"Rock of Ages"; Closing Chorus; God Save the King. The Principal, Mr. Gerald McCarthy, and his assistant teachers spared no pains in preparing their program and the way in which the concert acquitted themselves reflected great credit on their training. The attendance was very large and the sale of home-made candy by the children helped to swell the proceeds substantially. The closing exercises and presentation of prizes were held on Monday, June 30th.—G.

EASTERN PERSONALS

Mrs. Alfred Holland and daughter, St. Margarets, were among the visitors to Souris on Saturday.

Mrs. Michael D. McDonald and daughter, Clear Springs, is visiting friends at Little Harbor.

Miss Lottie Bruce, Red Point, who spent the winter in Lynn, Mass., arrived home Saturday morning.

Miss Florence McInnis, Elmira, is spending a few days in Souris the guest of Miss Emma McIntyre.

Miss Ruby E. Stewart, Waltham, Mass., has arrived on a two months visit to her old home at Red Point.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. P. J. CHENEY & CO., Toledo, O. We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. W. D. KELSO, Wholesale Druggist, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 50c per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

For the Pretty June Bride

There is no other present that is more acceptable than a set of sterling silver or odd pieces of sterling table ware that will do for the foundation of a collection. If you want to look over a superior line and be sure of good values it will pay to come here first. W. N. Tanton Sunnyside

Miss Jean Aitken of the Provincial Library, Charlottetown, is spending a few days at her home in Georgetown.—G.

Mrs. H. A. Richardson and family of Toronto have arrived to spend the summer at her old home in Georgetown.—G.

Mrs. Warren Bartlett and niece Miss Grace Taylor, Lynn, Mass., have arrived on a visit to Mrs. Bartlett's father Mr. Alex. Bruce, Red Point.—G.

Rev. W. D. Wilson, for the past two years pastor of the Baptist Churches at Montague, Sturgeon and Georgetown, preached his farewell on Sunday, June 29th. Mr. Wilson has decided to take up the temperance work as Field Secretary for the Provincial Alliance. The people of this section are exceedingly sorry to lose Mr. Wilson but hope to see him occasionally in his travels through the Province, and while they regret his departure from among them they feel that their loss is a decided gain to the cause.—G.

WEATHER FORECASTS FOR JULY 1913

The volcanic Regular Storm Period is central on the 1st, covering the last two days of June, and the first four days of July. The Moon is in conjunction with Earth and Sun on the 4th, causing it to appear very far up in north declination. The Mercury and Venus equinoctial periods will be in full strength, all intensified by the domination of the Jupiter period. We will name Wednesday, Thursday and Friday, the 2nd, 3rd and 4th, as central days of great storm probability. The month will open with very high temperature moving eastward out of the west, attenuated by low and falling barometer. As these conditions move eastward during the days mentioned above, very black and foreboding storm clouds will be natural, violent summer winds, heavy local downpours of rain and hail, with possible tornadoes, reaching northern parts of the country, need not take any realizer of this Almanac by surprise. A good barometer, properly understood and watched, is worth many times its cost in only one such storm period as this. The first seismic period for July is central on the 4th, extending from the 1st to the 7th. Its effects will fall notably on and touching the 5th to 6th. An influx of cooler air will come with the rising barometer from the northwest, on the western sides of these storms, giving temporary respite from summer heat for a day or two following.

A Reactionary Storm Period will develop and run its course from west to east during the 6th, 7th, 8th and 9th. The Moon in perigee on the 6th, and on the celestial equator on the 9th, will cause this period to hold on, or be prolonged beyond its normal limitations. A climax of summer heat, culminating in startling gusts of wind, thunder, rain and hail will in all probability visit wide sections on and touching the 9th, after which, look for sudden drop of temperature over most parts of the country. Very cool nights for July will as a sequel for two or three days after these storms.

A Regular Storm Period extends from the 11th to the 16th. The center of the Venus period falls on the 14th, the culminating day of this regular storm period. The Moon will be at extreme declination south on the 15th, hence northerly air currents will flow southward at the culmination of this period, modifying the summer heat, and giving more pleasant nights, for temporary comfort to man and beast. All who may have read our "Foundation Facts" will remember that one characteristic of the Venus influence is great electrical disturbance, rain, hail, and phenomenal extremes of temperature—excessive warmth and sudden change to unseasonably cool—"Venus" electric fire turns quickly to ice," is the way we described it almost half a century ago. Pray do not understand that we are forecasting "ice" for this July period. Count yourself happy if you can get a few degrees relaxation of the thermometer.

A Reactionary Storm Period is central on the 18th, 19th and 20th. This period is coincident with the full Moon, or Moon's opposition with Earth and Sun. The barometer will show marked atmospheric changes at this period, the temperature will rise a show of blustering, summer clouds and storms will appear in many parts of the country, drifting from western to eastern parts of the continent. Some local rains will fall, but general and well distributed rains will hardly occur at this time. A seismic period is central on the 18th, causing earthquakes in different parts of the Earth between the 15th and the 23rd. Somewhat cooler weather will follow storms.

A Regular Storm Period involves the 22nd to 27th, having its center on the 24th. If the barometer does not rise after electrical storms on and about the 23rd, a series of blustering thunder storms will appear for several days and nights in succession at this period. If previous July periods have brought rain freely, a continuation of the same will be natural at this time; but we seriously question whether this will be the case, although the Venus period will help in that direction.

His Flesh Horribly Burnt

His druggist sold him a cheap acid corn cure; what he should have bought was Putnam's Corn Extractor; it's purely vegetable and acts in 24 hours. Insist on only "Putnam's Extractor," 25c. at all dealers.

DAILY SELECTIONS FOR GUARDIAN READERS

Furnished by W. S. Louson.

A TOUCH OF GREEN. And life grows easy that seemed so hard; And other eyes than your own are there Its bloom and beauty and joy to share; A touch o' green—it will pay so much, That yard o' bloom, with its country touch!

A touch o' green and the roaring street Fades off, in a garden cool and sweet, Where the blossoms bend and the bright day beams Till the touch o' green brings a touch o' dreams;

A touch o' green—it will go so far Where the dead brickwalls and the fences are!

A touch o' green, and the heart will know The childhood spell of the long ago, Brought through the dust of the steam-baked town, Like visions of fairy drifting down;

A touch o' green—it will make you leap Like a sudden call in a dreamless sleep!

A touch o' green in the old backyard,

And life grows easy that seemed so hard; And other eyes than your own are there Its bloom and beauty and joy to share; A touch o' green—it will pay so much, That yard o' bloom, with its country touch!

—Baltimore 'Sun.'

SOURIS TEA

The prisoners of St. Mary's Church, Souris, will hold their Annual Tea in aid of the New Church on the beautiful church grounds

ON WEDNESDAY JULY 16th, 1913

Every effort will be made to make this gathering one of pleasure, comfort and amusement to all patrons. As Souris is one of the most charming summer resorts in the Maritime Provinces, a visit to it at this season of the year will be most enjoyable.

The Charlottetown Watchman describes the Souris Tea, as follows: "There is nothing that draws like a Souris Tea except, perhaps, the Exhibition. It never fails! It never fails! The way patrons have been received at previous Teas is a great attraction. Then there is the natural charms of the place and a day's sport always ahead. Eager pleasure-seekers will be counting the days till the Tea."

Remember the day and the date and cancel all other engagements and come one and all to the Great Souris Tea on Wednesday, July 16th, 1913.

Following are the fares and train arrangements. Special trains will leave Summerside at 6.10 a. m., and Charlottetown at 8.15 a. m., and run on the following schedule:

Table with columns: Station, Fare, Train, Depts. Rows: Summerside, New Annan, Kensington, Preston, Emerald Junction, Bradalbane, Hunter River, North Wiltshire, Milton, Royalty Junction, Charlottetown, York, Bedford, Tracadie, Mount Stewart.

Passengers from stations between Georgetown and Mount Stewart can go by regular morning trains, returning by regular morning train on Friday, July 17th.

JAMES A. McCORMACK, Secretary.

Quality Carriages From The Four Big Factories

We have set up in our ware rooms 50 representative styles in high-grade carriages from the four leading factories in the Dominion. On these we can quote you the lowest prices for cash and can make terms to suit your needs. See this line.

Canada Tudhope

Over 300,000 vehicles bearing the trade-mark of the Canada factory in use today and each of these at the head of the line in style, strength, durability, appearance and general high quality. You will be particularly pleased with the showing made by this factory.

McLaughlin Dominion

The McLaughlin line has been before the public for just 44 years and the fact that the products have stood the test of time and are now among the leaders in their line is ample proof of their superior features. There are some particularly attractive styles in our showing of McLaughlin carriages that will surely please you. See them.
