Meat-Jellies, savoury custards and many other tempting delicacies can be prepared with the aid of OXO CUBES. For this purpose they form an economical substitute for meat.

A CAROL.

(Flores apparatus in terra nostra)

Very still was the land,
Very sweet was the hour;
Do ye miss the guard o' the stand
When the Rose brought forth her flower—
Rosa sine spina.

Long the road and hard the pain,
Chill and lowly was the shed,
See, upon the straw she's lain—
Straw to make her childing-bed,
Virgo et regina.

Cold the welcome, sharp the smart;
Godhead treads the bitter way,
Only in the lowly heart
Is her Babe brought forth today—
Genetrix divina.

\$19.00

This Offer is Good for a Short Time Only

Freight Paid To Your Station SATISFACTION GUARANTEED

This is a decided saving in the price of the Improved style SILVER MOON HEATER with reversible flue. There is no doubt but there will be an increase in the cost of these stoves as well as all stoves next year, on account of the rapidly increasing cost of raw materials, due to the phenomenal demand for such materials for the manufacture of munitions of war.

For a short time only we will prepay the Silver Moon Base Burner to your nearest railway station on cash orders at the prices specified in this advertisement—but this offer will be for a short time only.

The Holman Silver Moon Base Burner is the most improved and economical heating stove of its kind on the market—possesses distinctive features, such as automatic cover lifting device, eliminating the necessity of using a lifter as is the case with old style stoves.

By consulting page 104 of Holman's Winter Catalog, you will learn much regarding this improved style heating stove. If you can use one of these stoves now or in the near future, do not hesitate in sending your order as this special price may be withdrawn at any time.

More Cures in Charlottetown

RHEUMATISM AND TONSILITIS QUICKLY CURED.

The good work of the Farador goes steadily onward and those who need health should join the procession. The Farador has long passed the experimental stage. Here is another tribute from a local resident:

Dear Sir,—Last March I began to use the Farador, which was recommended to me by a friend who stated that the said instrument cured his child of tubercular glands when it has been given up by the several doctors. I had suffered much for about six months from poor circulation—was cold nearly all the time—and rheumatism. After using the Farador a fortnight I found myself very much better and am now quite well.

When I got the Farador my son was laid up with tonsillitis and had suffered from throat trouble nearly all his life. The tonsillitis was entirely cured with a few applications of the Farador. The throat trouble gradually disappeared. Before we left England, a little over a year ago, the doctor advised the removal of his tonsils, but we are glad that we did not consent to such an operation, as the Farador rendered it unnecessary.
