MR. NATHANIEL MCPHEE. A gloom was cast over Georgetown on Sunday, February 12th, when it became known that Mr. Nathaniel McPhee had passed away. The deceased had been in failing health for some time and friends cherished the hope that as might be spared. He was a devoted member of the Catholic church and received the last rites of the church from his Pastor the Rev. D. P. Croken. As a neighbor there was no better, he was always ready to help in sickness or trouble. His charity and kindness was great for his foremost thought was to be able to be of service to some one. He will long be remembered in the community for his kind and cheerful disposition. He leaves to mourn one brother, Capt. McPhee of Georgetown. Sincere sympathy is extended to the family.—A.

GOOD ADVICE
The following advice to speakers published in the Montreal Star: Be brief. Don't be a bore. Use short sentences. Say it with terseness. Get in, get through, get out. Cut out lengthy explanations. Too much verbiage betrays the issue. Brevity is the soul of speech-making. Be long-headed, but not long-winded. Talk to your audience in their own language. Put a pithy proposition to your prospect.

LONDON, Feb. 13.—The mystery of the chocolates sent to Dr. Parrott, vice-chancellor of Oxford University, was solved today. Professor Soddy writes as follows from the chemistry department, of which he is chief. "The vice-chancellor has authorized me to make the following statement in the hope it may close the recent incident which excited so much comment and some scandal." "Those who are responsible for sending the vice-chancellor a box of chocolates supposed to have been poisoned, have come forward voluntarily and made a frank statement. The sender was an undergraduate who acted under the suggestion of an older man, now a member of the university. The vice-chancellor is convinced they intended it merely as a harmless joke and had no malicious intention. The sender was unaware the powder used was deleterious. He had no connection with any club or party and had no grievance against the vice-chancellor. No stain attaches to any member of the university, and the offender has been granted a free pardon by the vice-chancellor."

Head Stuffed By Catarrh? Use A Healing Cream

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh of the nose, apply a little pure, antiseptic cream destroying germ into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief. How good it feels. Your nostrils are open. Your head is clear. No more hacking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any drugstore. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

MUTT AND JEFF

Pretty when she wakes up

Cleopatra's way
With a world of ancient beauty arts at her command, she depended on cleansing with Palm and Olive oils to protect, improve and preserve the freshness and smoothness of her skin.

This beautifying was not confined to face alone. The bath was a daily ceremonial with all ancient peoples, palm and olive oils the cleansers used. Bathe with Palmolive and keep your skin smooth and white. It is a luxury all can afford.

This is the real test. The girl who wakes fresh and radiant, with a clear, smooth skin which has no defects to conceal, need not worry about her looks. She possesses the greatest of all attractions—the one which outshines all others.

This need not discourage the girl whose complexion is not so good. Proper care will soon transform a bad skin into one admired for its perfection.

Get rid of the clogging accumulations which cause coarseness and disfiguring defects and you will soon be complimented on your fresh blooming complexion.

The secret is simple and about 3,000 years old. It was discovered in ancient Egypt and practiced by Cleopatra.

Simple—Beautifying
The remedy for a coarse skin, for one disfigured with blackheads or ugly blotches, is daily cleansing with a lather blended from palm and olive oils.

Such a cleanser is so mild and soothing that it softens the skin and keeps it smooth. But it removes the accumulation of dirt, oil and perspiration which are responsible for most bad complexions.

You can't neglect your skin and expect to keep it

blooming and alluring. The powder and rouge you use to conceal defects deceive no one.

The soothing cleanser
Palmolive is the modern combination of the same beautifying, cosmetic oils Cleopatra used in the days of ancient Egypt. It is just as valuable today as a safe soothing cleanser.

Massage its smooth, creamy lather softly into the network of tiny pores which compose the surface of your skin. It will remove the clogging deposits which enlarge these pores, cause blackheads and invite blotches.

Dry skins are benefited by cold cream after cleansing. If unusual dryness is your trouble, apply a little cream before as well as after washing.

Popularity—Low price
Judge Palmolive by other soaps and you will expect to pay at least 25 cents a cake. But the popularity which keeps the Palmolive factories working day and night naturally reduces cost. Quantity production is always economical.

Thus this most facetious is offered at a very modest price—a price all can afford. You can economically use Palmolive for every toilet purpose, for it costs no more than ordinary soap.
