Simpson And Arsenal Given Rousing Reception—Trenchantly Denounce Gov't.

Mr. Frank Simpson in his maiden speech at Malpeque, Lot 18 was accorded a great reception from the large audience which provided the hub to the doors. He completely turned the tables on Mr. Linkletter, his opponent, when he successfully refuted statements made by Mr. Linkletter with regard to money paid out for fishermen's storm relief. In an excellent speech Mr. Simpson promised the people that something would be done by the MacMillan Government to place young men on the farms. Soil analysis also would receive attention and would be the means of saving large sums of money in fertilizer to the farmers. These things were absolutely necessary to the welfare of the Province.

Mr. A. F. Arsenal in an eloquent speech made a strong plea for the return of a sound administration. "You cannot," he said, "have a return to prosperity when you have the debt of the Province mounting year by year." What the farmers and fishermen need is assistance to reestablish themselves on the land. The huge sums spent on the National Park and roads above, for instance, was spent on the farmers and fishermen. The people of this Province don't want relief, they want the chance of earning honest living and that is what the Government is demanding! If the debts continue to mount we will be under a commission and you will lose your right to vote.

Robust Health For Young People  
What a common sight it is to see a young person whose bloodless face and feeble frame are evidence of poor circulation and weakness where bounding health and rosy cheeks should reign.

Young people in such a condition are generally of an anemic nature and require a preparation containing iron to help improve the blood content.

Milburn's Health and Nerve Pills meet this requirement, as they contain three concentrated forms of iron of an easily assimilated nature together with other valuable ingredients indicated for building up the system, strengthening the nerves, and adding to your physical attraction.

Now Playing At  
Capitol Theatre

What happens when four devoted sisters fall in love with the same man? "Four Daughters," the Warner Bros. picture based on a Family Hour story, which opens at the Capitol Theatre today, takes that as its theme and develops it into a richly human story.

The four fighters of an elderly musician all live their hearts unreservedly to a captivating young man who comes to live at their home and he in turn is enraptured by the youngest.

Even the Right of Appeal had been taken away from the landowners; the prohibition enforced and then on top of it all came a new set-up of the Probate Act, an Act which deliberately puts its hands in the pockets of you farmers and takes out between \$75 and \$100.

Fishermen's Grants, Subsidies Old Age pensions etc., were also being dealt with in the course of the meeting and the speaker outlined plainly the trend towards Conservatism that is now sweeping over the Province.

### Conservatives Are Cheered At Miscouche Hall

Two Conservative candidates for the fifth district of Prince, Messrs W. Lidstone and D. McNeill last night met with a tumultuous reception at the meeting held in Miscouche Hall. An overflow of attendance listened to fine addresses by the two candidates in which they scored point after point over the bungling misgovernment of the Campbell administration.

In addition to the two candidates Messrs. W. Henry Noonan and J. P. McLaughlin were also heard in fighting addresses for the Conservative cause. Mr. Arsene Poirier was chairman of the meeting.

Placing the issues clearly before the audience the speakers were applauded frequently as they backed up their words with proof of the various conditions existing today.

The budget had only not been announced as the Liberal Government had promised they would do but the debt of the Province had been increased by five and a half million dollars but this wasn't surprising when one hears a member of the Government (Mr. LePage), at a public meeting made the statement that 7 million of dollars was nothing.

Even the Right of Appeal had been taken away from the landowners; the prohibition enforced and then on top of it all came a new set-up of the Probate Act, an Act which deliberately puts its hands in the pockets of you farmers and takes out between \$75 and \$100.

### HEARTBURN KEPT HIM AWAKE

Afraid to Eat Square Meal

What a worry he must have been to his wife! No food agreed with him. Acid indigestion made him positively wretched. In this letter, his wife tells how he got welcome relief.

"My husband developed a wretched form of gastric acidity," she writes. "He ate a misery to eat. He often could not sleep for heartburn. Business kept him from home a great deal, but when he did get a spell at home, I gave him Kruschen's Great Acid Cure. It was a relief. That ward went away and he was happy. I'm hungry." It seems to her that it was Kruschen's Great Acid Cure that was the cause of his relief.

The numerous salts in Kruschen help to promote a natural flow of the digestive and other vital juices of the body. Soon after you start on Kruschen, you will find that you are able to enjoy your food without distressing after-effects.

As you persevere with the "little daily dose," you will see that Kruschen brings glorious relief.

An indication of the crowded day their Majesties will have is the fact that only an hour and 45 minutes is provided for all the ceremony and parade from the time of their arrival and their departure from the Legislature at 12:15 p. m. EDT.

They spend 30 minutes at the Citadel, summer residence of the Governor-General, Lord Tweedsmuir, before leaving for a luncheon given by the Dominion Government at the Chateau Frontenac.

Their afternoon is crowded with a demonstration by school children at Battlefields Park, at which the Queen will be presented with a bouquet of flowers and a tea at Spencer Wood, residence of the Lieutenant-Governor.

Their Majesties rest at the Citadel from 5:30 p. m. to 8 p. m. when they leave for the Chateau Frontenac for a banquet given by the Quebec government where they will eat snowbirds caught on the Island of Orleans, and drink rare wines. They spend the night at the Citadel, closing their Quebec trip with the departure on Thursday at 9:30 a. m. after a parade through the streets from the Citadel to the Palais Station.

### New Probate Act

#### Getting After The Poor Man

The Campbell Government press refuses to give its readers information with regard to the new Probate Act, passed at the last session of the Legislature, under which heavy additional expenses must be incurred in probating estates, however small.

Here are the relevant provisions of the Act, as passed on motion of the promoter, Premier Campbell:

Executor Must Take Out Probate:  
"45. (1) Every resident of the Province named as executor in any will shall, within thirty days after he is informed that he is so named as executor, cause such will to be proved and filed in the Court, and either apply for Letter of Probate thereto, or file a written declaration of his refusal of such executorship."

Administrator Must Be Appointed:  
"58. (1) When any person dies intestate, upon the application of the wife, husband, or next-of-kin, within thirty days after the death of such intestate, the Judge shall grant letters of administration, in the manner heretofore in use, to such wife, husband, or next-of-kin; and after the said thirty days have elapsed, upon first citing such wife, husband, or next-of-kin, and their refusing to accept the same, the Judge shall grant administration on application to such person or persons as he shall consider most fit."

Compulsory To Advertise:  
"59. Every personal representative shall, within one month from the time of the granting of probate or administration, and previous to the payment of debts or distribution of the estate of the deceased, by advertisement in the Gazette, in cases where the estate shall be under eight hundred dollars for one month, and in other cases for three consecutive months, call on all persons who have any demands upon the estate of the deceased to present such demands within six months from the date of the advertisement. Every such demand, when presented, shall be attested by the claimant or his agent by affidavit in form "E"; no account shall be rejected by a Judge in his final decree for any mere informality in the same, or the attestation thereof."

Accounts Must Be Filed:  
"64. (1) Every personal representative shall render an account of his administration to the Court within six months from the grant of letters Probate or letters of administration (unless further time be allowed), and after that may be cited to do so on the application of any person financially interested in the estate."

Real Property Goes To Executor, Despite Will  
"103. (1) Real property to which a deceased person was entitled for an interest not ceasing on his death shall on his death, notwithstanding any testamentary disposition, devolve upon and become vested in his personal representative from time to time as if it were personal property vesting in him."

Executor May Sell Property To Pay Debts And Costs:  
"109. (1) The personal representative may sell the real property for the purpose not only of paying debts but also of distributing the estate among the persons beneficially entitled thereto, whether there are or are not debts, and it shall not be necessary that the persons beneficially entitled shall concur in any such sale except where it is made for the purpose of distributing only."

Deed Required From Executor:  
"111. The personal representative may, with the concurrence of the adult persons beneficially interested, with the approval of the guardian appointed by the Court on behalf of infants, and in the case of a lunatic, with the approval of his Committee appointed by the Court of Chancery, if any infants or lunatics are so interested, divide or partition and convey the real property of the deceased person, or any part thereof, to or among the persons beneficially interested."

It is reported that Liberal campaigners are claiming that the Act, although passed and assented to, may not be enforced.

Sec. 120 provides: "This Act SHALL COME INTO FORCE ON THE 2nd DAY OF OCTOBER, A. D. 1939."

FALCONWOOD PLANS  
Sir—The Patriot, hard up for fill-in bluff, is still harping over the Falconwood plans, its only straw of support in waters as troubled as the whirlpool of Niagara, in frantic effort to escape the deluge.

Of course heaven born engineers, like the architect of the \$50,000-a-mile McIntyre Highway, could build a new hospital, so highly commended, even by Liberals, without any plans or specifications. What fools these mortals be to think any such truck goes down with the public!

Why, every year of Conservative administration, they saved enough by economy in management, to more than pay off the alleged loss of those plans.

What about Liberal architect plans for Court Houses. Were they chopped out of McIntyre's brain with a broad axe? If not where are they, what did they cost, and what interest were they worth when they used them?

The accepted "Tender" for the Summerside Jail and Court House was for slightly over \$14,000. actual cost, when finished (about May 1937) estimated at \$125,000. Their broad-axe plans therefore must have cost about \$80,000, if not for the blue prints on paper, then for the costs of the quandering and waste they entailed.

I am Sir, etc. ARCHITECT.

PROVINCIAL BUILDING—COSTY  
Sir—Elected will remember the charges of extravagance against the MacMillan Government when they appropriated \$40,000, to repair the Colonial Building. They admitted it was needed, but why such an exorbitant amount—to bankrupt the Province?

But the sequel—Up to their defeat in September, the Conservative Government, by day labor, almost completed it, at an expenditure of \$28,727.50.

Liberals then assumed the reins. At once they dismissed the competent trained hands who understood the work, and the patronage orgy, commenced. For balance of that year they spent another \$16,500, estimated at \$125,000. Their Liberal waste on this, accepting the MacMillan Government.

But the boodling didn't end there. In 1936 they dumped another \$24,197.41 into this feed nest, then in 1937, still a further sum of \$1,246.21, making a total \$41,943.62, squandered by the Campbell Government, after the job was almost finished, and paid for by the Conservatives.
