R. T. Holmes, Limited, Summerside, will have their Spring and Summer catalogues ready for mailing in a very short time. They invite requests for catalogues by mail—such requests will be the first to receive them. 3-1dr3.

### SIFTON CASTS HIS LOT WITH STANDPATTERS

(Continued from page 1)

which Mr. Sifton was to make was indicated by the crowded condition of the house, both the floor and the galleries being fully occupied. He condemned the agreement from beginning to end, and the government which made it.

"What is the reason," asked Mr. Sifton, "that is being given by the representatives of the people of the United States for proffering to us the terms which they are doing? I decline to accept for a second the suggestion that Champ Clark, leader of the Democratic party, was speaking seriously of reciprocity. It had not been for Mr. Clark and the Democratic party this reciprocity agreement never would have passed the house of representatives. It was he who put it through. Let him speak for himself. He says he and his party are in favor of this proposal because it leads to annexation."

"What did Mr. Taft, leader of the Republican party, say? Canada is a strong country; it has a great storehouse of natural resources. He says that it has been pursuing a stupid and successful policy of deploring what is now at the heart of the matter. There is a policy which would lead to the consolidation and strengthening of the British empire. We must turn our backs on the course."

The defence of the government was made by Hon. Charles Fisher, minister of agriculture.

Mr. Sifton made a comprehensive condemnation of the agreement. He said that before Canada had been a burden and somewhat of a nuisance to the British empire. It was just beginning to be of some use. Now the government had made a deal for this agreement which would lead to the capital of the British empire to the path which leads to Washington.

Among the undesirable consequences which he foresaw were the destruction of the Canadian meat packing business by the American combine against which Australia was now

factured articles which they consumed and that demand could not be resisted. The adoption of this agreement would be commercial union with the United States.

Every school book commended and taught that the Canadian duty was to bind the scattered provinces together. The result of this agreement would be to bind the provinces to the States lying immediately to the south.

When threatened with the imposition of the American tariff last spring Canada should have stood firm. It had not done so but the path should be followed no further. He could not understand the mistake of government had made the mistake of responding to the first beckoning of a finger from Washington, when Canada had received nothing but rebuffs from that country for the last thirty years. He for one did not propose to uphold them in their error.

He said neither political party had made reciprocity the main issue in any election for the past ten years and there was no demand for it now. The government had no mandate from the people for the drastic departure they had made from the Canadian fiscal policy by this reciprocity agreement.

### BUDGET OF NEWS FROM AUSTRALIA

MELBOURNE, Feb. 28.—The barque Gladys had a remarkable adventure when at sea, near St. Paul's Island. While sailing along in clear weather with the sea as calm as a mill pond, the vessel was suddenly overwhelmed by a mountainous wave. Tons of water fell on the deck, and several unfortunate sailors were swept overboard. The barque escaped almost by a miracle from going to the bottom.

Another strange story of the sea was told on the arrival of the ship, Milton. When sixty miles off Cape Verde a sailor fell into the sea, and after a search, was given up for lost. The ship proceeded on her way. Six hours later the steamer Nohis, going in the opposite direction, reported that of the Milton, heard cries coming over the waves, and lowering boats, picked up the missing seaman. The legs of the unfortunate man had been torn by a large fish while he was in the water.

Journalism and politics in Charlevoix recently resulted in a light between two rival editors. The Liberal agreed to meet his opponent, the Labor man, in the ring. The battle was short, and sharp. The Labor editor being knocked out in the third round.

The Department of Education for train thirty women for three years in the State of Victoria, that they should issue certificates, so that they may undertake to instruct women in every part of the State.

Divorce is becoming so frequent in Australia that one of the judges has been moved to remark that no stigma appears to attach to it in the estimation of the general public at any rate.

The Victorian Government proposes to purchase the Melbourne City Tramway. The Company's lease has still six years to run. The price proposed to be paid is 21 millions sterling.

### INVENTOR OF PRESSED BRICK PROCESS DEAD

REDLANDS, Cal., Feb. 26.—Edward C. Sterling, the inventor of the pressed brick process, died last night at his home. Mr. Sterling left St. Louis in 1898 to reside here.

### Mistakes May Happen

If you do not do to everyone. If you do not do to everyone, you will not get to everyone. If you do not do to everyone, you will not get to everyone.

### BEECHAM'S PILLS

Will Right The Wrong. Relieve and cure indigestion. They have a quick and tonic action on the stomach and its nerves, and so they give direct aid to digestion. They carry away also the indigestible matter. With their use dyspepsia, nervousness, bad taste, unpleasant breath and flatulence disappear. You should be careful and remember Beecham's Pills.

### MONUMENT TO VICTORIA THE GOOD

(Continued from page 1)

Many of the royalties of Europe are to attend the unveiling. The Colonial Premiers and other statesmen who are to attend the Imperial Conference beginning at the end of May will also have a part in the exercises.

The Queen Victoria Memorial has been spoken of as the "Dreadnought" of great monuments. From start to finish the builders have kept the idea of the durability of the monument in mind. Every brick in the deep foundations and every block of marble in the massive superstructure was carefully examined and pronounced perfect before it was put in place. The great monument as it stands completed represents more than 2,000 tons of marble, masonry and granite.

Colossal is the only word giving an adequate conception of the size and imposing appearance of the monument. The memorial as a whole consists of a vast artistic framework that includes so many works of art that their conception and execution alone might have filled half a man's working lifetime. There are numerous statues and reliefs in both marble and bronze, to say nothing of the great flights of steps, the magnificent fountain basin, the retaining wall, the piers and bases.

The central figure, of course, is the statue of the Queen, who is presented with characteristic dignity. The statue is of marble and is 182 feet high. Forming the background for the Queen's statue is a great marble base surmounted by a bronze figure of "Victory" twelve feet in height. "Courage" and "Constancy" stand as attendant and contributory figures. At the opposite end, looking toward the palace which in London was the Queen's official home, is the imposing group of "Motherhood." To the right and left stand the marble groups representing "Justice" and "Truth."

From the great circular platform of granite, which is approached by steps of stately breadth and comfortable shallowness, the spectator may see below the vast water basins fed by fountains on the northern and southern sides. On pedestals flanking the steps, front and back, are great groups in bronze of "Peace," "Progress," "Manufactures" and "Agriculture." Over the fountain arches are colossal figures representing "Bravery" and "Intelligence," symbolizing the army and the navy and science and the arts. The retaining wall is enriched with many bronze panels symbolizing England's maritime supremacy.

### SAY REVIVAL OF BOXERISM MAY FOLLOW PLAGUE

ST. PETERSBURG, Feb. 28.—Pet Chuanlitzze, about 50 miles north of Harbin, is being ravaged by the plague. The deaths there are reported to number 2,000 daily. The disease is raging at Kirin, Hulanchen, opposite Harbin, and at Bodune, 100 miles southeast of Harbin.

Bread riots have occurred throughout this district. The Foreign Consuls are preparing to leave. Troops have refused to march into the plague places, and martial law has been established. The Chinese Emperor has reprimanded the Manchurian authorities for not having dealt more energetically with the situation. The Far Eastern press is filled with apprehensions of a recurrence of Boxerism.

### MAYOR APPOINTS CITY ATTORNEY

Mayor Frank K. Mott appointed F. Woolner, a member of the law firm of Gibson & Woolner, today to the position of city attorney, made vacant by the resignation January 10. Stator Senator John W. Stetson, Woolner began his duties at once, sitting as a commissioner of public works with the mayor and the City Engineer Turner at the regular session of that board.

Woolner will serve the unexpired term, which will end July 1. The office has been vacated twice this term, once by the death of John McElroy, who was the elected city attorney, Stetson associated with McElroy in law practice, because his successor, relinquishing his place because of his duties at Sacramento with the state legislature.

Woolner has practiced law in this city for several years. He has been in public life a great part of that time, serving a term as a member of the board of education. At the last campaign he was a candidate for police judge. He is a member of several orders, active in the Elks, and in the Nile club.

Regarding the appointment, Mayor Mott said:

"In selecting Woolner, I took into consideration his general qualifications and his legal attainments, and I am confident that his services to the city will justify the appointment. There will be no delay in the plans of improvement caused by the accession of a new man to the office. Woolner is familiarizing himself with the problems of his office, and he will be able to proceed at once with the water front litigation and bond matters which are being pursued. The water front litigation instituted by Stator consists of condemnation suits for estuary. Woolner will carry the suits through promptly."

Woolner will retain Assistant City Attorney W. H. O'Brien in his position. O'Brien is cognizant of every detail of the city attorney's pending work. He was assistant to both McElroy and Stetson. Deputy City Attorney Joseph Koford will resign. He was asked by Woolner to remain in his place, but will retire from the office to make a private law practice. The new city attorney has not chosen Koford's successor.

"In my administration to the office I hope and intend to live up to the precedents set by McElroy and Stetson," said the appointee this morning. "I have not prepared myself yet to state my intentions on any public affairs, but I will endeavor to make a clean record in the office and serve the people of the city well."

Oakland, Calif. Ex. Janv. 4th. Mr. Woolner, who is a grandson of the late W. S. McNeill, of North Rustico, has a large circle of relatives and friends in this Province who will hear with pleasure of his success.

### RECORD SLOW TRIP, ST. JOHN TO PROVIDENCE

PROVIDENCE, R. I., Feb. 27.—Establishing a record for the longest time between St. John and this port, the three-masted schooner Greta, arrived here today three months after leaving St. John.

Head winds were encountered practically all the time the vessel was at sea, and she was obliged to seek refuge in several ports where she was storm-bound for several days and weeks. When eight days out the vessel struck on a reef near Machias. She was taken to Rockland, where she spent a fortnight undergoing repairs.

### MONS CALLED UPON TO FORM CABINET

PARIS, Feb. 28.—There is practically no doubt that Antoin Emmanuel Ernest Monis will be M. Briand's successor as Premier, although he has announced that he will give no formal answer until tomorrow to President Fallieres' request that he form a new cabinet. Before deciding to accept the responsibility M. Monis informed the President that he would consult with his friends, and the result of this consultation makes it almost certain that he will accept the difficult task.

M. Monis is regarded in political circles as peculiarly fitted to organize successfully a workable ministry. He is acceptable to all sections of the Republican majority, while assured also of the support of the Radical Socialist section, whose defection was the principal cause of Briand's resignation. The fact that M. Monis is a Senator, and consequently was not a party to the attack made by M. Malvy against the government in the Chamber of Deputies on Friday, serves to make him acceptable to the adherents of the former Premier.

M. Monis spent a busy evening consulting with his supporters. He first paid a visit to M. Briand, after which he was closeted with the President of the Senate and Chamber, and M. Bertraux, ex-Minister of War, who is also a vice-president of the Chamber, and M. Delcasse, former Minister of Foreign Affairs. Speculation is rife as to the composition of the new ministry. According to gossip in the confidence of M. Monis, M. Delcasse is to have the portfolio of Marine, Monis himself taking that of the Interior, ex-Premier Ribot or Senator Raymond Poincare is to be made Minister of Foreign Affairs, M. Cruppi, Minister of Justice, M. Bertraux, Minister of War, Jean Duruy is to be retained as Minister of Commerce, and M. Cailux, Minister of Finance in the Clemenceau Cabinet will be appointed Minister of Public Works. It is also believed that

### DEAD MAN SANG HYMNS AT HIS OWN FUNERAL

DETROIT, Mich., Feb. 27.—William H. Faxen, an Ojibwa monogerman, who died last Friday sang at his own funeral yesterday afternoon his favorite hymns, which several years ago he had sung into a phonograph. For over seventy years Mr. Faxen had been a leader of the church choir, and as his well-remembered voice rang out strong and clear through the little Methodist church man as well as women sobbed hysterically. The services were ended by the Lord's Prayer in the voice of the dead.

### DEAD MAN SANG HYMNS AT HIS OWN FUNERAL

M. Millerand who was M. Briand's Minister of Public Works, Posts and Telegraphs, prior to the assumption of that office by M. Puech, will be offered a portfolio, not yet specified, in the Senate for Gironde since 1891. He took a prominent part in the overthrow of the Bourgeois ministry in 1896. As a Minister of Justice in the Cabinet of Waldeck-Rousseau, he signed the decree convoking the high court to try the Royalist plot against the Republic in 1899. He had many friends among politicians, and occupies a position of great authority in the Senate of which he has been vice-president since 1906. In politics he is a Radical Republican, moderately inclined toward the advanced Left Section.

The most tempting breakfast is spoiled if the Coffee be of poor quality. But—every meal is a Banquet when you use

Packed in 1 and 2 pound cans only. 126 CHASE & SANBORN - MONTREAL.

To all wise cigarette "Hunters"

You're "on the right scent" as soon as you begin to smoke "Black Cat" Cigarettes. You'll like their fragrance, their smoothness, their rich, mellow flavor, better than that of any other Virginia cigarette.

### Black Cat Cigarettes

10 for 10 cents

are "leading the field." They "win the brush" every time. And they always "ride a straight line"—no secret adulterant—no tricky flavor—just pure, straight tobacco and nothing else. It's all a matter of fair play and honesty.

If the tobacco is honestly selected, if honestly aged and matured—if an honest weight of tobacco goes into each cigarette, there is no need for adulterants.

"Black Cat" Cigarettes depend only on good tobacco and Nature's own maturing process (temperature, etc.) to give the hunt. Capture a "Black Cat" and you've got the secret.

CARRERAS & MARCIANUS CIGARETTES, Ltd. Montreal, Quebec

### GUARDIAN CLASSIFIED ADS.

- CLERK WANTED**

TO LET, large brick store on the busiest part of Queen Street, close to banks and market can be fitted to suit tenant. Apply 188 Queen Street. 1-2dr14w.

# Good Bread

is the keystone to the structure of health. It means vigor, bone and muscle to your growing children. It means nutrition to the whole family. But you cannot make good bread out of indifferent flour, no matter how you treat it, no matter how proficient you may be in baking. In her desire to make a loaf that looks and tastes well, the housewife is tempted to use flour that is almost devoid of gluten—the rich, strengthening constituent of flour that makes bread the staff of life.

## "Beaver" Flour

"BEAVER FLOUR" makes equally successful biscuits, cakes and pastry. One flour accomplishes all the requirements of baking, saving trouble, expense and uncertainty as to results. Try it. You will quickly appreciate its superiority. All the best grocers keep it.
