BELONGED TO NEW GLASGOW. P. E. I.—It may interest many to know that the W. H. Orr who lived as a recluse and died some months ago near Winnipeg, the reputed possessor of thousands was a native of New Glasgow, P. E. I., being the issue of David Orr and his wife, Elizabeth Simpson. The late Mr. Orr lived his boyhood days in his native place. When to manhood grown he emigrated to Western Canada and had varying luck until speculations gave him an enviable position in the world of finance. Mr. Albert Laird, New Glasgow is a first cousin of the late millionaire, also Mr. Charles Simpson.

THE CHILD'S WELL-BEING

It is generally conceded that if a mother would occasionally regard her children with the critical attitude of an entire stranger many objectionable habits of which she has hitherto been unconscious would be forced upon her attention. She should also realize that there are fundamental things which make every baby and young child irresistibly attractive. One of these is cleanliness.

Insist Upon Fresh Infant Foods

A healthy baby is usually fat and chubby, because his food agrees with him. If you have had trouble in finding a food that agrees with your baby, try some of the brands which we carry. We handle all of the good ones which you see advertised in the magazines. These foods come to us at frequent intervals—so we can always guarantee their freshness. This is an important point to consider for even a normally healthy baby is apt to get sick if given stale food. We carry a complete line of Nursery Supplies.

FOR SALE

The undersigned having enlisted for active service offers for sale his dental business and equipment, including two operating chairs, latest model; cabinets, electric sterilizer, electric engine, laboratory fixtures, dental supplies, etc. For terms etc., apply to
Dr. T. E. E. Robins,

Every baby can and should be made perfectly clean once a day. By perfect clean is meant not only the hands and body generally, but also eyes, nose, mouth, ears and nails. The child's health now, as well as in after life, demands this and the baby should always start the day clean. The dirt that he will naturally acquire during the day is easily distinguished from that which has been allowed to remain upon him from one day to another. How often in a street car one's attention is engaged by a child apparently well cared for, with due time, so that the pores of the skin have a chance to do their proper work. Every grain of real dirt contains hundreds of disease germs which fasten themselves upon a child, and if allowed to remain for any length of time are apt to be absorbed through the delicate skin or drawn into the lungs. These are the cause of the terrible death toll paid every year by ignorant and careless parents.
