Irregular Trend On N. Y. Stock Montreal Stock Exchange

(C. P. By Guardian's Special Wire) MONTREAL, Nov. 19.—Although power issues exhibited strength, securities on the Montreal Stock Exchange were in a hesitant mood today with final prices irregular.

Sales volume, however, continued comparatively heavy with approximately 17,200 shares changing hands.

With the exception of the utilities and a few of the industrial stocks, prices rose-sawed throughout the session with gains and losses fairly evenly divided.

At the close, however, losses held a numerical advantage and the average for 30 stocks lost 0.2 at 56.7.

Receiving support right from the opening, Montreal Power rose four points to a new high.

Steels were on the downside with Dominion Bridge, Steel of Canada and General Steel Ware off fractions.

Coal "B" was slightly higher. Sales totaled 150 shares with \$25,000 of bonds changing hands.

and then quickly rose to 28 3/4, its high for the day. Power which had been under continued pressure last week finished at 28 1/2 with a rise of a point. In sympathy Quebec Power rose from 15 to 16 1/2. Shawinigan Power recovered from a new low at 15 1/4 to close unchanged at 16. B. C. Power "B", however, dipped to a new minimum at 4 1/8, down 3/8. Power debentures and Southern Canada Power were unchanged. On the curb Canada Northern Power Preferred rose four points to a new high.

Steeles were on the downside with Dominion Bridge, Steel of Canada and General Steel Ware off fractions. Dominion Steel and Coal "B" was slightly higher.

Stocks Assume Hesitant Course On N.Y. Exchange

(By Frederick Gardner, Associated Press Financial Writer) NEW YORK, Nov. 19.—Movements in stocks continued to show contrasts today, prolonging the hesitant course set last week.

For the third straight session, utility shares on the average sagged to new low levels for the year.

Several issues last week through-out the session with gains and losses fairly evenly divided. At the close, however, losses held a numerical advantage and the average for 30 stocks lost 0.2 at 56.7.

Receiving support right from the opening, Montreal Power rose four points to a new high.

Steels were on the downside with Dominion Bridge, Steel of Canada and General Steel Ware off fractions.

Coal "B" was slightly higher. Sales totaled 150 shares with \$25,000 of bonds changing hands.

European gold currencies expressed the relief of the foreign exchange market at the passing of the latest political crisis in some of the gold bloc countries.

Share buyers were discriminating. Demand for the steels picked up coincident with the American Iron & Steel Institute's estimate operations of the industry had increased to 27.6 per cent of capacity.

By 2:15 a weak and hesitating slow upward movement of recent weeks.

National Steel, favored in connection with impending production of new automobile models, spurred 2 points. Bethlehem Steel Preferred and Republic Steel Preferred were up about 2 points each.

The opening was followed by a brisk buying wave throughout the industrial list but it died down before the end of the first hour.

The rest of the session the market drifted in an uncertain manner.

The support accorded American Telephone, following its break of more than 10 points on the federal move for an inquiry into the company's affairs, was ascribed by brokers to the week-end statement by Walter S. Gifford, president.

Most of the important stocks sold at the lowest prices recorded this year or longer. Public Service of New Jersey touched 26 and finished off 1 5/8. Consolidated Gas fell in a similar manner.

Among isolated issues, finishing 1 to 2 points higher were Allied Chemical, Radio Preferred B, Baldwin Locomotive Preferred, Brooklyn-Manhattan-Transit, Bullard, General Refractories, Hercules Powder, International Business Machines, Reynolds Spring and Union Pacific.

Du Pont responded with a minor gain to announcement of an extra dividend of 15 cents a share on the common. Farm equipments did well, better, both Deere and International Harvester rallying for net gains of more than a point.

But speculative action was conducted cautiously as traders waited for the power stocks to find firm ground and for the market to resume its recently interrupted upward trend.

Elsewhere along the financial front a disposition to mark time also was in evidence. Bonds continued to plod along narrow pathways, with an advance in U. S. government issues tapering off.

Corn was a leader in commodities, closing 5-8 to 1 1/8 cents a bushel higher. Most staples were content with routine action. Wheat was little changed. Cotton futures in New York finished unchanged to 5 cents a bale lower.

MINING

(Canadian Press) TORONTO, Nov. 19.—Persistent selling of the mining stocks on the Toronto Exchange worked into quite an unloading here today on the Toronto Exchange, attended by sharp prices.

Gold and silver, however, were held better than other groups, the latter being the biggest losers of the day, selling down 3 1/2 to 4 1/2 cents.

Both closing 31 to 35 cents down. Sentiment had been severely shaken by succeeding shocks brought on by the Thompson-Cadillac back-fall, and many holders were in a selling frame of mind.

The opening today. Short selling was heavy, and many holders were in a selling frame of mind.

The list stood up very well, except for Eldorado and Little Long Lac for a while but by early afternoon weakness was general. Little Long Lac broke 1 1/2 to 1 1/4, recovered to 1 1/2 and then gradually sold off to close at 1 1/4 for a net loss of 50 cents.

Other shares of the development group, such as the opening today. Short selling was heavy, and many holders were in a selling frame of mind.
