POLITICAL BRIBERY AND CORRUPTION

ITS CAUSES, FRUITS, AND REMEDY.

The above was the subject of an address delivered by John A. Dewar in the New Perth Hall, a few evenings ago, under the auspices of the Mutual Improvement Society of that place.

The chair was acceptably filled by R. G. McLaren. In opening his address the lecturer remarked, that political corruption is an evil that threatens our national existence, as it struck at the very foundations of free institutions. The hidden source of the evil was no doubt to be found in the selfishness of human nature itself, and its methods ranged all the way from the survoing party on a projected air line, to the bogus ballot box, and from the familiar list of election frauds to the promises of public works, which, on the eve of an election were dangled before the eyes of the electors.

Likewise the choice of a candidate was frequently made, not on account of any ability or natural fitness on his part, but as commonly expressed, from his willingness "to put up the stuff", and which the aforesaid candidate generally regarded as bread cast upon the waters, to be returned to him after many days in the shape of some fat position.

The result of this system must be national weakness and decay, and just as righteousness exalted a nation so the opposite course if pursued, must debase and destroy it. No more striking illustration of this truth could be found than in the history of the Roman Empire, where the introduction of corrupt practices into her public affairs, proved to be the slow and secret poison by which she eventually fell, and through which, from being the arbiter

of the world's destinies, she became the prey of internal discord and the spoil of the Goths and Vandals. Another illustration was now to be seen in the far east, where Russia, weakened by official corruption, had proved to be no match for Japan, whose affairs were directed by patriotism, public spirit, and purity of administration. Of our own country it might be said, that while great in extent and natural resources, and while the foundations of material prosperity had been securely laid, yet to believe we could attain to lasting greatness without political virtue was to discredit the wisdom of the ages. Our foes were not those from without, but from within, and came in the persons of those guilty of offences against the sanctity of the ballot box and the electoral franchise.

In our provincial affairs also, improvement in this respect was very desirable, otherwise responsible government could become a farce. But with courage and patriotism the cause of purity would be nobly redeemed.

Mr Dewar, throughout the whole of his admirable address, was attentively followed by a highly appreciative audience.

EDITOR'S MAIL
LOT 48 POST OFFICE

Sir:—I notice that a writer in The Guardian of the 19th complains of the changing of the name of the District extending from Cross Roads, Lot 48, to Seymour Farquharson's. It is not clear to common people, how a name can be changed, which has no existence, or if that were possible, how such a result, as the cutting off twelve rate-payers should follow. The facts are, that a daily mail to accommodate the District from Cross Roads to Hazelbrook, a distance of about three miles, was applied for, and it became necessary to name the Office. With reference to a distributing Office near the Consolidated School, to take the place of a number of other offices, we are pleased with the new School, and have hopes of good results from it. But we did not expect that it would provide a genius in advance, able to consolidate so many Post Offices. While we want, and should have a daily mail, we have no desire to encroach on the rights of others.

RATES OF FREIGHT CARRIAGE.

Sir:—I note your remarks in reference to the low rates charged on goods from Charlottetown over winter Steamers en route to Quebec.

The answer is easy to give. The I. C. R. consented to accept rates low enough via Charlottetown by winter steamers to enable shippers to ship from Charlottetown in winter at a low rate as it would cost them in summer and in some cases below.

These I. C. R. figures do not apply from Charlottetown direct and the summer special rates cannot be used until authority to do so is received from I. C. R.

THE MARKETS.

The market was small yesterday both in attendance and quantity of supplies. Eggs sold from 14 to 16c per doz. Butter was scarce and brought from 25 to 28c per lb. When You Get Bilious

YOU MAY BE CERTAIN THE LIVER IS DERANGED AND THAT THERE IS CURE

IN DR. CHASE'S KIDNEY-LIVER PILLS.

"Bilious" is the word used by many people to describe the condition of ill-health into which they are thrown by derangement of the liver.

Biliousness is caused by the failure of the liver to filter the bile and other poisonous impurities from the blood. The result is a clogging and poisoning of the whole system.

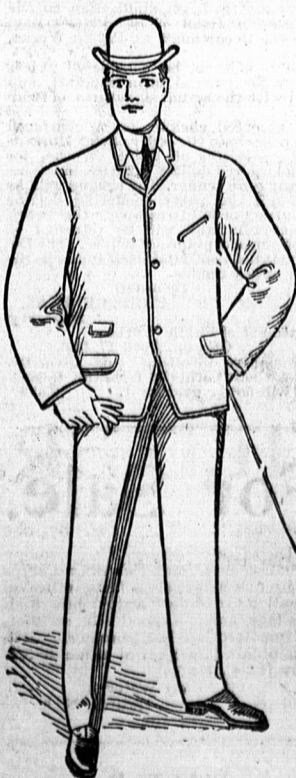

Indigestion, headache, languid, melancholy feelings, irritability of temper, constipation, alternating with looseness of the bowels, pains in the muscles and bones and a pale, sallow complexion are among the symptoms.

Fortunately there is prompt and certain cure for biliousness and torpid liver in Dr. Chase's Kidney-Liver Pills.

They cure by thoroughly cleansing the filtering and excretory systems and awakening the action of the liver to renewed energy and activity.

When you feel out of sorts and notice any of the symptoms of torpid liver and biliousness put Dr. Chase's Kidney-Liver Pills to the test, and you will then understand why this great medicine is considered indispensable in the great majority of homes.

Dr Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto. Port-rant and signature of Dr. A. W. Chases, the famous receipt book author, on every box.
