**ITCHY PIMPLES ALL OVER FACE**

Bothered Over A Year. Cuticura Healed.

"I was bothered with pimples for over a year. They were hard and small and scaled over and were scattered all over my face. The pimples itched causing me to scratch and my face was disfigured. I tried other remedies but without success. I sent for a free sample of Cuticura Soap and Ointment and after using it I got relief. I purchased more and in about two months I was completely healed." (Signed) Miss Kathleen Menzies, Northumberland St., Whitney, N. B., January 2, 1925.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum.

Sample Each Free by Mail. Address: Canadian Dispensary, Ltd., Montreal, P. Q. Cuticura Soap and Ointment, 25¢ each. Cuticura Shaving Stick 25¢.

**Only Four Nobel Prize Winners Living**

STOCKHOLM, Dec. 23.—The twenty-fifth anniversary of the Nobel Peace Prize finds only four men living who have won that reward for promoting the fraternity of nations.

Since the prize was created by the will of Alfred Nobel, inventor of dynamite and other explosives, twenty-two men have received it. Edwin Root, American statesman and former United States senator, who was given the 1912 prize for his activity in the pacification of the Philippines, Cuba and the United States; and the American-Japanese dispute ranks as the senior among the survivors. The others are Senator Henri La Fontaine of Belgium, and Christian Louis Lange and Fridtjof Nansen, Norwegians.

**Belgian in Peace Bodes**

The Belgian senator and the Norwegians were given the prize in recognition of their interest in peace societies, one of the purposes of the award being the promotion of peace congresses.

Lange was a member of the permanent International Peace Bureau at Bern when he received the prize in 1913. Lange has been general secretary of the International Union at Geneva since 1909. The latest exploration of the natural sciences at the University of Oslo, and one of the founders of the League of Nations. Lange received the prize in 1921 and Nansen in 1922. There has been no award of the peace prize since.

**Taxation Cuts Prize**

The other winners of the peace prize were H. Durant of Switzerland and Fr. Passy of France in 1901; E. Ducommun and A. Gobat, Switzerland, 1902; Sir W. R. Rieu-Clarke, 1904; Baroness von Sotomayor, England, 1905; Theodore Roosevelt, 1906; E. T. Moneta, Italy, and L. Kennatt, France, 1907; K. P. Arnoldson, Sweden, and F. Bajer, Denmark, 1908; A. M. F. Bernheim, Belgium, and Baron de Constant, 1909; T. M. C. Asser, Denmark, and A. H. Fried, Austria, 1911; Woodrow Wilson, 1918; L. Bourgeois, France, 1920; K. H. Branting, Sweden, 1921.

The prize was given to the Institute of International Law in 1904, the International League of Nations in 1919 and the International Red Cross in 1917. No awards were made in other years.

When first distributed in 1901, the value of the prize was \$40,000 but it has decreased under taxation. The lowest value was 1923 when it was \$35,641. For this year it is \$31,356.

A bill passed by the Swedish parliament removes the taxation after this year.

**SHE PAINTS PRIZE-FIGHTERS**

NEW YORK, Dec. 24.—Lillian Dwight, formerly of San Francisco, is attracting attention in New York with paintings of prize-fighters, and one huge canvas "Seconds Out," depicting a heavyweight in his corner, is being credited with saving all the drama, in respect, that George Bellows, the etcher of prize-fighters, achieved by more theatrical sketches of fighters in action.

**Prominent Citizen Killed in Auto Collision**

The following accident will be of interest here as Mr. Bannatyne's daughter resides in this Province. The level crossing on the Gullane branch of the L. N. E. Railway line, which connects Sallowcoats Farm with the "Smithy" Road at Gullane was the scene of a terrible tragedy when a passenger train ran full tilt into a motor coupe driven by Mr. Wm. Bannatyne, veterinary surgeon, Haddington.

Mr. Bannatyne was so badly injured about the head that he died a few minutes afterwards. The coupe was completely wrecked.

The farm of Sallowcoats has been occupied by Mr. John Clark for many years, and he succeeded his father, but Mr. Clark desired to cross the border into England, with the result that there was a dispensing sale at the farm.

Amongst those who attended the sale was Mr. Wm. Bannatyne, Haddington, one of the best-known veterinary surgeons in the district. Near the end of the sale Mr. Bannatyne had bidden goodbye to his friends and was proceeding home in his coupe when the accident happened.

The auctioneer was busy selling

# PARIS 5% BONDS

## (LOAN OF 1919)

**WE RECOMMEND** City of Paris 5% Bonds of 1919. We advise the immediate purchase of these securities which may now be bought at a fraction of their normal exchange value.

These bonds are payable in French money (francs), just as Canadian municipal and American municipal bonds are payable in Canadian money (dollars) and American money (dollars).

French money (francs) because of the conditions arising out of the great war, is cheap in terms of Canadian or American money. Hence these City of Paris bonds are also cheap in terms of dollars.

Before the war French Government or Municipal Bonds were quoted at par. The present investor paid 10,000 francs for a 10,000-franc bond.

Before the war French money or French francs were worth their full gold value. The par value of the French franc is 19.3 cents in terms of Canadian or American money. Consequently before the war 10,000 French francs were worth \$1,930.00 in a dollar currency.

Today the French franc is considerably below par. It is worth around 4 cents in terms of Canadian money. Consequently 10,000 French francs are worth around \$400.00 in a dollar currency today. A few months ago the franc was worth only 1.93 cents; then 10,000 francs were worth only \$193.00. But the franc is recovering rapidly. Its value is increasing; it is becoming dearer in terms of a dollar currency.

The total amount of the City of Paris 5% loan of 1919, the bonds of which we recommend to investors, was issued in denominations of 500 francs. In other words all the bonds that make up the Loan are 500-franc bonds.

City of Paris bonds are not quoted at par at the present time. Therefore to buy 10,000 francs (i.e. twenty 500-franc bonds) in the 5% Loan of 1919 the investor does not have to pay the exchange value of 10,000 francs French money.

In the same manner as Canadian and American Government securities were a few years ago quoted below par, these Paris bonds are now selling below par in Paris. Not long ago a Canadian Government Victory bond was quoted at 92%. In other words a \$1000-bond could be bought for \$920.00.

Paris bonds are selling around 70% of their par value. A 500-franc bond costs about 350 francs. Twenty 500-franc bonds or a unit of 10,000 francs, therefore costs 7,000 francs.

At the present time we are selling City of Paris 5% Bonds of 1919 at the rate of \$14.00 per 500 franc bond. The price of twenty 500-franc bonds is therefore \$280.00.

These bonds are expected to go to par in terms of francs before very long owing to the increasing demand. In that event twenty 500-franc bonds will have the same value as 10,000 francs French money.

The franc should sell at 5 cents within the near future. The value of 10,000 francs French money will then be \$500.00. Every investment of \$280.00 in Paris bonds made today will show a net profit of \$220.00.

From 5 cents per franc to 10 cents per franc will be a natural step. The value of 10,000 francs will then be \$1,000.00. Twenty 500-franc City of Paris bonds may be bought for \$280.00. Every investment made today will show a net profit of \$720.00 when the franc is at 10 cents.

At 15 cents per franc the value of a 500-franc Paris bond quoted at par will be \$75.00. Twenty 500-franc bonds will be worth \$1,500.00. Today twenty 500-franc bonds can be bought for \$280.00 and this investment will therefore show a net profit of \$1,220.00 when the franc is worth 15 cents.

When the franc is again at par it will be worth 19.3 cents, consequently every 500-franc Paris bond quoted at par (500 francs per 500-franc bond) will be worth \$96.50. Every investment made at the present price will have increased in value by \$82.50.

City of Paris 5% bonds are gilt-edge municipal securities, legal investments for trust funds and savings banks in France just as City of Toronto and City of Montreal bonds in Canada, and City of New York and City of Chicago bonds in the United States, are legal investments for trust funds and savings banks.

Listed on the principal stock exchanges in France and traded in throughout the financial centres of the world, City of Paris bonds always find a ready market. They can be sold again instantly for spot cash at any time through our house.

We recommend City of Paris 5% bonds not only for the opportunities for profits which they present, but also because of the attractive interest income they return. This interest is paid by means of coupons which can be cashed at any bank in the world at the prevailing rate of exchange.

Every twenty 500-franc bonds (10,000 francs) of the City of Paris 5% Loan return an interest income of 500 francs per annum. This interest is paid semi-annually, 250 francs on February 1st and 250 francs on August 1st.

As the value of the franc rises these interest coupons also increase in value, thus giving investors a larger yield on the original investment.

The interest coupons can be converted into American or Canadian money at any bank in North America. We cash interest coupons for clients without charge.

Another exceptionally attractive feature of these bonds is the provision for the payment of interest on the drawings which take place six times a year until the loan has been completely redeemed (1980).

Those who have their bonds redeemed with any of the major bonuses will find themselves made comparatively wealthy through their investment of a few dollars today. These bonuses are fully described elsewhere.

That the French franc will return to its old gold value of 19.3 cents or \$1,930.00 per 10,000 francs is the contention of many of France's most prominent statesmen and financiers. An ex-premier has said "The franc will improve slowly but surely like the wine of our country."

**Completely Wrecked**

It was then found that the car had been completely wrecked, the body being smashed, and the wheels torn off, while Mr. Bannatyne was crushed between the connection during the last thirty rods of the steering wheel and his hands or so. Deceased is survived by his wife, one son, and one daughter.

Small parts of the wreckage were found along the line from the point of impact, several of the railway sleepers were damaged, and the metal between the sleepers was dug up for a considerable distance.

The crossing is protected by gates which open from the railway with out fatal result, took place about six months ago. On that occasion a motor lorry was crossing the line when a train ran into it. The force of the concussion threw him out of the "cab," and although the lorry was dragged several yards and wrecked, the driver escaped with a slight facial injury.

**Popular Figure**

Notwithstanding the fact that he has passed the "alleged" span of a decade and ten years, Br. Ban was sometimes seven inches in

# An Investment With Fortune-Making Possibilities

France is now pursuing a policy of deflation which can have only one result: a rising exchange rate.

The recuperative powers of the French people were well established after the Franco-Prussian war. Although burdened with huge indemnities France quickly put her financial house in order and paid off all her obligations.

French Government bonds which had depreciated to 7% of their normal value during the period of depression, rapidly recovered their losses and soared above par. They will do the same again.

The record of the exchanges of other countries in recent years substantiates the belief that great nations always recover from the economic and financial depression caused by a war.

We were to consider the Canadian twenty-five cent piece as the country's monetary unit, as has been done with the English shilling in the above illustrations, then we may say that the value of 10,000 Canadian twenty-five cent pieces has increased by \$375.00 since the Armistice.

The Swiss franc, the English pound, the Swedish krona, the Dutch guilder and the Danish krone have risen to par. The Spanish peseta, the Japanese yen and the Norwegian krone are quoted so close to par as to make a purchase of them unattractive now.

It will be admitted that France's losses in the late war were greater than those of any of the countries mentioned above, consequently the recovery of her money is taking longer, but there can be no doubt that 10,000 French francs will again be worth \$1,930.00.

## 5,960,000 FRANCS EVERY YEAR IN BONUSES

One 500-franc Bond A Year is Redeemed At 1,000,000 Francs, (\$50,000.00 With The Franc at 5 cents, \$193,000.00 With The Franc At Par)

MANY OTHER BIG BONUSES ARE PAID

**TWICE A YEAR** a portion of the City of Paris 5% Loan of 1919 is drawn for redemption at par, i.e. 500 francs per 500-franc bond.

Six times a year (February 22, April 22, June 22, August 22, October 22, December 22) a portion of this Loan is drawn for redemption with bonuses.

The table illustrates the bonuses paid every year. The figures at the left indicate the amount of 500-franc bonds and those at the right the number of francs which will be paid on each.

1 Bond will be redeemed at	1,000,000 francs.
5 Bonds will be redeemed at	200,000 francs each.
6 Bonds will be redeemed at	100,000 francs each.
9 Bonds will be redeemed at	50,000 francs each.
24 Bonds will be redeemed at	10,000 francs each.
36 Bonds will be redeemed at	5,000 francs each.
2,490 Bonds will be redeemed at	1,000 francs each.

Every bond is numbered, and after each drawing takes place a list of bonds drawn to receive bonuses is published. We keep a record of all bonds sold by us, and in the event of a client's bond being drawn, he is immediately advised.

The fortune-making possibilities in Paris Bonds, because of their bonus feature require little comment. With the franc at only 5 cents the value of the 1,000,000-franc bonus would be \$50,000.00. Yet a 500-franc bond which could receive this bonus can be purchased today for \$14.00.

During recent months the French Government has instituted drastic deflationary measures. The floating debt is being consolidated. Notes in circulation are being consistently reduced. The State is making heavy repayments to the Bank of France.

The natural result of these measures has been, and will continue to be, a rising rate of exchange for the French franc.

It is, therefore, a question of time only before every 500-franc City of Paris bond will again be worth \$96.50, or every twenty 500-franc bonds \$1,930.00.

We recommend City of Paris 5% bonds while they are a genuine investment bargain. The table below shows the present prices and future values of various units of Paris bonds. These prices include every expense.

Now, while they are still comparatively low, is the time to buy these excellent securities. Use the order form provided. Sale will be confirmed upon receipt of order with remittance to cover amount of purchase. Bonds are forwarded by registered and insured mail.

The present prices are subject to immediate acceptance. Invest in Paris bonds before they are out of reach. We will advise you when you can sell and take your profits.

Since the Armistice the following recoveries in the value of various exchanges have taken place:

The value of 10,000 Spanish pesetas has increased by \$400.00.

The value of 10,000 Swiss francs has increased by \$430.00.

The value of 10,000 English shillings has increased by \$760.00.

The value of 10,000 Swedish krona has increased by \$915.00.

The value of 10,000 Dutch guilders has increased by \$1,020.00.

The value of 10,000 Japanese yen has increased by \$1,150.00.

The value of 10,000 Argentine pesos has increased by \$1,250.00.

The value of 10,000 Danish krona has increased by \$1,300.00.

The value of 10,000 Norwegian krona has increased by \$1,405.00.

Even Canadian dollars suffered a fairly severe depression after the war. If, for the purpose of illustration,

## CITY OF PARIS 5% BONDS OF 1919

PRESENT PRICES AND PROFIT POSSIBILITIES

AMOUNT OF BONDS	DENOMINATIONS	TOTAL FACE VALUE	PRESENT COST OF BONDS	VALUE OF BONDS (QUOTED AT PAR) with French franc advancing to 19.3 CENTS PAR. 19.3 CTS.

**A ROYAL PHOTOGRAPHER**

LONDON, Dec. 24.—The Duchess of York has taken up photography, and under the instruction of a professional camera man, has turned out some very presentable photographs of her baby daughter, the tiny Princess Elizabeth.

**MUTILATE FACES FOR BEAUTY**

DAKAR, Senegal, Dec. 24.—Women's faces are mutilated into ugliness in Africa, as a sort of theft insurance.

E. Captain, just back from a trip in the Congo, is making a report of the French Academy of Medicine on the mutilation customs in the Sara-Djinge country. He is provided with pictures showing the lips of girls and distorted through the years until old age. The wood-carved masks worn in these countries are sometimes seven inches in diameter.

He says the practise originated in an effort to make the women unattractive so they would not be carried off by slaves.
