MAN'S MOST CRITICAL AGE. Very often the vital resources are small at forty-two, but if not then, between fifty-seven and sixty-two years of age there is a strange slowing down and loss of vitality. It is important that this transient period of decay should be checked; strength must be imparted to the tired brain, the weakened nerves must be fortified. The wise man will use Ferrigno whose potency is particularly applicable to these critical periods. Ferrigno quickens the whole being, imparts vigor and power, pushes back the onset of senility in a very manifest way. It's because Ferrigno gives strength, vitality and vigor that it is useful to old men, try it. Price 50c.

ITALIANS STRUCK ON INTERCOLONIAL. ST. JOHN, August 13.—Eight hundred Italians struck on the Intercolonial Railway forty miles from Campbellton yesterday.
