CHARLOTTETOWN

**JILTED LIEUTENANT
SAILS WITH PARENTS**

NEW YORK, May 25.—Instead of sailing, as he had expected, on the White Star Liner Olympic, with a bride, Lieutenant Frederick Wiseman Clarke, R.N., returned yesterday to England on the Royal Mail Steam Packet Orinda, with his parents, because Miss Nancy McMichael Hoyt, of Washington, had jilted him at the eleventh hour. The young naval officer showed his moral courage when he was questioned on deck

about the calling off of the wedding by the bride-elect, but he showed that the affair affected him deeply. He said that "I don't think we will ever be married," the Lieutenant replied, "are you going home broken-hearted?"

"Broken-hearted? Well, it's been a long time since I've wanted to say anything about the controversy between our parents. I want to deny also that my folks and I were ignorant of the matrimonial affairs of Miss Hoyt's sister. We always knew about that."

"Was the ring returned?"

"It's a damn rotten show all around," Lieutenant Clarke replied angrily. "It was a complete surprise to me," he continued. "The wedding was to have taken place on May 16 in Washington at 3 p. m. We saw each other on the

15th and had luncheon together, but the wedding was indefinitely postponed at 6.30 that night."

When asked if he would be willing to see Miss Hoyt again, the Lieutenant smiled and replied: "It's useless. You see she is ill. I would do anything for her. I was booked to sail on the Olympic on my honeymoon and I changed to this ship because my parents are crossing on her. I still love Miss Hoyt and would be a great anything rather than this should have occurred."

"Mr. Malcolm Bruce formerly of Cardigan but for a number of years residing in Regina, Sask., at present editor of 'The Worker' in Toronto visited his cousin Mrs. Hugh McLennan of Dorchester, Mass and Miss Mary G. McLean of Salem, Mass. He was also entertained at the home of Rev. H. Lincoln McKenzie and his mother, where quite a number of old Cardigan friends were glad to see him.

—BORDEN HALL, ST. PAUL'S Dramatic Club of Summerside will present their 4 act drama "Bird Island" in Borden Hall on Thursday, May 24th, 1923. Excellent specialties between acts. Sale of candy. Admission 50 and 25c. 1167841-22-31

—PLEASANT AFFAIR.—A very enjoyable social was held by the senior members of the Summerside W.M.C.A. on Monday night, when about forty members met in social conference and amusements, under the direction of Secretary H. H. Simpson.

—SERIOUS CHARGE.—Two young men, residents of Summerside, who were arrested on Monday charged with tampering with the gasoline supply tanks at the west end of the town, were given a preliminary hearing on Tuesday and remanded for trial on Friday next.

—FISHING.—The lobster fishing on the north shore which started out with very moderate catches at the first of the season has improved considerably these last few days and on Monday large catches were pretty general. In Richmond Bay one boat Mr. William Gamble and son landed 1800 lbs., which is the best catch of the season up to now, so far as we have heard. Sufficient herring are also now being caught to keep all the traps supplied.

—HOLIDAY ENJOYED.—Empire Day was well honored in Summerside by the citizens taking full advantage of the day. Liberty and pursuit of happiness was observed. Many went fishing, a lot of new motor cars put in their first appearance on the streets and many renovated "buses" appeared in their new spring attire. A lot of amateur gardeners took advantage of the holiday to overhaul their gardens, the livery stables did a good business and in the evening the players from Mount Allison staged a most enjoyable rendition of "Daddy long legs" in the Capitol Theatre, which was followed by a special dance at the Olympia cabaret, attended by the popular Britannia Orchestra.

—NEW PATENT.—Mr. Samuel Cameron of Summerside has recently patented a loose coupling device that is both novel and very serviceable and since it permits the greatest speed a standard appliance. The coupling which Mr. Cameron designed and had manufactured, has eccentric lock device which gives a firm hold on slides and permits instant coupling and uncoupling without the use of wrenches since the screw thread as in other couplings are unnecessary. Couplings were designed and serviceably made. It was recently tested by the Summerside Fire Department and was found to be thoroughly workable and a great time and labor saver.

—CARNIVAL WEEK.—Detailed arrangements for the Summerside Carnival week are well in hand and the various committees have their programs almost complete. On last Friday evening the Finance Committee met in the Y. M. C. A. office to receive reports and make necessary arrangements for covering the cost of the carnival. Mr. L. R. Allan was appointed chairman and called upon Harold Simpson, Sandy McGregor and D. J. Bonnell, who reported for the athletic program and public relations respectively, fully giving careful estimates of the funds that would be required for the raising of the money and teams appointed to cover the different sections of the town.

—BEDEQUE METHODIST CIRCUIT.—P. A. Fitzpatrick, Minister, Sunday, May 27, Empire Sunday, True Patriotism, Bedeque 11 a.m. Searletown, 2 p. m. and Cape Traverse, 7 p. m. Official Board on June 1st at 2 p. m. Reception of new members at Searletown on Sunday evening, June 3.

—PLAY ENJOYED.—St. Pauls Dramatic Club of Summerside, went to Borden on the 24th and presented the three act comedy "Bird Island" to a full house, the Club made a decided success of the play which will likely be reproduced at other places in the near future.

—IN SWIMMING.—Several young chaps, hardy water sports, officially opened the swimming season on Tuesday last when they took a carefully planned and premeditated "Queen's" wariat. This is several days ahead of the usual start for outdoor swimming in Summerside and is a fair augury of the brand of weather enjoyed in the western capital.

—AN INCIDENT.—"Alas, poor Yorick I knew 'em well," muttered a motor car driver as he carefully steered clear of a pig's head that for several hours was lying in the middle of Water Street, Summerside, on Tuesday afternoon. A passing politician said that there was ocular proof that the Liberal Pork Barrel had been filled to overflowing, so far as the town was concerned, but to all these remarks, the porcine head turned a cold and dead eye and continued to hog the middle of the road.

—PERSONALS
—Mr. and Mrs. John Rattenbury city, spent the 24th at York.
—Mr. E. H. Rayner has returned to Summerside from an extended visit to New York, Boston and other American cities.
—Mr. and Mrs. W. E. Daley, accompanied by Mrs. Daniel Steele and family, left on Tuesday morning for Newport, Vt., where they will join Mr. Steele who is in charge of a raving stable there.
—Mr. Gordon Muirhead, North Tryon has taken a position in the Grocery Department of the store of Messrs B. T. Holman, Ltd. H. H. Gorman.
—Mr. Roland Rockwell, formerly with the Canadian Bank of Commerce of St. John has been transferred to Summerside branch.
—Mr. Herbert Murphy, East Baltic, spent the week end at Kensington with his cousin, Miss Lottie Dunphy en route to the U. S. A.
—Mr. William Shea, East Baltic, returned to his home on Monday, after spending the week end in Kensington with his cousin, Lennox Gorman.
—Miss Edith M. Doyle, Summerside, returned on Thursday after a short visit to Charlottetown.
—Mr. Ralph Silliphant, son of Levi Silliphant, Summerside, and a student at Mount Allison University, returned on Thursday to spend the holiday with his parents.

—MEMORIAL SERVICE at Sackville
SACKVILLE, N. B., May 25.—A very impressive service and unveiling of handsome bronze tablet in honor of the seventy Mount Allison men who lost their lives in the Great War was held at 10 o'clock this morning, in Fawcett Memorial Hall. The service opened with Mendelssohn's Processional March of the Conservatory students, followed by Te Deum effectively rendered by the choral class.
Rev. Dr. Bell, Kingston, Ont., led in prayer, after which Rev. Dr. Borden, President of Mt. Allison University, delivered an impressive address. One is constrained to ask at a time like this said the speaker, why it is that after all the sickening and revolting horrors of the Great War, the nations should not recoil from such savagery and devote themselves to the arts of peace. Why world still clings to the sword, asked the speaker. As it is our evolutionists would have us believe it a survival of savagery that race has inherited from its progenitors who, red in tooth and claw, for each other in their slime. We can hardly believe that it is God's plan that men should deal death to each other instead of deeds of kindness. The speaker referred to the generous response of college men when the call came in 1914, something over five hundred Mt. Allison boys went overseas. If there were even circumstances under which death was made less terrible it was in case of those who gave their lives in interest of right.
A vocal solo, Christ in Flanders was effectively rendered by F.M. Meek.
Senator F. B. Black spoke briefly, referring to the sacrifice of the great war. He said they had gone to a greater reward than the wearing of a college gown. He was a lover of peace and all it means to the world, but there seemed to be something in human nature which makes lasting peace impossible under present conditions. He had great pleasure in introducing Major Graham, who had served with distinction in hospital and on the field during the war.
Rev. E. E. Graham, M. A., D. S. O., M. C. pastor of Brunswick Street Methodist Church, Halifax, gave a very impressive address. He said he was speaking as a sol-

—FOX RANCHING Pays
Fox ranching is today paying handsome returns, provided average intelligence is displayed in securing prolific stock, and in ranching same to the best advantage from a view point of feeding, breeding and sanitation.
More attention should be paid to ranch building, particularly the breeding pens and runways which should in all cases be covered, then if severe winter storms come the foxes cannot climb over the top and escape.
Too much emphasis cannot be placed on the importance of buying only the BEST IN FOX WIRE NETTING. Cold, heat, rain and winter storms are the destructive elements which must be combated—to do so, it is necessary to use "Brayco" Brand Fox Netting, a high grade wire specially made-to-order, extra heavily galvanized, which contains extra twists in the meshes and will not rust, made on special weaving looms, expressly for Canadian fox ranchers.
It will pay you to send your netting order in to us now. An advance in price will take place soon and all orders not in our hands before then will have to come under the higher prices. . . . so order today from our stock of assorted sizes. "Brayco" Fox Netting is sold exclusively by the

—POLAND TO HAVE DIRECT RADIO COMMUNICATION WITH AMERICA
WARSAW, May 25.—The building of a radio station in Warsaw, which will be one of the most powerful in the world, has been undertaken with a view to giving Poland the opportunity of direct communication with western countries without having to rely upon communication through other states.
The work of construction was commenced in February, 1922, and will be finished next July. The total cost of the station amounts to almost \$2,000,000. There is no wisdom like frankness.

—ELECTRICAL EXPERTS TO MEET IN NEW YORK
NEW YORK, May 22.—Farm electrification and the further electrification of American industries and commerce, as a means of offsetting farm labor shortage and the growing scarcity of labor resulting from prosperity coupled with restricted immigration, will be two of the many subjects coming before the forty-sixth convention of the National Electric Light Association in New York City June 1 to 8.
Progress in electrical science, research, invention and physical development also will be outlined in the reports to be presented and the discussions which will follow their presentation.
Electrical experts from all over the United States and its territorial possessions, from Canada and from foreign countries will participate in the program. Those present will include Thomas A. Edison, the father of the industry in this country and Dr. Steinmetz, the "Wizard of Schenectady."
