## Why Do Women worry? First Sign Of Falling Health

Worry is a disease—and it's more—it produces other diseases, because it breaks down the nerves and saps the vitality of the body. What a pity women don't realize that if they were well—if the blood was nutritious—if the nerves were strong—if all the organs were active—then the little things that irritate and prey on the minds wouldn't receive a moment's thought.

The woman who worries has a poor appetite—she sleeps poorly. It only lasts for a day or two if it might be of small consequence—but she grows limp, miserable, unhappy—worse day by day.

She needs Ferrozone which cures worry by curing the conditions that ender worry possible. For nervous weak women, no tonic is so good thousands it has cured just like Mrs. M. E. Etherington, of Troy, who writes: "I am quite willing to give a public testimonial for Ferrozone believing it to be a tonic of superior excellence and one that will rapidly build up strength and supply new energy to anyone not feeling well. Last spring I was in a very poor condition of health. I was nervous, felt tired, and completely worn out. No doubt it's quite common complaint with ladies of my age, but I placed great reliance in Ferrozone, and took it for several weeks. It made me quite strong and in fact I have been in better health ever since. I can heartily recommend Ferrozone."

Ferrozone cures by making good blood strong nerves and a healthy body. This is why it gives color clearness to the skin buoyance to the step, brightness to the eyes—because with good digestion and activity of the body in all its parts there's health. Price fifty cents per box at all dealers.

"Books are not absolutely dead things but do contain a progeny of life in them, to be as active as that soul whose progeny they are; nay, they do preserve as in a vial the purest efficacy and extinction of that living intellect that bred them."—Aeropagitica.

It is not the quantity of study that one gets through, or the amount of reading, that makes a wise man; but the appositeness of the study to the purpose for which it is pursued; the concentration of the mind for the time being on the subject under consideration; and the habitual discipline by which the whole system of mental application is regulated."—Smiles Self Help.

"The man who would get the richest culture from Books which he must read; among them, first and foremost, are the Bible, and the works of Homer, Dante, Shakespeare, and Goethe."—Books and culture. Mabie.
