Where Black Diamonds are Found.

The only place where "black diamonds" are found is in the Brazilian Province of Bahai. They are usually found in river beds and brought up by divers. Others are obtained by tunnelling mountains. The largest specimen ever found was worth \$20,000.

Blood Spilling Feared

St. John's, N. F., July 10.—The Belle Island strikers succeeded to-day in preventing a schooner from unloading or any other work being done at the mines. The managers of the mines have applied to the supreme court and the government for protection. The whole available police force of the colony will proceed to the scene at daylight to protect the working gangs. A bloody affray is feared, as this means the last scene of the strike drama.

Had Piles For 9 Years

Dominion Inspector of Steamboats Cured by Dr. Chase's Ointment.

False modesty and fear of the surgeon's knife prevent most people from appealing to their physicians for a cure for piles.

Many people suffer on year after year, robbed of their rest and sleep by the terrible itching, when they could be entirely cured by a single box of Dr. Chase's Ointment.

Mr. O. P. St. John, Dominion Inspector of steamboats, living at 246 Shaw street, Toronto, states:—"I suffered for nine years from itching piles, at times being unable to rest on account of the annoyance caused by them. After trying almost all remedies in vain I began the use of Dr. Chase's Ointment, which entirely cured me. I cannot speak too highly of it. I have recommended it to several friends, all of whom have been cured by its use."

Dr. Chase's Ointment is recognized by physicians, druggists, and the public in general as the only absolute cure for piles; 60 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto.
