Growers Advised Re Late Blight

The appearance of late blight in the Maritime Provinces is noted in a bulletin just issued by Messrs. F. M. Cannon, Dominion entomological laboratory, and L. C. Callbeck, Dominion laboratory of plant pathology, Charlottetown.

Infected fields have been found at Harrington and Highfield in Queens County, and at Richmond in Prince County. P. E. I. the bulletin states. In New Brunswick local outbreaks have occurred at Grand Falls and New Denmark in Victoria County, and at Bath and Hartland in Carleton County. The Hartland outbreak has been definitely traced to an infected field.

Present weather conditions are favourable for late blight development and spread and it is expected that more infected fields will be found within the next several days. Immediate applications of sprays or dusts are essential at this time.

Colorado potato beetle larvae are causing serious damage in many potato fields where sprays or dusts have not been applied. Aphid populations are building up from day to day. The second brood of cicadas will appear during the next few days. The bulletin stresses the importance of adding DDT to the sprays or dusts during the first week of August before the insect populations become too high.

MISS ARLE WOODSIDE

Many friends were indeed shocked to learn of the passing of Miss Arle Woodside on Friday, July 9. She was the daughter of William Woodside and the late Mrs. Woodside of Hamilton. Although Miss Woodside had been ailing for several years, her death came suddenly and was a shock to her many friends.

The funeral service was held on Sunday afternoon from Malpeque United Church and was largely attended. The service was conducted by Rev. Jas. Cross, assisted by Rev. E. J. Barras of Summerside in scripture and prayer. Rev. Mr. Cross gave a helpful and comforting message. The hymns sung were "The Sands of Time Are Sinking" and "Jesus, Savior, Pilot Me". Rev. Mr. Cross also sang with deep feeling "Sometime We'll Understand". At the close of the service the flower-laden casket was borne to the adjoining cemetery and laid to rest in the family plot. Her mother predeceased her several years ago.

There are left to mourn, her father and two sisters, Olga, Mrs. Ernest Calbeck, Linkletter, and Goldie, Mrs. William E. Donald, Hamilton, besides a large number of relatives and friends.

Sincere sympathy is extended to all in their bereavement.

The pall bearers were Roy Woodside, Lester Woodside, Lloyd Lockerby, William Ramsay, Wendall Crozier and James Ramsay.

ern diplomats Molotov was reported to have appeared in excellent health and to have told his visitors he had been away from Moscow on a vacation.

LONDON, Aug. 2.—(Monday) (AP)—A well-informed diplomatic source said Sunday night British-American and French diplomats in Moscow have asked for a meeting with Prime Minister Stalin in an effort to settle east-west differences in Germany and all Europe.

The informant could not say whether Stalin had agreed to such a meeting. He indicated that Stalin at least had not yet refused.

The Daily Mail said Molotov agreed to consider the request for a meeting with Stalin and that the three Western envoys will see Molotov again "within the next 24 hours."

"By then it will be known whether Marshal Stalin is to join in the discussions," the Mail said.

SEE SOUTH

for sterling may weaken, bringing the Dominion closer to the United States orbit. That may mean South Africa would sell more gold direct to the United States and so seek to readjust her now adverse trade balance.

The new situation in Africa caused by Malan's election victory over Field Marshal Smuts must be viewed against a background of Imperial conflicts and unrest.

A Communist-led guerrilla movement is seeking to oust British rule from the Malayan Federation and Singapore; troops and police have clashed with rioting strikers in Trinidad; the 6000 white settlers of Northern Rhodesia have protested a Colonial Office plan to give some political representation to the colony's 1,600,000 Africans.

The common factor in each situation is that the Empire's colored races no longer regard white rule as permanent or immovable. Prime Minister Malan's party won the election in South Africa primarily on its color policies. They rejected completely all ideas of racial equality and tolerance.

Britain's economic and military planners say this trend is a danger greater than the loss of African cooperation implied in the Malan Government's plans to keep non-Europeans "in their places."

By damaging black-white relationships in Africa, they say, Malan may be giving impetus to the great eastward turn the African people already are beginning to take in their first vague searches for political, economic and social betterment.

conform with the new Anglo-Canadian wheat agreement would have had to pay the difference.

Federal Controls

The farmers of Canada constitute the only group which during and since the war years voluntarily supported economic controls imposed by the Canadian Government, Mr. Hannam pointed out.

Arriving in Charlottetown by plane yesterday evening from Montreal, N.B. to fulfill two speaking engagements in the Province, Mr. Hannam said the farmer had voluntarily supported controls which had kept his own profits down. While he was supporting controls against his own interests, other groups, Mr. Hannam said, had been using all their power for their own economic benefit.

Many of the big corporations were making more money now than during the war years and none of them had shown any disposition to keep their charges for goods or services at a reasonable profit. Mr. Hannam cited the 21-per-cent freight rate increase recently granted the railways and the 17-cents-an-hour increase granted the railway brotherhoods as concrete examples.

He admitted the average Canadian farmer was better off now than he had been before the war but said that the farmer had suffered heavily during the depression of the 30's and that his prosperity of recent years had done little more than enable him to pay off the mortgage incurred during the less prosperous years. The prices of farm products had, of course, advanced considerably since 1940 but not in proportion to the prices the farmer had to pay for the goods he required. Had they done so, Mr. Hannam said, the Canadian consumer would not be paying 91 cents a pound for butter. Other farm products would be correspondingly higher.

Mr. Hannam will address a public meeting this evening in Prince of Wales College hall and another in O'Leary on Tuesday evening. He leaves Wednesday morning for Ottawa.

DEATH YESTERDAY

petiments in the Province.

Mr. Boulter's ability as an executive carried the Potato Growers' Association through several trying years, and under his direction it continued to grow until its name became a familiar word to buyers of seed potatoes throughout Canada, the United States and Cuba. His reputation as an authority on the growing and marketing of potatoes gained him national recognition when in 1946 he was elected President of the Canadian Horticultural Council, a position which he held for two successive terms.

Public confidence in Mr. Boulter's ability was reflected in his appointment in the spring of 1947, to the chairmanship of the Prince Edward Island Export Board. At that time, Great Britain, desperately short of food and with her own potato crop a failure, had sent a Food Mission to Canada for the purpose of securing several million bushels of high quality potatoes. When the contract was awarded and the responsibility of supplying the British people with three million bushels of potatoes was given to the farmers of Prince Edward Island, the Provincial Government lost no time in appointing Mr. Boulter to organize the shipments.

Again, when the case of Prince Edward Island as a farming Province was to be put before the nations of the world by the Canadian delegates at the Geneva Conference, it was Mr. Boulter who was largely responsible for the preparation of the Island's agricultural brief.

For many years he was secretary of the Provincial Exhibition Association and with Lieut.-Col. D. A. MacKinnon, D.S.O., was largely responsible for placing the Association on a sound financial basis.

He had many other interests of a community nature. He was a member of the City School Board; a director of the P. E. Island Hospital; an active Rotarian; and a deacon of the First Baptist Church, Charlottetown. In 1947 he was elected President of the Maritime Baptist Convention.

In recognition of his outstanding services to Canadian agriculture, Mr. Boulter was honoured by the King in the Honour Lists for Dominion Day, 1946, when he was made a Member of the Order of the British Empire.

The late Mr. Boulter is survived by his widow, in Charlottetown, and two children, Miss George M. Boulter, who is superintendent at the New England Baptist Hospital, Boston, Mass., and one son, Dr. Cedric G. Boulter, professor of classics at the University of Ohio, Cincinnati.

Liberal Delegates To Convention

A special car will be placed at the local railway station Monday night to permit members of the Island delegation to the National Liberal Convention at Ottawa to sleep overnight before they leave Tuesday morning.

The car will be attached to the regular morning train for the mainland and will connect with the Ocean Limited to reach Ottawa Wednesday.

The Island delegation will be headed by a group from the Provincial Legislature led by Premier J. Walter Jones.

Other members going will be Hon. P.A. Large, Hon. H.H. Cox, Hon. A.K. Matheson, Cleveland Baker of Kensington, Russell Clark of Mount Stewart, Thomas Cullen of Middelburg, and Gordon Holmes of Charlottetown.

Others leaving here for the convention will include: Queen's County—Herbert MacIvar of Stanley Bridge, George Kilton of New Wiltshire, Cecil Miller, Frenchfort; Stewart Ross, Flat River; Peter Holland, Charlottetown; Hon. Dr. Cyrus MacMillan, Charlottetown.

Prince County—Stewart Montgomery, Port Hill; James Marchbank, New Annan, and James McCordie, Kinkora.

King's County—Alexander MacGregor, Montague; Louis Poole, Montague; J.B.E. Reid, Rollo Bay.

Young Liberals — Robert Dawson, Crapaud; Donald A. MacDonald Glenfinnan; Harry Phillips, Charlottetown.

Women Liberals — Mrs. J.W. Naught, Summerside; Mrs. T.V. Grant, Montague; and Mrs. D.J. Riley, Charlottetown.

Members of Parliament and Senators — Hon. J.P. McIntyre, Savage Harbor; Hon. John E. Sinclair, Emerald; Hon. B.W. Robinson, Summerside; J. Watson MacNaught, Summerside; J. Lester Douglas, Charlottetown; Dr. T.V. Grant, Montague.

Gilbert Gaudet, barrister of this city and county magistrate for Queen's, will also attend in the place of P.R. McCormack, president of the Provincial Liberal Association, who is ill.

Another change saw Alexander MacGregor of Montague replacing William Hughes, M.L.A., former provincial treasurer, who is unable to make the trip due to ill health.

Local Sea Cadets At Nova Scotia Camp

Sea Cadets from R.C.S.C.C. Kent arrived late yesterday afternoon at Herman's Island in Mahone Bay, near Lunenburg, N.S., for their annual two weeks camping period.

Great stress will be laid this year on the sports program which together with naval drill and training will comprise the bulk of the activity at the camp. Water sports will include contests in boat racing and boat pulling.

Among the corps officers who expect to spend part of the training period at the camp are Lieut. J. Smallwood and Supply-Lieut. L. Grant. The camp officials hope that the ship assigned to the camp for training purposes will be H.M.C.S. New Liskeard, an Algerine class fleet minesweeper.

GOOD NEWS

(Continued from Page 1)

vance.

3. Effective Sunday, Aug. 1, a 45-cent-a-bushel subsidy will be paid to millers to cover the 45-cent increase which takes place Sunday in the price of wheat sold to Britain. This will ensure that domestic bread prices do not increase with the jump in the wheat price.

4. Effective, Tuesday, Aug. 3, all export controls will be lifted from sheep and lambs, including mutton and lamb carcasses and their various by-products, going to the United States market.

No Immediate Advance

The removal of the subsidy on fats and oils did not however indicate that the price rise would be immediate. Current supplies of fat products, such as soap and lard, already have received the subsidy.

But as new purchases of raw fats are made and processed, the subsidy will have to be taken up by someone along the line from manufacturer to consumer, to the extent of from \$18,000,000 to \$24,000,000 a year.

Conversely, as the tax already has been paid on goods now on store shelves, the consumer may not immediately feel the full benefit of the removal of the excise tax.

Competition, the state of supply and the attitude of purchasers themselves will be large determining factors in what happens to prices of the articles affected.

The excise tax repeal looms largest for the average Canadian's pocketbook.

Goods Affected

It means that electric refrigerators, vacuum cleaners, electrical appliances, outboard motors, motor-cycles, firearms and certain toilet articles, principally brushes, combs and mirrors, now will be entirely free from the 25-per-cent tax.

On motor cars, radios, phonographs, cameras, projectors and photographic films and supplies, the tax will be reduced by 15 per cent to the 10-per-cent rate which applied before it was boosted in the November austerity program.

The announcement, made by Finance Minister Abbott, confirmed a Canadian Press forecast June 21 that the government had decided to lift the taxes but had not decided on the timing.

The effect of the announcement is that the tax rates on the goods concerned return to where they were just prior to their imposition, the increasing effectiveness of direct measures of control over imports and the positive efforts to increase exports seem "sufficiently encouraging" to justify the removal of the taxes.

Another Reason

Observers said one of the reasons underlying the tax removal was that the levies had fallen in their prime objective—to reduce consumption of many of the goods which contain parts from the United States. However, in some cases, such as the radios, the tax stopped buying to the point where goods began to stockpile too heavily.

At the same time, it is true, as Mr. Abbott said Saturday that the Government always had made clear that the taxes were an "emergency measure" and would be lifted "as soon as possible."

Mr. Abbott dealt with the effect of the repeal of the tax on stocks now on hand in retailers' shops and said the Government could not make refunds on taxes already paid.

He said he already had received requests that when the taxes were removed there should be refunds of taxes already paid by dealers on goods they now were holding for sale.

The bread subsidy announcement came from Trade Minister Howe. He said the Government had decided to make the 45-cent payment on wheat used for human consumption in Canada. It will be paid by the Canadian Wheat Board to millers and other processors of wheat for human consumption.

It will apply as from today when the domestic price of wheat jumped from \$1.55 to \$2 a bushel in line with the increased rate under the Anglo-Canadian wheat agreement. The 1948-49 crop year starts today.

If the subsidy were not put into effect, millers would have to pay more for their wheat supplies and in turn would have to pass the increase on to the consumer in the form of higher retail bread prices.

Mr. Howe said the subsidy will continue "until further notice."

Soap Shortening Prices Up

The Prices Board, announcing the removal of the oils and fats subsidy, said the subsidy content in the retail price has been approximately one cent a bar on toilet soap, one to two cents a bar on laundry soap and three cents from a medium package of soap flakes or chips.

In the case of shortening, the subsidy content is about 12 cents a pound.

Abolition of the subsidy means

In Memoriam

In loving memory of our son Anthony, who departed this life August 1st, 1942.

Days of sadness still come o'er us Tears in silence often flow, Memory keeps you ever near us Though you died six years ago.

To think of the morning you left us Will always bring regret, But the hearts that always loved you Are the ones who can't forget.

God gave us strength to bear our grief, Courage to face the blow, But what it meant to lose you No one will ever know.
