AN OLD COMPLAINT.

Dr. Ferguson's letter, published elsewhere in today's Guardian re-echoes a complaint in the repeated consideration of which patience has almost ceased to be a virtue.

Lulled by the fact that a number of smaller improvements have been made in the method of travel by rail to this Province during the present year, we have closed our eyes and ears to the remaining disabilities and to the protests that from time to time are uttered by dejected arrivals on our shores. It is really deplorable that summer after summer these same old complaints about the crowding of passengers into stuffy cars between St. John and this Island have to be endured. It is disgraceful. It is a humiliating thing to have to reflect that our members of Parliament, our representative politicians, our Board of Trade, our Tourist Association, have been quietly ignored when from time to time they have brought this matter to the notice of those in whose hands lies the power to remedy it, or at best have been put off by plausible assurances that the case was not so bad as represented, and that the "next summer" which is always one year away, will see a better condition of affairs inaugurated.

We do not know whether this matter has been taken up this summer by those interested in the development of tourist travel. We know full well that President Tidmarsh of the Board of Trade has been one of the strongest workers for improved service and that officially and ex-officially he has done all that one man could do to bring about improved conditions.

What is wanted now is an expression of public indignation, and a demand for better means of travel between St. John and Prince Edward Island, and men to see that the matter is pushed till we know just where we are in the case, and with whom the responsibility rests for the present insufficient service.

Dr. Ferguson knows what he is writing about—none better. He has travelled extensively, and as an Islander, it may be a patriotic sense of indignation that we should be so treated impelled his protest. That reform is needed every one who reads his letter will admit.

Unnecessary Expense.

Acute attacks of colic, diarrhoea and dysentery come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by al druggists.

HON. DAVID LAIRD.

In the September number of The Guardian Magazine a notable Prince Edward Islander—Hon. David Laird—is the subject of the sketch in the series of Canadian Celebrities which that publication has been publishing. Mr Laird's right to a position in this class is without question. There are very few Islanders who do not regard him as one of the worthiest of the men who have gone from this Province to win eminent position in the great Dominion. His ability is recognized ungrudgingly, and his conduct of the onerous duties of Commissioner of Indian Affairs in Manitoba and the Northwest has earned for him an enviable reputation. The biographical sketch is by Miss Katherine Hughes of Ottawa, a clever writer, also an Islander. Of Mr. Laird she says: He has been contented to work, avoiding the lime light of political advertising. So he has sometimes had to look on while others were accorded the praises for his efforts, the likely fate of the man to whom duty is not an empty phrase, but a sacred instinct and office; a trust from God, not an occasion of self advancement.

A gentleman who has been visiting Prince Edward Island this summer, spending a most enjoyable holiday in the Cardigan District, complains about the Selkirk Road—the condition of which he says is altogether distressing. In the course of his conversation he referred to a matter upon which we are commenting today, namely the mode of travel by train between St. John and this Island—He was advised, he says, "for goodness sake don't go there, you'll never get to it." He eventually came by way of Pictou and found the trip by the splendid S.S. Northumberland an agreeable surprise.

Summer Diarrhoea In Children.

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil, to cleanse the system. Rev. M. O. Stockland, Pastor of the first M. E. Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by all druggists.
