PRESENTATION

On Monday evening July 24th, a number of the friends and neighbors of Mr. and Mrs. William Lane, of Southport, met at their home to spend a social evening with them before their departure for the West. Mr. Lane and his family will be greatly missed both in the church of which they were members and in the community in which they have lived for a number of years. We extend to them our heartiest wishes for a long happy and successful life in their future home. The evening was pleasantly spent in social chat and in the singing of old time songs. After refreshments had been served the following address was read, accompanied by a well filled purse.

BATTERY NOTES

Lieut. A. E. B. Murphy, spent the week end with his father, Senator Murphy, at Tignish, and returned to duty yesterday. Gr. G. LeBlanc, who spent a furlough at his home in Inverness, C. B., returned to "camp" last night. Gr. W. Stewart, of Southport, is back on the job after a short visit home. Wear the King's uniform. You will be strictly in style then. All men eligible for military service cannot afford to be without the national suit—khaki. There is one in No. 5 stores room for you. Gr. D. F. MacCormack left for Sydney, N. S., yesterday to spend a furlough with his parents. Gr. D. Napoleon Doucette, returned from Inverness, C. B., Monday night, after a short visit home. Gr. Wonnacott is back. His furlough was spent at Bonshaw. Gr. Harry Donovan, chief cook, returned to barracks Monday night from furlough. You will have to fight sooner or later. Why wait until you are compelled to do so? There's a blank file in No. 5 waiting for you. To whom it may concern: Mr. Elmer McLeod of French River is no more. He is now Gunner Elmer McLeod, of the happy Fifth, having enlisted this week. Gr. Geo. Gardiner, of Moncton, N. B., leaves for home to-day to visit his parents. Gr. Hickey, Darley, has had his furlough extended. It appears that his foot got in the way of a descending axe, with disastrous results. Gr. G. W. MacKenzie of French River who was home on furlough returned to Charlottetown yesterday. Gr. A. L. "Big Chief" Steeves crack mend artist of the Battery baseball team, returned from his home in Salisbury, N. B., Monday night. Gr. Marks has rejoined the "family circle." His furlough was spent at his home in Margate. More laurels for the gallant Fifth. This time from Col. Panet, of Halifax The Col., who is senior Ordnance Officer of Militia district six, inspected the barracks on Monday, and paid the unit a high compliment. He said, among other things, that it was one of the best-kept barracks in the Maritime Provinces. Men! attention! There's room for you in No. 5. Now is the time. Wait and you'll be too late. Consideration for one's fellow-men is a sterling quality. Bdr. Julie Keoughan evidently does not possess it. At least judging by his "uncharitable" behavior yesterday afternoon. Grs. E. McInnis and "Roxy" Ross have their signalling squads busily engaged on Prince of Wales College grounds, and everything was serene until the aforesaid stripe-carrier put in an appearance. Whether Julius did it out of design, or because his respiration was by no means normal, is not known. Anyway the commander-in-chief of the Battery baseball team, proceeded to instruct the susceptible young ladies of the Summer School, whose appearance by the way, was simultaneous with his own, in the fine points of the game. He enjoyed it! You bet! But his eyes simply would not behave, especially during his visits to second base, which seemed magnetized. The signallers meanwhile were left out in the cold. Julie evidently didn't believe in sharing a good thing. Even when bashful Hadden McLeod tried to corral one of the fair ones, Keoughan deemed it his duty to act as interpreter, and poor Hadden returned to the refrigerator a wiser boy. But the N. C. O. relented finally—when the girls had gone home. Sympathetic Letter From Dead Hero's Friend Mr. Bennett McEachern, Boston, recently received the following letter from Lieutenant Howell who was in command of the platoon of which Mr. McEachern's son, Lance Corporal Joachim McEachern, an account of whose death was published in yesterday's Guardian, was a member: Dear Sir:—As your late son's Platoon Commander, may I express my sincere sympathy to you in the death of your son. I had a great admiration for him and he was a splendid N. C. O. and a great fighter. He died a real soldier's death as he fell fighting the enemy hand to hand. If it is any consolation for you to know, he was killed instantly, so suffered no pain. And now allow me to express my deepest sympathy to you, I am, Yours truly, FRANK R. HOWELL.

MOTHER OF FOUR CHILDREN

How Lydia E. Pinkham's Vegetable Compound Kept Her Well and Strong.

Lincoln, Illinois.—"I have used Lydia E. Pinkham's Vegetable Compound for ten years with good results and I have four healthy children. This summer I was in a very run-down condition and the very hot weather seemed more than I could stand, but I commenced taking your Compound in June and from then until September 25th, when my last baby was born, I got along much better than I had before. My baby was a girl and weighed 14 pounds at birth, and I recovered very rapidly which I am sure was due to your medicine. I am well and strong now, nurse my baby and do all my work, had the same good results with your medicine when needed before my other children came and they are all healthy. My mother has taken your medicine with equal satisfaction. She had her last child when nearly 44 years old and feels confident she never would have carried him through without your help as her health was very poor."—Mrs. T. F. CLOYD, 1355 North Gulick Ave., Decatur, Ill. Expectant mothers should profit by Mrs. Cloyd's experience, and trust to Lydia E. Pinkham's Vegetable Compound. Use INVERNESS Instead of Hard Coal

Economize with comfort by using INVERNESS—the clean, screened coal—instead of hard coal. Inverness gives just as much heat as hard coal—and costs only about HALF AS MUCH.

INVERNESS—the Best Furnace Coal

Inverness is cleaner than hard coal—less ashes—less waste—less dirt, less soot in pipes, furnace lining and flues. INVERNESS—the house wife's favorite coal—gives just as much heat as hard coal, you can buy 2 tons of INVERNESS for almost the price of one ton of hard coal. NOTE—Regulate your furnace drafts properly and you need "fire up" on Inverness, no oftener than any other coal. Ask for INVERNESS The Clean, Screened Coal. Jos. Read & Co., Ltd. COMPETITIONS -IN- Fields of Standing Grain

Competitions in Fields of Standing Grain will be conducted as in former years. The prizes will be the same and the Island will be divided into the same districts as last year. The following are the rules governing the competitions. 1. A field of Oats shall contain at least five acres; of Wheat at least three acres; and of Barley at least two acres. 2. An entry fee of one dollar will be charged, if only one kind of grain is entered, and an additional fee of fifty cents for each additional kind of grain. 3. The entry fee must be sent in with the entry. 4. Entries should be made to the Provincial Department of Agriculture, Charlottetown or to any of the following: M. H. Coughlan, Montague, District Representative for Kings, W. R. Shaw, Charlottetown, Queen's W. J. Reid, Summerside, Prince and should arrive not later than August 19th. 5. No field will be judged unless the entry fee is paid before the time of judging. 6. Members of the Banner Oat Club should have all fields from which grain for seed will be sold properly inspected while standing. 7. Members of the C. S. G. A., are requested to enter a field in the competition. 8. Competitors should give the Department at least one week's notice when the fields will be ready to cut. Members of the Banner Oat Club and of the Canadian Seed Growers' Association are asked to notify the Department of the amount of grain they wish inspected in the Fields. 206-7-28—M, Fri. 3i.

Astonishing Power of Iron to Give Strength to Broken Down Nervous People

Physician Says Ordinary Nuxated Iron Will Increase Strength of Delicate Folks' 200 Per Cent., in Two Weeks' Time in Many Instances NEW YORK, N. Y.—In a recent discourse Dr. E. Sauer well known specialist who has studied widely both in this country and Europe said: "If you were to make an actual blood test on all people who are ill you would, probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue, and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down, and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some are nervous and irritable; some skiny and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your lagging vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good, sound, healthy flesh on your bones. It is also a great nerve and stomach-strengthening and the best blood builder in the world. The only trouble was that the old forms of inorganic iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial. NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by G. E. Hughes, Apothecaries Hall, E. A. Foster, Central Drugstore, and all other druggists.

My understanding is that it is a certain percentage of your farmers who are the objectors-in-chief, and yet it is the experience of other communities that it is the farmer who profits most by their use: I have just received the August 5th number of the Farm and Fireside, and it contains any number of convincing notes along this line. A Visitors Views

Sir,—I have just returned to the States after my first visit to your town and Island, and I am very well pleased with my trip, and in general, favorably impressed. A couple of points may however be worth mentioning. First, I was disappointed and more or less inconvenienced by a continued ad in your paper announcing a weekly, boat to Boston every Tuesday, but the time I went to take it "there wasn't
