Limited, Montreal, Canada.

Hewson Tweeds. It may cost more to get a suit of our cloth, but you know how much better pure wool is than shoddy—the good, strong wool grown in P. E. I. and the other provinces—well, we use only pure wool, and have had life-long experience in the business. Hewson Woolen Mills, Amherst, N.S.

PAstry BISCUIT. Beaver Flour. Makes light white bread, dainty appetizing biscuits, containing all the healthful properties of the best wheat. Makes the delectable biscuits, Pastry and Cakes—tempting that one bite invites another. Go to your grocer and get it. BREAD CAKE.

A GREAT DEVELOPMENT IN THE WORK AND PLANT

of Mount Allison University During the Past Few Years—Well Equipped Buildings and Excellent Teachers in the Various Courses of Study—Graduates Winning Prominent Positions in Life.

The last ten years have seen a great development in the work and plant of Mt. Allison University, till now the institution which as the Mt. Allison Academy 50 years ago was doing very important public work in the educational life of Eastern Canada, shows at Sackville, a finer array of buildings than any other college in the Maritime Provinces. Standing on the campus are the following buildings: the University proper, the new Hall of Science, the University Residence, the Museum of Fine Art, the Conservatory of Music, the residential Ladies' College which a \$40,000 bill has just been added, old Lingley Hall, the President's Cottage, the preparatory Academy, and the Commercial College building. The University Residence which is the finest building of the kind in Canada is the stately home of the university students. It is heated with hot water and lighted throughout with electric lights. Naturally this college home with its first class appointments, awakens a great deal of enthusiasm among the students of Mt. Allison. Housed together in such a building, the influences of college fellowship are more powerful and the general health of the students is better than if they were scattered over the town in a score of more or less shabby boarding houses. The front rooms command fine views of the Tautamunhoy marshes, the crumbling ramparts of Fort Beauséjour and the red tides of the Bay of Fundy and the distant hills of Nova Scotia. The college stands at the centre of travel of the Maritime Provinces and therefore is easily reached from all sections. Last year 456 students gathered at this educational centre.

Where narrow lands part turbid sea, Where broad sea meadows court the breeze, Stands many roofed Mt. Allison. Red Furdys tides come twice a day, To kiss her feet and homage pay, To hill enthroned Mt. Allison. Nova Scotians and Cape Breton's come Bermudians from their coral home, Jamaicans to Mt. Allison. New Brunswick sends a stalwart crew, Prince Edward and Newfoundland too, To open arms to Mt. Allison. College Song. The Hall of Science is a four story building and is being rapidly equipped with the apparatus or courses in pure and applied science. It is the purpose to make the engineering shops the most complete to be found east of Montreal. Carpentry and lathe work, chisel, planing and forgework, descriptive geometry, and mechanical drawing, mathematics, physics and chemistry are now offered. By special arrangements with McGill University, students who have taken their engineering work at Mt. Allison, may enter without examination the third year of any of the following courses: Civil, Mining, Electrical and Mechanical Engineering and Agriculture. This arrangement will enable a student to reduce the cost of winning a degree in Engineering by over \$400, or he can win the two degrees, one in Arts and one in Engineering at the cost of one in Engineering alone. No college in the east can hope in present conditions to rival McGill University in the advantages offered in the third and fourth years of the engineering courses, while a small college well equipped with shops can do just as good and sometimes better work for its students than the larger university, where close personal attention to individuals is not possible. Dean Bovey writes: "The students of Mount Allison who have come to us have been among the very best in the faculty of Applied Science and many of them have won foremost positions in professional life." Last year which was the first year in which engineering classes were carried on, eighteen students entered that work. The prospects are that this number will be more than doubled in the fall term this year.

When the students from the technical schools of Germany and the United States are entering into competition for the positions due to young Canadians, when very soon our workmen will be met in competition in factory products by the artistic workmen of Japan, it is a matter of great national concern that our technical schools should be equipped so that our men may be prepared for the unending industrial struggles between the nations. Prof. W. J. Sweetser one of the brightest graduates of the Massachusetts Institute of Technology has charge of the work in engineering. The Arts College is housed in a fine stone building, where is a library of 10,000 carefully selected volumes. Next year comes Mt. Allison's turn to elect a Rhodes Scholar. The University of Oxford has sent word that the designation of Mt. Allison will be admitted to the hall of that University without passing the usual onerous tests. The health of the students is carefully considered. A gymnasium an unrivalled foot ball field and a well equipped hospital are in each large building shows that. In the Museum of Fine Art there is a collection of paintings and statuary valued at over \$50,000. No other college in Canada can such advantages for Art education be found. John Hammond the celebrated painter supervises this department. In the Conservatory of Music besides the violin department has in the piano department 50 instruments which are in continuous use during the term. Dr. R. O. Archibald has proved himself a very efficient organizer and teacher in the violin class. The Massey-Treble School of Domestic Science, which was furnished by Mrs.

Massey-Treble of Toronto, who laid down on condition that her request viz, that the whole equipment should be first class, can now offer a full normal course in Domestic Science. Mt. Allison, teachers' certificate in Domestic Science will be accepted by the educational department of New Brunswick. Besides these special lines of work emphasis is put upon the solid branches of a general education in the other classes offered by the Ladies' College. The Academy and Commercial College are organized to carry on the work leading to matriculation into the Arts College and to the diploma in a business course. Principal Palmer is year by year adding to the efficiency of this department. It is a matter of congratulation that in the Maritime Provinces institutions of this sort are growing up to give our young people equal opportunities to fit themselves for life's work, with those of other lands. As institutions such as Mt. Allison are supported only partly by the low fees charged but chiefly by the munificence of public spirited citizens, their growth testifies to the growth and appreciation of education on the part of our young people, and a keener sense of public responsibility on the part of our men of wealth.

A LUCKY WOMAN.

Now Health Came to Mrs. Deschesne After Much Suffering.

Mrs. Abraham Deschesne, wife of a well known farmer at St. Leon, Grand Que, considers herself a lucky woman. And she has good cause as the following interview will show: "I was badly run down and very nervous. Each day brought its share of household duties, but I was too weak to perform them. My nerves were in a terrible condition. I could not sleep and the least sound would startle me. I tried several medicines and tonic wines, but none of them helped me. In fact I was continually growing worse, and began to despair of ever being well again. One day a friend called to see me and strongly advised me to try Dr. Williams' Pink Pills. I decided to do so and it was not long before they began to help me. I gained in strength from day to day; my nerves became strong and quiet and after using about a half dozen boxes of the pills I was fully restored to my old-time health and cheerfulness. I now trust Dr. Williams' Pink Pills an ideal medicine for weak women." Dr. Williams' Pink Pills feed the nerves with new, rich red blood, thus strengthening and soothing them and curing such nerve troubles as neuralgia, Sciatica, dizziness, partial paralysis and locomotor ataxia. These pills cure also all troubles due to poor and watery blood, including the special ailments of women. Get the genuine with the full name, "Dr. Williams' Pink Pills for Pale People." Sold by medicine dealers or by mail at 50c a box, six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

HE GOES AS GOVERNOR.

OTTAWA, August 24.—Major Moodie of the Northwest mounted police, who is preparing to return to far northern waters on the steamship Arctic, will carry with him his commission as governor of the Hudson Bay territory.

SOME RESULTS OF IMPURE BLOOD.

A blotched, sallow, disfigured face, feeling of exhaustion, wracked nerves, head ache and a dull brain. The proper cure is one Ferronone Tablet after each meal. Ferronone clears and purifies the complexion by making rich, pure blood. It restores the enfeebled brain and unstrung nerves to a healthy vigorous condition. It improves all the physical and mental powers, and brings strength and ambition to the depressed. Refuse a substitute for Ferronone—It's the best tonic, restorer and invigorator known. Price 50c at Drugists or by mail, Dr. Kingdon, Ont.

COLUMBINE BADLY DAMAGED.

St. John's, Nfld., August 24.—The British gunboat Columbine, one of the vessels of the squadron patrolling the Newfoundland fisheries, which struck on a rock in Shoals' Arm, Gros Bay, Monday last was refloated to sea.

ORDINARY CORN CURES ARE DANGEROUS.

because they contain acids, but Putnam's Painless Corn Remedy is entirely vegetable in its composition. Refuse a substitute for Putnam's; it's the only reliable and painless cure for corns and warts.

SUBMARINE BOAT SANK.

Newport, August 24.—It became known here today that while the submarine torpedo boat Shark was being prepared for a submerged run, Monday afternoon, she sank to the bottom in a hundred feet of water and remained there for some time before the crew could move her. The cause of the sinking is not known.

BE IN EARNEST.

Be in earnest about your health. Do not suppose that the headaches, backaches and other symptoms from which you suffer will pass away of their own accord. Instead of developing into serious and chronic disease. If you are subject to kidney, liver and bowel derangements there is no preparation which will be so helpful to you as Dr. Chase's Kidney-Liver Pills. One pill a dose.

THE SUNDAY SCHOOL.

LESSON IX, THIRD QUARTER, INTERNATIONAL SERIES, AUG. 28.

Text of the Lesson, I Kings xix, 1-8. Memory Verses, 3, 4—Golden Text, Ps. cxx, 1—Commentary Prepared by Rev. D. M. Stearns.

[Copyright, 1904, by American Press Association.] The adversary is always on the alert and wonderfully well informed. How much the great adversary, who goeth about as a roaring lion, seeking whom he may devour, knows of the affairs of God and His people one cannot say, but his knowledge is not to be made light of, and we must not only have on the whole armor provided for us, but we must diligently watch and pray that we may resist him and not be overcome by him. He is neither omnipotent nor omniscient, but our Great Deliverer is both; therefore we may always be victorious. So weak are we in ourselves, however, that the moment we take our eyes off our Lord we will be sure to fall, as Simon Peter did when he saw the winds and waves and at once began to sink instead of walking triumphantly on the water, as he might have continued to do had he continued to see Jesus only (Matt. xiv, 28-31).

Elijah had done nobly, wonderfully, and a mighty victory had been granted him, but now he is seen fleeing for his life from a wicked woman. He could trust God to care for him by the lonely brook and in the poor widow's home and securely to hide him from the wrath of Ahab; he could stand fearlessly on Carmel against all the prophets of Baal, but now, seeing that Jehovah was determined to take his life, he seems to forget the power and care of God, the living God, before whom he stood, and, leaving his servant at Beer-sheba, he flees to the wilderness. In ourselves we are utterly nothing. It is only in the Lord that we can be strong and overcome. Uzziah was marvelously helped till he was strong; then in his own strength he failed (II Chron. xxvi, 15, 16).

Poor Elijah, overcome by the strain that had been upon him, weary in body and in mind, needing rest and perhaps not knowing what ailed him, sat down under a juniper tree and said to God: "It is enough. Now, O Lord, take away my life, for I am not better than my fathers" (verse 4). Many a one has wished that he was dead, but it was a foolish wish, for the Lord knows what is best for us and has assured us that we shall never be tried beyond what we are able to endure (I Cor. x, 13) and that trials are among the best things that can come to us and will make us sure of the crown of life if patiently borne (Jas. 1, 12; Rev. ii, 10). It is easy for us to see the folly of Elijah, but this is written for us that we may not be guilty of similar folly. Oh, the blessed ministry of angels, who excel in strength, doing His commandments, hearkening unto the voice of His word—His ministers who do His pleasure! (Ps. ciii, 20, 21.) They sang at His birth in Bethlehem, ministered to Him in His temptation, strengthened Him in His resurrection and ascension. They at His resurrection in company with the Lord Himself, were seen in vision by Jacob and are wonderfully prominent in God's dealings with men. They bring heaven very near to earth, for our Lord said concerning His little ones, "In heaven their angels do always behold the face of My Father who is in heaven." They are ministering spirits, always ministering to the heirs of salvation (Matt. xviii, 10; Hab. 1, 14). The elements have no power over them, and they go and come like lightning. In our resurrection bodies we shall be equal to them, but in position far beyond them.

Find the proof texts in Dan. ix, Ezek. i, Acts xxvii, Luke xx, Rev. iii and recall in the presence of such companions who serve unseen and unthought of—not our departed friends, but angels who were created such and always have been and will be just ministering spirits. Only two are mentioned by name, and both names are found in Daniel and one name in Luke. Again the angel waked him and fed him, and in the strength of that meat he went forty days and forty nights to Horeb, the mount of God (verses 7, 8). Whether you shall ever hear the voice of an angel or not or see one before you leave the mortal body, do believe in and thank God for their loving ministry.

How great the strength imparted to Elijah by that meal! God could have strengthened him without the food, but He is pleased oftentimes to use ordinary means to accomplishing His purposes. He has angels enough to proclaim in all the world the glorious gospel in one day or less, but He sees fit to use such earthly vessels as we are. Who would not desire to be a vessel meet for the Master's use and ready to every good work? (II Tim. ii, 21.) But we must never be cast down nor discouraged, for He whom we serve shall not fail nor be discouraged (Isa. xlii, 4). The work is His, not ours, and we simply dwell with the King for His work (II Chron. iv, 23) and His will.

We must learn to do as Moses was told to do at that same Horeb, the mount of God—put off our shoes from our feet, for the place is holy. When we tread upon anything, it becomes ours (Job. i, 9), so putting off our shoes means that it is not our affair, but His. We must not attempt to manage or interfere, but only trust and obey and see neither people nor circumstances, but God alone (Mark ix, 8; Ps. lxxii, 5; Isa. li, 22). As to wishing to die, Elijah never died, and we may not (I Cor. xv, 51). One moment at a time do as occasion serve us and leave all to God.

THE KAISER'S CUP.

Berlin, August 24.—Empress William before receiving his (the) cup to be competed for in a Trans-Atlantic yacht race, awaits the conclusion of the correspondence now proceeding between his representative and the New York Yacht Club respecting the rules that shall govern the contest. Some points of difference remain to be settled, but it seems that a full agreement will be reached by September 30th.

HERE'S GOOD HOT WEATHER NEWS

Dodd's Kidney Pills Prove Their Value as a Tonic.

Doctors Failed to Help Amos Stewart of Coderich, but Dodd's Kidney Pills Built Him Up.

Goderich, Ont., Aug. 26.—(Special)—The value of Dodd's Kidney Pills as a tonic has been proved by Mr. Amos Stewart, flour miller, of this town. In speaking of his cure Mr. Stewart says:—

"I had been very poorly for about a year and though I was treated by two doctors I kept losing flesh all the time till I was down to 145 pounds. "Then I commenced using Dodd's Kidney Pills, and in ten days I gained six pounds. I am still gaining a little every day, and I am feeling better in every way, and I feel that I owe it all to Dodd's Kidney Pills."

Dodd's Kidney Pills are nature's own tonic. They cure the kidneys. Cured kidneys take all poison out of the blood. It is the poison in the blood that causes the loss of strength and energy and flesh that makes a tonic necessary.

SPECIAL NOTICES.

WOMEN'S NECKWEAR.

These are exceptionally pretty bits of summer neckwear for women, at a price so low that it is quite economical to wear such collar as long as its fresh, and then to throw it away. Princess collars just from New York at Faton's. 27d 11.

Our discounts are actually crowding all summer goods out of our store. Price has a wonderful power when used right. Frowse Bros. 27 d 11.

Kitchener Range A Good Baker. The oven in the Kitchener Range is scientifically proportioned to the size of the fire-box so that no more fuel can be burned than is absolutely necessary to heat the oven. The oven is lined with heavy sheet steel, which is a great radiator of heat and insures a uniform heat throughout the oven—no danger of a loaf of bread being half done on one side and burned on the other. The Kitchener range is built on scientific principles throughout, and should be carefully examined before buying any other. Sold by all enterprising dealers. Booklet free. McClary's London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B.

ROGERS HARDWARE Co., Ltd., Sole Agents.

Maritime Provinces Amateur Athletic Association.

THE 17th ANNUAL CHAMPIONSHIP GAMES of this Association will be held on the Grounds of the Wanderers A. A. Club at Halifax, N. S., on the afternoon of

Saturday, September 10, 1904

Following is the list of events, open to bona fide amateur residents of the Maritime Provinces.

- 1. 100 Yards Run. 2. Putting 16 lb. Shot. 3. 220 Yards Run. 4. Pole Vault. 5. Quarter Mile Bicycle. 6. Throwing 16 lb. Hammer. 7. 800 Yards Run. 8. Running High Jump. 9. Half Mile Bicycle. 10. 440 Yards Run. 11. Running Broad Jump. 12. 1 Mile Run. 13. 1 Mile Bicycle. 14. 100 Yards Hurdle Race.

Events will be contested in above order. Intending competitors will govern themselves accordingly. Entries will close with the Hon. Secretary at Halifax, N. S., Saturday, September 3rd, at midnight, and should be made by Secretaries of Clubs on official entry blanks. In the case of individuals not so entered, satisfactory evidence must be furnished of their amateur standing. Blanks may be obtained from any affiliated Club or from the Hon. Secretary at Halifax.

Fee in each event fifty cents to accompany entry. Any further information will be furnished on application to the Secretary.

NOTE—A Quoit competition for the championship of the Maritime Provinces will also be held. The competitors will pitch twenty-four quoits, six from each of four beds. Each quoit will be measured and the contestant making the lowest number of inches will be the winner.

In pitching the competitors will be required to keep one foot on the ground behind the mark until the quoit strikes the ground.

THE ANNUAL MEETING of the Association will be held at the Queen Hotel, Halifax, N. S., on the evening of Saturday, September 10th, 1904, at 8 o'clock p. m. All affiliated clubs are requested to send duly accredited delegates to this meeting.

G. FRED PEARSON, Hon. Secretary. M. P. A. A. Halifax, N. S., Aug. 16th, 1904—27, Sept. 3
