If above is stormy, date will be published later. 7552-2-31

—IN COURT CIRCLES.—A case of particular interest to the residents of Kensington was disposed of before Chief Justice Matheson and Mr. Justice Hazard at the Supreme Court in Charlottetown on Tuesday. This was an application for a writ of certiorari against a conviction made by Mr. James F. Profit and Alexander Henry, Justices of the Peace against a party for unlawfully obstructing Police Officer Moase in the discharge of his duty. The rule nisi contained two grounds, first that the convicting justices were not present and acting together during the whole of the hearing, second, that the minute of conviction did not provide for enforcing same by distress of the defendant's goods as contained in the formal conviction afterwards drawn up. After hearing argument the judges dismissed the application for the writ of certiorari with costs. J. D. Stewart, K. C., and Heath Strong for defendant.

—DOUBLY BEREAVED.—Mrs. Douglas Gordon, Summerside, has just received the sad news from New York of the sudden death of that city of Mr. Samuel Gordon brother of the late Mr. Douglas Gordon. Deceased was a native of Huntley, Alberta, and left this Province a good many years ago. He was about 71 years of age and was of the same quiet and gentlemanly nature as his brother whom he was destined soon to follow to the spirit world. His death occurred last Sunday while at service in the church which he attended in New York. The sermon had been preached and a prayer said and it was noticed that Mr. Gordon did not stir from his place at the close, so it was ascertained that he had peacefully passed to his eternal rest. A more fitting end could hardly have been desired by him. Deceased is survived by his wife and five children also one sister, Janie in New York.

**King Cole ORANGE PEKOE**

THE EXTRA IN CHOICE TEA

Capt. Roald Amundsen

World-famous explorer, who has reopened an old controversy by declaring that Capt. Cooke's report of his finding of the North Pole in 1908 is just as sound as that of Commander Peary, who reported reaching the pole just one year later. He is not convinced that Capt. Cooke is now in a United States jail, convicted of fraudulent oil dealings.

**Please Pay it To-day**

Approval accounts, which are operated entirely as a matter of service and convenience to our customers, are due and payable when rendered.

If you chance to have an unpaid one on your file, will you make it a point to "pay it today".

All such balances, standing on our records for more than three months, will be, after February 15th, collected through the Courts.

Chew a few Pleasant Tablets, Instant Stomach Relief!

**Pape's DIAPERIN FOR INDIGESTION**

If you feel full, sick or uncomfortable after eating here is harmless stomach relief. "Pape's Diaperin" settles the stomach and corrects digestion the moment it reaches the stomach.

This guaranteed stomach corrective costs but a few cents at any drug store. Keep it handy!

**30,000 in Lumber Camps of Quebec**

QUEBEC, Feb. 4.—The lumber cut of the province of Quebec for the winter 1925-26 is expected to be about 1,500,000 feet, it was stated tonight by C. G. Piche, chief forester in the provincial government, this being the amount that it was estimated would be felled during the winter.

Lack of snow during the month of January throughout the province has made very little difference in lumbering operations in the 350 camps that have been opened, for whereas in some districts too much snow fell early in the season, the fact that practically none fell during January stabilized matters, and rendered the roads just right for active work.

A number of the camps in the Lake St. John district did not open until after January 1 last, it was further stated by Mr. Piche, this being due to the fact that the lumbermen in this section are people who look after their farms in summer and work in the woods in winter and they all wanted to settle matters on their various farms before leaving for the woods and bringing their families with them.

In all, some thirty thousand men are scattered throughout the province. Hygienic conditions are reported to be vastly improved over previous years, for the forestry men employed by the provincial Government, some two hundred in number, are visiting each of the camps in turn, and seeing that the new rules and regulations laid down by the provincial Health Bureau are observed in full. These rules went into effect last winter, and a considerable improvement is reported from all sides.

**Man's Development Laid To Power Of Speech**

LONDON, Feb. 4.—Prof. Gratton Elliott Smith is of the opinion that one of the essential features which led to the emergence of the human family and the development of civilization, was the acquisition of power of speech.

Dr. Smith, who is professor of anatomy in the University of London, and noted as an anthropologist, expressed this belief in a lecture on "The Study of Mankind."

Admitting that he was in sharp conflict with most writers on the anthropology on this question, the speaker said his conclusion had been reached by long study on the subject. Primitive man talked in the manner of Alfred Jingle in "Pickwick Papers," he used sentences of two words, a noun and a verb.

The Pithecanthropus, the earliest ape-man constructed with fossilized remains found in Java by a Dutch army physician, has an enormous expansion of the skull in the region of which, in the human brain, the control of speech is situated. Dr. Smith continued. The same development was found in the Tildonian, the Rhodesian and the Neanderthal skulls. He therefore drew the conclusion that "at this early stage in human progress," man had developed powers of speech. The acquisition of this power, conferring upon mankind the ability to share the knowledge acquired by his fellow creatures, completely transformed the behavior of human beings.

**Broadway Trick Tried on Parisians**

PARIS, Feb. 4.—A bit of a thousand francs as to which was a New York or a Paris street rowd, was paid today, but without settling the issue. In a bar on the Rue Daunou last evening an American tourist told the hackneyed story of how a man stood on the corner of Broadway and Forty-second street trying to give away half dollars, but with only small success. "I'll bet these franc-grasping Frenchmen would have taken them," he concluded.

Wythe Williams, correspondent for the Saturday Evening Post, hereupon offered to bet a thousand francs that a Paris crowd would behave the same way. The stranger took the bet and Williams, with a sheet of ten-franc notes, the nearest he could get to half dollars—stood on the corner of the Rue de la Paix and the Rue Daunou under the New York Times office and made the experiment.

About one in ten persons accepted the proffered bills. The judges declared Williams the winner.

**Empire Goods To Obtain Protection**

LONDON, Feb. 4.—The Merchandise Marks Bill, which the British Government will introduce into Parliament this session, promises a lot of vital interest to Canadian producers and manufacturers. Committees of inquiry are to be set up which will determine the most efficient methods for marking imported agricultural produce and manufactured goods, both from the Empire and from foreign countries, and will have the power to make orders. They will frame the bill to give the greatest possible advertising to Empire goods.

It is understood that the agricultural section will necessitate the indelible marking of origin of all imported fresh, frozen or chilled meat, bacon and ham, and indelible marking of origin on the shells of all imported eggs. Cheese, honey, and probably other commodities are to be similarly treated. It will be an offence for the retailer to exhibit such goods for sale without labels indicating countries of origin. American bacon, for instance, can no longer be passed off as Canadian.

**London Letter**

THE OFFICE OF THE HIGH COMMISSIONER FOR CANADA IN LONDON WEEK BY WEEK

The Accounts Department of the Office of the High Commissioner for Canada has been in correspondence with the Greek Government on the subject of the half-yearly payment of interest, due December 31st, 1925, and upon redemption of principal in connection with the \$8,000,000 Greek Government Bonds held by the Government of the Dominion of Canada. The High Commissioner has been advised to cablegram from the Department of Finance, Ottawa, that Greece has paid the principal and interest amounting to \$283,750 to that department through the Bank of Montreal.

Arrangements for the release to Greece of the relative bonds and coupons are therefore being made in London through the High Commissioner's Office.

The Royal Society of Arts has forwarded to the High Commissioner particulars of their Annual Competition of Industrial designs, which will take place in June next. It will be opened to two classes (a) All British subjects, and (b) British students in British Schools of Art. The competition will be divided under the following heads:—(1) Architectural Decorations; (2) Textiles; (3) Furniture; (4) Book Production; (5) Pottery and Glass; (6) Miscellaneous. Further details of the competition and of the prizes offered may be seen at the Office of the High Commissioner, Canadian Building, Trafalgar Square, S.W.1.
