THE PILOT BLAMES THE WHEELSMAN

QUEBEC, Nov. 18.—Pilot Lachance, who was in charge of the Allan liner Bavarian when she ran ashore on Wye Rock, gave evidence Saturday. He stated that after the accident the officer or engineer who was in charge of the steering, declared that he had by mistake steered contrary to the orders that he (the witness) had given.

He said that in his pilotage he has always used the gas buoy on St. Margaret's Shoal as one of the leading lights, as also the gas buoy on Grosse Isle. He stated that the blue book called "Lights and buoys of the St. Lawrence River" is misleading in many of its descriptions and details.

Congratulations Extended Him— The Immigration Returns for October Compared.

OTTAWA, Nov. 20.—(Special.)—This was Sir Wilfrid Laurier's sixty-fourth birthday and he received many messages of congratulation from friends all over Canada.

Immigration returns for October show that 3,042 persons arrived from the United States compared with 2,390 for last October; 5,340 from the Continent which is 302 less than last year.

There was a decrease of 340 from Great Britain.

FOOTBALL IN THE UNITED STATES

NEW HAVEN, Conn., Nov. 18.—With a few simple plays of straight old-fashioned style of football Yale gave Princeton a 23 to 4 beating, the worst in many years on Yale field this afternoon, but the Tiger team had the satisfaction of breaking the Eli's clean record by a beautiful 43-yard drop kick by Looker. But after all the Blue can still point to a goal line that has never been crossed by any opponent this season.

CAMBRIDGE, Mass., November 18.—For the third consecutive time the Harvard football eleven today failed to win a victory over the Dartmouth college team, the score being a tie, 6-6. Through-out the game Dartmouth showed much superiority and most of the playing was in Harvard's territory. The scoring by both teams was the result of line bucking, and depended in no way upon fast or spectacular playing.

PRINCE'S NEW YORK VISIT HAS ENDED

NEW YORK, Nov. 20.—Prince Louis of Battenberg's visit to New York came to an end this morning. It was announced on board the flagship Drake that the squadron lying in the North River would get under way at 10.30 tomorrow morning, and would drop down stream to a point opposite the Cunard pier, when the Drake having taken the admiral aboard, at the last moment would join her consorts and lead the squadron down the bay and out to sea.

Officers of the squadron today denied that wholesale desertions had occurred from all the ships, and said that tomorrow they expected that every ship would carry away its full complement, with the exception of such few stragglers as are always missing after a visit to a foreign port.

WHAT CAUSES SNORING.

When asleep, people that snore breathe through the mouth instead of the nostrils which are choked with catarrh. Just use "Catarrhazone" before retiring and you'll quickly cure the snoring habit. By destroying the cause of catarrh and healing the membranes, Catarrhazone makes a complete cure in every case; it cleans the nostrils, stops the discharge and prevents dripping in the throat in a few minutes. Nothing so pleasant or certain to cure snoring, catarrh or colds as Catarrhazone—that's worth remembering.

THREATENED LIFE OF PRINCE LOUIS

NEW YORK, Nov. 18.—Now that the stay of Prince Louis of Battenberg in this city is so nearly over the fact was allowed to become known today that the Prince has received numerous anonymous letters threatening his life and that he deemed them serious enough to call them to the attention of the Police Department, and also ask protection. Prince Louis announced this afternoon that he decided not to sail until Monday morning instead of tomorrow, as at first arranged. Delay in coaling the fleet is given as the cause.

THE PORTE HAS NOT REPLIED

CONSTANTINOPLE, Nov. 19.—The Post has not yet replied to the ultimatum of the Powers regarding Macedonian reforms and the Embassies here are sending Dragoons to Piraeus in preparation for the eventuality of a naval demonstration. It is regarded here as significant that the Russian Black Sea Squadron is reported to have left Sebastopol for an unknown destination.

THEIR COUNTRY BEFORE PARTY

MONTREAL, Nov. 14.—The banquet given last evening by the Club Lafontaine to Hon. Thos. Chapais, was important from the fact that it brought a formidable speech from Hon. Thos. Chase Casgrain, ex-M. P., who is looked upon as a French-Conservative leader. During his speech, proposing the guests' health, Mr. Casgrain said: "We did not wish to found an exclusively French and Catholic Conservative party, but we wish to be of the Conservative party, which while fully respecting the right of other nationalities will give to the Conservatives in the Province of Quebec their liberty of action as well as a large and just party influence. This is the Conservative party founded by Lafontaine, directed to its office by Sir John Macdonald and later on in the same sense by Sir Charles Tupper, having a noble object in view, viz., full and entire liberty and mutual toleration.

"If, therefore, there are those who cannot accept this generous and patriotic platform either by word or action, then we have to do without their services and seek amongst men of moderation and good will irrespective of party name, allies who will not abandon us in troublesome times, for on this principle, it seems to me, rests the future of Canada and of the Conservative party. How can we from a political point of view expect success if we allow ourselves to be controlled by influences which are most objectionable to say the least, and which have been repudiated by our leaders of other days?"

Hon. Mr. Chapais declared that there must be separate schools in a country like this, and it might, he added, be necessary to enlarge our political horizon. The Quebec leader asked his hearers to be of their country, rather than of their party.

STEAMER TURBIN GONE TO BOTTOM

With Crew of Fourteen, all Norwegians—Was 800 Tons and Carried Coal Between Sydney Charlottetown and Halifax—Sunk in Ten Minutes.

HALIFAX, Nov. 20.—(Special.)—The Norwegian steamer Turbin, Capt. Knudson, which left Sydney on Wednesday, coal laden for Yarmouth, struck on Black Ledge, near Mud Island, Friday afternoon, sank in ten minutes and it is believed her crew of 14 or 16 men are lost.

She should have made the run in 36 hours and until news of this disaster came tonight she had not been heard from since leaving Sydney.

There was much anxiety concerning her, for a terrific sea was running and a gale

had raged along the coast for some days. News of the disaster was received today at Clark's Harbor on the arrival of coastal steamer Edna R., which simply knew that the Turbin had struck and foundered in ten minutes.

The Turbin was built three years ago and has been under charter to the Dominion Coal Co. for trade between Sydney, Charlottetown, Halifax and Yarmouth.

She was of eight hundred tons. The crew was composed altogether of Norwegians.

PARISIAN MET BOSTON HAS \$100,000 FIRE

HALIFAX, Nov. 19.—The Parisian, the first Canadian mail steamer of the season on the Halifax route, arrived today from Liverpool. Rough weather was experienced on the way across. On Thursday night the Carthaginian, from Philadelphia, was passed. The Parisian has 312 passengers, many of whom are Russian Jews bound west. One birth occurred on the voyage. She sailed tonight for St. John.

BOSTON, November 18.—A large five story brick building, used for storage purposes by the Continental Storage Warehouse Company, 1285 Washington street, south end, was ruined by fire which started at 9.30 tonight. The building stood in the rear of the company's office, and occupied a large space between Washington street and Shawmut avenue near Waltham street. Three alarms were sounded and although the firemen were handicapped by the lack of entrances to the property, they were able to prevent the flames from causing heavy damage to nearby buildings.
