POLICE COURT—At assault case and a drunk was before the police court yesterday morning, the defendant in the former was dismissed; the latter, however, was fined \$5.00 and costs.

ICE STILL GOOD—Ice crossings at Rocky Point, Southport and West River are reported as good, teams making daily trips both ways. Yesterday and the day before ice boats were seen scudding along the river.

LAD TO REST—The funeral of the late Mrs. Roderick MacKinnon was held yesterday afternoon from her late residence, Alexandra, and was very largely attended. The service at the house was conducted by the Rev. Ewen MacDougall, assisted by Rev. F. H. Littlejohns and Rev. Mr. Lindsay. The service at the grave was conducted by the Rev. Mr. MacDougall, who spoke words of comfort to the bereaved relatives and friends. The hymns sung were Nearer My God to Thee, Happy Day, Jesus, Lover of My Soul. The pallbearers were as follows: Lat Moynaux, William Cody, John MacKinnon, Sam Cousins, John Beaton and Nelson Carver. The floral offerings were as follows: Pillow—The family; Crescent—Neil McLean; Spray—Mr. and Mrs. Arthur McEachern; Spray—The two nurses.

FOX NOTE—Mr. Ewen Cameron writing in the Maritime Farmer of April 2nd, says:—Probably wherever fox ranching is engaged in, not only on this side of the Atlantic, but throughout European countries, the name of W. Chester S. McLure, the largest direct handler of silver fox furs in the world, is well known. It will be interesting, therefore to go back to August 1924, and note a prediction made then by Mr. McLure. Mr. McLure said in part: "I do not claim the ability to read the future any more than any other man who makes a study of conditions in his particular line, but if I were asked for a statement as to the possibilities of silver fox farming for the next five years, my conscientious opinion would be, that we are in for a period of greatly increased prosperity and better prices for silver fox furs than we have seen during the past two or three years. Anyone who has studied the fur industry the last twenty years must know that Europe has been the great outlet for silver fox furs, and that all the world's records for pelts (which by the way have been captured by Prince Edward Island raised for pelts) were made at the great London auctions. These pelts found their way to Australia, Russia, Germany and France." All fox men know how true this prediction of Mr. McLure has turned out to be, and realize the tremendous strides of the industry since the prediction was made and also the immense possibilities of the future.

"FASHIONS FOR WOMEN" CONTAINS RARE HUMOR!

Introducing an array of gowns and styles surpassing anything ever before witnessed upon a motion picture screen, Esther Ralston's first starring vehicle "Fashions for Women" which opened at the Prince Edward Theatre last night also unfolded a breezy story that never lagged.

There were breakfast, luncheon, afternoon, tea and evening gowns, street and house dresses, sports outfits, negligees—in fact, every type

and style of women's wearing apparel ever created.

"Fashions For Women" was directed for the screen by Dorothy Arzner, one of the two women film directors in California. Whoever conceived the idea of having a member of the feminine sex handle the megaphone deserves tremendous credit. It is doubtful if any man could have filmed the picture with the deftness and tact employed by Miss Arzner.

The locale of "Fashions For Women" is Paris, France, style center of the world. Outstanding in the production is a gigantic fashion show during which Miss Ralston and fifteen beautiful mannequins display scores of interesting wearing apparel. Supporting Miss Ralston in the cast of the photoplay which was scenarized by Percy Heath, are Einar Hanson, noted Swedish leading man, and Raymond Hatton, famous comedian.

In Memoriam

REV. W. H. SPENCER, B. A.

The death of Rev. W. H. Spencer, B. A., which was briefly announced yesterday occurred Tuesday evening at his home on Brighton Road, Charlottetown.

He had apparently enjoyed his usual health an vigor until Thursday last when he was suddenly attacked with angina pectoris from which he subsequently rallied and was up and around as usual. Tuesday evening, however, about 8 o'clock, while in conversation with a neighbor on church matters, he became critically ill and suddenly his spirit took its flight to Him who gave it.

The late Mr. Spencer was born in Great Village, Nova Scotia, and at the time of his demise was in the 74th year of his age. After receiving his early education in a country school, he attended Plotou Academy, famed for its thorough educational facilities, and afterwards Dalhousie University where he secured his degree of B. A., and then Pine Hill and later Princeton University, N. J. Therefore, he was a man of splendid education and eminently fitted for his high calling.

His first charge was the Presbyterian congregations of Georgetown and Montague. After he had been with them for several years, the congregations separated and he continued minister of the Montague church for about fourteen years. Then he accepted a call to the Marshfield and Covehead congregations and on the separation of these he continued minister at Covehead. Subsequently, he accepted a call to Waterville, N. S.

He was later appointed agent of the Maritime Provinces for the Augmentation Fund of the Presbyterian Church, and after he had served most acceptably in this capacity, he became pastor of St. Matthew's Church in St. John, N. B. He continued there until the consummation of the Union in 1925, when he joined the United Church.

Owing to advancing years, being then three score and ten, he retired from active work in the ministry but from time to time supplied pulpits in this province. He was recognized as one of the ablest preachers in the Presbyterian

Church and regarded as a man of very high intellectual attainments. He had not only a sound training in theology but was especially well versed in church history and church law, and his advice and counsel were always sought in connection with matters of administration.

By his affable manner and genial goodfellowship he made hosts of friends wherever he was known and in the various congregations to which he so faithfully ministered, there will be deep sorrow at the passing of a beloved pastor.

He is gone to the Better World, for during his pilgrimage here he ever exemplified by his religious teaching and by his daily walk and conversation that he was one set apart for the Christian ministry.

His death will be generally mourned and for him will be commendation "Well done, good and faithful servant. Enter thou into the joy of the Lord."

He leaves to fondly cherish his memory, a widow, two sons, Willard G. Spencer, Charlottetown, and E. G. Spencer of the Bank of Nova Scotia, Toronto, one daughter, Mrs. A. C. Sinclair, Charlottetown, also four grandchildren.

THE MARKETS

MONTREAL, Que., April 3.—A feature of the local grain trade today was the easier feeling that developed

ed for wheat and values were reduced one cent per bushel. This was attributed to the weakness in the Winnipeg market and the limited demand here. Manitoba wheat sold at \$1.02 and fed wheat at 95c per bushel. Canadian western oats were irregular. The demand for spring and winter wheat flour, the tone of the market was steady. The trade in all lines of millfeed was fairly active and prices were unchanged. Standard grades of rolled oats were in good demand. Butter receipts were advanced another 1-2c per lb., owing to the good demand and the small supplies available. Receipts were 44 packages. Only a small volume of business was done in cheese but the undertone to the market was steady. Receipts were 33 boxes. Further weakness developed in eggs and prices were shaded one cent per dozen. The demand was moderate. Receipts were 1,381 cases. Potatoes were steady at 50c per 90 lbs. in bulk for N. B. green mts; with Prince Edward Island, whites selling at 65c, and green mountains at 70c per 90 lbs in bags. Little business was transacted in beans but values were well maintained.

Whiz GEAR GREASE THAT is an old saying and a true one. But it's surprising how few people realize that it is true. How often have you yourself gone to your service man in a hurry and just had some grease added to what is already in your transmission and differential? That's what you call greasing your car, but in reality, you might as well have saved your money, because the fresh grease is only wasted. Added to impure grease, it immediately loses its value as a lubricant. What you should do is to have the old grease flushed out and a complete fresh supply put in. Your dealer sells and recommends "WHIZ" GEAR GREASE as the most perfect of tested greases. Drop in tomorrow and let him service your car as only an expert can. Whiz GEAR GREASE
