

THURSDAY.

**SUNDAY SCHOOL CONFERENCE.**—Rev. J. K. Curtis, Secretary for Methodist Sunday Schools in the Maritime Provinces, is anxious to meet all the officers, teachers and other workers at 3 p.m. this afternoon in Hertz Memorial Hall. He will also deliver an interesting illustrated lecture in the evening at 8 p.m., to which all are cordially invited.

**SOURIS SCHOONER LOST.**—The schooner *Limelight*, of Souris, P.E.I., struck on the Castor Ledges, three miles off Sherbrooke, N.S., and is a complete loss. The crew of six men landed safely, after spending the night in their boat. They are absolutely destitute, having saved nothing except what they stood in. The schooner was bound from St. Pierre to Souris, says a Halifax Exchange.

**SANITARY CUP.**—Mr. Wm. Moran of the United Commercial College has just installed in his up-to-date college the Lily Drinking Cup for the use of his pupils. This is a simple, sturdy, sanitary cup made of a single piece of tough white paper sterilized in the making. These cups are light and convenient to handle and should prove most cleanly and will no doubt be much appreciated by the pupils.

**CRYING CHILDREN.**

When baby cries it is because he is unwell—not because he is bad-natured as so many imagine. Crying is the way the little one has of telling of his pains and the wise mother can instantly tell what ails her little one simply by his cry. When baby cries a great deal give him Baby's Own Tablets and he will soon be happy again. Concerning the Tablets Mrs. Jas. Gaudreau, Notre Dame des Bois, Que., says: "My baby cried day and night and was greatly discouraged. I began giving him the Tablets and he was soon happy, healthy and fat." The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

**An Easy Way to Stop Head Noises**

Good Advice For Those Who Fear Deafness

Men and women who are growing hard of hearing and who experience a stuffy feeling of pressure against their ear drums, accompanied by buzzing, rumbling sounds in their head like water falling or steam escaping, should take prompt and effective measures to stop this trouble. Headnoises are almost invariably the forerunners of complete or partial deafness and most deaf people suffer from them constantly. Sometimes these noises become so distracting and nerve racking, with their never ceasing "hum" they drive the sufferer nearly frantic and complete nervous breakdown and even violent insanity have been known to result.

Thanks to a remarkable scientific discovery made recently in England it is now possible to stop instantly or less the severity of these head noises and in a very short time to completely and permanently overcome them. With the disappearing of the head noises, the hearing also greatly improves and very frequently can be restored to normal. This English treatment is known as Parmit and can be easily and safely self-administered at home. Leading druggists in Charlotte town and vicinity now have it in stock. Get from your druggist 1 oz. Parmit (Double Strength) and mix it at home with 1-4 pint of hot water and 4 oz. of granulated sugar. Stir until dissolved and then take one tablespoonful four times a day until the noises disappear and hearing improves. Parmit is used doubtless strength in this way not only to reduce, by tonic action, the inflammation and swelling in the Eustachian tube and thus to equalize the air pressure on the drum but to correct any excess of secretions in the middle ear and the results it gives are both remarkably quick and effective.

**IMPORTANT.**—In ordering Parmit always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c. to the International Laboratories, 74 St. Antoine St., Montreal, P. Q., who make a specialty of it.

**HOME GUARD.**—The Home Guard Committee met last night and made arrangements for the regular weekly drill to be held in the Drill Shed to-night at 8 o'clock. As the organization of the various companies is to be completed at to-night's meeting, every man in the force is asked to be present.

Another landmark in the person of the late James C. McLean passed away on Sunday morning, November 8th, at the home of his daughter, Mrs. Mary Corbett, 217 Main St., Charlottetown. The deceased was born at Black Bush, P.E.I., 83 years ago, and was a son of the late Charles and Margaret McLean. Later he moved to Naufrage, where he lived till a year ago, when he moved to Charlottetown, Mass.

The deceased was a prominent member of St. Margaret's Church, and was an elder for over 20 years. He also sang in the choir for 23 years. He is survived by his wife, Mary A. McLean (nee Gillis) and four sons, Charles J., of Miramichi, now of Boston, and Martin, of Charlottetown, and three daughters, Mrs. August D. Brown, of Dorchester, Mass., Mrs. Mary Corbett, and Miss Margaret, of Charlottetown.

The funeral took place from St. Mary's Church, Charlottetown, at nine o'clock, Tuesday, November 10. Requiem High Mass was celebrated by the Rev. Father Murphy. The burial was at Holy Cross Cemetery, Malden. May his soul rest in peace.

The first case called yesterday was:—  
The Crown vs. John Coughlin, Alberton, charged with entering a car on the P. E. Island Railway at Alberton Station and taking therefrom a number of bottles of beer.

Mr. McKay, Station Agent, was the first witness called. He stated that he knew the prisoner and that he remembered July last, the time the goods were stolen. He also stated that he had a conversation with the prisoner a week after the goods were stolen. The prisoner claimed that he did not know anything about the theft. The witness stated that he knew the goods were in the car when it reached Alberton by the bills of lading received. Goods were consigned to Mr. Profit at Alberton, but witness could not say by whom they were shipped.

In cross examination the witness stated that he did not know how long the goods were in transit, but that the cars were always locked except when receiving or delivering goods.

Mr. MacAlduff, Alberton, was the next witness. He swore that he was prisoner at Railway Crossing on the night of the theft. He asked prisoner if town was dry. Prisoner said he could get him something. They walked towards the station and when they came to a small window in the car and passed two bottles of beer to witness, for which he paid him 30 cents. After leaving the car they walked around together for a short distance when witness saw the prisoner had five bottles of beer. They opened two bottles and drank at Alberton, but witness could not say by whom they were shipped.

The next witness was Mr. Keefe, who swore that he and the assistant station master went to the car that contained the barrel to get a piece of machinery and that before this the beer had been taken. He also stated that the prisoner gave him a bottle of beer near where the car was.

Mr. Profit was the next witness. He was the consignee. He stated that he had bought 18 dozen bottles of beer and received only 28 bottles.

Reginald H. Rogers, counsel for the prisoner addressed the jury, making a strong plea for the prisoner and claiming that no evidence had been given to show that goods had not been opened in transit. He claimed that MacAlduff was an accomplice and that it was not customary to condemn an accomplice.

The Attorney-General, for the Crown in addressing the jury, claimed that there was undisputed evidence to show that the prisoner had entered the car and taken the goods therefrom. He pointed out to the jury that their business was to state whether in their opinion the prisoner was or was not guilty. The judge would attend to the penalty. His Lordship briefly addressed the jury, after which they retired, returning in the course of an hour with the announcement that they did not agree. They were given further time to consider the question. In another hour they returned with a verdict of not guilty.

The Crown vs. William Doucette, charged with having in his possession goods known to be stolen from the McLellan Drug Co.

**PURE BLOOD MAKES HEALTHY PEOPLE**

Hood's Sarsaparilla removes scrofula sores, boils and other eruptions, because it drives out of the blood the humors that cause them. Eruptions cannot be successfully treated with external applications, because these cannot purify the blood. Hood's Sarsaparilla makes rich, red blood, perfects the digestion, and builds up the whole system. Insist on having Hood's. Get it now.

James Crossman swore that he in company with George Doucette and Benjamin Souler went to the McLellan store and that while he watched the liquor was taken out of a window and brought out in a number of bottles of liquor. They carried the liquor in bags to the Journal Office, where they hid same in the cellar. William Doucette was not with them that night. About 7 o'clock next morning William Doucette came to the office, and witness saw George Doucette passing the liquor from the place where they had put it the night before, to a barrel. The next time witness saw prisoner was a short time afterwards at the back door of the office, when prisoner had two bottles of liquor in his pocket. Witness took the bottles from him and put them in the job office.

Arthur Brennan swore that on the next morning after the alleged theft he saw prisoner and George Doucette in the Perry building, both under the influence of liquor, and they had 13 bottles of liquor with them which, they claimed, they had purchased. He asked them for the liquor and he would take care of it for them. Later on police and have prisoner and George witness was obliged to send for the Doucette arrested.

In the Y. M. C. A. Hall, Summerside, last night, a largely attended meeting of fox men was held to take into consideration the general situation of the industry in the circumstances created by the war.

Mr. A. C. Saunders presided. The general tone of the meeting was optimistic with reference to the future of the industry. There was an idea on the part of some of the speakers that the present price, \$10,000 to \$12,000 for foxes was too high and the suggestion was made that the valuation be reduced for war purposes.

Mr. Leckie thought that the Government tax on foxes was too high and operated against the best interests of the new company business. While the older companies, which had already made their money, could bear taxation, he thought a reduction should be made in favor of the new companies.

Mr. E. H. Rayner expressed the opinion that the fox business was on an sound a footing to-day as ever it was. One of the greatest advertisements ever had was the tax imposed by the Government. It was one of the chief factors in giving publicity to the fox industry, because it showed to the world abroad what large amounts had been collected by the province for foxes.

The consensus of opinion supported Mr. Rayner's views. Mr. Rayner said he would not sell a pair of foxes for less than \$10,000.

The chairman said he was not quite so optimistic as Mr. Rayner. He was rather inclined to look at the matter from a broad point of view. There were a great many foxes on the island to-day and while he would very much like to see the present high prices kept up, yet he was firmly of the opinion that they would not next year maintain present prices. So far taxation is concerned, he thought that the view of the matter from a business point of view, if the foxes were not worth \$10,000 at present they should not be asked to pay taxation on that valuation.

The Premier having read a statement of the number of foxes on the island in 1913, went on to speak of the taxation. The rate of foxes was fixed by statute, which could not be dealt with by the Government but by Parliament, and while he was not there to defend the imposition of the fox tax, he might say to his friend, who was so strongly opposed to it, that if it had not been for the Fox Tax Act the amount of taxation which he would be liable to pay on his income would have been one and a half per cent. For a number of years the statute provided that the income from foxes was subject, with all other incomes, to a tax of 1 1/2 per cent. The effect of the Fox Tax Act was to make it more general, so that it would fall with greater equality, and reduce it by one half per cent. This was, after all, a blessing in disguise. The Premier then made reference to the fact that investors abroad had complained that inquiries which they had made for information had been ignored by the companies to which they had written. He deplored this and said if anything tended to hurt the industry this certainly did. He offered the advice that all inquiries should be promptly answered. Continuing the Premier spoke on several matters of interest and made the suggestion that they might take into consideration the question of forming a central sale board and an advertising campaign.

Mr. J. E. B. McCreedy spoke on several of the questions that had been discussed and he heartily supported

the suggestion of the Premier regarding the sale board and the advertising campaign. He strongly advised them not to sacrifice their foxes. The fact that one man here or there could not sell his foxes at the price they should command did not by any means say the foxes were not worth the price. If circumstances compelled a man to sell his foxes below their value, he was at the mercy of the purchaser. He would advise if they were not able to pay up their taxes and other expenses to borrow the money to tide them over, but by no means to sacrifice their foxes. It would be much better to put the foxes back in the ranches, and keep them there till times brightened which they certainly would.

Dr. Alex McNeill, R. N. McDonald, Nathan McFarlane, Hon. A. E. Arsenault, Neil McLeod, all concurred in the idea that it would be best to keep prices up and the opinion was generally expressed to keep their foxes unless the proper price was obtained.

Mr. McLeod stated absolutely he would refuse to take anything less than \$10,000 for any of his foxes.

Hon. Mr. Arsenault moved: That a Conference of fox men be held, date and place of meeting to be decided upon, to take into consideration the matter of establishing an advertising campaign and other matters suggested at the meeting.

Mr. E. H. Rayner seconded, and it was unanimously carried. Mr. Arsenault also moved that a committee of five be appointed to arrange the details of the Conference, seconded by Mr. Neil McLeod and carried.

The following committee was appointed: Messrs. A. C. Saunders, W. H. Kinsman, J. W. Calbeck, E. H. Rayner and R. A. Taylor. The meeting then adjourned.

**FRIDAY.**

**ENJOYABLE DANCE.**—An enjoyable dance was held last night by the Pastime Club, at which there was a large attendance of members. Excellent music on the piano was supplied by Miss Jean Blanchard.

**HAZELBROOK FIELD.**—Services on Sunday, Nov. 29th, will be as follows:—Cross Roads, Sunday School, 10.30 a.m., subject, "Followers of God." Alexandra, 3 p.m., subject, "Abounding Suffering and Abundant Consolation." Hazelbrook, 7 p.m., subject, "A Matter of Convenience."

**GRANVILLE CIRCUIT.**—The services on the Granville Methodist circuit on Sunday, Nov. 29th, will be as follows:—Pleasant Valley, 11 a.m., "War and Prayer." Wheatley River, 3 p.m., "Sunday School." The pastor, Rev. L. J. Leard, will preach.

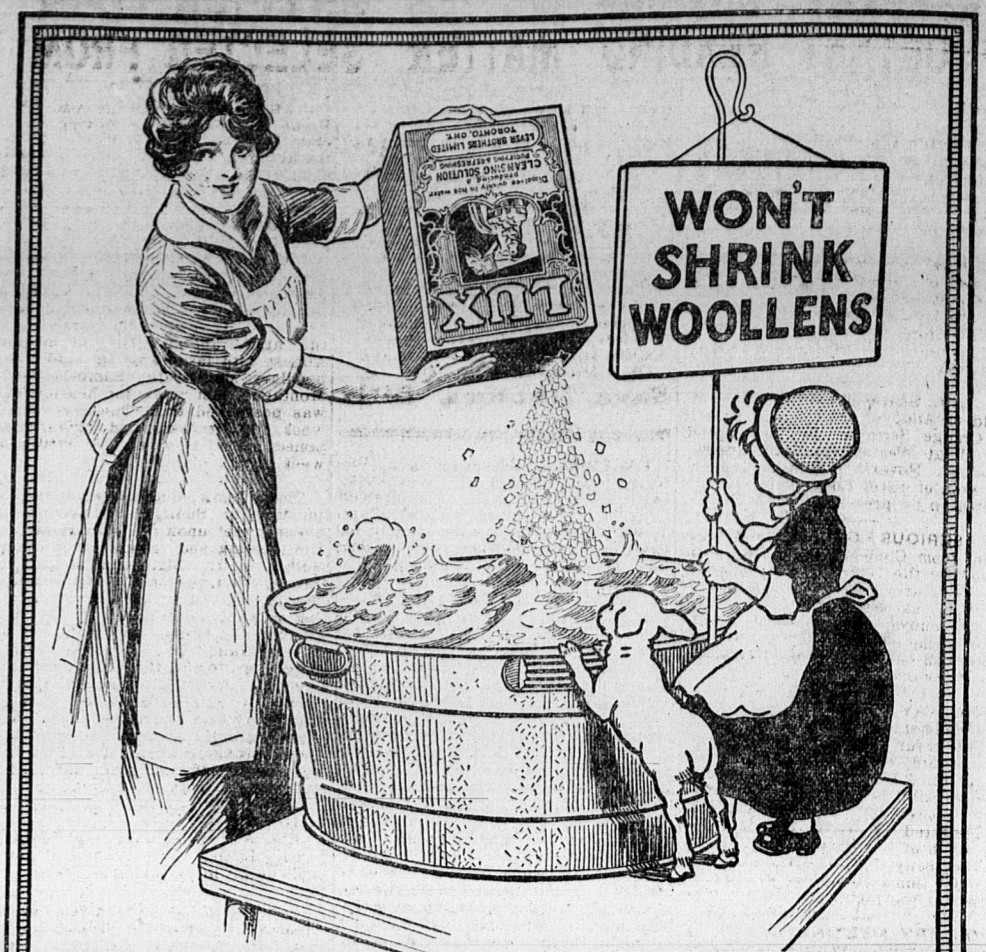

**GOOD CROPS PREDICTED.**—An old-timer living in Western Canada, in speaking of the weather and prospects there, says that in October and November the total snow fall averaged three feet and that the thermometer this month registered eight below zero. He predicts that this assures that next seasons crop will be a heavy even if a dry season intervened, as the ground is hard and sufficient moisture to ensure fertility.

**THE HARLAND.**—The s.s. Harland, Captain McLean, arrived at Victoria from Charlottetown at about 12 o'clock noon, Wednesday, with a large cargo. It was also fairly full of passengers. Shipments being sixty-two dressed hogs shipped by Fred W. Snow and ten dressed hogs shipped by William Callbeck. Both consignments were for Davis & Fraser. There was also on board 161 bags of oats for the Army Field Service Fund.

**FROM SALISBURY PLAINS.**—Mr. Hedley M. Mackay, Emerald, has received from his friend Mr. Leonard S. MacKay, son of Mr. George MacKay, carpenter, formerly of Foundry Mills, in training at Salisbury Plains, a post card stating that they are having lots of drill in very wet weather. Mr. Mackay goes on to say that on Nov. 4th we were received by the King and Queen, Lord Roberts, Lord Kitchener, Mr. Edward Gray, Premier Asquith and others and they passed between my line of guns, so I had a good haul as then as I am P. S. M. now, so you will see I have risen some since I left home." The post card gives a fine picture of the Holborn Bars, showing Old Houses, London.

**SUNDAY SCHOOL WORK.**—The Rev. Mr. Curtis, one of the Field Secretaries of the Sunday School and young people's societies of the Methodist Church, held a conference of the Sabbath School workers in the Hertz Memorial Hall in this city yesterday afternoon, at which a very interesting discussion took place. In the evening at 8 o'clock in the same place, Mr. Curtis gave a thoughtful and highly instructive address on the subject, "How to hold the young people and keep them in the church." This was followed by the projection of several lantern slides illustrating his subject. He also put on the screen a number of pictures showing the seal fisheries of Newfoundland, which were very good indeed and much appreciated by all present. The proceedings were brought to a close with the National Anthem.

**RAILWAY ACCIDENT.**—An accident which tied up traffic for a short time, occurred on the railway line near Kelvin, about 8 o'clock last night. The trucks of one of the cars of the freight train from Alberton gave way when nearing Kelvin, and the box car, which was loaded, dragged on one side for about a mile and a half, twisting the rails and cutting the sleepers. The train was going down grade and the accident was not noticed until the train had reached the bottom of the hill. The crew of the special got the damaged car on the track and brought her to Emerald. Orders were then issued for the Cape Traverse train, which was waiting at Emerald, to go to the scene of the wreck to take the passengers from the express, which, however, did not prove necessary. The express train from Summerside came along about 9.30 o'clock and stopped within a mile of the wreck. The conductor went over the track and decided to take the train across the damaged line. This was accomplished with the aid of pilots etc. The train had to go slowly and in all lost about one hour and a half, which made her arrival in Charlottetown very late.

**Pour LUX on the troubled waters of the wash**

**M**ILLIONS of these little LUX wafers are working wonders every wash-day all over Canada. In color they are like cream—to the touch like silk. The fine, soft, creamy lather LUX makes, is splendid for woollens—it never shrinks or hardens them. In fact, all kinds of garments, woollens, silks, laces, linens, etc., dainty or otherwise, are really preserved by LUX. It leaves them luxuriously clean, but with the fabric absolutely free from matting and shrinkage.

**SAMPLE FREE** on application to Lever Brothers Limited, Toronto. Sold at all grocers, 10c.

**Remember:** 1st. LUX is made in Canada. 2nd. It won't shrink woollens.

**LOADED WITH PRODUCE.**—The schooner *Minnie*, 96 tons, Captain William Trenholm in charge, sailed from Government Wharf, Victoria, on Sunday last. Her cargo, loaded by Wright Bros, consisted of 60 tons of hay, 500 bushels of oats, 500 bushels of mixed vegetables and 50 bushels of potatoes, consigned to parties in Sydney, C.B.—V.

**A PLEASANT EVENING.**—The members of the choir of Zion Church enjoyed an exceedingly pleasant auto drive and supper last evening. Through the kindness of Mr S. A.

McDonald, seven cars were placed at the disposal of the choir. The cars met at the church about 7 o'clock, and with their happy occupants, about 36 in all, had a drive through the principal streets, their location always being ascertained by their merry laughter and occasional bursts of song. After driving about an hour and a half, there was another round-up at the church, when the party disembarked and repaired to the Ladies' Parlor, where a sumptuous supper was served and thoroughly enjoyed. The success of the supper was largely dependent upon the kindly offices of Mrs. A. C. Auld Lang Syne and God Save the King. After supper an hour was very pleasantly spent in song, during which a solo was given by Mr De Witt Cairns, a new member of the choir, and a number of excellent choruses were rendered. Speeches were made by Messrs George McLeod, S. A. McDonald and the pastor, Rev. G. C. Taylor, reference being made to the fact that one of the members of the choir is shortly leaving for the front, Mr Harry McDougall, who also said a few pleasant words by way of farewell. A very pleasant evening was brought to a close by the singing of Tipperary.

**COWANS SOLID CHOCOLATE MAPLE BUDS**

"Maple Buds" is a name which distinguishes a quality, a flawless standard of chocolate purity and deliciousness, rather than simply the form in which the chocolate is moulded.

"Made in Canada."

**KITCHENER**

**Efficiency and Health**

To this Man of Red Blood and Steady Nerves the Whole British Empire is Looking With Confidence.

Efficiency everywhere marks the work of Lord Kitchener as organizer of campaigns and of the man's efficiency depends on his health. A very has given strict admonitions as to the diet and habits of the men under his command. Whether working with brain or muscles you cannot do your best unless you keep the machinery of the body in perfect working order, and maintain a reserve force of nervous energy.

Your blood must be rich, red, nourishing in order to replace the cells and tissues wasted by the activities of life, for otherwise you become weak, nervous, irritable, feel tired and easily discouraged, suffer from headaches, indigestion and sleeplessness, and lose your efficiency.

This age of keen competition demands the best that is in you if you are to succeed, and Dr. Chase's Nerve Food will help you by forming new, rich blood and filling the body with new vigor and vitality.

Mr. John Stevens, Glenella, Manx, writes:—"Three years ago I was so severely down nervous system. I could not rest or sleep, and though I tried several medicines could get no relief. Reading about many being cured by Dr. Chase's Nerve Food, I decided to try it, and after using nine boxes I felt like a different man. I now enjoy good, sound sleep, instead of feeling tired in the morning, and I am strong and healthy, and well fitted for my work."

**Dr. Chase's Nerve Food**

50 cents a box, 6 for \$2.50, all dealers or Edmanon, Bates & Co., Limited, Toronto.
