

The Eastern Guardian

The June Bride

You will find here a wealth of happy suggestions in sterling silver or plated ware suitable for the "June Bride" Of all wedding gifts, pieces in silver constitute the great majority.

They make their appeal, personal, intimate, as nothing else can, and thus attract the attention of the gift giving in preference to all other selections.

We can offer you the largest and most select line of silverware ever shown in this city, and at prices that entirely favor you.

Lens Grinding Do You Know-

That we operate the only Lens Grinding Plant on P. E. Island?

That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most complicated kinds of lenses?

These are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses.

Send your glasses in by mail, you'll get them back promptly and in perfect condition.

Call in and look over our plant.

..*IT PAYS to buy in this Province.

..*MR. HAROLD P. GORDON is the Georgetown Guardian representative.

..*SOLDIER ILL—Geo. McDonald, Brudenell, now in France is in a hospital there, suffering with his eyes. Private McDonald enlisted at the outbreak of the war and has surely done his bit. He expects to return to the trenches shortly.—T.

..*HOLY TRINITY CHURCH, Georgetown, June 23rd, fourth Sunday after Trinity 8 a. m. Holy Communion 11 a. m., Matins and Litany; 2:30 p. m. Sunday School 7 p. m., Evensong 24th, Nativity of St. John the Baptist, 8 a. m., Holy Communion Dr. Abboth-Smith.

..*TALENTED VISITOR—Miss Slip, a talented speaker, will address a meeting in the interest of Missions, in the Baptist Church, Georgetown, Tuesday evening 8 o'clock, June 25th and in the Baptist Church, Montague, the following evening at 8 o'clock Everybody cordially welcome.

..*NEW RESIDENTS—The family of Mr. Anthony Flynn of the P.E.I. Railway, has moved from Charlottetown to Georgetown, and now occupy the residence on Grafton St. formerly owned by Mr. John Renton and lately occupied by the family of Mr. Foster Robertson. These new comers receive a hearty welcome and the good wishes of all for future happiness and prosperity in their new home in the Eastern Capital.—G.

..*WEDDING BELLS—The home of Mr. and Mrs. Alexander D. MacLeod, Alliston, Kings County, was the scene of a very happy event on the evening of Tuesday, the eighth day of June, when their daughter Annie became the wife of Mr. Frederick W. Johnston of Peters Road, in the same county. The nuptial knot was tied by the Rev. Archibald Sutherland, pastor of the Peters Road Presbyterian church, of which the bride has been organist for the past year. Owing to a recent bereavement in the bride's family and to the fact one of her two brothers with the Canadian army in France had been seriously wounded a few weeks ago, the marriage ceremony was performed in the presence of only the immediate relatives of the contracting parties, who were unattended. Mr. and Mrs. Johnston, both of whom are deservedly popular in the community, will make their home at Peters Road.

IN MEMORIAM

The late Dr. John M. Martin of Boston, whose remains were brought to the island accompanied by his widow and laid in the family lot in Valleyfield Cemetery was well known throughout the province. He practiced at Montague for several years before going to Boston. The change of field was occasioned by a desire for a less strenuous climate and exacting practice, but unfortunately this was not attained and he succumbed to pneumonia and died after a few days illness.

The Doctor was an unusually lovable character and his profession gave him ample opportunity of bestowing his benevolences. Many a hopeless derelict claiming birth within a radius of where he now lies found in him a friend and benefactor, and equally have deserving youths away for the first time from the home fireside enjoyed his council and his confidence.

He was instrumental in organizing the Charity Bureau in connection with the Intercolonial Club of Boston with which as well as the Scots Charitable Society he was in association at the time of his death. He was a graduate of McGill University and in post graduate studies obtained the degree of M.R.C.S., London and L.R.C.P. of England. Though far in advance in his profession, Dr. Martin was not the man to subordinate the really important issues of life to the transitory things, but took his stand for Christ many years ago.

A beautiful tribute to his life and memory as paid by Rev. J. W. McKenzie who conducted the funeral service in conjunction with the valued service of the choir and the assistance of Rev. J. C. Martin and Rev. J. M. MacLeod.

Cigarette Papers

Of the great army of cigarette smokers there is probably not more than one in a hundred who know that a ricepaper, in which the tobacco is wrapped, has nothing to do with rice, but is made from the membranes of the beautiful tree, or more commonly of fine new trimmings of flax and hemp. So light is this paper that five hundred of the tiny sheets go to make an ounce.

Hawaii has a chain of fourteen great volcanic craters extending for twenty miles in a straight line.

Minard's Liniment used by Physicians

"Where Canadian Nurses Are"

Military hospitals in all the Allied European countries have Canadian nurses enrolled. Those experienced in infant and child welfare have been sent to Roumania, Serbia and France. Others are serving right here in Canada in military and general hospitals—and home work. Others are wanted for home nursing. Why not join them? Earn \$10 to \$25 weekly. Our course of nursing permits you to remain and learn at home. Send at once for particulars.

A LESSON FROM THE ENEMY

The average 100-acre farm in Germany, at the beginning of the war, produced as much meat as did the average English farm of the same size. The milk production of the German farm was 50 per cent. higher than that of the English farm. The amount of stock kept was about the same, the English farm keeping more sheep and the German farmer keeping more pigs. The amount of manure produced was no less. The grain production of the German farm was nearly double that of the English farm. Finally, 100 acres of tillable land in Germany supported 50 per cent. more people than 100 acres of land, of approximately the same quality, as found in England.

The German farmer has increased the fertility of his soil by the following two fundamental practices:

(1) The liberal use of fertilizer in addition to well-cared-for manure. From 1890 to 1910, a period when the acre yield of grain on the German farm increased 65 per cent., and the acre yield of potatoes 55 per cent., the fertilizer consumption increased from 1,700,000 tons to over 7,600,000 tons.

(2) The feeding of stock of one kind or another of all crop wastes such as grain refuse, straws and stovers, sugar beet refuse and beet pulp silage. In other words, sufficient animals are kept to utilize everything produced.—

—Henry G. Bell.

SUPPLEMENTS VOTED

PORT HILL.

Supplement—\$75. Trustees—James P. Gillis, James A. Miller, Charles Strongman, Arch. Ellis, Secretary.

AUBURN.

Supplement—\$40; increase of \$10. Expenses \$100. Teacher resigning.
