

FAMOUS FEET

how they're kept free from corns...

FLORENCE O'DENISHAWN'S Famous Dancing Feet

"Keeping fit, to a dancer, means first of all keeping the feet in trim. Tight ballet shoes and strenuous dancing are apt to irritate the tender cuticle of the toes." So writes the well-known dancer, Florence O'Denishawn.

"Blue-jay is an indispensable friend. It keeps corns and calluses away."

And what a delightful way to end a corn! A cool and velvety cushion fits over the corn and stops the pain at once. Usually one plaster conquers the corn in 48 hours. But, if obstinate, a second plaster vanquishes the most stubborn offender. At all drug stores.

Blue-jay

THE SAFE AND GENTLE WAY TO END A CORN

MILK

The Perfect Food

Milk is the whole food of infants, the chief diet of invalids and should occupy a large place in the diet of us all.

It contains all the elements necessary for the human body including iron.

It is an enemy to Physical Ills.

Milk is the proper treatment when new blood is needed. It is a living fluid, nearly akin to blood, and quickly absorbed into the circulation. Hence the necessity of Pure Milk.

Get your Milk Supply from The Garden City Dairy and be sure you are giving your family Safe Milk.

If you have not inspected our Plant come in and be assured that our Pure Milk System is all we represent it to be.

Tickets sold in a office and from the Delivery Wagon.

Bernard, St. Edward.

Your Opportunity to Earn Remarkable Profits

WE BELIEVE that an investment made today in the bonds of the French Government and City of Paris loans presents extraordinary opportunities for profit in the future.

Due to the depreciation of French francs a French Government 5% Victory Bond of 1,000 francs (nominal value) can now be bought for approximately \$114.00. The bonds at par and French exchange at normal times would have a value of \$180.00 each.

International bankers believe that the French franc will sell above 5 cents per franc before very long. Just think what this means for French Government and municipal securities when a rise of merely 1 cent in the investment. When the French franc sells at 5 cents per franc or \$50.00 per 1,000 francs French Government Victory Loan and 1,000 francs City of Paris 5% Loan the French franc at 10 cents per franc (a little over one-half of its par value) each bond of 1,000 francs French Government 5% Victory Bond would be worth \$200.00, representing a profit of \$180.00 or over 44% on the \$77.00 invested today.

We made a lengthy and thorough investigation to determine the best way to buy French francs for maximum profit. We believe that the French Government 5% Victory Loan and the City of Paris 5% Bonds afford the best and logical medium for your investment in French securities. These bonds constitute a strictly legal investment for every institution, trust, fund and savings bank in France and constitute a strictly legal investment for every institution, trust, fund and savings bank in the United States and Canada. They are the principal centers of the world. The interest coupons are always paid promptly on the dot and can be cashed in Montreal, New York, London, Rome, Amsterdam (Holland), Copenhagen (Denmark), Stockholm (Sweden), Bucharest (Rumania), Rio de Janeiro (Brazil), Buenos Aires (Argentina) and in fact throughout the world at the current rate of exchange.

French francs, we believe, will unquestionably and undeniably come back to their full gold value of \$180.00 per 1,000 francs. A little over a century ago the United States was a struggling nation, a virtual blank on that time—no Europe, and being then purely an agricultural country with no developed resources, her status was considered very low at the time. Again, after the American Civil War gold sold at a premium of almost 200% in New York but British, French and other investors, more accustomed to that sort of thing because of their international viewpoint, only saw in the depreciated currency an opportunity for profit. They invested in gold bonds and the United States securities. Today the United States forms one of the richest countries in the world.

Probably ten times as destructive by comparison with the last World War (which started in the year 1914) was the war of 1848-1870 between France and Prussia, which resulted in the virtual blotting out of all of Prussian manhood, practical bankruptcy, huge indemnities, and which, in the country, was a disaster for each surviving male, no manufactures and no highly-educated nationalism such as France enjoys today. Prussia once recovered and left behind her a few millionaires to those who had purchased them when things looked blackest for England, and sold them after Wellington's victory because of her.

France, bankrupt at the hands of Bismarck during the Franco-Prussian War of 1870, suffered an experience which is still within the memory of living men and which serves to set at rest any doubt as to the value of the French position in the present. Her public finances; her Government bonds sold down to 7% of their normal value; they looked hopeless—but with a few dollars in the pocket, and in order, discharged all of her obligations, and the franc was again back to par. In fact, records show that France was again back to par within a few months after the war.

England, too, once faced what seemed to be a financial disaster. During the Napoleonic wars British securities sank to next to nothing; but soon after the war Dutch investors, more accustomed to that sort of thing because of their international viewpoint, only saw in the depreciated currency an opportunity for profit. They invested in gold bonds and the United States securities. Today the United States forms one of the richest countries in the world.

Recent history has shown remarkable examples of the results of the war of 1870. After the World War England saw the day that only \$2.25 could be obtained for one pound sterling. English currency had lost about one-third of its international value. At the present time the situation has righted itself and the British pound is once more worth its full value in the international market.

Every Canadian remembers that a few years ago, in 1920 and 1921, when cashed, he could obtain only \$82.00 American money for 100 Canadian dollars. There were predictions at the time that the situation would even be worse but fortunately they did not come true. American investors perceived that purchasing our Government bonds and securities was bound to turn out remunerative to them sooner or later. Our Canadian dollar started to recover its international value and at the present moment the situation is even reversed. We can buy up slightly over 100 American dollars with 100 Canadian dollars. Some of our Government bonds are now selling considerably above par.

The Swiss franc, after the war, was quoted at 15 cents per franc or \$1,500.00 per 10,000 Swiss francs. Today the Swiss franc is quoted above par or at more than \$1,800.00 per 10,000 Swiss francs, showing a gain of \$300.00 on every 10,000 Swiss francs purchased a few years ago. Shrewd investors earned a satisfactory profit on their investment.

The Dutch guilder, Holland's monetary unit, in the wake of the war, depreciated to less than 10 cents per guilder or \$2,000.00 per 10,000 Dutch guilders. Today

TABLE SHOWING PRESENT PRICES

And How Your Bonds Will Increase in Value With Bonds at Par and the French Franc Advancing to:

FRANCS	Present Price	7 cents Per Franc	12 cents Per Franc	15 cents Per Franc
1,000 French Government 5% Victory Bond	\$77	\$140	\$180	\$225
1,000 City of Paris 5% Bond of 1919	\$70	\$120	\$150	\$180
5,000 French Government 5% Victory Bond	\$375	\$700	\$900	\$1,125
5,000 City of Paris 5% Bond of 1919	\$350	\$600	\$750	\$900
10,000 French Government 5% Victory Bond	\$750	\$1,400	\$1,800	\$2,250
10,000 City of Paris 5% Bond of 1919	\$700	\$1,200	\$1,500	\$1,800
25,000 French Government 5% Victory Bond	\$1,875	\$3,500	\$4,500	\$5,625
25,000 City of Paris 5% Bond of 1919	\$1,750	\$3,000	\$3,750	\$4,500
50,000 French Government 5% Victory Bond	\$3,750	\$7,000	\$9,000	\$11,250
50,000 City of Paris 5% Bond of 1919	\$3,500	\$6,000	\$7,500	\$9,000
100,000 French Government 5% Victory Bond	\$7,500	\$14,000	\$18,000	\$22,500
100,000 City of Paris 5% Bond of 1919	\$7,000	\$12,000	\$15,000	\$18,000
