CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

Ill Gotten Money Too Nervous To Sleep

(Special to The Guardian) TORONTO, Feb. 14.—A Canadian Bank was utilized through its affiliation with a German American Bank to finance a Paris conspiracy against the War Government of France.

It is regrettable but it seems inevitable that no law against trading with the enemy and by desire on the part of British Bankers to avoid trading with the enemy can utterly deprive Germany of power to arm agents with the cash. How many drafts were cashed before German gold finished its work in Petrograd? German agents had a five hundred thousand dollar draft in Paris with the help of an American and Canadian Bank. These agents almost purchased in Paris a supply of the same sort of treason that German gold did purchase in Petrograd when revolutionary Russia was taken out of the war.

WINTER RHEUMATISM

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. The weather or the cold weather may start the tortures of rheumatism, but it is not the cause. The cause is in the blood and the blood only. Victims of this winter malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood which may shortly leave the victim pain-racked and helpless.

There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary relief, but cannot possibly root the trouble out of the system. That can only be done by the rich, red, new blood which Dr. Williams' Pink Pills actually make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin curing yourself today by the use of Dr. Williams' Pink Pills, and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health. You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

100 Years of Healing

is indeed a phenomenal record of success, and the only article of its kind that has this proud record is

JOHNSON'S ANODYNE LINIMENT

Internally—Coughs, Colds, Grippe, Sore Throat, Croup, Chills, etc. Externally—Sprains, Strains, Muscular Rheumatism, Burns, Bruises, etc. A wonderful anodyne that Soothes Heals Destroys Pain.

Nerves Wrecked by Accident—Was Afraid to Go in a Crowd or to Stand Alone—Tells Of His Cure

Much sympathy was felt in this city for Mr. Dorsey, who met with a distressing accident when his foot was smashed in an elevator.

The shock to the nervous system was so great that Mr. Dorsey was in a pitiable condition for a long time. He was like a child in that he required his mother's care nearly all the time. He feared a crowd, could stand alone and could not sleep because of the weakened and excited condition of his nerves.

Detroit doctors did what they could for him, but he could not get back his strength and vigor until he fortunately heard of Dr. Chase's Nerve Food. Under the expert care of Dr. Chase's Nerve Food he recovered. Dr. Chase's Nerve Food proves to be exactly what is needed in so many cases of exhausted nerves. It is composed of the ingredients which nature requires to form new blood and create new nerve force. For this reason it succeeds when ordinary medicines fail.

Mr. Laurence Dorsey, 39 Stanley street, London, Ont., writes: 'About three years ago I got my foot smashed in an elevator in Detroit, which completely wrecked my nerves. I do not sleep well at night, but they did not seem to be able to help me. My nerves were in such a state that I could not go down town alone or go anywhere where there was a crowd. Sometimes my mother would have to sit and watch over me at night, and sometimes I could not get any sleep at all. But one day last winter I commenced using Dr. Chase's Nerve Food and before I had completely used the first box I could see a difference in my condition. I continued using these pills for some time. The result was splendid. I feel so much better, can sleep well at night, can go out on the street and attend gatherings like the rest of people. I am so pleased to be able to tell you what Dr. Chase's Nerve Food has done for me, and to recommend it to other people.'

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Balfour Aids Lloyd George

LONDON, February 13.—Arthur J. Balfour, secretary of Foreign Affairs speaking in the debate in the House of Commons, supported the Prime Minister, and contended that even President Wilson, so far as he was concerned, did not profess to find definite formulated propositions in Count Czernin's speech.

It was a misunderstanding, he said, to assume that the Versailles council had to deal with diplomatic and political issues; the real business was military.

The Government's view, added Mr. Balfour, 'is that the attitude of the Central Powers shows that for the moment diplomacy is entirely out of court. It was the Central Powers who banged the door and by the mouth of the Chancellor and the Kaiser proved that they are as far removed as three years ago from accepting the ideals to which President Wilson has given classical expression.'

Mr. Balfour said he felt bound to say that the conclusion the Versailles Council had reached was a correct one, and that no glimmer of peace dawned on the horizon was to be derived from the Von Hertling and Czernin speeches. Had anybody he asked, succeeded in extracting from the more pacific of the two speeches anything that might be regarded as satisfaction of the Allied war aims?

A member—President Wilson did. Mr. Balfour, continuing, admitted that President Wilson saw a tenderer tone and a softer atmosphere in Count Czernin's statements.

Only the Tone 'President Wilson was amply justified, Mr. Balfour said, 'in dwelling on the difference in tone, but when you leave the one and come to the other, definite propositions you will not find them in Count Czernin's speech, and as far as I am aware, President Wilson did not profess to find them.'

Mr. Balfour argued that three definite speeches by President Wilson, and Premier Lloyd George early this year made clear the aims of the Allies, but that even Count Czernin was not prepared to accept any of President Wilson's present aims.

'It is not the Government's view,' Mr. Balfour continued, 'that because the Versailles conference referred to the prosecution of the war that no efforts have been made by belligerent countries to come to terms. The view of the Government is that the attitude of the Central Powers shows that for the moment diplomacy is entirely out of court. It was the Central Powers who banged the door and by the mouth of the Chancellor and the Kaiser proved that they are as far removed as three years ago from accepting the ideals to which President Wilson has given classical expression,' and which represents the common view of America and Great Britain and their Allies.

Not For Terms 'The Central Powers abundantly have shown that they do not mean to come to terms. At any rate Germany has shown it. The difference in tone of Von Hertling and Czernin might show that Austria is more nearly in a reasonable frame of mind than her all-powerful ally, but the most microscopic and intently investigated opinion of Von Hertling's speech shows not the least symptoms that the end of militarism in Germany is near. Their successes, so little due to fighting on the Eastern front, have at once shown what has been throughout the true German militaristic spirit.

Add to our territory, secure our military extension by acquiring a

AUTOMOBILES IN CANADA

There is One Auto for Every Forty of Population. Nearly Seventy-six Thousand New Cars in 1917.

One automobile for every forty individuals in the country is Canada's record. This might be said to represent one car for every eight families in the Dominion, and probably involves a capital expenditure of \$200,000,000 or a per capita investment of \$25. It may mean that during the year just ended the people of Canada have spent no less than between \$30,000,000 and \$40,000,000 on the automobile alone.

Accepting the following figures as the most authentic available, the increase of the cars operating in Canada during 1917 over those registered in 1916 shows that, in spite of war conditions, the automobile is constantly growing in popularity. The comparison of the two years is as follows:—

Table with 2 columns: Province/Territory and 1916, 1917. Rows include Alberta, British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario, P. E. Island, Quebec, Saskatchewan, and Total.

New Cars, 76,000.

Without making any allowance for cars scrapped and replaced by new cars there were nearly 76,000 new cars registered in Canada during 1917, more cars than were operating in the Dominion in 1914. The number of cars in the province of Alberta and Saskatchewan have more than doubled in one year. With the increase in Manitoba it shows that the farmer is keeping well abreast of the times, and with his greater prosperity is demonstrating that he feels he can at least put a good deal of his money in circulation for modern conveniences.

Ontario continues to keep well in the lead with more than the total of any other three provinces combined. Of the cities Toronto maintains its

lead of many thousands. A comparison of the number of the cars in the larger cities is as follows:—

Table with 2 columns: City and 1916, 1917. Rows include Calgary, Edmonton, Halifax, Hamilton, London, Montreal, Ottawa, Regina, Saskatoon, St. John, Toronto, Vancouver, Victoria, and Winnipeg.

Commercial Cars.

No consideration has been given in the above figures to the commercial cars. These are included along with the pleasure cars and constitute the smaller portion of cars registered in most provinces. In British Columbia there are 2,650 commercial cars and there are 5,000. Close figures are not available for the other provinces. There are many ways of profitably analysing the distribution of cars—by makes, by territories, by values. As no one has hitherto attempted to show the distribution in the rural communities and in the smaller places, so far as the writer is aware, the percentage proportion of cars in places of 5,000 and under, is as follows:—

Table with 2 columns: Province/Territory and Percentage. Rows include Alberta, British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario, P. E. Island, Quebec, and Saskatchewan.

MOTHERS, LISTEN!

When work exhausts your strength, when your nerves are irritable and restless, when ambition lags and you feel rundown, you need and need quickly the rich, creamy, nourishing food in

SCOTT'S EMULSION

to check your wasting powers, enliven your blood and build up your nerve force. Scott's is helping thousands and will give you the strength you need.

EXTRAVAGANCE IN MANITOBA

WINNIPEG, Man. Feb. 16.—Charges were made in the Manitoba legislature by the leader of the opposition, P. A. Talbot, against the Norris government, of extravagance, mismanagement of capital funds and general inefficiency. Mr. Talbot spoke in reply to the budget speech of the Hon. Edward Brown, provincial treasurer. The leader of the opposition presented a series of comparisons between the cost of administering the provincial affairs in 1914—the last year of the Roblin regime—and the last fiscal year.

'It cost \$561,680 more to govern Manitoba last year than it did in 1914,' declared Mr. Talbot. He added that, on a careful computation of costs, administrative expenditure should have been at least \$128,984 less than in 1914. Figures showed conclusively, said Mr. Talbot, that it cost \$1,280,680 to administer the province last year. 'It is time to call a halt,' the speaker continued.

A small boy is never so full of emotion that he has no room for dissent.
