Why A Farm Needs A Milwaukee Air Power Water System

Combined in a few words the answer is: Because it is the best investment a farmer can make. Time spent in carrying water, in pumping water and in taking the stock to the watering trough is time that can be used to better advantage at other work. The matter of home comfort also is important. Isn't the wife of the farmer just as good as the city woman?

What about the children? Is there any reason why they should not have a home equipped with a bath room and inside toilet just like their city relations? And to think what it means in case of fire to have a hose handy and eighty pounds of water pressure to fight it with. Call in the next time you are in town and look over our demonstration outfit.

In this day of wide-spread publicity every merchant casts about to find the most effective medium. Fox and Fur Notes

Foxmen!—Do not fail to realize that you are face to face with a great responsibility. Not only your own money is invested in the Fox industry, but the money of those who are shareholders in your company. You are in duty bound to protect that money. You must realize that haphazard methods will no longer avail, but that to protect the future of the industry foxmen must unite, must co-operate with one another. More production necessarily demands wider markets, more consumers. More consumers can only be obtained by judicious and wide advertising; advertising means the expenditure of money. The advertising outfit must be shared by many in order that the load may be light for each individual. The Silver Fox Fur Selling Association is being organized on a co-operative basis. Over \$50,000 has now been subscribed by men who have the progressive spirit, the necessary vision and business foresight to see the value of the work of those whose burden others must carry?

The organization meeting of the Association is on Tuesday, September 12th in Summerside. Are you among those who have not yet subscribed? If you are, there is yet time. Send in your subscription now in order that you may have a voice at this meeting. Can you afford to remain indifferent and see your neighbors do your own work? 2738.

MEETING.—A meeting of the Pastime Club will be held in their rooms tonight at 7 o'clock. Election of officers.

ANOTHER SHIPMENT OF FOX NETTING.—Last week the Rogers Hardware Company received their second shipment of fox netting. The first was quickly exhausted. The superior quality of the wire and its finish appealing instantly to critical fox ranchers. As the season for building pens is now very quickly taken up so the firm advise customers to place orders as soon as possible.

FOX PELTS OR SKINS TAXABLE.—The collector of Inland Revenue, Charlottetown, has been informed that a Sales Tax of 1 per cent is to be collected on all fox pelts or skins sold, and that the firms, companies and individuals who own the ranches are responsible for the collecting of the tax when selling fox pelts for re-sale or for being further processed. The collector of Inland Revenue, Charlottetown, Ranchers in Prince County will kindly forward their returns to W. J. Whitney, Inland Revenue Officer, Summerside.
