**Blind WITH ECZEMA**

For three years the little son of G. Romanuk, of Edenbridge, suffered with a bad attack of eczema, which every thing failed to cure until they used Zam-Buk. The father, writing to the Zam-Buk Co., says:  
 "For three years my little son suffered with a severe attack of eczema, which many doctors pronounced incurable. For two years the sores on his eyes and forehead were so bad that he was unable to see. We tried everything, but without any benefit and he was in a shocking condition when Rabbi Shalit recommended Zam-Buk. This wonderful ointment has entirely cured my boy, and I cannot express my gratitude for his marvellous recovery."  
 Zam-Buk is also unequalled for ringworm, scalp sores, salt rheum, old wounds, blood-poisoning, piles, burns, cuts, scalds, and all skin injuries. 50c. box, for \$1.25. All druggists and stores or Zam-Buk Co., Toronto. Send 1c. stamp for postage on FREE trial box!

**HAROLD SHARPE DEAD**

The deep sympathy of the community is expressed to Mr. and Mrs. W. W. Sharpe on the death of Harold Sharpe at the front which occurred on September 9th through gunshot wounds, word of which was received here by Mr. Sharpe on Monday last, Sept. 16th.

Harold was one of the Stettler boys who enlisted in 1915 the list of which is becoming smaller each month through casualties, sickness and early deaths. He was widely and favorably known throughout the community, and a large circle of friends cherish the memory of one whose life was an example to all with whom he came in contact.

He was born in Summerside, P. E. I. and came west in 1903, residing first in Wetaskiwin. In 1913 he came to Stettler, and resided first in town and then on the farm north of town until 1915 when the call came to him to enlist. At that time voluntary service was a matter of individual judgment, but Harold did not hesitate to take up his part in the conflict. He first joined the Army Service Corps, and proceeded to England in May 1916. He was one of the first four in merit among 100 candidates in the examinations for motor ambulance drivers, but even with this success he wished to get into the infantry, and he finally succeeded in re-joining France in Jan. 1918 as a member of the C. E. F. stationed in northern France.

He took part in all the fighting of this year and was gassed in March. Returning to the field after hospital treatment, he was again wounded on

**Are You Wearing "Tired" Shoes?**

**FOOTWEAR**—like people—needs a rest once in a while. Your shoes will wear longer and look better if they are not worn continuously.

It is a real economy to have at least two pairs of shoes in service at the same time, and to change them often. It means that your shoe money will go farther, for in the long run you will buy fewer pairs of shoes. It is a fact that a pair of shoes will wear more than twice as long when worn every other day instead of every day in the week.

Nowadays, when prices are high, and it is necessary to conserve leather for the army, such economy is doubly important. It is important for the individual and for the nation.

Take care of your shoes. Keep them well polished, let them dry slowly and naturally, and do not wear the same pair every day. It will pay you to do this.

**There is the Mending to Do**

**WHEREVER** there are children there is plenty of mending to do, and what mother does not dread the mending of clothes and stockings?

It may seem easy work, but there is no more severe strain on the eyes, and eye-strain is nerve-strain.

Unfortunately, it is usually necessary for the busy mother to leave the mending until some quiet hour when the children have been got off to bed. This necessitates working by artificial light, with unusual straining of the eyes.

It is this straining of the eyes which makes one feel so tired after mending, sewing, shopping or doing fancy work.

When you think of how constantly the eyes are employed, and of the continual changing of the focus to suit the distance of the object viewed, you may not be surprised to know that the optic nerve consumes an enormous amount of nervous energy.

For this reason straining of the eyes brings on fatigue, and often leads to nervous breakdown.

There is no magical way by which exhausted nerves can be restored.

It takes time and patience in order that the depleted nerve cells may be nourished back to health and vigor, but you may be sure of satisfactory results if you use Dr. Chase's Nerve Food regularly.

We know that Dr. Chase's Nerve Food is composed of the vital substances which go to the rebuilding of the nervous system. We have the utmost confidence in its curative properties, because we have seen it tested in so many thousands of cases. But how are we going to prove this to you unless you try it? You are the one to be benefited, so it remains for you to make the test.

Try it when you feel tired out and discouraged. Try it for sleeplessness and irritability. Try it for nervous headache and indigestion. It is not a mere relief, and for this reason you must persevere in its use until the lost vigor is restored to the nerves. The fact that the results are both thorough and lasting will encourage you to continue the use of this food cure until you feel strong and well.
