**QUEEN'S COUNTY GUARDIAN**

Head Offices in New Prowse Block—Charlottetown

The S. S. Coban begins discharging a cargo of reserve run mine coal this morning for Peake Bros & Co.

Any good city girl with a fair education desiring to learn type setting should apply at Guardian office.

J. H. McLean, of John McLean & Son, Montague, who has been in the City for a few days, returns home today.

Miss Lillie Campbell, of Arlington, Mass., and Miss Flora MacLeod, of Boxbury, Mass., have arrived home. They intend spending their vacation with their parents.

This week the new firm of W. E. Webb & Co., opposite Prowse Bros. in this city, are offering a fine lot of cups and saucers at one dollar a dozen. They also have the plates to match. Unfortunately last week in connection with this firm's opening announcements, tumblers were advertised at ten cents a dozen instead of forty cents, through no fault of Mr. Webb, it being a printer's error. The goods were excellent value at the forty cents, and in consequence they had a large sale. No doubt there will be an equally large demand this week for cups and saucers as well as for other lines carried.

Surely there is someone to undertake the running of a light sight-seeing team during the summer months. There should be very little expense attached to the venture. All that is necessary is two pairs of wheels with two axles, two strong springs and backboard bottom with half a dozen or more seats and a canopy top. There is no doubt but the entire rig could be quickly got together by some enterprising carriage builder in this city. With two horses or ten or twelve each morning ending the trip in two or three hours. There should be money in it for some one ahead person. The first applicant The Guardian will advertise free in local daily during the season, the place and hour of departure.

A wide awake business man in Ontario writing to a member of The Guardian staff says: "No doubt you are aware that you now have one of the largest circulations in Canada, and there are few mediums of more value from an advertising standpoint—in fact, I doubt if the returns from any paper would prove so satisfactory for the general advertiser."

The S. S. Bonavista sailed at 5.30 o'clock last evening for St. John's, Newfoundland, via Sydney and North Sydney. C. B. Her cargo, consisted of seventy head cattle, eight horses, sixty sheep and fifteen boxes pigs on deck and two hundred and sixty bags oats, twelve hundred bags potatoes, one hundred cases milk and sundry other cargo underdeck. P. Blake and B. Les Stevens were outward passengers by her.

The 200,000 club will present the Deputy Ministers' Ball and Gardens a petition for the following: The equalization of freight and passenger rates. That the movements of the winter steamers be placed on built-in boats at the various stations on the mainland. Improved passenger accommodation from St. John's to Paines Junctions to Pictou and Pr. du Chene. That the existing obstacles to oyster culture be removed.

It is time something was being done about the bathing houses. The proposal to build an expensive affair does not seem to find favor, as people will adapt themselves to the hours the tide suits if only some place is built to afford them privacy while dressing and undressing, and there seems to be no division of opinion as to Victoria Park being the proper place. These structures would not cost much and would afford tourists and citizens an opportunity to indulge in the splendid bathing which is so loudly advertised but so difficult of access.
