Can you arrange the above sets of jumbled letters into the names of six well known fruits. If so, **you can share in the distribution of the above prize.** It is no easy task. But by patience and perseverence you can probably make out 4 or 5 of them. To the person who can make out the largest number we will give the sum of One Hundred Dollars. To the person making out the second largest number the sum of Fifty Dollars. To the person making the third largest number the sum of Thirty Dollars. To the person making the fourth largest number the sum of Twenty Dollars. Should two persons send answers equally correct, the first two prizes will be divided between them, (each receiving $75.00). Should three send in equally correct answers, the first three prizes will have to be divided, (each receiving $60.00). Should four persons send equally correct answers, the whole sum of $200.00 will be equally divided (each receiving $50.00), and so on in like proportions, provided they comply with a simple condition about which we will write as soon as answers are received. **We do not want a cent of your money when you answer this advertisement.** If you can find any of the names, **write us today enclosing stamp for our reply. Do not delay.** To help you we have put a mark under the first letter of each name.

GATLIN 3 DAY LIQUOR TREATMENT IS GUARANTEED

No matter what your opinion or prejudice may be, the fact remains that the Gatlin 3 Day Drink Treatment does the work. It thoroughly eliminates every vestige of the stored up alcoholic poison from the system in just 3 days, and leaves the patient in the condition he was in before taking his first drink.

The Result Is Guaranteed At The End Of Three Days Or No Charge

Instead of taking a four or five weeks course of hypodermic injections the worst cases are entirely restored to normal condition by the Gatlin Treatment in exactly 3 days. If, at the end of that time the results are not entirely satisfactory to the patient, the Treatment will not cost a cent. This Guarantee of satisfaction is backed by a responsible Concern with large Capital.

The Gatlin Home Treatment is for those who cannot find it convenient to come to the Institute. Certificated Nurse can be sent within a reasonable distance, without extra charge.

Write today for booklet and full particulars.

The Gatlin Institute Co. Ltd.,

46 Crown St., St. John, N.B. Also Montreal & Toronto

MOLASCUIT MEAL

(Hughes' Patent)

THIS CATTLE FOOD is a pure product of the Sugar Cane, the richest grass in the world, only the digestible pith of the cane being used to absorb the molasses, 20 p. c. of this pith will absorb 80 p. c. of concentrated molasses. Molascuit is pure cane molasses, minus the water, which is dried out, and replaced by the digestible pith.

It is the most easy, practicable and economical means of handling molasses, and in the best form for feeding to all stock.

When fed to cows, it will increase the quantity and quality of the milk.

When fed to horses it improves their condition and working powers. Give them a handful or so with their other food when they come in tired after a day's work, reducing the oats by the amount of **MOLASCUIT** added.

MOLASCUIT is extensively used in Demerara, Argentine, South Africa, Mauritius, India, Australia and of course in England.

The Canadian farmer will not be slow to grasp its value.

MOLASCUIT is the richest sugar food, containing as it does over 50 p. c. of sugar.

WEDNESDAY.

REV. DR. MACKINNON IMPROVING.—The Charlottetown friends of Principal Mackinnon, who is at the Victoria general hospital, Halifax, having undergone an operation for appendicitis, will be pleased to learn that he was reported Sunday night to be doing very well.

WINTER DEBATES.— The boys of St. Dunstan's College are now speculating as to the prospect for good debating society this year. On Saturday those eligible for membership in the "St. Thomas Literary and Debating Society," met and elected the following officers:—Moderator—Rev. Dr. Hughes. President—Frank H. McPhee. Vice-President—M. McGuigan. Secretary.— J. McGuigan. Committee.— J. MacDougal, R. McCarville, H. E. Crepeau. In the past, the debates in this Society were conducted under the form of a Mock Parliament; and if the members this year decide to continue that excellent custom the actual debating will probably not begin till after the Christmas holidays. In the meantime all the preliminaries will be arranged.

VISITING CHARLOTTETOWN. Mr. J. F. Simonson, President of the Middlewater Cattle Company, of Middlewater, Texas, who is associated in business with the Hon. Frank O. Lowden, son-in-law of the late George M. Pullman of the Pullman Car Company, and the first man whom Dr. Young interested in the Karakule sheep industry, arrived in Charlottetown yesterday, bringing with him 45 Karakule sheep, which he sold to the syndicate composed of Dr. S. R. Jenkins, Mr. W. H. Tidmarsh Mr. Owen, and Dr. Young. Before Mr. Simonson returns he expects to give P. E. Island people the benefit of his knowledge of the first flock of Karakule sheep imported by Dr. Young and how it happened that one Crawford came in possession of some of the inferior ones, some few of which have since been purchased by parties in Nova Scotia and Moncton, N. B. The only interest Mr. Simonson has in this matter is that he has been communicated with by the Provincial Department of Agriculture who are anxious to ascertain all particulars relative to the Karakule industry which has now become such a feature of fur farming in this province.

THE FRUIT SHOW.—Today the Fruit Show is being held in the basement of the addition that is being made to the Agricultural Hall. There will also be a convention of farmers' Institute delegates, who will discuss various resolutions of interest to the farmers generally. The judging at the Fruit Show will be done by Mr. J. A. Moore, Hazelbrook, and Mr. John Johnson, Long River, and on Thursday at 9:00 a. m., the students of the Long Course in Agriculture will give a demonstration in the packing of apples. Mr. A. R. Dewar has been giving instruction in this line and prizes are being offered by the Department of Agriculture for the best packer. After the apples have been packed, they will be for sale, as this will end the instruction in packing of apples this year. This evening a public meeting will be held in the hall at P. W. C., which will be addressed by the Premier, the Commissioner of Agriculture and others. Everyone interested is invited to be present at these gatherings. The Fruit Show is held in the basement of the new addition, entrance from Kent St., the farmers' convention in the lecture room in the Agricultural Hall, entrance from Fitzroy St.

KARAKULE SHEEP.— In The Guardian's report yesterday of the bulletin issued by the United States Government on Karakule fur raising, a typographical error made it appear that some Cotswold and Lincoln ewes were not being bred to a Karakule ram. This should have read—"are now being bred." In conversation with Dr. Young yesterday. The Guardian learned that a number of half-blood Karakule-Lincolns, Karakule-Cotswolds and Karakule-Persian Fat-rumps were sent by himself and Mr. Simonson to the government furriers in New York, who dressed them and valued them in a report to the government at $10 and $12.00. A photostat of this report, together with a letter certifying to it from the department, is now in possession of Mr. J. Walter Jones, Charlottetown. Dr. Young will leave for Washington in a few days in order to appear in person before the Department of Animal Industry where he will petition for a special clause to be inserted in the next bulletin issued by the government covering the above facts. Dr. Young remarked, laughingly, that this bulletin should be convincing proof to the Maritime breeders that those of them who purchased Persian fat rump sheep with the expectation of getting from them the valuable Persian fur produced only by the Karakule breed of sheep, will find themselves sadly disappointed.

THURSDAY

STORY WRITER.— The Boston Post of November 28th contains an interesting story entitled "John" written by Miss M. Louise McMahon, Boston. Miss McMahon is a daughter of Mr. and Mrs. James McMahon, now of Boston and natives of Charlottetown. Miss McMahon, who is yet in her teens, will have the best wishes of her many Island friends for continued success

CO-OPERATIVE FRUIT CO.— Following the annual meeting of the Fruit Growers' Association in the Agricultural Hall yesterday, the annual meeting of the Co-operative Fruit Company was held. The chair was taken by the president, Mr. A.E. Dewar. The minutes of the last meeting and the treasurer's report were ciation of the work being done by this Association and after discussion on the general affairs of the Association, the meeting adjourned.

NEW TWO MILLION DOLLAR COMPANY.—Arrangements are being made for the flotation of another gigantic fox company with its headquarters in Charlottetown. It is to be called the Eastern Canada Fur Farming Company, Limited. Its capital is to be $2,000,000 divided into 200,000 seven per cent. preferred shares at $5 each and 200,000 ordinary shares of $5 each. It is to be incorporated under the Nova Scotian law.

REMOVING TO CHARLOTTETOWN.— Mr. D. J. Bonnell, advertising manager with Messrs R. T. Holman, Ltd., says the Summerside Farmer, has resigned the position which he has so ably filled for some three years and will in future devote his business ability to the interests of the fox industry at Charlottetown. Mr. and Mrs. Bonnell will be greatly missed in Summerside, having being amongst our best citizens. Whilst regretting his departure we wish Mr. Bonnell prosperity in his new venture

MAKING GOOD.—Mrs. W. N. Riggs has returned to Charlottetown from a two-weeks visit through Nova Scotia and New Brunswick. She last visited Sydney, where she arrived just in time to meet her son Joseph before he departed for Bridgewater to take the position of accountant in the Bank of Montreal at that place. This is the fifth promotion for "Joe" since he entered the bank about four years ago, he having worked in Chatham, where he entered, Lunenburg, Woodstock and Sydney. It is plainly evident that he is making good, which will be good news to his many friends in Charlottetown.

A COMPARISON.—In the Montreal Herald of Monday a list of the prevailing market prices in that city is given, among which appear the quotations on butter, eggs and poultry. In comparison with the prices of the same articles here, it is seen how exorbitant the quotations in the Upper city are. Eggs, there, are selling at 65 to 75c. per doz., while here they go at 25 to 38c. per doz.; a difference of 40 and 37c. Choice butter, in Montreal, is going rapidly at from 30 to 32c. a lb. The dealer here is asking 25 to 28c.; a difference of 5 and 4c. In like manner the prices of poultry—chickens, fowl, geese, ducks, etc.—are far above what the dealer in Charlottetown asks and receives for his produce.

Is Britain Tired of Canada?

We don't think so, but we are sure no man has any chance of curing corns unless he uses Putnam's Corn Extractor. It takes out root, stem and branches, cures painlessly in 24 hours. Use only Putnam's, 25c. at all dealers.

—DIED TUESDAY.—In the death of Mr. Matthew Higgins, which took place on Tuesday evening, Lot 16 has lost one of its best citizens, who for over a quarter of a century resided there. The deceased was born in De Sable sixty years ago, and was always highly respected in every community where he has resided. He was an active member of the Presbyterian Church and also of Trevor L.O.L. He leaves to mourn a wife and one son. The funeral takes place to-day from his late residence to Lot 16 cemetery. The services at the grave will be conducted by Trevor Lodge.—J.

Not a moment to wait

When the little ones arrive cold and hungry from school an Oxo Cube in a cupful of hot water is ready in a minute—and makes a delicious nourishing beverage—warming—invigorating—and filling them with the joy of life.

Compare a Loaf of "Beaver" Flour Bread With One Made of Western Wheat Flour

You never realized what a difference there could be in quality. **"Beaver" Flour loaf** is compact like cake—the texture is fine—smooth, even, regular—the color beautifully white—the crust, a rich, crisp brown—the taste, real homemade. Western wheat loaf is full of holes—texture, coarse—the color seems gray compared with the snowy whiteness of "Beaver" Flour bread—and the flavor is almost tasteless.

"Beaver" Flour has a quality all its own, because it is a blended flour. It is Ontario fall wheat flour—with just enough Manitoba spring wheat flour to increase the strength and make the dough stand up in the oven.

It is this combination—arrived at by years of experimenting and testing—that gives "Beaver" Flour both quality and quantity.

It is because "Beaver" Flour is a true blended flour and made of the best wheat in the world, that it is equally good for bread and pastry, and best for both.

"Beaver" Flour is immeasureably superior to any western wheat flour for all kinds of baking. You can prove this to your complete satisfaction, the very first time you use it for Bread, Rolls, Biscuits, Cakes, Pies or Pastry.
