SHEEP AND DOGS.

SIR,—In The Guardian of March 8 h you mentioned that the greatest dra - back to sheep raising on P. E. I. was dogs. This might be the chief reason, although a great many farmers gave up keeping sheep on account of the scarcity of poles for fencing. However as the woven wire fence has taken the place of poles, that difficulty is overcome, and a great many farmers would go in to sheep raising if it were not for those useless dogs.

The census of 1901 shows a loss of nearly 3,000 sheep in this previous ten years and we may assume a decrease of nearly 2,000 more in the last six years, which shows a loss of about 5,000 ewes in this country in the last sixteen years. And as these ewes are worth $5 each it means a loss of $25,000 in sheep alone. And if each of those sheep reared a lamb last year the price of $3.50 per lamb would mean a loss of nearly $18,000. It is too bad to see such a profitable industry going down, as there is not a farmer on P. E. I. who owns 50 acres of land but what could keep from 8 to 12 ewes each year. The product of these would be worth about $50 a year to him, besides destroying the weeds and keeping up the fertility of the soil.

You also stated that other States and Provinces demand licenses from the owners of dogs. Now as this would involve considerable expense and the farmers do not like to see the Government raising too much taxes, I would suggest that a tax of $1 a year be placed on every dog, the tax to be collected by the Sec'y of Schools, to be used for the purpose of paying farmers for the loss of sheep by dogs in the community where tax is raised, and if not required every year to be placed in the bank and at the end of every five years to be handed over to the Farmers' Institute, or where there is no Institute to be taken for the repairing and building of schools.

It would be a good thing for the Farmer's Institute to call special meetings and take this matter up at once and get some law passed at the present sitting of Parliament.

DOOM OF CZAR REVOLT AT HAND

Aladyn Declares That The Aristocray is Over A Volcano

NEW YORK March 9—Cable despatches received in New York today from St. Petersburg indicate that the fall of the czar's autocracy is near at hand.

Clashes between the people and the troops are expected at any moment, and the pending revolution promises to be more bloody than the several revolutions preceding it. The peasants through the empire are arming, and in many provinces of the empire the outbreak is expected momentarily.

New York, March 9 — That the cables from Russia are not over pessimistic about the affairs of the czar's empire was shown by the speeches in Carnegie Hall by Alexis Aladyn, former leader of the peasant party in the douma, and by N. W. Tchaykovsky, who is known as the "father of the Russian revolution."

"The Russian aristocracy is dancing over the crater of the volcano," said he "and even now it is too late to avoid bloodshed and violence."

The remarks of Mr. Aladyn were of the same tenor, predicting bloodshed and violence.

Mr. Aladyn said he not believe that the Americans would permit their governor to give the Russian government any aid in the coming struggle. In concluding his speech Mr. Tchaykovsky said "The autocracy of Russia and the czar had many chances yet those have been ignored; only when it is too late to mend will they realize their impending doom."

ALMOST DEAD OF BRONCHITIS.

Few people have suffered more than Jno. P. Taylor of Dyment, P. O., Ont. Today he is well and writes,—"I must tell you how much Catarrhozone has been to me. I was so bad with bronchitis sometimes I thought it would soon be over with me. A spell of choking would come on that left me prostrated and weak. Since using Catarrhozone I have had no trouble at all. It strengthened my throat, stopped the cough, gave me breathing and entirely cured." Just the usual experience. Catarrhozone invariably cures whether Bronchitis, Asthma or Catarrh. Two sizes, 25c. and $1.00 at all dealers.

SALT RHEUM CURED.

By Dr. Williams' Pink Pills After Doctors' Treatment Had Failed.

Skin trouble indicates that the blood is in a poisoned state. It is the poison in the blood that causes blotches, pimples, eczema, boils, saltrheum or bad complexion. Dr. Williams' Pink Pills make rich red blood that banishes these troubles. Mrs. Osborne, wife of Andrew Osborne, clerk of the Township of Kennebec, Frontenac County, Ont., writes "I cannot speak too highly of Dr Williams' Pink Pills for they did for me what doctors failed to do. Some years ago I was attacked by saltrheum in the hands, caused by a rundown condition of my blood. I endured the tortures of this terrible disease for some time, and only those who have been similarly afflicted can realize my suffering. At times my hands were so bad that I could not comb my hair, I was helpless. I consulted a doctor but his treatment failed to benefit me—my case seemed incurable. While in this condition I read of Dr. Williams' Pink Pills and decided to give them a trial. Soon I began to improve, and by the time I had taken about a dozen boxes I was completely cured and I have not since had the slightest return of the trouble. I can heartily recommend Dr. Williams' Pink Pills to all similar sufferers."

You can't cure eczma, saltrheum and skin eruptions with salves and outward applications. These troubles are rooted in the blood and can only be cured through the rich, blood Dr. Williams' Pink Pills actually make. This simple medical fact should be known to every one. Dr. Williams' Pink Pills not only cure skin diseases, but all other troubles caused by bad blood, such as anaemia, with its headaches, sideaches and backaches, heart palpitation, indigestion, rheumatism, neuralgia, St Vitus dance and the special ailments that afflict so many women and growing girls. You can get these pills from your medicine dealer by mail at 50 cents a box or six boxes for $2.50 from The Dr Williams' Medicine Co, Brockville Ont.

JAPANESE LOAN MOVES SLOWLY

LONDON March 9.—In the opinion of of the morning newspapers the Japanese conversion loan of $115,000,000, the prospectus of which was issued yesterday, is not likely to get such an enthusiastic reception as the previous issues. The Morning Post, in its financial article, voices the disappointment of the market that the new loan is merely a charge on the general revenue and is not secured by the customs as is the case with the previous Japanese loan. This paper says: "It is generally felt that Japan will have a heavy task in establishing its finances on a sound basis and investors would have been better satisfied to see specific revenues assigned to the service of the new loan."

The striking surface of the Smith Premier Tri-chrome Ribbon on the Trichrome machine represents 270 feet of use. The striking surface on competing machines measures but ½ of this. The Smith Premier thus saves you ½ of your ribbon bill alone—this can be considered in a large office. A Milne Fraser, 157 Hollis St, Halifax, N S. 3-14i3i
