IN MEMORIAM

DR. R. MOLEMAN

The Boston Globe announces the death in Quincy of Dr. Roderick McLennan, after several weeks illness of heart trouble and other complications. He was 64 years old.

Dr. McLennan has been a practicing physician in Quincy for 26 years. He was a native of Prince Edward Island and was educated at Toronto University, finishing his medical studies at Trinity Medical College in Canada. He had been a member of the staff of the Quincy City Hospital ever since the hospital opened in 1890. He was the examiner in anatomy of the Nurses' School connected with the hospital.

Twenty years ago Dr. McLennan married Miss Caroline M. Woodman-see, then head nurse at the Quincy City Hospital, and she and three daughters survive him. His daughters are Misses Celia F. Cordelia H. and Dorothy D. Dr. McLennan was a member of the Massachusetts Medical Association and the South Norfolk Medical Society. He had been the physician of Clan McGregor No. 5, Order of Scotland Clans of Boston, ever since coming to Quincy. Dr. McLennan in a very quiet and unassuming manner, did a lot of work among poor people with the same enthusiasm and carefulness he displayed in the cases of those better off in the world's goods. Very few people, outside of the poor themselves, knew of these gratuitous services, but by these people he will be genuinely missed as a good friend and a comforting physician.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks the sores have healed, and best of all, the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

F. M. DOUCET.

NEW VEGETABLES.

Our new cabbage, cauliflower, beets, turnips, onions, lettuce, radish, etc., as a rule are picked with the dew-drops glistening upon them every morning. Practically speaking, all Charlottetown have a garden at their door and the vast quantities of those strictly fresh goods passed over our counters and distributed to our customers demonstrates the fact, that Charlottetown appreciates our endeavor along these lines. American celery, cucumbers, butter beans and carrots to arrive by S. S. Evangelina this Thursday night. We are supposed to close Saturday night at 10. Orders taken for delivery up to 9 o'clock, no later. Please help us out in this matter by calling in time. 653-8-1M21. J. J. GAY & SON.

Buntain, Bell & Co., for best coal, lowest prices. 9-23Mtf.

If cleanliness is any inducement to you you should shop here. Every article in the store is kept under glass and before buying every article is thoroughly tested by our expert buyers. We keep only drugs, patent medicines, sundries, etc., recognized as the leaders in their line and can personally vouch for the quality of each and every article that passes our counter. This is the only store in Charlottetown that is a shareholder in the United Drug Co.—the only Rexall Store. The MacKinnon Drug Co., Corner Great George and Kent Sts. Mt.

SITUATION BRIGHTER

LONDON, July 31.—A report from South Africa on the labor troubles says situation in the Rand Mines is more optimistic.

SUPPOSED TO HONOR MR. PETTELIER

Continued from page one
two years, he has brought about for the betterment of conditions under which the Post Office officials were forced to labor cannot be enumerated in any detail without taking up considerable space.

MR. PELLETIER'S CREED

Mr. Pelletier was not long in charge of the department before he made it known that if the Post Office was to be conducted by the people for the people, the people who conducted it should be treated fairly by the people. Grievances which Post office employees were seeking without success to have remedied for years were carefully and systematically examined. Results favorable to the men followed quickly.

One of the first cures of the department which he dealt with was the ridiculously low salaries paid to railway mail clerks. The practical mind of the new postmaster general seeking for the efficiency of the service could not quite appreciate the situation of affairs, which required that a man be capable of writing a philosophical essay on the Rise and Fall of the Holy Roman Empire, before he could secure a job as a mail clerk at \$400 a year. Within six months after taking office salaries were raised, and the efficiency of the service increased.

For years the mail carriers of the country were complaining of a scale of wages that was fixed long before the cost of living index at the Labor Department was even heard of. This was looked into with the result that the letter carriers got a comfortable living wage. Postmasters throughout the country had a grievance similar in character to the letter carriers. It was investigated and remedied in the same way as the complaint of the letter carriers.

BETTER CONDITIONS

The conditions under which mail clerks in the Langevin Block in Ottawa were compelled to work was the subject of dissatisfaction for considerable time, and petition after petition asking for relief, was sent to former hands of the department. Nothing in the way of bettering matters was done, however, until Mr. Pelletier took hold. While he was hampered with the lack of space and will be until the new buildings on Wellington street are ready for occupation, he did everything that was possible to make things brighter and better for the men, and complaints have ceased a long time since.

Numerous other reforms with a view always to greater comfort of the men and women of the postoffice department and for the greater efficiency of the department itself have been inaugurated, notwithstanding that in his yet brief term of office Mr. Pelletier has found time to grapple with such big and complex questions as a better mail service between Canada and Europe, cheaper cable rates, a new wireless telegraph service and most important of all the procuring for Canada a parcels post boat.

THE WEATHER THE TEMPERATURE TIDE, MOON ETC

(Special to the Guardian.)
TORONTO, Aug. 1.—Easterly to southerly winds, fine and warm. Some local showers and thunder storms on Saturday.

THE WEATHER.—Yesterday was beautifully bright and mild; clear at night.

The temperature at three o'clock this morning by the Rexall Store tested thermometer with a northern exposure was fifty three and a half degrees above zero and with a southern exposure was fifty five and a half.

The highest temperature recorded yesterday was sixty eight degrees above zero the lowest was fifty seven above. The lowest the previous night was fifty one above. At nine a. m. it was sixty six above and at nine p. m. fifty seven above.

The tide will be high this morning at 8.36 and tomorrow at 9.39; it will be high tonight at 10.46 and tomorrow at 11.30.

The sun sets this evening at 7.29 and tomorrow at 7.28; it rises tomorrow morning at 4.42 and Sunday at 4.43.

The moon sets tonight at 7.31. The last quarter of the moon was on Saturday, July 26 at 5.59 a. m. There will be a new moon on Saturday, Aug. 2nd at 8.58 a. m.

The length of today will be fourteen hours and forty-eight minutes.

PILES

Do not suffer another day with itching, bleeding, smarting Piles. No surgical operation required. Dr. Chase's Ointment will relieve you in one day and certainly cure you. See a box at dealers, or Edman, Haines & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 5c stamp to pay postage.

SHOOTING FOR SILVER MEDAL

A large number of riflemen went out to the range yesterday and had practice at the 200, 500 and 600 yards targets. All were bent on scoring 100 points, but Prof. Barlow headed the list with a 94, making a possible at 500. Quite a number are anxious to win the silver medal which is to be presented to the man making 100 points in practice or in a match at these ranges. The caretaker and a squad of men have been fixing up the butts at 800 and 900 yards, and the first practice at these long ranges will be held Saturday afternoon. No doubt there will be a large turnout of riflemen to practice at these distances. Quite a lot of interest is being taken in the spoon prize competition to be held Monday at 2 o'clock.

NAVAL DEFENCE

Continued from page one
Lord Emmott had always considered the best analogy for the British Empire was that of a family, and it was in this spirit that the parliamentarians had come. He pursued the analogy, comparing the status of its various components with that of the sons who grew up, after having been educated, trained, cared, and paid for, acquired the idea of self-dependence, finally reached man's estate, married, migrated, and started homes of their own.

"Wise parents do not attempt to continue the state of tutelage too long lest friction arise which might conclude in separation; not, on the other hand, do they let them go too soon before they are able to take care of themselves," said the speaker. "Canada had served as an object lesson to the Mother Country, which had applied it to her other growing colonies. Almost prosaically minded man might well dream dreams of the future of the British Empire," continued Lord Emmott. "There was never a time when the great mass of people in the British Empire was so devoted to union or more wholeheartedly loyal than to-day, for, contrary to the pessimists, autonomy had not led to separation. Twenty years ago there had been too much interference from Downing street. This was not so now, but there was still a tendency to forget that the connection was one of human interest."

CANADA'S PART IN DEFENCE

Referring to the naval question, Lord Emmott said: "I was much astonished to see in a Montreal paper on Friday a statement to the effect that I intended to discuss the naval question in my speech this evening. What I did say to two gentlemen of the press who asked me if I would express my views to them was this: That the part Canada should take in naval defence was a question for Canada to settle for herself, and that any unsolicited advice, given by one self-governing portion of the Empire to another, was likely to cause friction and to defeat its own ends. "If I read the situation aright, Canada has decided to help, but Canada has not yet decided in what form that help is to be given. Canada will decide this in her own good time. We

in the Mother Country await that decision with complete confidence in the patriotism of her people in their loyalty to the throne, our empire, and in their firm determination to take proper and adequate share in the burden we are all called upon to bear."

In conclusion, Lord Emmott referred to the question of employment. "It is a myth that there are crowds of unemployed at home." He said, "Never before has unemployment been so low. The question of immigration, I may tell you, is becoming a sore topic with us at home."

OF SPECIAL INTEREST

LONDON, July 31 (Special).—An increase in the price of quinine is prophesied as a result of an agreement between the European makers of quinine and the growers for Java of the cinchona trees from the bark of which quinine is produced. By the terms of the agreement, the manufacturers are required to buy from the producers of cinchona bark the equivalent of about 1,000,000 pounds of quinine a year at a regulated price. Practically the whole of the cinchona bark used by the quinine manufacturer in Java, whence it is shipped to Amsterdam and sold by public auction.

LONDON, July 31 (Special).—A report from Australia that King George and Queen Mary were to lay the foundation stone of the Australian Commonwealth Parliament House at Canberra next year is discredited by the Pall Mall Gazette, which declares that Canada is to be the next British dominion to be honored by the King and Queen, and adds: "They take it for granted that while so near the United States they will cross the border, and it is thought probable that they may go to Washington and perhaps to New York."

LONDON, July 29 (Special).—The important developments yesterday in the Balkan situation was a demand presented by the Austrian representatives at Athens and Belgrade for an immediate cessation of hostilities, together with a warning that Austria will not allow Bulgaria to be too greatly humiliated. It was declared in Vienna last night that should Greece and Serbia still oppose an armistice a Roumanian army acting as a mandatory of Austria and Russia will prevent any attack on Sofia, and that Austria will take even more energetic steps if necessary, to stop the war. Should it be true that Austria and Russia thus have agreed to co-operate the pressure exercised doubtless will be effective.

In the military sphere the principal news is that the Servians have invested the ancient fortress at Vidin, Bulgaria, which is situated on the Danube, 100 miles south of Belgrade. The fall of the fortress can not long be delayed—in fact a Belgrade despatch reports that Gen. Kututcheff's troops already are beginning to surrender. Vidin, which has a population of 15,000, will be Serbia's biggest capture during the war.

CHRISTIANIA, Norway, July 29 (Special). The steamer Grosse Kurfurst, which has arrived from Spitzbergen waters, reports that the vessel at Bremen indicating that Lieut. Schroeder-Stranz, the missing German Arctic explorer, had been rescued, was erroneous. It was stated by the officers of the vessel that the despatch sent from the Grosse Kurfurst was based on a rumor picked up off Spitzbergen, for which there was no foundation. They added that the wireless was sent as a rumor and that it evidently had been mutilated in transmission from a rumor to a statement of fact.

LONDON, July 25 (Special).—A Liverpool despatch to the Times says, it is rumored the proprietors of the Athenaeum have sold the Glen Riddell manuscripts of Robert Burns to an American millionaire for \$25,000. These manuscripts consist of a 162 page volume of poems mostly in the poet's handwriting and a 103 page volume of letters, also in his handwriting.

SACRAMENTO, Cal., July 29 (Special).—Japanese land owners have found a loophole in the anti-land law which will enable them to establish practically perpetual ownership of land now acquired for themselves and their heirs. Incorporation is the weapon to which the Japanese are resorting to partially nullify the new law. Oriental farmers are combining their farm land units and incorporating stock companies in the belief that the stock in the corporations upon their death may be transferred to their heirs. The maximum life granted to a domestic corporation under the California law is fifty years. All of the Japanese land corporations that have been organized since the alien bill was passed are formed for the limit. The California law also provides that a corporation is privileged to reincorporate on the expiration of its charter.

Figuring that their tenure of farming property will be safe for at least fifty years, dozens of farmers from Fresno, Florin, Newcastle and other Japanese colonies are hurrying to file articles of incorporation with the Secretary of State before the law becomes effective, on August 10. Twenty-four Japanese land companies filed articles of incorporation today, bringing the total for the last two weeks up to more than fifty.

LIMA, July 31 (Special).—A new Cabinet, to succeed that of Dr. Aurelio Souza, which resigned last week, was formed yesterday with General Enrique Varela as President of the Council and Minister of War.

The other members are—Minister of the Interior, Senor Don Gonzalo Tironi; Minister of Foreign Affairs, Senor Don Francisco T. Varela; Minister of Finance, Senor Don Baldomero Maldonado; Minister of Works, Senor

Don Pedro Portillo, and Minister of Justice, Senor don Carlos Paz Soliman. Congress reassembled this afternoon. In his message President Billinghurst said that the relations of Peru with all countries were good. The Executive recommended the negotiation of a loan of \$28,500,000. The exports of the Republic in 1912 amounted to \$47,192,905 and the imports to \$25,738,430.

RIO DE JANEIRO, July 31 (Special).—A convention of the civic party nominated Senator Ruy Barbosa and Senator Alfredo Ellis candidates for President and Vice President for the next term.

LONDON, July 31 (Special).—Although called on behalf of the builders in the case which Lord Decies has brought against them in connection with the reconstruction of Setton Park, Mr. J. H. Bear, a surveyor, admitted to Justice Pailhache yesterday that the soft wood work in the house is not satisfactory.

BERLIN, July 31 (Special).—Hermann Knorr, the late Saxon landowner who bequeathed to the Kaiser his entire fortune amounting to roundly, £750,000, left this codicil: "I hereby designate the reigning German Emperor as the sole heir. He shall devote his inheritance to strengthening the army and navy." Knorr's widow is cut out of with the dowry and £40 a year interest. Steps have already been taken to contest the will, as the widow desires to establish her right to at least one-third of her husband's wealth.

LONDON, July 26 (Special).—Special interest was lent to Wednesday night's state ball at Buckingham Palace, the last court function of the season, by the appearance of Prince Arthur of Connaught and the Duchess of Fife in the opening dance, a quadrille d'honneur.

It was assumed that the usual rule of procedure would be observed and that the newly betrothed couple would not be seen dancing together until the later dances, but the King and Queen decided to dispense with strict court etiquette in this respect and Prince Arthur and the Duchess found themselves allotted to each other in the stately dance.

After the opening quadrille the King, the Queen and the royal family became spectators in the turn, while the dancing was soon general.

LONDON, July 26 (Special).—On the conclusion of the naval manoeuvres now in operation a powerful squadron of armored ships will leave for the West Indies to remain in those waters. The force will be based at Bermuda the ships returning to England only in the summer in order to partake in the annual naval exercises.

This development of the policy of the Admiralty is thought to be associated with the opening of the Panama Canal next year.

WASHINGTON, D. C., July 23 (Special).—Four thousand baseball "fans" who flocked to the old Union League Park this afternoon to see a widely advertised game between the "Beautiful Chicago Bloomer Girls" and a young men's team, became so enraged when they discovered that the "girls" were men wearing wigs that they started a riot.

Police reserves were called and three policemen were injured by flying bricks and bottles. The "girls" were cheered when they came on the field. The "fans" began to lay bets on whether they would score.

The men went to bat in the second half of the first inning. A stalwart youth landed on the ball and lifted it toward centre field. Jamming "her" cap tightly over a head of luxuriant black hair, the "lady" in the central garden dashed after it and made a beautiful catch. The spectators cheered loudly. Then, to the astonishment of all, the centre fielder shot the ball on a

line into the hands of the catcher at the home plate, shutting off a run by an inch.

It was a magnificent throw. A murmur came from the crowd of men. Somebody yelled "fake!"

"Then a small boy shouted:— "That there lady in centre needs a shave." At the same moment another youngster dashed on the diamond and grabbed the blonde locks of the shortstop. The hair came off.

A cry of rage went up from the spectators. They rushed on the field. Bricks and bottles were hurled at the "bloomer girls," who started to run for their dressing room. With the aid of the police, they all got inside the door.

The crowd began to hurl missiles at the policemen. Captain Daley dodged a brick, but it hit one of his men. Two other policemen were struck.

By the time the reserves arrived the crowd was assaulting the ticket box, demanding its money back. The "bloomer girls" were placed in a patrol wagon and hurried away.

It was discovered that some one had fled with the \$700 gate receipts. This made the crowd angrier than ever and it followed the police to the station house and demanded that the authorities do something to get the money back.

BRILLIN, July 26 (Special).—The following incident, related by an unquestionable authority, is of timely interest. Before definitely arranging to proceed to Norway on his summer holiday, the second week in July, the Kaiser made personal confidential inquiries of the Czar as to whether in the Czar's opinion anything at all was likely to ensue during the succeeding five or six weeks which would make it inconvenient for the Kaiser to absent himself from his own country. The Czar sent back such categorical assurances as far as anything which concerned Russian plans, that the Kaiser decided to start without further ado.

The informant adds that neither the Czar nor Kaiser could, of course, have foreseen the new enigma which Turkey has forced on Europe's attention.

ROME, July 30 (Special).—Cardinal Vincenzo Vannutelli, prefect of the Segnatura Tribunal, the supreme tribunal of the Curia Romana, has decided to postpone until November, when the tribunal reassembles, decision on the appeal of the Duchesse de Tallary from the verdict of the Rota Tribunal annulling her marriage, when she was Anna Gould, of New York, to Comte Boni de Castellane.

Although the decision will not be rendered until November it is believed the Segnatura Tribunal will grant the appeal and send the case back to the Rota Tribunal for a new hearing.

GUAYAQUIL, July 30 (Special).—Raoul Godoy and Gaston Godoy, prominent bankers of Lima, Peru, whose firm failed recently with a loss estimated at \$500,000, were arrested here on their arrival on board a steamship from Callao. They were preparing to embark on another vessel for Panama.

The Godoys, who are brothers, left Lima immediately after their failure was announced, on July 17, and attempts had since been made to find them.

NEWPORT, R. I., July 29 (Special).—Two skeletons were unearthed while making excavations for the new villa here of Mr. Stuart Duncan, in Harrison Avenue. The second one unearthed showed that the body was lying on its side, with the lower limbs bent to meet the upper part of the trunk. They are believed to be the skeletons of Indians who in times past used the hill at the lower part of the harbor as a lookout. As no Indians have inhabited the island since 1638, it is supposed that they have been buried almost three hundred years. The teeth, which were quite well preserved in one specimen, will be sent to a dentist to try to determine the age.

SMALL SAVINGS

regularly placed in the care of this institution will give you the start toward affluence which you and every other man desires.

You will be allowed 4 p. c. and it will be added every three months.

When your savings amount to sufficient to make an investment you will be welcome to our best advice.

We will recommend investments which we believe to be absolutely safe and which will pay more than 4 p. c.

Or if you find an investment of merit, you have but to draw your cheque for the amount.

One dollar is sufficient to start an account and you will receive every possible courtesy.
