REDS RETREAT DEEPER INTO WEST CAUCASUS

Tremendous Air Duels Over Northern France

New Plane - -
Revolutionary Type Cargo Ship

WASHINGTON, July 31—(AP)—Aircraft engineers disclosed before a United States Senate military subcommittee today that they had designed a revolutionary type of flying-cargo plane which would be lifted and propelled by a unique combination of engines, helium gas and air tunnels.

The plane could be used, they said, as a sky-roaming carrier of a dozen speedy fighting airplanes.

The engineers were Horace Chapman Young and Eric Langlands of the Aerodynamics Research Corporation.

A description of the craft was given the same Senate group which heard Henry J. Kaiser, Oregon shipbuilder, offer to build giant cargo planes for transporting military equipment and supplies to the fighting fronts.

Young told Chairman Josh Lee (Dem.-Okla.) of the subcommittee that his corporation was seeking government encouragement, although no financial aid, to build a flying model.

The single-wing combination cargo-fighter carrier craft would have a flying deck of 200 to 180 feet, from which 12 fighter planes could take off. It would carry enough helium gas to lift 36 tons and with its engines turning the propellers could lift 70 tons, Young said.

"If the plane did not carry such a heavy payload, it would not need helium to lift it, but it would use the gas to utilize the craft as a plane carrier," he explained.

Young said the peculiar flying ship was designed to adapt the lighter-than-air principle, without the bulk of a lighter-than-air craft.

Through it would run four tunnels, in which engines would create a semi-vacuum, whose suction would give it pulling power while the propellers gave it thrusting power.

10,000 Japs In Aleutians

WASHINGTON, July 31 — (AP) — A United States navy spokesman said today there were about 10,000 Japanese in the Western Aleutians but that aerial reconnaissance had failed to show any Japs in the Pribilof Islands.

The spokesman's remarks were made in response to inquiries prompted by reports that the enemy might have occupied the Pribilofs, about 250 miles northwest of Dutch Harbor.

"We are not in a position to say that the Japanese aren't there," the spokesman said, "but have no evidence that they are."

Asked whether the navy had investigated directly, this official, who declined to be quoted by name, said "yes, we have, by aerial reconnaissance, but we have seen no Japs."

The number of Japanese in the Aleutians was given in this form in response to another question:—

"'We believe not more than 10,000, probably about one half ashore and one half afloat."

The Islands actually occupied by enemy forces were said to be still only Attu, Kiska, and Agattu.

As against these territorial gains and the damage inflicted by their June 3 and 4 bombing raids on Dutch Harbor and nearby army posts, the Japs have lost eight ships sunk, one believed sunk and nine damaged in attacks made by army and navy aircraft and by submarines. Their land installations especially on Kiska, have been repeatedly bombed but with undetermined results. Canadian aerial and land forces are aiding in the defence.

French Report ShipRe-captured

VICHY July 31—(AP)—A French destroyer and naval planes have recaptured the French ship Mitidja from a British submarine crew which had seized her, it was announced tonight.

The Mitidja was enroute from Oran, Algeria, to Marseille with a cargo of cereal, wine aind miners when it was stopped and seized by the British submarine crew July 26, an Admiralty communique claimed.

The communique said that the ship carried no war contraband, and added:—

"A French destroyer and a group of planes of naval aviation intervened to deliver the ship which yesterday arrived at Marseille without any other incident."

U.S. Supreme Court Refuses Saboteurs' Plea

WASHINGTON, July 31—(AP)—The United States Supreme Court briskly refused today to let the alledged Nazi saboteurs escape military judgement by taking refuge in the civil courts and in the civil liberties established for loyal citizens.

In a swiftly moving, four-minute session it upheld the legality of President Roosevelt's orders that they be tried by a military commission. And, asserting that their detention by the army was lawful, it refused to free them by issuing a writ of habeas corpus.

The court did, however, assert its authority to pass upon this application of the President's wartime powers. It assumed jurisdiction over the case, an action which many interpreted as the court's way of saying that war or no war the protection of the courts is still open to all who may rightfully claim a haven in them.

247 Enlistments In Past Week

HALIFAX, July 31—(CP)—The daily enlistment average for military district No. 6 (Nova Scotia and Prince Edward Island) was 35 during the week ended July 30, it was announced today at the recruiting office here.

Total enlistments for the district numbered 247, of which Prince Edward Island contributed 19. Halifax and the No. 6 district depot here led the field with 137.

King Peter Back

LONDON, July 31—(CP)—King Peter of Yugoslavia arrived in London today with Foreign Minister Montchilo Nincic and other members of his government after a visit to Canada and the United States

SEVEN POLES TO DIE

LONDON, July 31—(CP)—Seven Poles have been sentenced to death and two were sentenced to six years in the Straflager prison camp for assisting British prisoners of war to escape, the Polish Telegraphic Agency reported today.

The escaped prisoners were said to have been British officers confined in a German concentration camp.

Strafing, Bombing Raids

Eleven German Planes Shot Down In Dog-fights; British Lose Eight.

LONDON, July 31—(CP)—Huge air battles, involving hundreds of planes, some presumably flown by Canadians, developed over France today as the Royal Air Force smashed at the Abbeville airdrome and the St. Malo docks in bombing and ground-strafing raids.

It was not immediately possible to estimate the number of Canadians involved in the operations but the scale of the fighting was apparent from the air ministry's report that 11 German planes, including three of the new Focke-Wulf 190's, were shot down in dogfights. Four Messerschmitt fighters fell to two American Eagle pilots, two to each, while Norwegian pilots nailed three more Nazi planes.

The R.A.F. lost eight Spitfires

German airmen meanwhile returned to their attack on England with assaults officially described as part of a new sustained Nazi aerial offensive.

The communique describing the British raids on France said squadron after squadron of Douglas bombers crossed the channel with heavy Spitfire escorts. Many hits were noted at Abbeville where most of the most vicious dogfights developed.

No planes were lost in the later raids on St. Malo and other parts

(Continued on page 3, Col 6)

Egyptian Air Bases Bombed

CAIRO July 31—(AP)—Egyptian air bases from which United States and Royal Air Force planes have been attacking land and sea communications of Field Marshal Erwin Rommel's forces along the North African coast and his bases in Crete were bombed again last night by the Axis.

Four persons were killed and 13 injured and some slight property damage was inflicted in a raid on Alexandria, the Egyptian interior ministry announced, while alarms were sounded in the Cairo area and other points. The ministry made no mention of bombs falling in Cairo however.

The continuing lull on the Alamein front, west of Alexandria, and the Axis raids on the Cairo area led observers here to suggest that the Germans might be primarily intent on keeping the bulk of allied bombers out of action while important supplies and reinforcements are being moved up to Rommel.

U. S. Aircraft Carrier Launched

NEWPORT NEWS, Va., July 31—(AP)—The United States Navy sent its newest aircraft carrier the U.S. S. Essex down the building ways into the James River today.

The huge ship took to the water at 2.45 p.m., a moment after a bottle of champagne was smashed across her bow by Mrs. Artemus L. Gates, wife of the assistant secretary of Navy for air

The Essex was the first aircraft carrier launched in this country since the United States entered the war. Her keel was laid at the Newport News shipbuilding and drydock company plant on April 28, 1941

Grand Duchess Gravely Ill

NEW YORK, July 31—(CP)—The Dowager Grand Duchess Anne Marie, 81, of Luxembourg, was reported today to be "losing ground" at the doctor's hospital. She was operated upon there five weeks ago for an abdominal ailment.

Emery Wheel Caused Blast

OTTAWA, July 31—(CP)—Munitions Minister Howe today told the House of Commons that use of an emery wheel which apparently was not thoroughly tested, caused the explosion in a Pickering, Ont., shell-filling plant last month in which one man was killed and three were injured.

The accident occurred when a loaded two-pounder anti-tank shell case was being buffed to reduce the thickness by one or two thousandths of an inch so it would fit the chamber of a gun.

War Situation Last Night

(By KIRKE L. SIMPSON, Associated Press War Analyst)

Spurred by Stalin's no-retreat appeal, Russian forces along the Don from Voronezh to the southern elbow of the Don bend appear standing firm against their Nazi foes. West of the Don elbow, however, Moscow admits a further Red retreat and Berlin pictures a huge Nazi bulge across the Lower Don into the Caucasus, 150 miles wide and 112 miles deep at its central apex.

The Germans speak of a disorderly Russian rout. This boast is backed up by a Berlin claim of the capture of Kushchevka, 30 miles south of Bataisk on the Rostov-Baku rail and pipelines, and the investment of Salsk, rail junction on the Krasnodar-Stalingrad system.

* * * * * * *

Both Salsk Junction and Kuschchevka are important. The loss of Kushchevka, if it was fallen, seems the greater immediate threat however ,it also is a junction point giving rail and road access westward to Yeisk on the Azov seacoast of the Caucasus.

With Nazi forces between Rostov and Kushchevka outflanking them to the east and probably also pushing westward from Kuschchevka toward Yeisk behind them, any Russian troops still in the Rostov-Kushchevka-Yeisk triangle are in deadly peril. The region has been well guarded up to now because it offered short routes for Nazi flanking invasions across the upper arm of the Sea of Azov from Taganrog. Its evacuation would throw those sea routes into the Caucasus wide open for German use, thus adding immeasurably to the peril of the Russian left flank.

* * * * * * *

The voice of German propaganda from Vichy, never reliable, says such an invasion of Taman Isthmus, on the Caucasus side of Kerch Strait, has already been accomplished from the Crimea. There is no confirmation. It seems obvious, however, that the Nazis are trying to sweep the Russians back down the Rostov-Baku railroad below Kushchevka to free the whole Azov seacoast to and beyond Kerch Strait. Nor is there a discernible strong east-west natural defensive line above the Kuban River on which Marshal Timoshenko may hope to stand.

Provided Marshal Timoshenko can safeguard his Kerch Strait front and hold Taman Isthmus, the Kuban does offer him an opportunity to halt the German drive on the western flank of the vast Don-Caucasus battlefront, just as it appears slowed down if not halted from the Don bend to Voronezh. The Kuban well may be the line upon which Timoshenko ultimately intends to stand.

* * * * * * *

Salsk, junction point for a branch line that connects the Krasnodar-Stalingrad railroad with the Rostov-Baku main Caucasus system at Bataisk, also represents defensive possibilities for the Russians. It stands on the edge of the vast reach of salt marshes that cover much of the northeastern Caucasus below Stalingrad to the Caspian. The Nazi claim to have laid siege to the town represents a grave danger that the Russian center can be forced before Timoshenko's left flank has an opportunity to settle down behind the Kuban. The river runs less than 100 miles southwest of Salsk.

* * * * * * *

Nevertheless, the Nazi bulge below the Don with its apex presumably near Salsk is narrowing and will be confined to the long central route, north of the Caucasus range, if Red forces succeed in holding on or above the Kuban in the west and along the Don bend and the Caucasus salt marshes below it in the east. It is only in the centre that good terrain for blitzkrieg operations is available.

Gives Opinion On Communists

Son of War Ace Gets Wings

OTTAWA, July 31 — (CP) — Air Marshal W.A. Bishop today pinned pilot's wings on the tunic of his 19-year-old son, leading aircraftman A.C.W.A. Bishop, during a wings parade at nearby Uplands Service Flying Training School.

The son of the first Great War ace, who now is director of recruiting for the Royal Canadian Air Force, was one of a large class to receive their wings. The graduates came from all parts of Canada and the United States.

Air Marshal Bishop told the class that theirs was a "most important and glorious task," and added:—

"This war will be won in the air. This is your hour. You must grasp it and make the most of it. I know you will."

1,000 N. S. Miners Still Remain Idle

HALIFAX, July 31—(CP)—Two strikebound Nova Scotia collieries, resumed operations today as employees returned to work, but 1,000 men still remained idle in a third mine.

A three-day strike at two Inverness mines ended when the 320 strikers re-entered the pits pending settlement of their grievance. Their walkout was in protest against a change from double to single shifts which displaced about 75 men.

The province's single continuing coal strike was at Sydney Mines, where the borers of Nova Scotia Steel and Coal Company's Princess colliery walked out yesterday, tying up the whole mine. The borers, who blast coal from the mine face, want higher pay.

At Sydney, 50 carpenters at the steel plant continued a strike in protest against alleged delay in receiving a wage decision from the Regional War Labor Board.

SOLDIER IS INJURED

ORILLIA, Ont., July 31—(CP)—Private Alfred J. Rossingal of Grand Falls, N.B., suffered severe cuts and possible fractured ribs today when the army truck in which he was riding collided with a fruit truck about two miles west of here. Pte. Bernard Charles King, 26, of Toronto, was killed in the accident.

OTTAWA, July 31—(CP)—Justice Minister St. Laurent said in the Commons today that parliament should avoid any action which could be interpreted as "a blessing of the Communist Party by the Canadian House of Commons."

Mr. St. Laurent was questioned on the government's attitude toward the Communist Party following a recent report of the House of Commons Defence of Canada Regulations Committee which recommended lifting of the present ban on the Communist Party and seven other organizations now declared illegal.

During consideration of the Justice Department estimates the minister also announced organization of a security force, to number about 700 men, to combat espionage and sabotage in Canada. The force will be a branch of the Royal Canadian Mounted Police.

When Justice Department administrative expenses came before the House C.C.F. members asked for a statement by the minister on the government's intentions with regard to the committee report, which has been tabled but has not been subject of a motion for concurrence.

Mr. St. Laurent said publicity following presentation of the report had given the impression that if the ban on the Communist Party were lifted it would be equivalent to legalizing the Communist Party in Canada.

"The impression also seems to be abroad that this is the only country among the allied nations where communism is illegal," Mr. St. Laurent continued. "I think it would be most unfortunate to do anything which could be looked upon by any part of the Canadian people as a blessing on the Communist Party by the Canadian House of Commons."

"In my view that would be entirely incorrect. I hold the view that the real communist doctrine is illegal here, regardless of anything contained in the Defence of Canada Regulations, just as it is in the United States.

Island Airman Is Graduate

JARVIS, Ont., July 31—(CP)—Another class of Commonwealth Air Training Scheme airmen of the Royal Canadian Air Force graduated today from No. 1 Bombing and Gunnery School here today.

Presentations were made by Group Capt. A.D. Bell-Irving of No. 1 Training Command.

Among those who graduated were:

Prince Edward Island: A.K. Ballem, Mount Albion.

Nova Scotia: C. L. Lockhart, Coldbrook Station.

Income Tax Bill Given 3rd Reading

OTTAWA, July 31—(CP)—The House of Commons tonight gave third reading to the income war tax bill which provides sharply-increased income tax rates for the people of Canada.

With the House heading for adjournment tomorrow, the bill passed through committee with a ripple of applause for Finance Minister Ilsley, its sponsor.

Last speaker in the debate on the bill was H. R. Jackman (Con. Toronto Rosedale) who challenged an earlier statement by Mr. Ilsley that it was not possible to pass on to future generations the costs of war as represented by sacrifices in the standard of living.

Mr. Jackman said financial burdens of the First Great War still were being carried by Canada and other nations.

Amendments to the income tax act extended the exemptions which may be made from taxable income to offset costs of illness.

In addition to hospital costs and costs of care by physicians and registered nurses, the deductions may include cost of one full-time attendant for the taxpayer or his or her spouse or dependent if necessarily confined to bed or wheel chair throughout the whole of the taxation period, or the cost of a full time attendant if such spouse or dependent is totally blind, providing the total deduction in a year shall not exceed $400 for a single person and $800 in the case of a married person.

Australian Front Becomes Active Again

ALLIED HEADQUARTERS, Australia, July 31—(CP)—The Australian front, quiescent for nearly three months since the Coral Sea battle, is becoming active again with the Japanese showing signs of taking the initiative.

Although it is from the Allied side that the cries for an offensive have been most urgent, it is the Japanese who show indications of having recouped some of their air losses and who are now exerting the pressure that has resulted in the first real land skirmishing since the Pacific war moved into the Australian area.

Since landing July 22 in the Buna-Gona area of northeast New Guinea, Japanese jungle patrols in the last 10 days have pushed 55 mile through the low grasslands and foothills of the towering Owen Stanley range, a penetration that has cut half the distance between their new bases and Port Moresby.

Quintuplets

LONDON, July 31—(CP) —The press association reported quintuplets were born early today to Mrs. Thomas Leyden, wife of a farmer of Breaghwy, near Sligo, Ireland.

Two of the girls died shortly after birth, the news agency said, but physicians reported that the other girl and two boys were "doing fine."

Suggests Gandhi, Kai-Shek and Stalin Meet

LONDON, July 31—(CP)—A Reuters dispatch from Bombay said that R.H. Parker, European member of the Indian Council of State, suggested today that Mohandas K. Gandhi and members of the all-India Party's executive committee meet Premier Joseph Stalin of Russia and Gen. Chiang Kai-Shek of China to discuss India's problems.

He proposed that meetings of the All-India Congress committee be postponed until interviews could be arranged, and said that government of India would arrange transportation, Reuters reported

Practice Alert In New York City

NEW YORK, July 31—(AP)—Air raid sirens sounded a practice alert at 9:50 p.m. tonight and New York City was plunged into its first city-wide surprise blackout of the war.

The sirens shrilled with no advance warning to the general public, except for Mayor La Guardia's announcement several days ago that such a blackout could be expected at any hour before Wednesday, Aug. 5.

A spokesman for the army's eastern defence command said the army had no comment on the test, and added:—

"It's Mayor La Guardia's party."

Soviet Reserves Stall Drive On Stalingrad

Russians throwing many Men into battle to save Industrial city.

By Eddy Gilmore
Associated Press Staff Writer

MOSCOW, Aug. 1—(Saturday)—(AP)—The Red Army has retreated deeper into the western Caucasus south of Bataisk, but reinforced Soviet legions were reported early today to have stalled a big Nazi drive in the Kletskaya area some 80 miles northwest of Stalingrad, where the Russians rushed trainloads of reserves to the front

In the third critical area of the south, the Friday midnight communique said one Russian unit defending the Don River barrier in the Tsimlyansk sector, 120 miles upstream from Rostov, had killed more than 1,000 Germans who had effected a crossing of that barrier.

The communique said of the new retreat south and southeast of Bataisk:

"After bloody battles our units fell back to new positions. The Germans lost 13 tanks, 18 guns and more than 600 men killed in these battles."

The communique gave no details of the fighting in the Kletskaya area, but press dispatches said the Russian reserves had arrived in armored trains to stem the Nazi drive in the Don River elbow.

"In the area of Tsimlyansk stubborn fighting went on against enemy groups which had crossed to the southern bank of the Don in a setor held by one of our units," the communique continued.

"Nine German tanks, 15 guns, 25

(Continued on page 11, Col 4)

Exchequer Court Judge Passes

OTTAWA, July 31 — (CP) — Mr. Justice A. K. Maclean of the Exchequer Court of Canada, died late tonight at his home here.

1,500 MINERS IDLE

BLAIRMORE, Alta., July 31—(CP)—More than 1,500 mine workers in the Crow's Nest Pass remained idle today as a result of alleged violations by the mining companies of wage scale agreements with the United Mine Workers of America, District 18.

Hail Storms On Prairies

WINNIPEG, July 31—(CP)—Crop destroying hail storms have taken toll across the farmlands of the prairie provinces, but the damage so far this season is lighter than a year ago.

Districts in Manitoba, Saskatchewan and Alberta last week had hail, wind and rain storms which swept over thousands of acres of croplands.

The district of Magrath, in Southern Alberta, suffered heavy damage. The town itself was the centre of severe hail damage with scores of windows smashed, gardens destroyed, beet crops damaged, and standing fields of grain flattened. Some farmers reported 100 per cent loss.

Other fine crop lands, however, escaped a hail beating, and the heavy rain was welcomed by the farmers.

INTERNATIONAL AT A GLANCE

RUSSIA — Red forces guarding oil-rich Caucasus retreat farther south and southeast of Bataisk south of the Don.

WESTERN FRONT — R. A. F. fights vast air battles with Nazis over Northern France, blasts Abbeville airdrome, St. Malo docks.

NORTH AMERICAN FRONT — U. S. navy spokesman says Japs have about 10,000 men in western Aleutians on three islands.

BRITAIN — Spokesman warns new concentrated air offensive against Britain may be in offing.

SIBERIA — Japs are reported to have 400,000 troops massed along Russian border.

EGYPT — Axis aircraft raid U. S. and British bases behind lines; desert fighting remains quiescent; allied bombers raid Tobruk, Mersa Matruh.

Decision May Be Reached On 2nd Front

(By Robert Bunnelle)
(Associated Press Staff Writer)

LONDON, July 31—(AP)—Mounting British and American offensive preparations coupled with continuing strategy conferences caused observers to believe tonight that a decision has been reached to aid the impatient Russian allies with as quick and positive action in western Europe as their combined resources will permit.

There were signs that the Russians had laid the cards on the table and told their allies that the time for a diversion in the west is here.

The difficulty of delivering war supplies to the Soviet over the bomb-splashed northern sea to Murmansk and the danger that the Red army may be stripped of its offensive power to aid a western drive by the allies if action is delayed too long were seen as factors of urgency in the situation.

Of great moment, too, was the assertion of British military sources today that Japan has concentrated nearly 400,000 troops on the 1,000-mile Soviet frontier from Lake Baikal eastward and "there is little doubt they are planning to attack" from Manchukuo. This source said that tht Japanese had been busy building roads and rail communications and that August and September are the best months for a military campaign in that area.

Some observers believed that the need for a diversion and a solution of the Murmansk supply problem might point to one answer—seizure of allied air bases in Scandinavia to provide air protection for Arctic convoys.

And many believe that Washington and London had been given to understand that if means are found to deliver the guns, tanks and planes the Red army needs, the Russians would be happy with a continuance of 1,000-bomber raids on Germany and big-scale commando sorties until a full-dress offensive can be mounted in western Europe, even if that is after New Year's day.

TAKES NO CHANCES

LONDON —(CP)— Post-war proposals of the National Council of Labor Colleges include the teaching of politics and elementary economics as ordinary school subjects, "so that the child may never mistake a paper note for real wealth or a millionaire for a national hero."
