PARIS, March 11.—"American Week" will be observed from June 28 to July 4 at the International Colonial Exposition.

A series of Franco-American fetes are being planned that will center around the replica of Mount Vernon, already erected in the Bois de Vincennes. A pageant, reproducing Lafayette's historical visit to Mount Vernon, will be staged, with famous actors participating.

One of the participants will be Miss Ann Morgan Washington, daughter of Lawrence Washington, last of the name born at Mount Vernon, and a direct descendant of John Augustine Washington. She has been named by C. Bascom Slemp, American Commissioner, to superintend the furnishing of the United States building.

The aim of the pageant will be to emphasize the historic friendship that binds the French and American republics.

CASE OPENS FOR DEFENSE

Continued from page 1

first witness for the defendant, William Munn. He identified a plan of the scene of the accident at the intersection of the Royalty and Malpeque Roads.

On examination by Mr. Bentley witness stated that the left side of the car had been driven in about eighteen inches toward the right side, measured from the edge of the running board.

Cross examined by Mr. Johnston witness stated that the plan exhibited was drawn to scale, ten feet to the inch. The measurement were made in January when the snow was on the grounnd. Some shrubbery had been cut down on the sides of the road. Witness thought the Malpeque Royalty Road intersection was a very bad one .The Malpeque Road is an improved highway—in some places. In the opinion of the witness the corner is a very dangerous one for motorists.

The counsel for Munn objected to the witness being cross-examined by Mr. McPhee. The objection was overruled, and cross-examination proceeded.

Mr. Baker stated that at the intersection the road bed was almost flat.

Cross examined witness stated that the ditch is thirty feet from the centre of the road.

WILLIAM MUNN (Sworn) was examined by Mr. Stewart. He stated that he is a taxi driver residing on Edward Street. He remembered July 5, 1930 and on that day saw Mr. Hawkins who lives about two blocks from him. Witness had been out driving with his children in a 1928 McLaughlin—Buick Sedan, No. 2960. When he went to the home of the plaintiff witness had his four children with him. Elsie, 14, Marjorie, 11, Percy, 8, Wendall 5. Mr. Hawkins arose when he saw witness coming and raised his hand. Witness stopped and Hawkins spoke about a gun. Hawkins asked him for a drive.

Mr. Munn corroborated the evidence of Mr. Baker.

As they were going west on the Royalty Road 100 feet from the Malpeque road, they stopped to take the dog into the car. They then proceeded. The driving surface on the Royalty Road is as good as that on the Malpeque Road. The two boys were seated in the front seat with the witness who was driving. Mr. Hawkins was sitting in the right side of the back seat with the two little girls. When witness changed gears the car was almost on the Malpeque Road,—almost on the bank of the gutter. Witness blew his horn before going on to the Malpeque Road. They were travelling about about ten miles an hour, and heard nothing to indicate that there was any car coming from Charottetown on the Malpeque Road.

SAW TRUCK COMING

Witness was driving to Charlottetown. As they emerged from the Royalty Road witness saw a truck coming at a high rate of speed. The truck was going west from Charlottetown travelling in the centre of the road at between forty and fifty miles an hour. Witness stepped on the accelerator and attempted to get across the road out of the way. (Witness indicated points on the diagram.)

Witness had his leg, hip and side injured as a result of the accident. The truck struck the car in the centre. The boys were cut with glass from the windshield. The windows had been lowered. The oldest girl was rendered unconscious. The other girl was also injured. Hawkins was also rendered unconscious. He was taken to the hospital where witness saw him on several occasions. After remaining home for several days Hawkins was taken to Falconwood. On his recovery witness drove him back home. Witness stated that his car could not start under its own power, as Jamieson had said it had in evdence. The truck was locked into the side of the car, by the bumper. When the car and truck came to a stop they were north of the Royalty Road on the Malpeque Road, three feet east of the mail box, pointing west. The car did not stop from the time they had taken in the dog till the time that it was stopped by the collision. Witness stated that his eyesight was excellent, and that he did not wear glasses.

HAD MINOR ACCIDENTS

Witness stated that he has been driving a car for ten or twelve years. He had had some minor accidents. Witness admitted that since July 5, he had an accident with Mr. Bovyer about exhibition time. Witness stated tha the had been out with Mr. Hawkins several times since the accident. They had had no accidents since that time. He had had no accident near Cherry Valley or Vernon River. Questioned relative to another incident Mr. Munn stated that on one occasion when he was driving with Mr. Hawkins near the intersection of the Brackley Point Road and St. Peters Road, a car came out of a gate ahead of them. Witness had to swing his car across the road and into the ditch to avoid striking it. Mr. Johnston then asked if witness had run into a young lady on the street. Witness replied that the young lady had jumped back to avoid being struck by another car and had thus struck his car injuring her leg.

Q. Had you ever been chased by other cars?

A.—No.

Q—By officers?

A—No.

Q—In the same car?

A—No.

Witness and Hawkins had been driving together before, witness stated.

They had sometimes gone to the shore.

HAD GUN IN CAR

Witness stopped at Hawkin's place on July 5. Witness' little boy wanted to take the gun. They took it to train the dog. They had a few shells with them. The gun was in the rear seat. He and Hawkins had no talk about that gun, but spoke about another gun. Witness also had a revolver, he stated. It was after 6 o'clock when witness left home. Witness had wished to give the dog some exercise.

Q—Did you fire the gun?

A—Yes, Hawkins was there.

Q—Is your car number 2960.

A—Could not swear to it.

Q—You said that was your number. That is your tax, $29.60. Your eyesight is not very good.

When they stopped to put the dog in it was between 7 and 8 o'clock. It was still daylight at that time.

Q—You had reached the intersection of Royalty Road and Malpeque Road when you started to put your car in high gear?

A—I had my car in high gear before I came to the intersection.

Q—How far from the intersection were you when you put your car into high gear?

Q—When you were five feet from the intersection you could get a good view up the Malpeque Road?

A—No. You could see only a short distance.

Q—Did you blow your horn when you went into high gear?

A—Practically at the same time.

Q—Was it before or after you went into high gear?

A—After.

Q—Did you below your horn before you went into the intersection?

A—Yes.

Court adjourned till 10.30 this morning.

Bank Transfers Millions Without Any Hindrance

TORONTO, Ont., March 11.—Officers of the Canadian Bank of Commerce can breathe easier, now that the bank's millions of dollars worth of gold bullion, cash, securities, and valuable contents of safety deposit vaults have been stowed away in the deep-hidden cellars of its new main office.

With completion of the new 34-story bank and office building, bank officials made elaborate plans for the transfer of the bank's treasure.

The moving took place recently, but so unobtrusively that few persons excecpt those directly connected with the transfer knew of it.

Only six city police aided bank guards and armored money truck crews in protecting the fortune on the several "moving days."
