SEED FAIR

MORELL SCHOOL FAIR

Morell School Fair, which was held on Sept. 21, proved a splendid success, being the best ever held at that centre. The exhibits were of a superior quality. The judges in their speeches complimented the pupils, teachers and people on the splendid showing made and said it to be the best they had attended up to that date.

TRADE follows the SHIPS

LOW Transportation Rates have always constituted a determining factor in Trade Development. Water Transport has always afforded comparatively low freight rates.

That is why the ships that navigate the lakes and rivers of Canada always command full loads. As fast as steamboats are built, the tonnage is forthcoming to fill them.

Much of this tonnage is supplied by our great Western Wheat Fields. We also ship by water freight, our ore, our coal, our timber, and our manufactured products.

The "water link" provided by our lakes and rivers is of vaster proportions than any other inland waterway in the world. Taking full advantage of its natural

facilities and splendid harbors and canals, Canada Steamship Lines Limited has added to its fleet and expanded its business until today its freight and passenger business ranks with those of the greatest navigation systems in America.

The future of such a Company is clearly indicated by its past record, taken in conjunction with the glorious possibilities of the country which it serves. The raw materials and the merchandise that Canada depends upon for her prosperity will always take advantage of Canada's great inland water system and the boats that ply upon it.

Canada's future progress must inevitably provide prosperity for its greatest steamship line—there cannot fail to be still greater accomplishment in volume and in profit.

The Bond Issue to be announced by Canada Steamship Lines Limited will provide an opportunity for investors to share in the development of an organization which already has a record of splendid achievement and which is recognized as one of Canada's greatest enterprises.
