An airplane landed on Alberton Creek on Friday to pick up Alfred Gordon and Edgar Cannon. It was piloted by the Curran and Briggs Construction Co. and was reported to be taking the two passengers over to act as mechanics on some of its machinery.

—ALBERTON—  
Miss Alice MacQuaid, daughter of Mr. and Mrs. John MacQuaid is home convalescing from a recent attack of the flu. She has been attending school in Tignish and expects to return on Tuesday of this week. A

—WOMEN'S BRAIN POWER—  
(By The Canadian Press)  
NEW YORK—Greatest waste of natural resources in America is the undisciplined brain power of women says novelist Pearl Buck, who says a remedy lies for the "leakage of home life" class in finding some social or public activity to which they can devote their emotional and intellectual resources.

### Boiled Kettle With Old Crutches

Once Used Them Because of Rheumatism

He was not wrong, either—this man who concluded that he would not need his crutches again. Writing of his experiences, he says:—  
"For five years I suffered terribly from rheumatic pains, and I began to think my case hopeless. I also had a bad stomach, and I rarely had a meal without my food repeating on me. One day an old friend told me to try Kruschen Salts. So I bought a bottle and gave it a trial.

"After some time I was able to enjoy a good meal and to walk more freely. One morning I got up and lit the fire, and my mother thought I was crazy, because I saw my old crutches up and behind the bed for coffee with them. That was six years ago, and I am now back at my old job as a chef."—H.A.B.

Do you realise what causes a good deal of rheumatism? Nothing but slanting uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear those painful crystals from the system.

—ALL SUPPLIES used in our \$2.95 special permagnets guaranteed genuine oil imported especially for this particular time of year when your hair is dry and lifeless. Enquire from operators about our special vapor marcel machine—less permanent. Noonan's Beauty Parlor, Summerside. L-1291-3-22-31.

### Elmsdale and Vicinity

Miss Eileen O'Brien, Principal of Elmsdale School, spent the week-end in Montrose, the guest of Miss Bertha Bowness.

Friends here and elsewhere of Mrs. Bruce Currie will feel relieved to hear that her condition is much better since her entrance to the Prince County Hospital last week.

Mr. Everett Rix who has been attending the Leadership Course at St. Francis Xavier University, Antigonish, has returned to his home. Forthwith we expect to hear some enlightening ideas from Mr. Rix. Mr. Louis McCarthy also attended this course and is now at his home in Brookton.

We are pleased to welcome back to our midst Mrs. John Gordon of affable fame and genial manner. Mrs. Gordon spent the past few months in the United States.

MONTREAL, Que., March 28—Business men flying from Montreal to Toronto via Winnipeg and Vancouver to New York via the Pacific coast to the eastern cities, a woman pilot, a mother and her five months old child traveling from Victoria, B.C., to Winnipeg, a woman who has a number of medals for her first flight to her credit, including a crossing of the Pacific on the China Clipper, will be among the passengers when Trans-Canada Air Lines opens its regular transcontinental service on Saturday, according to George E. Wakeman, general traffic manager for T.C.A. from Montreal. W. H. Johnson, grain broker and prominent member of the Board of Trade, H. B. Vance and D. W. Martin will fly to Winnipeg. William Carswell, C. R. Wood and T. B. King will fly to Toronto. Booked from Toronto to Vancouver are Robert E. Day, C. J. Phillips, J. Addison, M. Rothchild, all of Toronto, and E. W. McQuay of Owen Sound. E. H. Bishop and J. A. B. Riley are going to Winnipeg.

Passengers from Vancouver to Montreal include Col. Victor Spencer, department store director and mining man; L. A. Halperin, president of a firm of wholesale canned goods distributors; and Mrs. Z. Averill of Aberdeen, Wash. Mrs. Averill is collector of first flights. Mrs. E. Malleck and her five months old child will fly from Victoria to Winnipeg. As well as being a department store buyer, Mrs. Averill is a pilot in her own right, a member of the "flying seven." F. W. Rickard is bound for Regina; P. A. Chester, for Winnipeg; P. J. Hanksy, of Nanaimo, for Edmonton.

Colonel Brosse, the president's military chief at the palace, met me on the red velvet and we entered the "Tapestry Salon" which is a glorified waiting room, so named for the magnificent Gobelin tapestries which cover its walls. Empire furniture recalls the days when Napoleon, 150 years ago, occupied the Elysees and entered his march on the future. An easel mirror of splendid proportions still here probably reflected the little emporium-to-be on many occasions.

Of course the guest is a King. President, our president himself comes here to the entrance to meet him at the door, Colonel Brosse explained.

The waiting room opens into the "Salon des Aides-de-Camp" so named because here the aides-de-camp and personal staffs await while their chiefs converse in the "Salon des Ambassadeurs" next to it. The walls are paneled in wood, richly carved and decorated, but painted in grey-blue which gives it a soberness beside the other rooms. Fat rosy cherubs sport playfully above the doors, a beautiful carpet is a little worn before the fireplace suggesting the shifting of many-booted feet over a period of many years.

Finally one enters the beautiful "Salon des Ambassadeurs." Three magnificent curved windows from ceiling to floor overlook a beautifully designed rose garden in blue and holding two exquisite golden candelabra. Priceless tapestries hang one either side of a marble fireplace at the right—and at the left are tapestry-covered period chairs.

It is here President Lebrun receives Colonel Vanier and recognizes Canada as being officially represented in France. The ceremony is simple. At the appointed hour, Colonel Vanier with the diplomatic service, the Trade Commissioner and other officials of Canada arrive at the Elysees and are met by the Chief of Protocols. They are conducted through these rooms to the golden salon where the President, surrounded by his civil and military official staff is standing with his back to the wall.

Further east of Canada's share of the North Atlantic ice patrol accounts for \$1,257 and \$1,000 for other marine service. The Prince Edward Island car ferry gets \$80,648 more above the \$327,000 already appropriated.

—ELECTS TRIAL AT SUPREME COURT—  
AMHERST, N. S., March 28—Charles Corliss today elected to try in Supreme Court next May on a charge of arson when he appeared before Judge Allen McDonald. The charge followed a fire which caused about \$25,000 damage to the Burnham and McGill lobster plant on Saddle Island, N. E., last September.

I believe the true road to permanent success in any line is to make yourself master of that line. —Andrew Carnegie.

—FIND BONES OF MOA—  
CHRISTCHURCH, N. Z., (CP)—Five skeletons of the extinct moa have been dug from swampy ground at Walker, Auckland, almost perfect; the birds, remains have been taken to Canterbury Museum.

### HOLMAN'S STORE NEWS

"AVON ART"—A delightful new assortment of English pottery—Just received!—Attractive!—Low Priced!—Buy it now for gifts and prizes. Selection includes Vases, Hanging Baskets, Wall Vases, etc. Prices are 15c, 50c, 75c—China Department.

REFRIGERATORS—Now is the time to buy a new refrigerator—while the assortment is complete. The new 1939 models are now on display in our Furniture Department.

### NAZI GERMANY WARNS POLAND

Advised To Steer Clear Of Anglo-French Bloc.

BERLIN, March 28—(AP)—Nazi Germany raised an admonishing finger today against any inclination of Poland to join British and French efforts to keep Germany from expanding further.

A pointed article in the Foreign Office mouthpiece, Deutsche Diplomatische-Politische Korrespondenz, advised Poland to stick to its policy of collaborating with Germany, as laid down by the late Marshal Joseph Pilsudski, and not to listen to "foreign stragglers" lest the result be not "advantageous" for Poland.

The Foreign Minister, Colonel Joseph Beck, is expected to go to London next week to discuss the European situation as altered after Germany's absorption of Czechoslovakia.

The correspondent said Chancellor Hitler considered a strong Polish nation a necessity for order in eastern Europe and added that responsible quarters in Berlin certainly will not overlook the country's special geographical position that up to now has dictated their policy of independence—and this without tension—aiming to keep good neighborly relations in all directions.

"Poland herself," said the correspondent, "must now know how successful her policy has been and to what extent her independence and world prestige have grown as a result."

"It is a question whether a departure from this line would work adversely. May foreign statesmen steer their hating voices in another direction."

### Two Youths Expiate Crimes On Gallows

KINGSTON, Jamaica, March 28—(CP)—Two youths paid with their lives today on Spanish-town prison gallows for slaying women—one for chopping his ex-wife's head off and the other for stabbing a girl who spat on him on the street.

Stephen Jameson, just over 20 years of age, was convicted of the February slaying here of hacking Etta Merchant, a domestic, to death with a machete last Oct. 31. He held her head and asked why she spat on him and asked why she held her good morning. He followed her and she spat on his face when he held her head. The stabbing followed.

His counsel argued that after the woman spat on him, Jameson became angry and lost his temper.

CHARLES S. ROBERTSON (Rockland, Me., Courier-Gazette, March 21, 1939)  
Charles S. Robertson, 71, died here last night at his home, 101 St. Street, Vinal Haven. Mr. Robertson was an esteemed citizen and prominent business man, the proprietor of the Vinal Haven Lumber Co. He was born at Prince Edward Island, son of James and Rebecca (Lucy) Robertson. He was a member of Star of Hope Lodge I. O. O. F.

He is survived by his wife Jennie (Winton) Robertson, one son, Floyd, three daughters, all in this town; three brothers, William of Thomaston, Robert of Oregon and Alfred of Southport, Prince Edward Island.

Funeral services were held at the Central Hotel Friday, Rev. Kenneth Cook, pastor of Union Church officiating. Burial was in the beautiful floral offerings. Interment was in John Carver cemetery. The bearers were brother Oddfellows: G. L. Bonson, C. G. Webster, A. A. Peterson, Albert Carver, Frank Haskell and George Gray.

Those from out of town to attend these services were Jim and Margaret Stewart of Scarborough.

### Students Vote For Conscription

SASKATOON, March 28—(CP)—Balloting among 875 Saskatchewan University students showed 93 per cent in favor of conscription. The vote was taken at a meeting in the event Canada becomes involved in war, Editor Jack Lunn of the Saskatoon Post announced Saturday.

About 56 per cent of the students favored military action to stop totalitarian expansion. On the question of Canadian support in the event Great Britain went to war, the students divided 380 for the affirmative, 324 for the negative. Seventy-eight per cent were prepared to fight if Canada were threatened with invasion. Only 59 per cent favored conscription of man-power in event of war.

Result of the University of Alberta poll was also announced by Mr. Lunn. Those favoring military action to halt expansion of totalitarianism numbered 303 with 118 opposed.

AUSTRALIA GOES FOR GUINEA OIL  
CANBERRA, March 27—(CP)—Plans for an extensive program of oil research by Australia in Papua and New Guinea in the latter part of this year have been announced by Prime Minister Lyons.

Mr. Lyons said the desirability of increasing supplies of oil within the Empire was obvious, and the Australian government was insisting that should supplies be located they must be available to Australia and the Empire in time of emergency.

Assistance of foreign capital and technical skill in the enterprise in no way violated this principle. The exploration program would be carried out by private companies, Mr. Lyons said, and no financial assistance had been sought from or given by the Commonwealth government.

### NOTICE

I will be in Summerside, Thursday, March 30, buying fox furs and in Charlottetown, Friday, March 31 at MacDonald's store up to 8 P. M.

Saturday I will return to Summerside.  
HARRY KIRSH—FUR BUYER  
L-1481.

### Seek New Route West To Orient

SEATTLE, March 28—The Federal Coast and Geodetic Survey has disclosed a five-year, \$25,000,000 project to chart a shorter, safer course to Asia through the north Pacific, and facilitate naval operations in the fog-shrouded Aleutian Islands.

Captain Gilbert T. Rude, chief of the Survey's division of hydrography and topography, announced four ships would chart waters of the Bering Sea this summer. The purpose, he said, is to develop, perhaps five years hence, a route between coastwise and Alaska through Unimak Pass and westerly along the northern side of the Aleutians.

Orient-bound ships from the west coast, now sail north until they reach the Aleutians and then westerly along the 50th parallel in a sweeping circle. The Unimak Pass route, long known to mariners, has been used only by a few steamers because of dangers of a compassively uncharted sea floor pitted by submarine peaks, some rising to within a few fathoms of the surface.

Rude said the proposed new route, about 150 miles north of the outer Aleutians, would be a hundred miles shorter and far less troubled by westerly storms.

Through Unimak Pass, often fog-bound, navigators would be guided by radio compass and electronic equipment. Rude explained, just as airplanes are being flown "blind."

"The Bering Sea and the North Pacific have become increasingly important to the Navy," Rude explained. "The survey will perhaps cost \$25,000,000. But a sunk battleship would cost twice that much. Existing charts of this area are inadequate. Soundings are gathered from a number of sources, some not too dependable. We still have no idea of the contours of the ocean floor in that area."

Rude was here to inspect a new \$892,000 steel survey ship, the USS Albatross, which will work Alaska waters this summer as the Guide, the Discoverer, and the tender Westdahl.

### Heavy Battle Is Waged In Central China

SHANGHAI, March 28—(AP)—Japanese and Chinese troops were reported today to be in a heavy battle for Wuning, Central China, 65 miles northwest of Nanchang, which Japanese reported occupying yesterday.

Chinese dispatches said Chinese entrenched at Wuning were resisting stiffly a mechanized onslaught. Both sides told of suffering heavy casualties.

Occupation of Nanchang, Japanese said, was "complete." However, Chinese military headquarters did not believe the city was held for months had been a major central China air base.

Besides the engagement at Wuning, Japanese said their troops were driving from Nanchang in an attempt to open a way to Changsha, Hunan Province capital 220 miles to the southwest.

On the central front, it was stated, "several divisions" of Chinese were trapped northwest of Nanchang, and 30,000 were encircled north of the north on the railway to Kiukiang.

The Summerville Women's Institute, although recently organized, is progressing favorably as they have already put some necessary fixtures in the school.

Most of the farmers have their supply of firewood hauled which is readily cut into stove blocks by giving Jack efficient help. One saw a tremendous pile in a day.

The village blacksmith P. J. Walsh is kept busy shoeing horses. It is owing to the packed road it is impossible to keep shoes sharp, and consequently from morn till night you can hear Pat's bellows roar.

The Maple Leaf Farmer's Institute, one of the oldest in the province, is booking orders for seeds with its efficient secretary, Thomas R. McLean.

What might have been a tragic accident occurred lately while Dominic Duffy and James Doyle were engaged in cutting lumber for Martin Hynes. Although Mr. Duffy, an experienced woodsman, was in the woods, James Doyle, who was felling in some unaccountable manner lodged in another tree standing nearby. As Mr. Doyle was engaged in freeing the tree it suddenly gave way, and Mr. Duffy, who was working nearby, was struck on the head by a limb, knocking him unconscious and inflicting a severe scalp wound. Mr. Hynes, having a horse and sleigh in the woods, quickly conveyed the injured man to his home where the wound was skillfully dressed by Mrs. Hynes. His many friends hope to see him around as usual in a few days.

### "Nursery Stock" Surprises Inspectors

OTTAWA, March 28—(CP)—When a package labelled "nursery stock" arrives in Canada, it is put to one side for attention of plant protection inspectors of the Dominion Department of Agriculture.

Last year they inspected millions of plants and flowers from 42 countries under the "nursery stock" category, looking for insects and plant diseases.

Department officials today received an unusual report from their inspectors at Halifax. When the liner Ausonia docked, England last week it carried a package labelled "nursery stock," which as a matter of routine was carefully stored at the proper temperature for tender young plants until the inspectors arrived.

"Nursery stock" right-inspectors found the package contained one infant's wicker bassinette and one complete handmade layette, all consigned to a Toronto address.

Inspection of the package was made by the Dominion Department of Agriculture inspectors at Halifax. The package was found to contain a complete set of baby's clothing, including a wicker bassinette and a complete handmade layette, all consigned to a Toronto address.

Inspection of the package was made by the Dominion Department of Agriculture inspectors at Halifax. The package was found to contain a complete set of baby's clothing, including a wicker bassinette and a complete handmade layette, all consigned to a Toronto address.

### Additional Estimates Are Tabled

OTTAWA, March 28—The Dominion Government's 1938-39 expenditures were brought up to \$548,915,000 today when further supplementary estimates totalling another \$1,000,000 were tabled in the Commons by Finance Minister Dunning. This compares with \$530,467,000 the year before.

Largest item in the new supplementary estimates is the Governor-General's warrant for \$13,000,000 as an added amount to cover the net income deficit of the Canadian National Railways. This is in addition to the \$42,000,000 voted for this purpose in the main estimates last year, or a total of \$55,000,000. Another \$6,565,000 is accounted for by other warrants for direct relief and food and fodder for drought areas of Saskatchewan and Alberta.

Departmental supplementary estimates amount to \$3,903,853, mostly for added administrative costs. The agriculture department requires \$1,022,407. The financial department requires a further \$2,031,201. The labor department seeks another \$1,800 for administration.

Under the head of soldiers' settlement of Canada, \$64,415 is required in connection with settlement of 500 British families in New Brunswick, part payable to the United Kingdom Government and part in financial concessions to the settlers themselves.

Further cost of Canada's share of the North Atlantic ice patrol accounts for \$1,257 and \$1,000 for other marine service. The Prince Edward Island car ferry gets \$80,648 more above the \$327,000 already appropriated.

—ELECTS TRIAL AT SUPREME COURT—  
AMHERST, N. S., March 28—Charles Corliss today elected to try in Supreme Court next May on a charge of arson when he appeared before Judge Allen McDonald. The charge followed a fire which caused about \$25,000 damage to the Burnham and McGill lobster plant on Saddle Island, N. E., last September.

### FOR SALE AT CORNWALL
