

CHINESE REBELS CLAIM A VICTORY

Government Troops Retreated and Warships Yang Tse River

HANKOW, China, Oct. 20—(By Wire)—The Government troops have retreated to Seventy Mile Creek, beyond the Hankow Fluvial. The revolutionists claim a great victory, and the Chinese warships have retreated down the river out of sight of the settlement. SHANGHAI, October 19.—Six packed steamers arrived here from Hankow today carrying refugees. Most of the foreigners were Russians, employed in the tea factories and Belgian iron workers employed in the steel works, the Han Yang arsenal and on the Peking-Hankow railway. The refugees declare that the whole Yang Tse Valley from Hankow to Shanghai, is in the hands of the rebels, with the possible exception of one or two of the larger cities, to which provincial officials have retired with their available troops. It has been insistently stated here that Kiu-Kiang, 150 miles below Hankow, is under revolutionary control. This is denied, however, by foreign officials and by the representatives of the Chinese custom service. Accounts of the revolutionary attack on Wu Chang as given by the refugees today emphasize particularly the massacre of the Manchus in that city. In the slaughter neither age nor sex was regarded, and it is doubtful, the refugees say, whether a single representative of the Manchu race was left alive there. Similar slaughter of the Manchu race followed in Hankow and Han-Yang, when these cities fell. Copies of the Central China Post, which arrived on the Belgravia, describe the early progress of the revolutionary movements. An editorial article comments at length on the manner in which the revolution was conducted: "The movement was commended the admiration of all parties," says the editorial. "The leaders displayed secrecy, promptitude and thoroughness—qualities seldom shown by the governing classes in China. But the massacre of the Manchus in our three cities is a ghastly blot on the reputation of the revolutionaries." The run on the Imperial bank here still continues, but the officials appear to have ample resources. They are now paying out for the first time the newly minted dragon (Continued on Page 3.)

PHYSICIAN DISAPPEARED FROM STEAMER

HALIFAX, Oct. 20—(By Wire)—Dr. Joseph Doyle, Assistant Port Physician disappeared from the quarantine steamer Minera yesterday. It is feared that he lost his life while trying to step ashore.

THIRTEEN ARE REPORTED TO BE DROWNED

ROCKAWAY, Oct. 20—(By Wire)—Miners were caught by a rush of water in the Iron Mines at Hibernia today and thirteen are reported dead, all foreign except the foreman.

TO PREVENT SHIPS FROM ROLLING SO

LONDON, Oct. 20—(By Wire)—The Cunard Co., is having new anti-rolling devices installed in the steamer Laconia which is being completed at Llandudno. If the experiment proves successful similar apparatus will be fitted in the giant liner Aquitania now building. The London and North Western Railway and the Great Central Railway are experimenting with three electric locomotives generating their own power.

WILD SCENE IN ITALIAN TOWN

ROME, Oct. 19—via Frontier.—Very grave disorders occurred at Segni, a town of 7,000 people one hour by railway from Rome, and the centre of a district in which is Carpineto, the birthplace of Pope Leo XIII., still surrounded with the ruins of towers erected in the middle ages for protection against the Saracens. The rioting was caused as was the case in Calabria, recently, by the action of the municipality in adopting the measures to stamp out the cholera. There were five patients in the hospital and four suspects are quarantined in a house. The inhabitants believed that the Government intended to poison the cholera patients and a great crowd marching to the city hall demanded their release. There were only four carabinieri in the place and when they attempted to defend the building, they were stoned, wounded and put to flight. Later they returned only to be again routed. They did not use their weapons, as they would have

been of little avail against the mob, which by that time had been swollen until it numbered several thousand, practically the entire population. The mob broke in the doors of the municipal building, seeking the mayor whom they held primarily responsible. However, the mayor, and his clerks had made good their escape, and found refuge with friends in a house where they could not be found. Failing to lay hold of the Mayor the mob attacked the building and burned it. The sight of the flames appeared to add to the frenzy of the rioters and when a woman seizing the municipal flag from the burning structure cried "to the hospital," the suggestion caught the fancy of the crowd and in another moment the thousands of shrieking and gesticulating men, women, and children were bearing down on the hospital. The doors were forced, the attendants swept aside and the cholera patients lifted from their cots and carried to the street.

THE "KELSEY KIDS" OFF FOR SUMMERSIDE

Harry and Mrs. Humphries, New York, who have been in this city since Friday night, leaving this morning via the road for Summerside, continuing their 48,000 around the world walking tour—the longest feat of pedestrianism ever attempted. Yesterday the pair enjoyed a tramp around this city seeing the town—the privilege of an automobile being denied them for obvious reasons and no conveyance being permissible owing to the fact that those putting in the 10,000 wages—the Polo Monthly—offer \$1,000 for the party who will produce evidence proving the use of a vehicle of any kind during their big tour. Mr. and Mrs. Humphries enjoyed themselves yesterday—and why not? They are most friendly and quickly

became acquainted with all whom they meet. Moving about the city yesterday they were the cynosure of all eyes and their elastic step was commented on as an assurance that they were fit for their task while their physical condition emphasizes the implication. They visited Premier Palmer and Mayor Rogers yesterday and were most graciously received by both officials. From the former they secured his signature and the official seal of the province, which Mr. Humphries referred to later as of beautiful design and appropriate to the little province it represents. The civic seal and the Mayor's signature were received from Mayor Rogers who chatted with the pair for some time and who was most favorably impressed by the pair.

PASTOR SUSPECTED OF POISONING HIS FIANCEE

RAIN AGAIN POSTPONES A BALL GAME

PHILADELPHIA, Oct. 20—(By Wire)—Jupiter Pluvius still holds the advantage in the series for the base ball championship of the world. Today's game has been laid over until tomorrow.

INCENDIARY NIGHT BLAZE DISCOVERED

TORONTO, Oct. 20—(By Wire)—After a fire had been extinguished last midnight in the Taylor Osborne Printing Co's Office it was found that the safe had been opened and looted. The fire was undoubtedly incendiary and did considerable damage until tomorrow. A stranger who was in the building when the firemen arrived and helped to lay the hose was not to be found after the fire.

A HUMAN FOSSIL AT SYDNEY MINES

NORTH SYDNEY, Oct. 19—Of the numerous fossils that have been taken from the different collieries at Sydney Mines, the most unique was that taken from the depths of No. 5 colliery or Saturday afternoon last. The object which is of a slate composition bears a marked resemblance in form to a human being, the legs being particularly distinctive. It is however some eight feet in length and is supposed to have been a part of a tree. It is now on exhibition at the far house, at No. 5 and a large number of people are daily visiting it.

AMERICAN FINANCIER'S PROPOSAL FOR IMPROVEMENT OF MONETARY LEGISLATION

WASHINGTON, October 19—Former Senator Nelson W. Aldrich of Rhode Island, to-day submitted to the National Monetary commission, of which he is chairman, a revision of his plan for monetary legislation. The commission may use it as the basis of its recommendations to Congress. The basic principles of the revised plan are substantially the same as those embodied in Mr. Aldrich's first proposal sent to the commission last January, which, he said, he expected would serve as a basis for national discussion. Important phases which were then unsettled, and those which were settled, are as follows: COMMUNICATION THROUGH PROVINCE AND WITH MAINLAND Yesterday the Northumberland left this port at 8.20 a. m., for Pictou with passengers, freight, express and mail docking at noon. She left on return at 4.55 p. m., bringing passengers, freight, express and yesterday's N. S. mail and arrived at 8.25 p. m. She leaves this morning for Pictou at 8.20. Yesterday the Harland left for East River at 5.30 a. m. and returned at 9.30 a. m., she left again at 2 p. m. for East River, returning at 6.30 p. m. Today she sails for West River at 6 a. m. returning at 9.30 a. m., and sails again for West River at 2 p. m. returning about 5.15 p. m. Yesterday the Eastern express was on time, the Southern accommodation was fifty minutes late, the Western accommodation was thirty minutes late, the Summerside accommodation was fifty minutes late, the Eastern accommodation was forty-five minutes late and the Western express was thirty minutes late.

She Died Suddenly Supposedly Having Committed Suicide. Found Out That Minister Had Bought Deadly Poison and She Took it Unknowingly

BOSTON, Oct. 20—(By Wire)—Clarence Richeson, Pastor of the Baptist Church, Cambridge, was arrested today as the result of the death by poisoning of Avis Linnell. The arrest was made at the home of the clergyman's fiancée in Brooklyn, Richeson was arrested on the information, substantially by the police, that the minister had bought a quantity of cyanide of potassium at a drug store on October 10. Miss Linnell, a 19-year-old girl, was found dead last Saturday evening. At first it was believed she had committed suicide but later developments indicated that she had unknowingly taken cyanide of potassium, given or sent to her and which she used in belief that it would help her. BOSTON, Oct. 19—When Chief Dugan of the Bureau of Criminal Investigation concluded a hearing at the Young Women's Christian Association on Warren street last night, he declared he only wanted one link in his chain of evidence and an arrest would follow, in connection with the death of Avis Linnell. He would not indicate what was wanted to make him act the minute it came to his knowledge. The person the chief seeks is the one who sent of the cyanide, quietly her with the counsel that it was for her good. When did Avis Linnell receive that package and where? This is the central surrounding the young girl's death. Avis Linnell's time from early morning to shortly after noon is easily accounted for. She was in the group of girls at the W. W. S. rooms on Warren street from five o'clock until just before the time that she was found dying in the Lichroom. Girl friends of Avis Linnell were pulled through careful catechism by Inspector Dugan at the Y. W. C. A. building last night. All of them satisfactorily accounted for the dead girl's time except for the three hours naming.

Lucile Seigler, Avis' room-mate and fellow student at the Conservatory, with Miss Barkhouse, a girl from Hyannis, were the only two who could offer any account for the unexplained three hours. They said that Avis had told them that she was to dine with a male friend on that afternoon, as was her custom almost every Saturday afternoon. None of the girls could say absolutely that Avis Linnell had dined with a male companion. After his breakfast at the home of Frank H. and Mrs. Carter of 147 Magazine street, with whom he was boarding, the Rev. Mr. Richeson returned to his room to write his sermon for Sunday, according to his usual custom. Mrs. Carter says. He did not leave the room until 12 o'clock and then only to call out to Mrs. Carter he would not want any lunch, says the landlady. Shortly after 1 o'clock he left the house to go to the city, according to Mrs. Carter. He returned a little after 5 o'clock, had his supper and went to a meeting at his church. At half past eight he was called to the telephone in a neighboring house and was informed that Avis Linnell was dead. The authorities at the Y. W. C. A., who had called him, said that he had refused to go to the house, saying that as Miss Linnell's parents had been notified, he could be of no assistance. Saturday night he was at his boarding house and for some time talked with Mr. and Mrs. Carter about Avis Linnell. Immediately after the afternoon service at his church on last Sunday he went to the home of his fiancée, Miss Violet Edmunds, in Brookline, and has not left that house since. Early last Thursday morning he summoned a classmate from the Newton Theological School to his bedside. He would admit any of his parishioners, however. He had told the former classmate that he wanted him to do something for him, but when his friend reached the house Dr. Harrie W. Currie, who was attending Richeson, would not allow him to speak to his friend at all. Mrs. Mary Gibbons, who was Richeson's landlady for a few months told yesterday of being presented to two different ladies by the young minister, each as his fiancée.

C. G. S. EARL GREY ARRIVED IN PORT

CANADIAN CHILDREN'S HARSH TONES

MONTREAL, Oct. 20—(By Wire)—Canadian children's harsh vowels and rough manners of speaking were deplored last evening by Bishop Farthing in the course of an address of welcome to the Protestant churches of this Province last evening at the shrine of their annual convention.

DR. T. S. SPROUPE WILL BE SPEAKER

OTTAWA, October 19—At the close of the cabinet meeting this afternoon, it was announced by the prime minister that Dr. T. S. Sproule, M. P., for East Grey, would be the government candidate for speaker of the house. It is generally understood that P. E. Blondin, M. P., for Champlain, will be deputy speaker and that Senator Landry will be speaker of the senate. No official announcement has been made as yet respecting the last two names appointments. "Upon the application of the reserve association the secretary of the treasury shall exchange the two per cent. bonds which the association will but from the banks at par and accrued interest for a new issue of three per cent. securities, payable 50 years after the date of issue. The reserve association will pay to the government a special franchise tax of 1 1/2 per cent per year on the amount of such bonds. As the government two per cent. is not actually 1 1/2 per cent., since the banks pay back a half of one per cent., as a tax when the bonds are used as the basis of interest-bearing public debt at a net interest charge of 1 1/2 per cent. This arrangement proposes a solution of what many financiers declared the greatest obstacle to the plan. It disposes permanently of the bond secured currency without loss to the government and without imposing upon the reserve association the ownership of the \$730,000,000 two per cent bonds. Last Night at About ten O'clock—Her Summer's Cruising. All Well

The C. G. S. Earl Grey arrived in this port last evening at ten o'clock from Quebec, making the trip from that port in forty-one hours, having left there at five o'clock on Friday morning. The ship now presents a most attractive appearance, having been kept in a trim, yacht like condition for the past summer during which she was on gaged on the St. Lawrence with His Excellency the Governor General and party. Her last official act in this connection was the transfer of His Excellency, Her Excellency Lady Grey, Lady Evelyn and Lady Sybil, from Montreal to the R. M. S. Victorian, on which steamer they embarked for Liverpool on return to the old country. The Earl Grey left this port on Sunday, June 25th for Montreal, coaling at Sorel en route and arriving in Montreal three days later. On July 3rd, the Governor General and party, consisting of Their Excellencies, Lady Sybil, Grey and Capt. Bingham, A. D. C., were taken on board. The vessel left that day for Rimouski where Capt. Trotter, A. D. C., who had just arrived from England, was added to the party. Just before reaching Rimouski the Earl Grey struck on Goose Island Reef. A pilot was in charge at the time. After leaving Rimouski she proceeded to Godbout River on the North (Continued on Page 3.)

RAILWAY TO BE COMPLETED THIS AUTUMN

MONTREAL, Oct. 20—(By Wire)—In spite of what has been said to the contrary the Transcontinental Railway will be completed from Quebec to Moncton this year according to T. Davis who is building the Quebec Bridge and a good stretch of the Transcontinental Railway east.

BARONESS ONCE FAIR REDUCED TO BEGGING

BERLIN, Oct. 18—Baroness Victoria Wollfe Totenwarth, once one of the prettiest and wealthiest women in the Duchy of Saxe Weimar and one of the best known beauties at the Southern German courts, has fallen so far from her former high estate that she has been sent to jail at Weisswasser in Upper Lusatia for hotel swindling. She is now so poor that she has even been arrested for begging. Some years ago the Baroness, then at the height of her fame, and beauty, fell in love with a New Yorker named Date or Dathe, and her romance was a painful one. About a year after she had eloped with the American a son was born to her and a few months later she was awakened rudely from her dream of love. After Date left her she found that her money, which she had entrusted to him, had not been invested in American securities or in profitable German enterprises and that she await her release.

was penniless. Next she learned that she had never been a wife. She was told that Date was married to a woman who had been a servant. The Baroness appealed to her friends, and for a time contrived to live on contributions made to her by the wealthy noble families she had known. But the sums were very small. The Duke of Saxe Weimar sent her only \$50 a year, and soon they stopped altogether. Then, in despair, the Baroness sought solace in intoxicants and wandered about the country supporting herself and her son by needlework. When her needle failed she was driven to begging. At last she found that hotels would readily give her credit when she showed the credit of her title. The unhappy woman was arrested Tuesday night as she was leaving the Hotel Deutsche Kaiser at Weisswasser. Her papers showed who she was, but she was sent to jail. Her little boy was left at liberty to German enterprises and that she await her release.

LIFE'S LESSON

I learn as the years roll onward And I leave the past behind That much I had counted sorrow But proves that God is kind: That many a flower that I'd longed for Had hidden a thorn of pain, And many a rugged by-path Led to field of ripened grain. The clouds that cover the sunshine, They cannot banish the sun, And the earth shines out the brighter When the weary rain is done. We must stand in the deepest shadow To see the clearest light; And often through wrong's own darkness Comes the living strength of light.

The sweetest rest is at evening After a wearisome day, When the heavy burden of labor Has been borne from our hearts away; And those who have never known sorrow Cannot know the infinite peace That falls on the troubled spirit When it sees at last release. We must live through the dreary winter If we would value the spring; And the woods must be cold and silent Before the robins sing; The flowers must be buried in darkness Before they can bud and bloom. And the sweetest, warmest sunshine Comes after the storm and the gloom.

WHAT PAPER TO READ

(Contributed.) There's a very distinctive line of division between two days. The interval of sleep which separates them, wipes out a great many of yesterday's impressions, and leaves the mind free for those that first come to it in the morning. Thus there's a REAL REASON why advertising in a morning newspaper influences the buying for the day. Minard's Liniment Cures Dandruff. Minard's Liniment Relieves Neuralgia.

WEATHER FORECAST &c.

TORONTO, Oct. 20—Light to Moderate winds; fair, not much change in temperature. The temperature at three o'clock this morning was forty-one degrees above zero. The lowest temperature recorded yesterday was forty-five degrees above zero and the highest was fifty-two. The coldest recorded the previous night was forty-four above zero. At nine a. m., yesterday it was forty-five degrees above zero, and at nine p. m., it was forty-seven degrees above zero. The length of today will be ten hours and forty-nine minutes, tomorrow ten hours and forty-five minutes and Monday ten hours and forty-three minutes. The tide will be high tonight at 10.25, tomorrow night at 10.56 and Monday night at 11.25; it will be high this morning at 10.12, Sunday morning at 11 and Monday morning at 11.44. The sun sets this evening at 5.08, tomorrow evening at 5.06 and Monday evening at 5.04; it rises tomorrow morning at 6.23, Monday morning at 6.24 and Tuesday morning at 6.26. The new moon rises tomorrow morning at 11.57 and sets Monday evening at 5.40. Minard's Liniment Cures Burns, Etc.
