**Australia to Control whole Economic plan**

CANBERRA, Feb. 10 — (AP) — The Australian war cabinet today adopted a plan to freeze and place under strict government control practically the whole economic, industrial and business structure of the Commonwealth.

It is the most drastic and far-reaching decision ever taken by an Australian Government affecting the private lives and liberties of the people. It is designed to marshal the entire national wealth of the country.

Among the measures to be implemented by the regulations, which are to be promulgated in the near future, are:—

1. Pegging of wages at the present level.
2. Limitation of profits to four per cent.
3. Prohibition of all forms of speculative trading.
4. Fixing of interest rates.
5. Government control of employment.
6. Prohibition on all persons absenting themselves from work.
7. Proclamation of specified areas as being under military control.

Mrs. Clara R. Ritchie, convener of the Publishing Committee of the Ladies Auxiliary B. E. S. L. gave a splendid account of the work done by her branch during the past year and said that early in the year the committee had suffered the loss of their Convener, Mrs. L. T. Lowther, who was compelled to move to another province. Mrs. Lowther's departure has been keenly felt by each one of this committee.

The undertaking has been an arduous one said Mrs. Ritchie, yet a pleasant one as well, in that we felt we were rendering a real service where badly needed, by helping to make the Legion Home a pleasant and attractive place, as near as possible to home from home; where so many of the gallant lads who are preparing themselves to serve King and Country on your and our behalfs, might spend their hours in games and dancing, as well as writing in a well provided writing room, to their loved ones at home. This we have succeeded our, and I believe your, most ardent expectations. Mrs. Ritchie thanked all those associated with her in the undertaking, who at all times were ready and willing to give of their time and energies which has made possible the success attained.

Thanks were extended to Mrs. H. A. Messervy, who in addition to her other services, personally collected \$90.00 of the \$93.15 collected by solicited donations. Also Mrs. G. A. McDonald for her clever needle work, and Miss Nan Brow for her professional ideas in decorating. To the members of the Canteen Committee, Messrs. Reasiter, Walker Bruce and Palmer, with whom the committee met frequently.

Funds were received from several sources such as solicited subscriptions, private donations, various societies, Women's Institutes and a donation of \$20.00 from the Ladies Auxiliary B. E. S. L. When the call for bed clothing went out, Women's Institutes to the number of thirty-eight (38) responded almost immediately. Each of these thirty-eight Institutes were sent a letter of thanks and appreciation. The result is there is now a fairly well equipped department. Blankets, quilts, pillows, etc. are of excellent quality. To those who contributed money, furniture and furnishings thanks were also extended. The committee are passing on to their successors a well furnished home and are quite confident they will maintain, if not exceed, the high standard we have set them by: Mrs. Cook, Mrs. DeBlois, Mrs. Sierns, Mrs. McDonald, Mrs. Messervy, Miss Brow.

MONTREAL, Que., Feb. 9 — Crown Prince Olav, of Norway, is responsible for a problem now interesting Canadian skiers, weather to "skee" or to "shee". Prince Olav, himself an enthusiast of the downhill and trail raised the question after a journey over the Canadian National Railways in the popular ski grounds near Huntsville, Ontario. Asked for the proper pronunciation of the word now in daily use throughout the snow belts of Canada and the United States, His Royal Highness suggested "skee" adding that, "shee" is Norwegian while "skee" is German in origin.
