

**Our Displays of Silks
Have Created
Unprecedented Interest**
Colorings Hold Center of Attention

Aside from the comment that has been created because of the splendid showings made and the displays that are attracting such wide attention, it is to be noted that the colorings no doubt hold the center of the stage. We venture to say that no matter what your tastes, and how difficult it has been in past seasons to satisfy them as to colors—you are BOUND to find several designs to please you this Spring. It is not a question whether you'll like the patterns—they'll fascinate you at first glance.

The New Shirts Are In

These are of strong, firmly woven madras and other cottons in a full variety of colored stripe patterns. Compared to the average shirt now selling at the same price, you will say these are far and above the average. Full body, and sleeve lengths for all types.

We'd suggest that you buy three or half a dozen of them when you pass the store to-morrow and have an ample supply on hand for Spring.

- STIFF CUFFS
- SILK FRONT SHIRTS

Shirts at \$1.35 to \$3.50 each.

**Neckwear Delightful
And Always New**

Among the new pieces are those of lace and net, to draw your particular attention to the fresh new sets of pique, sheer organdies and silk crepes. For dash and youthfulness, nothing we've yet seen comes up to them. Starting with 25c for a collar, prices rise by easy stages to \$3.00 for sets.

**Women's Spring Coats and Suits
Feature the Last Word in Fashion**

Our stock embraces models for all types of figures; the snug, straight line coat, and the flaring box model, now so popular. New innovations in collars and pockets add to their attractiveness. Others in Military style have novel trimming. Gay colored silk linings are an important note, for in warm days the coat is more often carried on the arm, and for this reason the lining is to be given due consideration:

The fabrics most prominent are Poplins, Silk Duvetyn, Velour, Checks, Serge Coverts, and Tricotines. Prices range from \$12.75 to \$50.00

**Honest Facts About Our
Spring Suits**

It would be childish to argue that you can buy as good a suit for the price now as you did years before. That would be as much as claiming that there never has been a war going on in Europe, that dyes cost as little as they once did, that importations of wool are going on as usual from Australia. All of which is not so.

But as a plain, unvarnished, unminced statement of fact, these suits are UNUSUAL VALUES. Bought of manufacturers who are the lowest-priced and most aggressive in their field, and with the equal aggressiveness of this store, bought many months ago and now selling at prices in many cases as low as present factory costs.
