WHY HE WENT BACK

A man who saw an Irishman stagger out of the sea and collapse on the shore hastened to the swimmer to see if he could be of any assistance, but was surprised to see the bather rise to his feet and make for the water again. The charitable person rushed forward to stop the obviously foolhardy swimmer, who, turning, said: "Shave, I've saved myself and now I'm goin' back for Molke!"

BURNS and SCALDS
The handle of the preserving kettle is too hot--the stove lid lifter has been too near the front of the stove--or a kettle tips and spills some of its contents--and before you know it you have a nasty burn or scald.

Absorbine J
Is very valuable in such accidents because it soothes the raw, tender flesh, allays the pain and promotes a rapid and comfortable re-building of the tissues, at the same time removing the danger of infection. For all aches, pains, cuts, sore or strained muscles, ABSORBINE J has found well merited favor. \$1.25 a bottle or sent postpaid by W. F. Young, Inc. 110 Lyman Building - Montreal

Dezeng Diagnostic Professional Unit
COMFORT FOR THE PATIENT EFFICIENCY FOR THE OPHTHELMIST
The Wallworth Unit presents a compact selection of scientific instruments that enables the Ophthalmologist to carry completely his ocular examination, without the patient leaving the chair and with each individual instrument within instant reach. An important requisite of a refracting outfit is absolute comfort for the patient. This has been accomplished in the Wallworth Unit with adjustable seat, head rest and arm-rest. The chair can be reclined, raised or lowered and adjusted to the perfect comfort of any patient. A comfortable patient can be more quickly and easily examined. Accuracy and efficiency for the Ophthalmologist is accomplished with Dezeng diagnostic instruments of minute precision which are within instant reach and swing before the patient. This Unit is used in all ocular examinations by H. J. MABON O.P.T. Montreal, P. E. Island. Office Connected With Drugstore

FIRE ALARM--The Summerside Fire Department was called out Monday morning for a fire at the Clifton House. It is supposed to have started from sparks from the fire on the roof. The firemen quickly relieved any possibility of the fire getting under way, and it was extinguished with very little damage.

DIED SUNDAY--The death occurred at his home in Summerside on Sunday night of Mr. Roderick A. McDougall, one of the oldest and most highly esteemed citizens. The deceased was born in Grand River, Lot 14, but lived at Brae until about 10 years ago, when he came to Summerside. He was of a quiet and unassuming disposition, but nevertheless will be greatly missed and mourned by a wide circle of friends. He is survived by one brother, Dr. McDougall; a sorrowing widow besides two sons and five daughters. The daughters are Mrs. Neil McDougall, St. Eleanor's, Mrs. Peter Donahoe, Roseville, Margaret, Julia and Mary at home. The two sons, Joseph and James, are at home. The Guardian extends its sincere sympathy to the deceased. The funeral takes place this morning to St. Paul's Church.

GUARDIAN OFFICE--The Guardian's Western Office is now located in the McNeill Building, Water St., Summerside, where subscriptions, news or advertising will be received. The phone number is 233.

LAD TO REST--The funeral of the late Mr. Charles Andrew took place Monday afternoon from his residence in St. Eleanor's to the People's Cemetery. The late Mr. Andrew was one of the oldest and most highly respected residents of St. Eleanor's, and his passing on Sunday morning removes one of the landmarks of this old settlement. He is survived by his wife and one son.

PERSONALS
Rev. John A. Macdonald, Grand River, was in Summerside Monday.

Mr. and Mrs. Gordon Schurman, Summerside, have arrived home from their trip to Ottawa.

Miss Bertha Schurman, Summerside, left this morning for Moncton, where she will be the guest of Rev. A. K. and Mrs. Herman.

Mrs. Charles A. Melke left Friday morning on a visit to her sister, Mrs. J. W. Heustis in Norfolk, Mass.

Mr. Morley Bell, Summerside, has left on a trip to Montreal where Mrs. Bell has been for some weeks with her sister, Mrs. Marcus Calder, who is under medical treatment.

RESERVE Wednesday, July 14th, Tea Party, Georgetown. 8805-6-14-31

EASTERN GUARDIAN--Mr. J. W. Murdoch is now Guardian agent in Montague and will be pleased to receive news items, advertising, etc.
WELL EQUIPPED--Few farmers on the eastern North Side are as well equipped for potato growing as is Mr. Chester McDonald of Clear Springs. With his modern Aspinwall potato planter and fertilizer distributor he is able to plant and fertilize 60 bushels of sets a day and distribute the fertilizer at the rate of 1,000 lbs per acre. Mr. McDonald is planting a large area of both the Cobler variety for seed purposes, and the reds for the general markets and is using a large quantity of fertilizer. Besides the usual fertilizer, he also provided sincere sympathy to the deceased, cultivating, springing, apparatus, etc.

LOBSTER FISHING SLACK

During the past week the lobster fishing at most of the North Side factories was slack with fine weather and everything favorable. The North Side fishermen will fare off better than the packers as all with few exceptions, fish on what is called "half line" the packers furnishing everything the fishermen's loss being only their "time". The packer has to stand all the loss, if any. The packers therefore, are not feeling over-jubilant.

LOWER MONTAGUE--The annual meeting of the "Live Wire" class was held at the home of Mrs. John Sloane on Friday evening, June 14th. There were ten members and four visitors present. An election of officers took place and the usual opening exercises the following were elected for the coming year: President, Irene Ross; Vice President, Lucy Cowan; Secretary, Agnes Allnear; Treasurer, Elizabeth Scholter. A report was received from Mrs. Morton who is a missionary in Japan, asking the class to send dolls to the little girls there. The class decided to get those dolls and send them as soon as possible. The girls also decided to hold a sale of Ice Cream in the near future. This class was organized four years ago with Mrs. D. A. Horton as director. Mrs. Horton is now retiring from this office and Mrs. Sloane was accepted as the new Director. At the close of the meeting a dainty lunch was served and a vote of thanks tendered Mrs. Sloane for her hospitality.

Nation-wide Fame. There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

PERSONALS
Mr. Alex McLaren, Charwood, who has been seriously ill, disposed all spring is around again well as ever.

Mr. Leo S. McCormack, roadmaster for Big Pond was in Souris on the 29th on business.

Rev. Stephen McDonald who is visiting the old home at Monticello, occupied by his brother, John Bornish McDonald said Mass Sunday in the parish church at St. Margarets. His many friends were pleased to see that he now is so improved that he gets along with the aid of a cane only.

BLACKHEADS
Get two ounces of peroxide powder from your druggist. Sprinkle on a hot, wet cloth and rub the face briskly. Every blackhead will be dissolved. The one safe, sure and simple way to remove blackheads.

Summerside Town Council Meeting

The regular meeting of the Summerside Town Council was held Monday night with the Mayor and all the councillors (with the exception of Coun. Phillips) present. Town accounts for \$2509.09 were read and ordered paid. Bills for the Street Project of \$974.34 were also ordered paid. Paid bills to the amount of \$639.94 from the Fire and Light Committee were confirmed and Unpaid bills amounting to \$1023.44 were ordered paid. A communication from Mr. Simon J. Hayes was read applying for a position on the Police Force in the event of a vacancy; and further stating that in this capacity the applicant wished to renew his reputation as a worthy citizen. The communication was received and filed.

A report from Dr. R. S. Cameron, Meat and Milk Inspector, was read stating that he had tested the milk of 12 of the milk vendors and found the samples up to the standard. The communication also stated that there were several parts missing from the Babcock Milk Tester. The letter brought out a much needed discussion of the Milk Inspector question. Coun. Grady thought the report was a little brief.

The Mayor explained that Dr. Cameron had never done this work before and he thought that as long as the milk tested up to the standard that that was all that was necessary when his Worship had told the doctor what was desired he was quite agreeable and suggested taking the samples of milk to one of the creameries for a thorough test. The Councillor thought the report was not satisfactory. The names of all the Milk Vendors should be submitted. Twelve vendors were mentioned in the report but he (Coun. Johnston) understood there were 15. The Councillor expressed himself of having the milk taken to the factories for a test and also stressed the point of having the milk tested every month and the names of the vendors with their percentage published as in other towns.

The Report was received and filed. Coun. Schurman submitted a comparative Financial statement for May showing a decreased expenditure over May 1925 of \$1,567.95, the principal saving being in the Street Dept. Coun. Johnston moved, seconded by Coun. McNally, an amendment to the By Law with reference to Licensing of Milk Vendors and Inspection of Milk stating that "the appointment of Milk Vendors and Inspection of Milk may be made by any duly qualified veterinary or by the Town Veterinary Inspector. A communication was read from the Warren-Bituminous Paving Co. giving quotations for paving Wat-

Mt. Stewart Items

The annual spring house-cleaning being about finished on the interior, the exterior spring-cleaning is now in full swing. Some are busily employed painting and cleaning their door and window screens. Others white-washing their out-buildings, fences, etc. Also some others busily engaged in gardening so that it seems "Everybody's doing it" just now.

Mr. Davison Affleck sold a fine horse to Mr. William Pigott, Savage Harbor, last week. Mr. Pigott bought him for general purposes and has made no mistake in his selection.

Mr. Louis Baxter called at Mt. Stewart last week and bought a number of old-fashioned hand-made mats which he will sell in American markets.

Mr. James Loughran, Charlottetown who is installing a pump for R. C. Clark, has engaged the services of Martin Thomas, Scotch fitter about all the available men here being engaged in the work of widening the R. R.

Mrs. J. R. McAuley returned Wednesday from Point DesRoches and vicinity where she spent the past fortnight with friends and relatives.

Mr. William McKenzie who runs a daily milk delivery here, is doing quite a business these times. The several new families who have moved here are increasing his number of customers. But he has always a "cheerful grin" and says the more, the merrier.

On Thursday last an accident which happily did not prove fatal befell Edna, the little daughter of Mrs. Howard Glover. She and her sister Ruth were playing with a rubber ball down where formerly stood a steam-mill owned by Mr. Wallace Clark, in days of ship-building here, and of which there is now nothing left but the old tank with water, and containing about eight feet of water, mostly used for washing carriages, cars, etc. The little girl in passing it tripped and fell into it. With remarkable presence of mind little Edna ran and summoned Dr. Martin, who lives quite near. Hastily running to the scene the Doctor pulled the little girl out and carried her to his home, where he quickly revived her.

Messrs Arthur and Albert Jay, Bordou, motored to Mt. Stewart to spend the week-end with their parents, Mr and Mrs George Jay.

Annual A. O. H. Field and Track Sports

AT TIGNISH ON JULY 10
Under the Auspices of the Tignish Athletic Club.
