

# YOUR NEW SPRING SUIT

Now is a most opportune time to buy a new Spring suit. Our large stock includes all the new and novel effects. Olive blues, greens and the late shades of grey in their many tints and tone all of rich and pleasing effects.

But it is not mere beauty of pattern to which we would call your attention, for good cloth in the hands of a poor tailor means poor clothes. Just a glance at the suits we turn out will convince you that we are high grade tailors. Our suits have that combined elegance of style and neatness of finish, that make instant and eloquent appeal to good dressers.

"My youngest boy, 3 years old, was sick with fever last June, and when he got better the doctor prescribed Scott's Emulsion, and he liked it so well that he drank it out of the bottle, and is now just as plump and strong as any child of his age anywhere... two bottles fixed him O.K."—MR. JOHN F. TEDDER, Box 263, Teague-Freestone Co., Texas.

## SCOTT'S EMULSION

is the greatest help for babies and young children there is. It just fits their need; it just suits their delicate, sensitive natures; they thrive on it. Just a little does them so much good and saves you so much worry. You owe it to them and yourself to make them as strong and healthy as possible. SCOTT'S EMULSION will help you better than anything else; but be sure to get Scott's. It's the best, and there are so many worthless imitations.

Mr. Tedder has just written us another letter about his brother-in-law's children. Let us send you his letters and other information on the subject. A Post Card, mentioning this paper, is sufficient.

## SWEET PEAS.

Most everybody is fond of sweet peas but how many fail to get them to bloom as they like them, it may be the fault of the seed. A prominent lady of this town called and said, "we had grand results with the sweet pea seed we bought from you last spring." She also added, that her neighbor's sweet peas were a failure. Of course we answered she made a mistake by not buying their seed from us. See our advertisement in this paper.
