JAP. POLICY IN FAR EAST ATTACKED

Russo - Japanese Alliance For Control Of Asia Forecast By United States Senator.

(By D. Harold Oliver Associated Press Staff Writer) WASHINGTON, Feb. 10—In a scorching attack on Japanese policy in China, Senator Pittman (D. Nev.) today advocated "dominating" naval and air forces for the United States.

The chairman charged in a formal address that Japan had violated the nine-power Pacific treaty to respect China's territorial integrity.

His remarks quickly brought Senator Lewis (D., Ill.) to his feet with a forecast of a Russo-Japanese alliance for control of Asia and exclusion of Americans from that continent.

Ambassador Hiroshi Saito declined to comment directly on Pittman's speech, but told reporters Japan has "no intention of closing the door to commerce in China."

The Japanese envoy added that "our interests broadly and generally are not at variance." He laughed when informed of Lewis' warning.

"That is something new and novel," Saito said. "Up to now all the talk has been about the possibility of war between Russia and Japan. I do not, of course, expect that."

Pittman declared that Japanese "propagandists" were "apparently attempting to influence the good, peace-loving people of this country through deceptive articles and threats of war."

"Of course, Congress will not be bulldozed into the abandonment of our national defence, the protection of our legitimate foreign trade, or our commerce with China, a friendly nation that is at peace with us and the rest of the world."

Pittman supplemented his prepared speech with a statement that "the United States navy is not as strong as the Japanese navy in any operations that might take place in the far Pacific."

"We have no safe base for supplies and repair work west of the Hawaiian Islands," he said. "The deterioration of the effective strength of naval vessels attempting to operate three or four thousand miles away is too well known to require discussion."

After criticizing the Japanese Ambassador without mentioning him by name, and other Japanese authorities for statements explaining Japanese Manchurian and naval policies, Pittman concluded: "By every obligation imposed upon a government, it is our duty, in honor and good conscience, to defend and protect our citizens and those dependent upon us for protection, not only in the far Pacific, but wherever they may be."

"Apparently, this cannot be accomplished by treaties, and if that is so, then there is only one answer, and that is dominating naval and air forces."

The proposal that the Aid entertain a concert at the Holy Name Hall met with the approval of the meeting. Plans were made to have the boys brought to the Hall in the near future to enjoy a real holiday. If the venture is successful, the Aid plans to repeat the holiday again during the winter.

Both are concert pianists in their own right. At first they played together for diversion. Later they found their new interest so engrossing that they had to be fitted for this combined career. They commenced practicing with a joint career as a goal. In the spring of 1929 they gave their first two-piano recital at the Toronto Conservatory Concert Hall. Their sound ensemble have won them an enviable place in the musical world. Much of the enthusiasm expressed over their concert has been won through their brilliant transcription, especially those from the organ works of Bach, which are a feature of every programme they give.

FINE PIANO RECITAL AT P.W.C. HALL (Continued from Page 1)

throughout the programme were the pianists heard to greater advantage than in these brief, but towering compositions.

Sandwiched in between the Bach numbers, "Sicilienne and Rigaudon in the style of Faneour,"—an original work by Fritz Kreisler, cleverly imitating old dance forms,—sustained the unusual contrast perhaps as well as could be expected.

Franz Liszt's complete "Concerto Pathetique in E. Minor" followed. This piece, in one continuous movement, is—to quote the programme notes—"typical of Liszt in his finest work from the virtuous sympathy to melting and impassioned melody."

That describes it better than this reviewer can do, who is not particularly fond of thunderous bombast but who could not but admire the skill displayed in its rendition.

Others, the next number played, is sufficiently well known as an orchestral piece. It lost nothing of its wondrous effect on the pianos. Familiar also, and unfailingly popular, were the Brahms "Gypsy Song" and the Waltz from Tschokk's "Piffith" Symphony which followed, and made up, together with two numbers from a suite by Anton Arensky, the third section of the programme.

The fourth and concluding section comprised, in addition to the MacNutt's "Piffith" Symphony referred to, Debussy's "Fetes," Kreisler's "Caprice Viennois," and "Ritual Fire Dance," by the Spanish composer, Manuel de Falla. The latter work, transcribed by the performers, is a colorful piece of baroque rhythm, depicting the worship of the god of fire. It was interpreted magnificently.

So too was the Debussy composition—a stirring and striking work which proved a complete surprise to many who regard Debussy as being "soft" and effeminate. The programme notes refer to the evocation in this music of "nebulous dancing figures" who "come with light feet marching to the soft impulses of tympany and harp and low plucked strings with glintingly fanfares of muted trumpets. This description strikes us as being ridiculously far-fetched. But it is one of the joys of music that it can be interpreted in a thousand individual ways.

Encores were generously responded to, among the pieces played in this connection being a quite impressive Choral Prelude in the style of Bach, "on a well-known theme" the theme being no other than our old friend "The Big Red Wolf." This is an original composition of the performers. Other encore numbers comprised "La Campanella" (Paganini-Liszt), "Le Jongueuse" (Moszkowski), "March" (Prokofiev) and the familiar "Blue Danube" waltz of Strauss and Percy Grainger's rollicking "Country Gardens."

"Work" Subject Of Address By Rev. Mr. Bishop

"Work is a necessary element of life and it is not to be regarded as some inescapable burden," Rev. F. E. Bishop, interim pastor of the Charlottetown Baptist Church told Rotarians while speaking at the Club's weekly luncheon meeting yesterday. Past President Wilfred Boulter gave a three minute talk on Rotary, taking the place of Dr. J. A. Clark who was absent through illness. Rotarian Reuben McDonald presided.

"Work is something we are better off with, not better off without," Rev. Mr. Bishop, guest speaker at the luncheon said. "Everything we do," he continued, "we should do in the spirit and purpose of an artist. What is worth doing is worth doing well. We should not lose sight of the cultural things of life. Better to go without dollars than the higher cultural things. Service should be the predominant motive of work. Make your business or profession an avenue of service to the community."

As Farmers' Week begins on Tuesday, February 18th, it was decided to hold the next Rotary meeting on the following Thursday, the 20th, and invite representatives of the different farmers' organizations.
