### European Press Resents Nobile's Conduct--Another Flyer Above Atlantic

#### WILL BE COURT-MARTIALED ON RETURN TO ROME

European Press Indignant At General's Desertion Of Followers By Allowing Himself To Be First Rescued.--Mussolini Incensed.--Foreign Proposals Resented By Italian Newspapers.

(Special to The Guardian) ROME, July 21.—General Umberto Nobile is sure of a court-martial when he returns to Italy, as a perfidious traitor, for any commander of a naval vessel who loses his ship is court-martialed as a routine means of determining the cause of the loss. Premier Benito Mussolini ordered General Nobile and all the Italian survivors of the Italia disaster to return immediately and they are on their way. Whether the court-martial of the general is to be confined to this perfunctory procedure or whether it will involve further investigations of his actions is known only to the inner government circles. The Italian press points that after several weeks of criticism of Nobile's conduct in allowing himself to be rescued first, there is now a tendency to reaction on the European press. The European press according to Italian comment is protesting against the length to which the Swedish and French press has gone in the castigation of Nobile, demanding that opinion be withheld until the full facts are known. On the other hand, Mussolini himself is known to be extremely indignant with Nobile for having left his group first. It is expected that the court-martial will reveal the exact extent of Nobile's injuries, which may be of such nature as to explain his departure from the Italia before his companions left. At the same time, indignant protests are launched everywhere in the Italian press against the proposals made in Sweden and France to have the whole affair investigated by a league of Nations committee. Such a proposal is grotesque and even beside the point, assert the newspapers, and is a deliberate effort to cast aspersions on Italian character.

#### ARRESTED FOR MURDER OF FELLOW COUNTRYMAN

Sigmund Nodge, Hungarian Of Sydney, Cape Breton, Charged With Murder Of Louis Virgo, Of Same Nationality.

(Canadian Press) SYDNEY, N. S., July 21.—Sigmund Nodge, 55, is being held by local police on a charge of murdering Louis Virgo, 45. Virgo, it was alleged had insulted Mrs. Nodge, and it is claimed that the husband invited Virgo to his home yesterday and attacked him with a club. Virgo died early this morning from a severe scalp wound. Both men are Hungarians. It was not thought last evening that Virgo had been seriously hurt. He returned to his boarding house after the fight and refused to obtain medical assistance. He was taken to police station, where his wound was dressed, and afterwards permitted to go home. In the meantime Nodge was arrested on a charge of assault and later released on bail. Virgo's condition became worse during the night and he was removed to the City Hospital, where he died early this morning at the steel plant last night, and was re-arrested there at five a. m. charged with murder. An inquest which began this morning was adjourned until Monday when the result of an autopsy will be given. Nodge has four children. Virgo was twice a widower and has no children here.

#### Egyptian Parliament Buildings Closed

(Special to The Guardian) CAIRO, Egypt, July 21.—Parliament buildings were sealed by the police this morning and a guard was placed outside of them. Official circles explained that the action of the police was only the outward and visible sign of King Fuad's edict dissolving Parliament for three years.

#### LOEWENSTEIN DID NOT MEET FOUL PLAY

Deceased was Alive When He Fell From Plane is Opinion of Medical Men in Autopsy Report.

(Special to The Guardian) CALAIS, France, July 21.—Captain Alfred Loewenstein was still alive when he plunged 4,000 feet from his aeroplane over the English Channel. It was concluded by the medical men who turned in their autopsy report today. At the request of relatives a further examination would be made of internal organs to determine whether poison or disease caused the Belgian financier's abnormal condition at the time of the tragedy. This is based upon the supposition that he tore off the collar and tie which were found in the plane. Evidence has already been given that just before leaving his seat for the rear of the machine he acted as if he were suffering. The present autopsy finding disposes of suppositions that he might have met death in the plane. The implication that some other occupant of the ship was responsible for his passing, was thus cancelled. The regular autopsy completed official formalities of the officially reported, and the body was placed in a coffin preparatory to its shipment to Brussels.

#### REVOLUTION IN PORTUGAL

Bennett, Federal Leader, was one of the first to appear. Mr. Bennett appeared to be in a particularly amiable spirit and spent some half an hour renewing old acquaintances, chatting with Col. Harry Mullins, Alfred Cuddy, Hon. John S. Martin and J. R. McNicol. Previous to the departure they lined up for the group of photographers present and Mr. Bennett appeared to enjoy joking with them and the newspaper men. #### CANADA WILL RELINQUISH HER SHARE IN PACIFIC CABLE

In Conference With Sir Campbell Stuart In Washington, Dominion Officials Conclude Consummation Of Unlucrative Merger.--New Cable-Wireless Agreement Now Negotiated In Great Britain.

(Special to The Guardian) OTTAWA, July 21.—Canada's complete relinquishment of her share in the Pacific cable is understood to be one of the major provisions of the important cable-wireless merger just negotiated in Great Britain, and concerning which Sir Campbell Stuart, chairman of the Pacific Cable board at Washington, is in conference this week with Dominion Government officials. In return for that relinquishment Canada will, it is understood, receive a direct and substantial money compensation. Inasmuch as the Pacific cable has never been a remunerative business for its participants—Great Britain, Canada and the Antipodes—it is understood that the Canadian Government accepted the proposal for an outright sale of this

#### TRADE WITHIN EMPIRE OBJECT OF TOUR

Says Sir William Pering, Leader of Fifty British Industrialists Now in Toronto—Prince of Wales Inspired Visit.

(Special to The Guardian) TORONTO, July 22.—Fifty British industrialists, members of the Chamber of Trade, arrived in Toronto this morning intent upon hearing something about conditions here. The stimulus for their visit, so the head of their party, Sir William Pering, M. P., explained came from the good words of H. R. H. the Prince of Wales had had to say about Canada from time to time upon returning to England. Party includes some of the largest distributors of goods in Great Britain. They are not devoid of knowledge of Canada, many of them having had business dealings with Canadian houses for years, for instance, Sir William Pering who is a big distributor of furniture in London and district has been buying drapery in Hamilton for twenty years. His ringing message: "We are here in order that we may learn," said Sir William, "the Prince of Wales brought to England a ringing message about the possibilities of this Dominion, that's why we are here largely. We are here on a holiday, but we want to know more about this industry. I have been here before. I came here six years ago and was very much impressed. These men who are here today are not here to sell, they are here to try to gather information. The Prince of Wales when he came back to England after his visit to Canada stressed the importance of trade within the Empire. That is what we are desirous of furthering. We believe that in order to increase the trade within the Empire we must know each other better."

#### MONTREAL TO NEW YORK AIR SERVICE

(Special to The Guardian) OTTAWA, July 21.—Official notification from Washington has been received by the Post Office Department that the project for a regular air mail service between Montreal and New York City has been approved by the United States Post Office Department and that the contract has been awarded to the colonial air lines of the United States of which the Canadian Colonial Company is a subsidiary. It is expected that this service will commence about Oct. 1. It is also anticipated that this service will carry ordinary first class mail matter. Such a service will be of immense importance to Montreal for the small planes will not only carry mail between Montreal and New York City but will also connect at Albany with the United States air mail line, running west to Buffalo and Chicago. Major-General Sir John O'Ryan, who is head of the Colonial air lines in the United States and who is a distinguished officer of the British Army, will be in Montreal on Tuesday of next week to confer with the local postal authorities, also with those in charge of airports with a view to arranging the landing place and local delivery.

#### The Maritime Provinces

No more welcome change has occurred in any part of Canada during the last quarter than that reported by the branch offices of this Bank in the Maritime Provinces. Whereas during the past three years great strides forward were made elsewhere, till the Spring of this year in the Maritime Provinces a series of fitful improvements, all of them short-lived, persistently disappointed the hopes of the business community. Within the last three months, however, not only has there been a visible improvement in business along many lines; there is a new feeling of confidence in the future.

With the conclusion of a wage agreement in the coal fields there has been a quick resumption of activity there. Until May 1st most collieries were working only three days a week; but many mines now work full time and others five days a week; and a good feeling prevails. The steel industry has also been more active and in most lines the first five months of 1923 show marked improvement over the corresponding period of 1922.

A large amount of construction is in hand at Halifax and developments are foreshadowed elsewhere in the pulp and paper and other industries. The long lumber market in the United States continues fairly strong and an increased demand is noted from Quebec and southern Ontario. As a result of competition from north European countries, prices in the British market have weakened.

The Spring pack of lobsters on Prince Edward Island is believed to be not less than that of last year. The Lunenburg fishing fleet on its first two trips reports a catch larger than that of 1922 by 15,000 quintals. An uncertain market factor is the report that the European catch to date is 250,000 quintals more than in 1922. Owing to the rise in prices dried fish reports are disappointing. There has been a brisk demand for cattle from Prince Edward Island, in which the price of beef has

Dr. Finn Malmgren, noted meteorologist with the Italia, with death facing, waved on his two companions who were walking on a relief expedition. "Go! Go! At the price of my life you'll save all," he cried as strength left. Captains Mariano and Zappi dug a grave in the ice for him. Their statements that he was left alive caused a storm of criticism in Russia.

#### NEWSPRINT OF HEARST CO. SEIZED

(Canadian Press) MONTREAL, July 21.—Forty five cartloads of newsprint consigned to Hearst newspapers all over the continent, and now under seizure by order of the Superior Court of Montreal, will be released if the defendants, the newspaper and magazine corporation and William Randolph Hearst in an action for \$978,630.35 instituted by the Canadian Paper Sales Limited, deposit the full amount of the action. Judgment in this effect was rendered here today by Justice Ducloux of the Superior Court, who, while maintaining a petition of the Hearst papers to be allowed to file a deposit and secure the release of the paper, dismissed their application to deposit only \$100,000 which they alleged was the value of the newspapers declining. In event of the order of the court order, they will also be called upon to pay \$2,510 demurrage to the Canadian Pacific Railway and the C. N. R. whose cars the newsprint is loaded.

Unwins was second and his time was only three minutes slower than Captain Hope's.

It is a nice auto drive over a good road to Georgetown and you will enjoy a very pleasant afternoon if you go there. Increased sharply. As a result of fine showers, pasturage is excellent and milk supplies have increased accordingly. Grain and root crops are making excellent growth. A slump in the potato market has caused some loss. The carryover of potatoes is small, but the sown acreage appears to have increased.

#### FRENCHMAN HOPES TO SPAN ATLANTIC
