SWELL eatin' for dogs of all ages, sizes and breeds. You feed your dog as famous kennels do—with Gro-Pup!

Opening Of City League Semi-finals Tonight

The opening game of the City Hockey League semi-final playoffs will get underway at the Forum tonight when Saint Dunstan's University and Prince of Wales College tangle in their first of two games, total-goal series.

The semi-finals are to be played in two sections, the second being between the Summerside All Stars and Navy, with the winners of the two sections meeting in the final round in the best two-out-of-three games.

With all four teams finishing in a really close race at the end of regular schedule play, with only two points separating the league-leading Summerside pucksters and the P. W. C. fourth place squad, the playoffs should produce some top-notch hockey, and tonight's encounter between the two college squads is expected to launch the series off with a bang.

Both teams, who will be intent on trying to pile up a big lead to carry into the second match, will be turning out strong, and the least that can be expected is a really wide-open, keenly contested struggle which should provide an action-packed evening of hockey entertainment for local puck fans.

Nine Mile Creek Downs Augustine Cove

On Thursday evening the Nine-Mile Creek Bulldogs smothered the Augustine Cove Bulldogs by a 5-1 score in an exciting game of hockey played at Victoria rink in a South Queen's Hockey League fixture.

The play was fairly even however, even though it took the Creek boys but a minute to score when Charlie MacDougall raced in from his defence position to make it 1-0. L. Taylor scored the other creek goal of the period on passes from his linemates, Harvey and Doug MacEachern.

The second period was the liveliest as play roughened up and trouble threatened to come at different points. MacDougall scored his second goal soon after the period opened, but several minutes later he and Cutcliffe were in sinners' bin for roughing and Wendell MacFadyen broke through to spoil Taylor's hopes in the Creek nets of a shutout.

In the last period the play was still fast, and Harvey and Douglas MacEachern each scored a goal to finish off hostilities for the evening.

Line-ups: Nine-Mile Creek: Goal, W. Taylor; defence, C. MacDougall, A. MacDonald; centre, L. Taylor; wings, H. MacEachern, D. MacEachern; subs, A. MacDougall, M. MacEachern, F. Taylor, L. Smith. Augustine Cove: Goal, K. Cameron; defence, L. Peters, A. Murray; centre, W. MacFadyen; wings, G. MacFadyen, C. Carruthers, S. Campbell, O. Gardiner, C. Peters, L. Campbell. Referee: D. Crossman. Linesman: N. VanEmber.

Y. M. C. A. MEMBERS

Gymnasium Classes Commence on MONDAY, FEBRUARY 28th. If you do not know the day and time for your class, visit the Y. M. C. A. or call 95 for information. The Junior and Senior Sections are now ready for use and it is requested that all those 17 years of age and under use the Junior Entrance on Euston Street from now on. The Badminton and Senior Classes will also commence shortly. Phone the Y.M.C.A. for further information.

Montague Wins Way Into Finals Of South King's League

On Friday night the Montague Meteors captured the semi-finals in the Intermediate Hockey League by defeating the Georgetown Eagles by the score of 6-6, taking the home and home round 12-8. The game, which was played in the Murray Harbour rink before a capacity crowd, proved to be one of the fastest games in the league this year.

Montague and Murray Harbour now enter the finals to be played this week with home and home games, total scores to count. The services of a neutral referee, Mr. Art Perry of Charlottetown, have been obtained, and it looks as if there will be a capacity crowd at both rinks to watch these final games.

Line-ups: Montague: Goal, T. MacEwen; defence, D. George, R. MacDonald, A. Nelson, A. MacLure; forwards, P. Fraser, E. Carver, H. Power, K. Clements, Roy Collings, Rich Collings, J. Lannigan. Georgetown: Goal, F. Stevens; defence, W. MacLean, A. MacPhee, S. Johnston; forwards, F. Lavandier, S. MacNeil, H. MacLean, H. McConnell, J. Dix, H. Stevens, H. Landry, A. MacSwaen.

Summary: First Period: 1-Montague, K. Clements (Roy Collings) 2:15; 2-Georgetown, H. MacLean (S. MacNeil) 12:18; 3-Montague, K. Clements (Roy Collings) 13:08; 4-Montague, Rich Collings (K. Clements) 13:23. Penalties: H. McConnell. Second Period: 5-Montague, H. Power (E. Carver) 2:55; 6-Georgetown, H. Stevens 13:32. Third Period: 7-Montague, H. Power (R. MacDonald) 4:16; 8-Montague, E. Carver (H. Power, P. Fraser) 6:44; 9-Georgetown, S. MacNeil 13:03; 10-Georgetown, F. Lavandier 16:25; 11-Georgetown, H. MacLean 18:40. Penalties: P. Fraser, W. MacLean, Rich Collings. Referees: Ralph Beck, H. Laviers.

BROOKLYN, Feb. 24 (AP)—Robert Morgan, who batted 286 in 151 games while playing shortstop for the Montreal Royals in 1948, has signed his Brooklyn contract. The Dodgers announced today. Morgan is the 33rd Dodger to sign.

WORKMEN'S

Continued from page 1

felt that they were better protected under their system.

Hon. Mr. Large said he was not aware of this fact. He understood that private companies were not in a position to give as wide a coverage as under a Workmen's Compensation Act.

In reply to a question by Mr. Burgess, he explained that C. N. R. employees in this Province are at present under the provision of the New Brunswick Act. When the Island statute passes, they will find it more convenient to file claims before the Workmen's Compensation Board here.

The Act, Mr. Large added, will benefit Islanders working in New Brunswick lumber camps, who have been ineligible for consideration under the New Brunswick Act.

A Three-Man Board

The administration of the Act is to be vested in a commission known as the Workmen's Compensation Board of Prince Edward Island, consisting of three members appointed by the Lieutenant-Governor-in-Council. The chairman and vice chairman will receive salaries, payable out of the Accident Fund.

The Board shall have powers equal to the Supreme Court in compelling attendance of witnesses and examining them under oath, and compelling the production of books, documents, etc. The powers of a member of the Board sitting alone, however, are limited in this connection to those vested in a Justice of the Peace.

The Board shall appoint a secretary, a chief medical officer, one or more assistant medical officers and such auditors, clerks, etc., as it may deem necessary. It shall have jurisdiction to inquire into and determine all questions of fact and law necessary to be determined in connection with the administration thereof, and the collection and management of the funds therefor.

Provision is made for appeal to the Supreme Court in any final decision of the Board upon any question as to its jurisdiction, or upon any question of law.

The Bill covers wide range of industrial occupations, including manufacturing, canning, lumbering, road construction, printing, building, plumbing, engineering, transportation, navigation, stevedoring, teaming, horse shoeing, painting, etc. operating of railway, telegraph, cable or telephone system, electric light or power plants, water works, laundries, hotels, theatres, packing plants, coal and lumber yards, cold storage plants, garages, wholesale and retail stores, bakeries, boats, ferries, public utilities, etc.

For the purpose of creating and maintaining the Accident Fund out of which all compensations are to be paid, all industries concerned will be divided by the Board into classes. The Boards shall assess and levy upon and collect from the employers in each class by an assessment upon payroll, or otherwise as the Board may deem proper, sufficient funds to meet all claims payable during the year out of the fund. The Board may, in addition to the amount actually required for the year, levy a sufficient amount annually to provide capitalized reserves.

In each year, as soon as the necessary information is obtained, the amount of the assessment for the preceding calendar year shall be adjusted upon the actual requirements and correctly ascertained payroll of each industry. Every employer within the scope of the Act shall furnish when required an estimate of the probable amount of his payroll, etc., and shall likewise at the close of each calendar year furnish certified copies of this payroll for the purpose of adjusting and computing assessments.

It shall not be lawful for any employer, either directly or indirectly, to deduct from the wages of any of his workmen any part of any sum which the employer is or may become liable to pay into the accident fund or to require or permit any of his workmen to contribute in any manner towards indemnifying the employer against any liability.

Medical Aid

The Board is authorized to provide medical aid, artificial limbs or dental appliances when deemed necessary as a result of injury incurred under the Act, to be paid out of the accident fund and levied as an assessment on the employer.

Where an employer has already established or hereafter establishes an arrangement for furnishing medical aid to his workmen which, in the opinion of the Board, is at least as favorable to the workmen as that provided for under the Act, the Board may approve such arrangement. In doing so it may take into consideration contributions voluntarily or by agreement with workmen made by the employer to

WAY OPENED

Continued from page 1

any relief or other association of which at least the majority of workmen of such employer are members.

Any arrangement in force since Dec. 31, 1946, and which has since been continued for providing medical aid to workmen in any industry, although at the expense of workmen, may be temporarily continued unless otherwise ordered by the Board.

Employers in any industry in which it is deemed proper may be required by the Board to maintain such first aid appliances and services as the Board may direct. To aid in getting injured workmen back to work and to assist in lessening or removing any handicap resulting from their injuries, the Board may make such expenditures as it may deem necessary, out of the accident fund, to be collected in the same manner as moneys required to pay compensation or expenses of administration, provided that the total does not exceed \$5,000 in any calendar year.

Compensation Rates

Where death results from an injury, the amount of compensation to be paid shall include the necessary expenses of burial, not exceeding \$150. Where the widow or an invalid widower is the sole dependent, a lump sum payment of \$100, and thereafter a monthly payment of \$40 is specified. Where the dependents are a widow or invalid widower and one or more children, there will be an additional monthly payment of \$10 for each child under sixteen, but not exceeding in the whole \$80. Where all the dependents are children, the monthly payment is fixed at \$20 for each child.

Exclusive of the expenses of burial, the compensation payable shall not in any case exceed 2/3 percent of the average earnings of the workman.

In the case of permanent total disability resulting from the injury, the amount of compensation shall be the weekly payment during the life of the workman equal to 86 2/3 percent of his average weekly earnings during the previous twelve months. In the case of partial disability this percentage will be based on the difference between the average weekly earnings before the accident and the average amount the workman is able to earn in some suitable employment after the accident.

Where the impairment of the workman's earning capacity does not exceed 10 percent, the Board, instead of such weekly payments, may direct payment of a lump sum.

Employers are obliged within three days after the happening of an accident to a workman, to notify the Board in writing, giving specified particulars.

The Act provides for the keeping of monthly records by every sawmill owner or operator with respect to the amount of work done, the persons or firms for whom the products are sawn, and the prices charged.

Right of Inspection

The Board shall have the right to inspect the establishment of every employer under the Act, for the purpose of ascertaining whether proper precautions are taken for the prevention of accidents.

Where work is performed under contract for any municipal or public authority, the assessment, any assessment in connection with such work may be paid by such corporation or commission, and the amount deducted from the payments due the contractor in respect of such work.

The Act provides that contributory negligence on the part of the workman shall be taken into account in assessing damages in any action. Provision is also made for protecting employers against lawsuits and the chance of inordinate damages.

Where any Association shall make rules for the prevention of accidents in an industry regulated by such Association, such rules, if approved by the Board, shall be binding on the employers. There are also numerous paragraphs in the Bill dealing with industrial diseases.

It is expected that second reading of the Bill will be completed today. Premier Jones said the House likely could give it full attention as the Government had no other legislation ready for introduction at the present time.

FOR REGIMENTAL MUSEUMS

OTTAWA (CP)—The rush is on for colorful pre-war dress uniforms of Canadian Army regiments but they are not to be worn. Military authorities here said many units are seeking the uniforms for establishing regimental museums.

MONTREAL (CP)—The job of a group of 12 Montreal detectives is to comb the city's 726 second-hand stores, pawnshops and junkyards. The squad, operating since 1939, has been partly responsible for the annual recovery of \$75,000 worth of stolen goods.

vents in a speech at Montreal Saturday.

Touches off Debate

It was that statement by the Prime Minister at the House opening that plunged the antagonists into a boiling debate that quickly ranged back to events of seven years ago.

With each side of the House either rooting for his chief or shouting at his opponent, the chamber was a hectic scene for the 15 minutes the pair battled it out without oratorical gloves.

At times, the words of Mr. St. Laurent and Mr. Drew could not be heard. Speaker Gaspard Fautoux had to call several times for order. It was since the two have taken up position across the Commons floor from each other has either appeared in such an angry mood. At one point, Mr. Drew knocked over his water glass with a violent gesture.

Mr. Drew was leader of the Ontario Opposition in 1942 when he was charged under the Defence of Canada Regulations for his criticism of the northern part of the Nova Scotia mainland. Late today all but two roads in Cape Breton were impassable.

Coal cars could not be moved because of the heavy fall and thus no coal was moved to the surface.

Motorists who had defied the storm and tried to reach their destinations were just getting there after spending two nights in farmhouses along their routes. Trains that were running at all were hours behind schedule. Rural meetings, dances, hockey games, school classes and the like were postponed right and left.

EXPECT FLOW

ation Service estimates that some 670,000 bus of seed stock have been shipped to Virginia, Alabama and Georgia.

Price Support Details

Because of some confusion regarding the details of the Potato Price Support Programme, Mr. Peppin stressed the following points: 1. Application must be made before April 30. Application forms may be obtained from local inspectors or licensed dealers.

2. Only potatoes in growers' bins are eligible. Those in bins at track-side warehouses are not eligible, as they are considered as already enroute to market and should be sold in the usual way. 3. Bins must be levelled off to allow ready measurement by the inspectors.

4. Seed required by growers for their 1949 crop must be stored separately. 5. Culls may be removed from the bin prior to inspection. After inspection, with a view of any kind may only be made with the permission of an authorized inspector.

6. Inspection will be made as soon as possible after sufficient applications have been received in any one district. The inspection will determine the quantity of potatoes in the bin and the percentage of Canada No. 1 stock. 7. When the potatoes have been inspected and the contract signed, they become the property of the Agricultural Prices Support Board, and must not be sold, used or disposed of without the authority of the inspector. The inspector is authorized to release immediately any potatoes required for feeding.

8. If any of the potatoes owned by the Agricultural Prices Support Board are required to properly supply the market, the Board will decide how many are to be released and on what conditions. If such a situation arises due notice will be given. 9. If potatoes are not required on the market, the Board will release them back to the grower for disposal at his discretion but without cost to the Board. 10. Payment for contract potatoes will be made as soon after April 1st as possible.

KIRKLAND LAKE, Ont., Feb. 25

(CP)—J. D. Sutherland, his MacIntyre curling club rink from Schumacher, representing the Temiskaming and Northern Ontario Curling Ass'n., today captured the Northern Ontario curling championship when they scored their

fourth straight victory in the two-day round robin. The victory gives the MacIntyre rink the right to represent Northern Ontario at the Canadian championships at Hamilton March 14.

FERRY CABOT

Continued from Page 1

Ferry was not believed in immediate danger. Bucking ice is not a new job for her.

Meanwhile, only one of Dominion Coal Company's 13 colliers worked today—leaving thousands of miners idle—as the winter's heaviest snowfall in the Maritimes continued to plague transportation.

Drift ice was the latest wrinkle in Maritime weather which had already thrown an icy wrench into land transportation.

Fifteen inches of snow fell over Nova Scotia Saturday and Sunday, leaving railroads and bus lines in a worse mess than they had encountered for years.

Snowplows continued to charge at big drifts throughout Cape Breton and the northern part of the Nova Scotia mainland. Late today all but two roads in Cape Breton were impassable.

Coal cars could not be moved because of the heavy fall and thus no coal was moved to the surface.

Motorists who had defied the storm and tried to reach their destinations were just getting there after spending two nights in farmhouses along their routes. Trains that were running at all were hours behind schedule. Rural meetings, dances, hockey games, school classes and the like were postponed right and left.

Wife Denies Husband Nazi Collaborator

Says Fled Communists

MONTREAL, Feb. 26 (CP)—The story of a family's flight from France and Communist persecution was told today by the wife of a French physician in denying that he was a Nazi collaborator.

Madame Michel-Lucien Seigneur said her 42-year-old husband came to Canada illegally, using the passport of a friend. Later she and their five children followed.

The found a haven and happiness in Canada denied them for years. Less than a year ago an immigration commission investigated their status. Then last November, said Madame Seigneur, the family was officially granted haven as residents of Canada by immigration authorities.

Dr. Seigneur now is working with a pharmaceutical firm in Montreal. Three of the five children attend school here, the others are under school age.

Their presence in Canada became publicly known in the House of Commons last night when Alastair Stewart (CCF—Winnipeg North) charged the government was granting haven to French immigrants condemned by their own countrymen for Nazi collaboration.

Resources Minister MacKinnon said further investigation about Dr. Seigneur was under way. The physician is the sixth Frenchman given haven in this country.

Hounded from France

In the little parlor of their home, Madame Seigneur told newspaper men the family was "hounded out of France by the Communists," was trailed relentlessly and was sent many anonymous letters.

"We had to obey the Marshal (Marcel Petain). That was our only crime. That is what the Communists don't forgive."

She said she and her husband, who was away at work when reporters called, had no knowledge of a Col. Romains Pett, named by Mr. Stewart as his informer. "My husband was never an inspector with the German SS. Can you imagine a Frenchman working for and with the SS troops?"

The Seigneurs lived in the French town of Verrieres, near Poitiers. The Communists were active in that section, said Madame

Count the Hairs on Your Head... and Divide by 10

Neglect of your scalp can lead to severe hair loss

The ordinary healthy head of hair, for the average person, contains about 120,000 hairs. Blondes have the greatest number, about 140,000. Some redheads have as few as 90,000.

To keep your hair abundant and good-looking, you must have a healthy scalp. If it is too oily, or too dry, or clogged with dandruff, you can look for trouble. Neglect can lead to your hair thinning out so that instead of 120,000 hairs, you may end up with only a tenth as many—or even less!

Just as it pays to clean your teeth when young in order to keep them, so it pays to take care of your scalp right now to save your hair. Whether or not you have dandruff, your scalp will benefit from regular cleansing with Fitch Dandruff Remover Shampoo. Use Fitch, the one shampoo guaranteed to remove dandruff.

Scientific tests prove that Fitch removes all dandruff.

even from the thousands of tiny hair openings in the scalp—leaving your hair fresh, lustrous, and alive-looking.

SPECIAL OFFER 75¢ Value for only 49¢ ACT TODAY

Save 26¢ by getting this Fitch introductory offer—Fitch Dandruff Remover Shampoo, together with a wonderful new Fitch product: Fitch Creme Oil Hair Tonic! You'll like Fitch Creme Oil Hair Tonic—keeps your hair groomed all day but leaves no residue (no). Contains Lanolin and Olive Oil—relieves scalp dryness. Does not separate in the bottle. Get this 76¢ value for only 49¢—at all drug or cosmetic counters—for a limited time only.

Wife Denies Husband Nazi Collaborator; Says Fled Communists

MONTREAL, Feb. 26 (CP)—

The story of a family's flight from France and Communist persecution was told today by the wife of a French physician in denying that he was a Nazi collaborator.

Madame Michel-Lucien Seigneur said her 42-year-old husband came to Canada illegally, using the passport of a friend. Later she and their five children followed.

The found a haven and happiness in Canada denied them for years. Less than a year ago an immigration commission investigated their status. Then last November, said Madame Seigneur, the family was officially granted haven as residents of Canada by immigration authorities.

Dr. Seigneur now is working with a pharmaceutical firm in Montreal. Three of the five children attend school here, the others are under school age.

Their presence in Canada became publicly known in the House of Commons last night when Alastair Stewart (CCF—Winnipeg North) charged the government was granting haven to French immigrants condemned by their own countrymen for Nazi collaboration.

Resources Minister MacKinnon said further investigation about Dr. Seigneur was under way. The physician is the sixth Frenchman given haven in this country.

Spoke Of Hopes

Madame Seigneur spoke faithfully of the family's hopes to "work our lives" and to give the children "the peace and quiet happiness we did not have in France."

Madame Seigneur produced a letter from Abbe Rollet, parish priest of La Petite D'Arcs in France and a friend of the family. The priest expressed pleasure that the family had become free of the tribulations that beset them in France. Addressing himself to Dr. Seigneur, the priest wrote:

"For so valiant and meritorious a Frenchman as yourself, it is a misfortune that you should have had to undergo such a trying time before reaching your present happy state in Canada."

Anglo-Rustico School

Report for the month of January: Grade X—Athol Craswell, Grade VIII—Mary Toombs, Grade VII—1, Shirley Craswell, 2, Marie Nunn; 3, Alberta Buntain.
