AN IMPERIAL SENATE NEEDED

Recruiting Men for the Canadian Navy. Bishop Of Glasgow Coming

Special to The Guardian. LONDON, August 24—Supporting Norton Griffith's advocacy of an Imperial Senate, The Mail says that the House of Lords is in the melting pot. As the people of Britain are prone to compromise, there is danger that amid the dust of partisan politics they may miss the broad imperial road to which destiny points and towards which even they are inevitably moving. Commander Macdonald, who also will be appointed to the Niobe, is busy interviewing recruits for the Dominion navy and is visiting all the principal home ports. Rev. Ian Campbell, Bishop of Glasgow and Galloway, will attend the Bi-centenary of the Canadian Church of England in Halifax.

ENGLISH ACTRESS AND HER THEATRE HAT

NEW YORK, Aug. 23—Miss Kitty Gordon, who, off the stage, is the Hon. Mrs. Constance Beresford, being the wife of Captain the Hon. Henry Horsley Beresford, is here to prepare for her appearance in the chief feminine role of Joe Weber's English production of the German musical farce, Alma, Wo Wohnst Du. In disembarking Miss Gordon evinced much concern over a large box which, she said, contained one of the new combination picture and theatre hats. To prove that the hat was all that, she produced photographs, which instantly struck such a popular note among the women who saw them that she was soon surrounded by a crowd clamoring for pictures. The upper part of the hat is detachable. "This hat is my personal property," Miss Gordon explained to customs inspectors who opened the box, "and should be no duty exacted upon it." When the inspectors saw the hat, however, they decided it was a dutiable importation. Miss Gordon demurred in vigorous fashion, but the obdurate men declared they would then send the precious piece of headgear to the public stores to await a decision by the collector of the port. Miss Gordon was in tears as she saw the hat taken away.

CHEESE TRADE QUIET.

MONTREAL, Aug. 23—Receipts of cheese for the week 78,809 boxes, as against 81,494 boxes a year ago. Total receipts since May 1, 1,102,830 boxes, as against 1,131,249 for the corresponding period of last year. The local market is quiet but steady, westerns being quoted at 11c to 11 1/2c, and easterns at 10c to 11c.

MOVING PICTURES OF MAN'S INSIDES.

MUNICH, Inl., Aug. 23—Dr. E. Kestel, Dr. Reide, and Engineer J. Rosenthal are experimenting with cinematograph Roentgen Ray photographs of the internal organs of the human body. They have given to the process the name of Biocentgenography.

BOURASSA AT ST. JOHN.

ST. JOHN, Aug. 23—Henri Bourassa addressed the Canadian Club of St. John tonight on the radical problems of Canada. His remarks were similar to those made in Halifax.

Minard's Liniment Cures Burns, etc.

CRIPPEN GIVES BOOKS TO PRISON OFFICIALS

QUEBEC, Aug. 22—Dr. Harvey Hawley Crippen charged with the murder of his wife, Belle Elmore, in London, England, last January, and arrested on the S. S. Montrose at Father Point three weeks ago yesterday, as well as Miss Ethel Clara Levee, arrested with him, has left for England. The stay of the couple at the Quebec jail was brought to a sudden termination early Saturday morning, and, in charge of Inspector Dew, Detective Mitchell and two wardens of Scotland Yard Police headquarters, England, they are now on board the Megantic, which also took on board the Queen's Own regiment of Toronto, and which sailed at 7 p.m. Dr. Crippen and Miss Levee were rushed out of the jail to commence their trip to Europe at a few minutes before eight o'clock. Both the prisoners and the prison authorities were kept in absolute ignorance of the preparations for their removal until a little more than half an hour before the doctor and his companion were driven away.

DUKE ABRUZZI REALLY ENGAGED

Special to The Guardian. PARIS, August 24—The Petit Parisien's Rome correspondent says that Duke of Abruzzi and Katherine Elkins have been engaged unofficially for more than two years with the approval of King Victor Emmanuel, who stipulated that the official announcement should not be made until the Duke had attained the rank of Rear Admiral at the end of this year. The marriage will follow soon upon that event.

BIG HATS WILL BE MADE BIGGER

Special to The Guardian. CHICAGO, August 24—An edict of the National Association of Retail Milliners in annual convention here is that big hats are to be bigger and small hats smaller than ever before, no medium sized hats. The desire for extremes extends even to coloring, according to the president of the association.

POP' GEERS SAYS THAT HORSES ARE LIKE CHILDREN

BUFFALO, Aug. 23—"Pop" Geers, whose name thus appears in a bigger type than anyone else's in the press of the land, says that horses are like children, and should be governed accordingly. "As the twig is bent so is the tree inclined," is quite as applicable to "man's best friend" as to the young man himself, is the Geers doctrine. "Never treat a horse roughly, if you want him to do things he is capable of doing," asserts the wizard. "Govern him kindly, and the results of this patient treatment will oftentimes be surprising." "Pop" Geers practices what he advises. In his training he exercises the greatest patience imaginable, and has never been known to treat one of his equine charges roughly. Few trainers exercise the perseverance in this regard as does the driver who has twice landed a C. of C. and an M. and M. stake the same year, and who will drive at the Fort Erie meeting this week. He continues this treatment of kindness after the trainer's animal is sent out to race. He never gives up, as the course of kindness with which he starts in upon when a horse is placed in his charge. "Pop" Geers has never been known to swear. Here is another exceptional trait in the veteran driver's character. Exceptional, inasmuch as life happens to be, as the turfman's life happens to be, promotes the profanity which in man's makeup oftentimes is a buttable degree.

BUTTER MARKET FIRMER.

MONTREAL, Aug. 23—Receipts of butter for the week were 13,666 packages, against 13,663 for the corresponding week last year. Total receipts since May 1, 2,263,544 packages, against 2,339,048 a year ago. The local market is firmer to-day at 23 1/2 to 24c lb.

THE BEEF INQUIRY.

BOSTON, Aug. 24—The Beef Inquiry began by the Government some time ago, at Chicago shifted to Boston on Tuesday when the Federal Grand Jury came together. Before the Jury have finished the work they will have sifted thoroughly the manner and method of handling beef in all parts of New England.

THE CONVENTION TEXT PUBLISHED

The Powers Noified That Korea Will Be Annexed To Japan.

Special to The Guardian. TOKYO, August 24—The text of the convention under which Korea is annexed to Japan has been communicated to representatives of the powers. The document was signed on August 22 and will be effective when officially promulgated on August 29 or 30 when the independent existence of the little Kingdom, the struggle for whose control started the Russo-Japanese war, will cease.

SOUGHT DEATH WAS ARRESTED

Special to The Guardian. BELLEVILLE, August 24—George E. Malbout, ex-member of the police force, was today placed under arrest on a charge of attempting suicide. Malbout whilst under the influence of liquor lay down on the track near his home and refused to move. Three charges were preferred, attempted suicide, assaulting police officers, and being intoxicated.

BOWLING

At Burke's alleys last evening the Abegweit bowling team won a glorious victory from their opponents, a team made up of players from Burke's Bowling alleys, who had challenged them.

The challenging team won the first innings by a majority of 63 points and the second innings by 19, giving them a total lead of 82 points in the first round. When the last innings started the prospect for the visiting team looked slim until about half way through when the Abbies had gained the handicap they lost. Up to the fifth box Mr. Mallet for the Abbies had scored four strikes and Jack Griffith was close on his heels. This gave the team new life and during the remainder of the game they showed their opponents who were playing an excellent game.

When the last ball was rolled and the totals counted, the figures gave the Abbies a majority of 58—much to the pleasant surprise of their followers.

Gordon Worth of the Abbies and Wm. Keenan of Burke's team won the honors of the evening for the best average.

A large number of citizens were present and the excitement during the last innings was immense. It put one in remembrance of the final play for a hockey trophy.

During the last innings the challenging team went to pieces badly and showing as in the first two innings although the truth is that the last innings should prove the best.

The following is the total score of each player.

Table with columns: Player Name, Total Score. Includes Jack McKay (445), Wm. McKenzie (442), H. Larter (383), W. Kiggins (452), W. Keenan (468), W. McDonald (426).

Grand total 2171 Abegweit majority 58. A return match will be played on the Arena alleys next Wednesday night, beginning at 7 o'clock sharp.

compliments and appreciation of many courtesies.

Mr Labbe had done many favors for the doctor with the governor's permission, and had purchased him a dozen copies of the series of cheaply bound fiction to read on the voyage home from which the prisoner made the selections of books which he presented to the governor and to Mr Labbe.

The doctor told the latter in bidding him adieu, that he would hear from him again, no matter what became of his case.

The third book was presented to the matron of the jail, Mrs Phillips, to whom Miss Levee returned thanks for courtesies shown her. Both Miss Levee and Crippen had handkerchiefs tied over their heads to prevent any more photographs being taken of them.

Crippen looked almost happy. It is understood that the party is again sailing under an assumed name Inspector Dew being registered as Mr Doyle.

CHICAGO MARKETS.

Table with columns: Commodity, Price. Includes July Wheat (98 1/2), September Wheat (102 1/2), July Corn (60 1/2), September Corn (58 1/2), September Pork (Nil).

FIREMEN'S SPORTS IN TRURO, N.S.

Island Boys Show up Fairly Well in Sports —An Accident

Special to The Guardian. TRURO, Aug. 24—The Firemen's sports today were very successful. One accident occurred in which a Springhill man broke his leg. Charlottetown won second in the ladder race and fourth place in the hose reel. Sydney won the hose reel, 117 1-5, New Aberdeen, C. B. second, 117 4-5, Amherst third, 119 1-5. Charlottetown and Halifax fourth, 119 4-5. Springhill, Amherst and Charlottetown tied at 12 1-5 in the ladder. In the run-off Springhill won in 12 seconds, Charlottetown 12 1-5, Amherst 13 1-5. The Charlottetown ladder team was Webster, McInnis, McDonald, Martin, W. Acorn, C. Duffy, G. McMahon. Stanley, Hooper and J. Duffy qualified for the final in the hundred yards dash to be finished tomorrow morning when the relay race will come off.

GAVE A MILLION FOR MEMORIAL TO KING EDWARD

LONDON, Aug. 23—Much comment was caused in the clubs and other circles when London heard the news of Sir Edward Cassel's gift of £200,000 (\$1,000,000) for the establishment of a fund in memory of King Edward. Seen at his town residence Brook House, Park lane, Sir Ernest Cassel denied this and said: "I had no such idea. The object of the foundation is purely to commemorate the memory of the late King Edward. It is the effect of pro-moting the cause of peace between the two countries no one will be more delighted than myself."

YOUNG CHIMPANZEE CAN TALK A LITTLE.

NEW YORK, August 23—Professor Richard L. Garner, the anthropologist, who has just returned from Africa, where he spent seven years in the jungle studying monkeys, declared to-day these animals could be taught to speak, and most important in a cage in the English room, but part of the time she was on deck entertaining the passengers. She had a little chair that she carries about, and when told to "come here," "sit down," or "laugh," she obeys with soldierly exactness.

Her diet has consisted of from a pint to a quart of milk a day, ten lumps of sugar, and either coffee, beer or wine to drink. When a match is lighted she cries out in a squeaky little voice, "Fen," the French word for fire. Susie can distinguish red from blue and both colors from white.

For twenty years Garner has made a study of animals that Darwin declared were of the same type as the voyager in a cage in the English room, but part of the time she was on deck entertaining the passengers. She had a little chair that she carries about, and when told to "come here," "sit down," or "laugh," she obeys with soldierly exactness.

He has returned with voluminous data and thrilling tales of adventure and escapes. "Susie," the ape that he says can speak, spent most of the voyage in a cage in the English room, but part of the time she was on deck entertaining the passengers. She had a little chair that she carries about, and when told to "come here," "sit down," or "laugh," she obeys with soldierly exactness.

Open lawful days, ten to eleven. 8-2541w. Minard's Liniment Cures Dandruff.

FARMER KILLED BY LOCOMOTIVE

A Distressing Accident to Deaf Man at Sussex, New Brunswick

Special to The Guardian. SUSSEX, August 24—A distressing accident occurred at Sussex station today. Andrew Phelps of Penobscot was killed by a locomotive which was backing down the siding. He had evidently been trying to cross the track to get on board the van of a train standing on the siding and did not notice the engine as he was quite deaf.

CONVENTION OF A. O. H. OPENS

Special to The Guardian. SYDNEY, August 24—The ceremonies in connection with the provincial convention of A. O. H. opened this morning with high mass in the Sacred Heart Church. The visiting delegates paraded and presented a fine appearance. The sermon was preached by Rev. Dr. A. Thompson, V. G., of Glace Bay.

MEN LOSE LIVES BY DREADFUL FOREST FIRES

SPOKANE, Wash., August 23.—A special from Wallace says that Forest Supervisor Weigle has received word that 200 men under Chief Ranger Kootkey perished in camp near Falcon, at the headwaters of the St. Joe river. The other loss of life is estimated at 100. The mining town of Wardner is almost surrounded by flames and miners are out fighting the fire. The flames in the Couer D'Alene national forest are beyond control, and timber worth millions of dollars is burning. The fires on the Couer D'Alene Indian reservation are checked, as are those of Palouse national forest.

Along the St. Joe river which runs through what is described as the largest body of standing white pine timber in the United States, there is a continuous fire from Plummer to a point in Montana. The United States is the largest loser. Next in importance are the losses sustained by the Chicago, Milwaukee and Puget Sound railway, which has suffered destruction of bridges, buildings and timber lands for forty miles.

The fires along the Northern Pacific in Western Montana have diminished. They were largely in timber that had been burned over in former years. The Idaho fires are burning in the forest, The Pen Oreille Valley, heavily timbered, is on fire in several places and loss of life is feared.

It is difficult to get news from that region. The weather service says no rain is in prospect. Dispatches state that four soldiers of Company C, 25th infantry (Colo.) are missing.

The dispatches also say that a number of families near Avery have been burned out, and that many persons are dead or missing. Railroad employees at Avery say that all the Bitter Root mountains are burning, and that the entire Couer D'Alene forest has been destroyed.

Four families of homesteaders reported burned to death on La Tour Creek, Kootenay county, Idaho, escaped to St. Joe, walking 15 miles along the banks of the creek with fire burning down to the water's edge, forcing the refugees to wade.

ROYAL COMMISSION AT FREDERICTON

FREDERICTON, N. B., Aug. 24—The Royal Commission completed its work here on Tuesday afternoon and left for Woodstock. Inspection of the industries at Marysville was omitted.

MORE OIL STRUCK IN NEW BRUNSWICK

MONTREAL, Aug. 24—The Maritime Oil Fields Co., struck another good flow of gas well No. 13 at a depth of 950 feet. The well has not been tested as it would be drilled deeper when oil is expected.

to submerge themselves when the flames reached their faces. An old man in the party was borne on a stretcher. Their clothes were nearly burned off. While 200 forest rangers are missing in Idaho and Montana, it is probable that most of them will escape danger. The telephone lines through the national forests have been destroyed or interrupted and the rangers may be safe, although unable to report.

REPUBLICANS EXPECT VICTORY

Special to The Guardian. CHICAGO, August 24—Congressman W. B. McKinley, chairman of the Republican Congressional Committee, visited the western headquarters today and issued his first statement regarding the outlook. He said "we have canvassed the situation in the various states and see no reason to change the opinion that the Republicans will control the next House by a good working majority."

FISHERY FAILS ON LABRADOR

Special to The Guardian. ST. JOHN'S, Nfld., August 24—Despatches from Dr. Grenfell, Labrador medical missionary, confirm the reports of the probable total failure of the Labrador fishery, which portends serious consequences for 20,000 fisher folk of Newfoundland who depend upon the Labrador fishing for a living.

FOREST FIRES STILL RAGING

REPUBLICANS EXPECT VICTORY

Special to The Guardian. CHICAGO, August 24—Congressman W. B. McKinley, chairman of the Republican Congressional Committee, visited the western headquarters today and issued his first statement regarding the outlook. He said "we have canvassed the situation in the various states and see no reason to change the opinion that the Republicans will control the next House by a good working majority."

FISHERY FAILS ON LABRADOR

Special to The Guardian. ST. JOHN'S, Nfld., August 24—Despatches from Dr. Grenfell, Labrador medical missionary, confirm the reports of the probable total failure of the Labrador fishery, which portends serious consequences for 20,000 fisher folk of Newfoundland who depend upon the Labrador fishing for a living.

TAFT-ROOSEVELT BREACH HEALED

NEW YORK, Aug. 23—President Taft and ex-President Roosevelt are again fellow workers in the same political field. The threat that they might pull apart has been averted by a full explanation on one side and an unreserved acceptance on the other. The president makes it plain in a letter given out here today by Lloyd C. Griscom, how the misunderstanding arose. He explains that he never permitted it to go abroad uncontradicted that the president of the United States was behind their factional preferences; he insists that at every opportunity he advised the fullest conference with Colonel Roosevelt, and he explains that he has been particularly anxious to see the assertions in the newspapers concerning his attitude in respect to the New York situation. For his part, Colonel Roosevelt, when he read President Taft's letter, as communicated to him at Oyster Bay said: "I am very glad to see President Taft's letter and I am pleased with it."

WORTH \$30,000,000 EVICTED FOR RENT

NEW YORK, Aug. 23—Miss Dellari-pha G. Richardson, worth more than \$30,000,000, the daughter of the eccentric millionaire, Joseph Richardson, who erected the "spite house" at Eighty-second street and Lexington avenue, was evicted from her home at No. 110 East Houston street, after a fight yesterday. It is charged she failed to pay the rent. The house in which she lived had been her home since her birth, fifty years ago, but recently she had sold it to a clear manufacturer. He had been asked to move, but did not do so. Miss Richardson is one of the wealthiest women in the world, having inherited the bulk of her father's fortune. He died in 1897. Since that time she has lived frugally and added to her fortune. She lived in the East-Houston Street house alone with a Miss Emmett, a cousin.

The eviction was one of the most dramatic ever witnessed on the east side of the city. Marshall's men being forced to chop open a panel of the door after an attempt to scale the walls with ladders had failed. William Briller one of the Marshall's men, was struck over the arm with a crowbar by someone within the house as he was trying to unlock the door after the panel had been burst open.

Crowds gathered in Houston street and blocked traffic while Miss Richardson's household belongings were piled in the street. It took more than four hours to carry all the furniture from the house and the sidewalk was completely covered with goods that were in the Richardson home for more than half a century.

Miss Richardson was greatly incensed over the actions of the city marshal and followed them from room to room as they dismantled beds and tables in disorderly masses before their removal. She declared that their actions were outrageous and that she would report them to Mayor Gaynor. The furniture as it accumulated on the sidewalk was examined critically by the tenement dwellers of the neighborhood. All of it was of the plainest character and worn out. The beds were of plain pine, painted yellow. The carpets were ingrained and worn through in spots. The walls had been adorned with old prints and pictures obtained in packages of tea and other groceries.

The interior of the house was in harmony with the furniture. Paper faded so that it had no pattern covered the walls. Coal oil lamps and candles had been used as illuminants. The old-fashioned house was without a modern bath, the only water connection being a sink in the kitchen.

"In my Father's house are many mansions; I go to prepare a place for you." Surely this means much to us, and it comes from the only One on earth who knew. Our dead sleep not in the bosom of the earth; they are "forever with the Lord." And we shall meet them again. Earth has its separations, and they are the most heart-rending of all its sorrows. Why should we not, then, rejoice in the reunions which await us at life's close? Probably there is no one who reads this who has not some dear one in the spirit land. It may be that time has softened somewhat the pain of parting, but we cling to our dead with inexpressible longing, and we have a right to look forward with joy to the time when heaven shall heal earth's sorrow and give us back our dead. The doctrine of the future life is one of Christianity's greatest gifts to men. It may not reveal much, but what it does reveal is of priceless value, and we cannot afford either to neglect or forget it.

Many Persons Reported Dead are Now Believed to Be Living

Special to The Guardian. SPOKANE, August 24—The news from the burning forests of Idaho, Montana and Washington increases the seriousness of the situation in regard to the destruction of timber, but has reduced the estimate of loss of life. Only fifty-four are known to have perished. Hundreds of national forest rangers were reported missing and probably dead are not all safe, but many are. The fire-swept country contains many lakes and streams and by taking refuge in those the rangers probably saved their lives.

WORTH \$30,000,000 EVICTED FOR RENT

NEW YORK, Aug. 23—Miss Dellari-pha G. Richardson, worth more than \$30,000,000, the daughter of the eccentric millionaire, Joseph Richardson, who erected the "spite house" at Eighty-second street and Lexington avenue, was evicted from her home at No. 110 East Houston street, after a fight yesterday.
