FINANCIAL TRAGEDY AVERTED BY POLICY

A Flagstone, B.C. woman recently faced what she feared was a financial tragedy. Her husband was killed in an automobile accident and she was apparently left without funds with which to maintain her children. Her husband had insured with The Mutual Life of Canada in 1928 under Policy No. 172,035, but premiums for the past nine years had not been paid.

Investigation by the Mutual Life agent revealed that the policy contained a valuable automatic "non-forfeiture" provision, the effect of which was to continue the insurance in force. There was also provision for double protection in case of the assured's accidental death, so that twice the amount of the policy was payable to the widow, who received a net amount of $3,468., acknowledged as a veritable "Godsend."

If interested in obtaining the maximum amount of insurance protection at minimum cost, you are invited to consult the representatives of this "mutual" company or to write the Head Office direct for information.

STOCK QUOTATIONS

MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, April 27—According to Dow Jones the London market is lower again this morning. Paramount for the first quarter reported 72 cents a share but if there were included $640,000 net interest combined earnings of partially owned companies, the net would have been equal to $1 a share on the common. Standard Oil of California in the first quarter earned 61 cents against 33 cents last year. The statement of General Motors showing 99 cents first quarter against $1.17 was at least 14 cents better than the best estimate recently heard. Dividend meetings scheduled for today are Borden, Norfolk and Western Phillips Petroleum, United Gas Improvement and U. S. Steel. U. S. Steel will also publish first quarter earnings after the close today. It might be interesting to point out the percentages declines from the top of the year of some stocks which might be worth considering on this setback. White Motors 24 per cent; Bethlehem Steel 20 per cent; Socony Vacuum 21 per cent; Celanese 13 per cent; Aluminum 32 per cent; U. S. Rubber 22 per cent; Allied Chemical 10 per cent; American Smelters 31 per cent; Chrysler 18 per cent; Braber 20 per cent; Ohio Oil 12 per cent; Standard Oil of N. J. 15 per cent; Newmont 18 per cent; U. S. Steel 17 per cent; Colgate 17 per cent; Consolidated Gas 26 per cent; General Electric 21 per cent; Anaconda 25 per cent and Columbia Gas 35 per cent. We believe there is a rally in the market but it may be delayed until this afternoon or tomorrow morning. But, unless we were willing to try for a turn of a few dollars we would still hesitate to make long commitments.

MONTREAL, April 27—General Motors—Showing effects of the strike, sales for the first quarter declined 1.3 per cent and common stock earnings equal to 99 cents per shares against $1 for the first quarter 1936. However, March output reported at new record high.

Automobile—Production in Canada for the first quarter up 44 per cent over same period last year, sales increased 64 per cent.

Montreal Tramways—Gross revenues reported up 2 to 3 per cent so far this year over same period last year.

Pennsylvania Railroad—Quarterly net operating income of $16,600,000 up 21 per cent over first three months last year.

C. W. Lindsay and Co. Ltd.—For year ended February 28 net profit $6,019 after bond interest, depreciation and income tax, first realized profit in six years, compares with losses of $28,000 and $110,000 for the two previous years.

Bank Debits—First three months total of cheques cashed in Canadian banks showed an aggregate gain of 9 1-2 per cent over same period in 1936.

NEW YORK, April 27—Texas Corporation earned the equivalent of $1 a share in the first quarter of 1937 on the present outstanding capital stock giving effect to a larger number of shares compared with 60 cents a share in same period of 1936 when a smaller amount of stock was outstanding, stated T. Rieber, chairman at the annual meeting. The gain in profits this year amounted to about 90 per cent on a dollar basis. As to prospects for an advance in the price of crude oil, Mr. Rieber said that as crude stocks are today "There should not be any increase in the price." New York Stock Exchange seat sold at $106,000, off $4,000 from previous sale.

NEW YORK, April 27—25 cents extra on Phillips Petroleum, earned 1.26 a share in March quarter against 76 cents a year ago.

Swansea—At the tin plate pool committee meeting this afternoon, it was decided to remove the quota restriction on output which will allow works to produce at capacity. In February this year the quota was raised to 75 per cent from 70 per cent.

Washington—The Board of Tax Appeals ruled today that transactions by R. J. Reynolds Tobacco Co. during 1929 in its own stock were taxable. Transactions from which gain or loss resulted. The Government's deficiency claim amounted to $39,036.

MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

BULLETIN

Further forced liquidation was again encountered at the opening of the London Stock Market. Although volume was small, prices were marked down all around and jobbers quoted very wide markets.

It is understood Chancellor Chamberlain will make a statement today on proposed new tax which it is hoped will relieve the situation.

International issues were a little easier.

MORNING MARKET LETTER

The substantial setback in yesterday's market represented principally the result of three short periods of weakness. The first was at the opening when most prices broke sharply on a weekend accumulation of selling orders.

Virtually no rallying power was shown between the opening and mid-day when a second selling wave set in. A very feeble rally developed in the fourth hour but toward the end of the session prices weakened again as the tape fell behind.

The closing prices were at or near the lows for the day. About the only encouraging indication was that the market lost less ground in the final hour than at mid-day. This may indicate some broadening of support that could lead to a trading rally soon and probably today.

Beyond that point the formation of an opinion is made difficult by the numerous uncertainties both national and international with which market sentimen thas been struggling recently.

There are increasing signs of a slackening of Industrial production in the late spring or early summer but we believe that this will be temporary in character and partly due to excessive forward buying earlier this year.

Laidlaw and Company

SUMMARY

U. S. Steel Corp. quarter earning and dividend action after market close today.

New York Central March net operating income $6,284,476 against $3,398,320 in March 1936, three months $13,183,938 against $8,775,989.

Houston Oil Company of Texas and Houston Pipe Line Co quarter ended March 31 net profit $469,366 equal after allowing quarterly dividend requirements on preferred, in arrears to 30 cents on common against $1,349,925 or 37 cents on preferred in 1936 quarter.

"Oil and Gas" Journal estimates crude oil production in week ended April 24 at 3,501,428 barrels daily, new high record and increase of 38,932 daily over preceeding week.

First move of Robert R. Young, Frank K. Kolbe and Allan P. Kirby who acquired control of former Van Sweringen Rail and Real Estate holdings, is expected to be simplification of Alleghaney Corp. capital structure.

ANNOUNCEMENT

To Farmers Near Charlottetown

Thursday, April 29th. we will open for business our new Frost Proof Warehouse, built on the approach to the Railway Wharf.

FRANK B. CLARKE

1st I want to thank you heartily for your patronage, which helped me to supply you with better warehouse facilities at Charlottetown for marketing your Potatoes and Turnips.

2nd With your continued support we can make this the principal trading post for farmers on the Island.

3rd I cordially invite all farmers, dealers, and shippers to come and inspect the warehouse and see the new Haines Electric Potato Grader in operation. Let me assure you it is the latest and most up-to-date Potato Grader ever set in operation.

4th Our stock for the opening consists of the following: Fertilizers, Lime, Flour, Feeds, Bran, Middlings, Seeds, (Timothy, Clover, Turnips, and Vegetable —all varieties) and Seed Potatoes.

5th VERY IMPORTANT. I am of the opinion that a different method of marketing the farmer's Potatoes and Turnips near Charlottetown should be adopted. To illustrate why, there are growers in this section who accepted bags last January from small loaders, who sometimes call themselves agents, who make a habit of advising farmers not to haul as the price will go higher, in some cases promising to pay more than the market would stand, and when it comes to paying, they settle with the farmer a few cents below what they quoted, and in many cases the farmer still has his potatoes. To overcome this situation, which has been prominent for some time, I would ask my customers tod o business with the office direct. In the fall, when produce will be moving in volumne, I will have the boys that scouted for me last fall and this spring, supplied with trucks and they will work on a salary.

6th I have in stock a limited quantity of Government Certified Clear Field Mountain Seed No. 1 SMALL, quite a quantity of Cobblers, No. 1 Grade, also No. 1 SMALL Seed Cobblers, and a few Blues, and will exchange same for Table Stock.

7th We have a weak Potato market, but I am in a position to buy all the Potatoes, Seed or Table Stock, and Turnips, in the section. Why not exchange your holdings for whatever Lime, Fertilizer, or Seeds you want, we can kill two birds with the one stone—truck your Fertilizers out and haul in your Potatoes and Turnips.

8th I would advise against increasing your Potato acreage this spring, as it looks as if prices may not be high this fall, and above all, plant Seed Cobblers, NOT Table Stock Cobblers

9th Why not buy your Fertilizers from firms that will buy your Turnips and Potatoes in the fall.

10th Take into consideration that last winter, on account of practically no snow in your fields, you must use a little more Fertilizer per acre than before, especially Potash.

11th Some farmers have more potatoes on hand today than they should, unfortunately they listened to anonymous newspaper reports on short crops. Usually these short crop reports have long strings that are sometimes very elastic. In future, consult the firm whose name is on the bag, not an agent.

12th Why This Is The Place For Farmers To Trade. I feel confident that my overhead is less than any other Produce Dealer in Charlottetown, no rent, all my help, with the exception of one employee, work by the hour. When there is no hauling I am under no expense and I welcome competition, and remember this—anything I buy I guarantee my price to be as high as is going, anything offered for sale or trade our price will be competitive. I respectfully solicit continued patronage from my old customers, and will be glad to take on new ones. All orders accepted for Fertilizer after May 1st are subject to prevailing price when delivered, we expect an advance on Fertilizers about that time—book today and assure yourselves of today's price.
