CANADA'S POLICY.

ELECTRICITY TO BE USED.

(Canadian Press) OTTAWA, Sept. 14—As a result of his trip and personal inspection over the route of the Hudson Bay Railway by Canon Hon. Frank Corcoran says it is likely after the road is built it will be run by electricity, if the plan is at all feasible. With all the power of the Nelson river at its command, the saving over coal would be enormous, while it is figured that the difficulties which are met with in operating steam engines in extremely cold weather would not be experienced.

The Wesleyan says that Rev. George Steele, with unwearied energy continues to pursue his canvass for an increased endowment for the Supplementary Ministers and Ministers' Widows Fund. He is a good illustration of the saying that if you want a strenuous work done go to a man who has already a lot of work to do. Rev. Mr. Steele is very well known in this province.

U. S. CONSUL GENERAL AT LARGE VISITS HALIFAX.

HALIFAX, Sept. 14—There arrived in the city on Wednesday on official business one of the very busiest men in the U. S. Consular service—U. S. Consul General at Large George H. Murphy, and Thursday he spent a strenuous day in official business at the office of U. S. Consul General Ragsdale.

Under the present order there are no places for dromes in the U. S. consular service. Vigilance from headquarters at Washington demands businesslike, alert, energetic men for these important posts in which fools and sluggards equally can do a vast amount of harm.

The consul general at large is a Southerner—was born and educated in North Carolina, and his air of official keenness and alertness is tempered with southern geniality.

The picture of vigorous health, he is also the picture of official force and directness which goes straight to the point and when The Herald asked him over what territory he had jurisdiction he replied, with as much simplicity as the saying, "O, just Nova Scotia."

"O, North America—that is to say the Dominion of Canada, Mexico, Newfoundland and Bermuda." Even the hardest worked of those choice spirits, the missionary workers in the north west, cannot show a "diocese" equal to that.

"I visit each of the consulates and consular agencies once in two years," said he, "and the general aim of my work, which is that of inspection, is to secure uniformity of method."

In Nova Scotia you have three consulates—including the consulate general in Halifax and the consulates at Yarmouth and Sydney, you have also consular agencies at Digby, Bridgewater, Lunenburg, Liverpool and Canso, I have visited all except Bridgewater, Lunenburg and Liverpool, then going direct to Washington. I have just returned from Newfoundland and St. Pierre."

The work of securing uniformity of methods by the consulates and agencies was begun at the time U. S. Consul General Wilber was stationed here—the latter, Mr. Murphy says, is now stationed in Vancouver.
