

# Children Cry for

## Fletcher's CASTORIA

**MOTHER:**—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher* Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## Scientific Facts

NEWEST NOTES OF SCIENCE.

Iceland has its thunder storms in the winter instead of summer. Tongues for lifting lumps are attached to the cover of a new sugar bowl.

Great Britain's annual loss from crop pests is estimated at \$50,000,000. A new clip to hold a lead pencil in a pocket includes a blade to sharpen it.

Ventilation at the back of a new electric flatiron keeps the top and handle cool.

British botanists have discovered in Tibet rhododendrons that produce black flowers.

Lifting the handles on a new steam pressure cooker releases the top from the bottom.

More than half of the world's supply of whale oil is produced by Norwegian companies.

An inventor has patented a tool for cutting open pasteboard cartons neatly and quickly.

Holland attained a record coal production of more than 8,800,000 metric tons last year.

A heating radiator has been invented that will burn any kind of oil not too heavy to flow.

Jets of air compressed by a gasoline engine propel and help to steer an English motor boat.

With a new device sets of brushes are passed through a comb from opposite sides to clean it.

Brazil has the steepest railroad of its class in the world, ascending 2600 feet in seven miles.

Heating elements have been inserted in the cover of an electric cooker to brown the top of foods.

France has become the world's second largest producer of bauxite, from which aluminum is derived.

Pockets for coins are carried on the backs of gloves that have been patented by a Nebraska inventor.

Italy leads the world in shellac production and about half of its output is used in the United States.

A new automobile tire pressure gauge resembles a watch, having a curved neck that fits over valve stems.

Great Britain is obtaining much of its gasoline from Persia.

The oil distilled in Scotland and Wales, is said to be on the lookout for an other constituency, his well known views on political evolution being the seat of the Socialist constituents in Caine Valley. Accordingly, so the story goes, his name was submitted to the Northampton Socialists.

Five complete woodworking tools are combined in a compact machine that is operated by an electric motor.

A French aviator claims to have established a record for slow flying in an airplane of 31 1/4 miles an hour.

Notches on a new space saving rack for garment hangers prevent the latter sliding together or falling off.

Pontoon invented by a Cuban for raising sunken vessels have lifted more than 25 times their own weight.

A Colorado woman is the designer of a small dining table that, when turned on one end becomes a stepladder.

The Latvian government may build a direct railway from Libau to Riga to avoid traversing Lithuanian territory.

A portable machine, using powerful electric lights, has been designed for making 900 photographic prints an hour.

Experts employed by the government have estimated that Finland has nearly 50,000,000 acres of productive forests.

A Chicago inventor's golf bag is equipped with hinged legs to hold it up like a tripod for a player's convenience.

Passenger airplane service has been established between Berlin and Vienna with intermediate landings at Prague and Dresden.

A celluloid pinwheel for children that whistles when its tubular handle is blown through has been patented by a New York man.

By a method developed in Germany textiles, laces and other articles are plated with gold in a vacuum without the use of acids.

Tongs with which dishes can be handled while being washed without wetting a person's hands have won a patent for their inventor.

A small insect discovered in Sumatra an English scientist thinks can be used as a source of a drug with the same uses as camphor.

A new tray for holding beverage glasses and smokers' articles can be clamped to the edge of a card table, desk or flat armed chair.

## How Women

Now keep fresh, charming under hygienic handicap—new way provides true security—discards like tissue

By ELLEN J. HUCKLAND  
Registered Nurse

THE uncertainty and insecurity of the old-time "sanitary pad" has been ended. Scientific protection now supplants it.

Wear sheer gowns, keep up with social and business requirements, at all times... without handicap.

"KOTEX" is a new and remarkable way... five times as absorbent as ordinary cotton pads.

You discard it like tissue. No laundry. No embarrassment.

Absorbs and deodorizes at the same time. Thus ending all fear of offending.

You get it at any drug or department store simply by saying "KOTEX." There's only one... only Kotex itself is "like" Kotex.

Women ask for it without hesitancy. Comes 12 in a package. Proves old ways an unnecessary risk. Try Kotex.

## KOTEX

No laundry—discard like tissue

## LONDON LETTER

By Temple Chambers.

(British United Press)

LONDON, May 12.—A curious story is current regarding the political future of Philip Snowden. He is said to be on the lookout for an other constituency, his well known views on political evolution being the seat of the Socialist constituents in Caine Valley. Accordingly, so the story goes, his name was submitted to the Northampton Socialists.

Five complete woodworking tools are combined in a compact machine that is operated by an electric motor.

A French aviator claims to have established a record for slow flying in an airplane of 31 1/4 miles an hour.

Notches on a new space saving rack for garment hangers prevent the latter sliding together or falling off.

Pontoon invented by a Cuban for raising sunken vessels have lifted more than 25 times their own weight.

A Colorado woman is the designer of a small dining table that, when turned on one end becomes a stepladder.

The Latvian government may build a direct railway from Libau to Riga to avoid traversing Lithuanian territory.

A portable machine, using powerful electric lights, has been designed for making 900 photographic prints an hour.

Experts employed by the government have estimated that Finland has nearly 50,000,000 acres of productive forests.

A Chicago inventor's golf bag is equipped with hinged legs to hold it up like a tripod for a player's convenience.

Passenger airplane service has been established between Berlin and Vienna with intermediate landings at Prague and Dresden.

A celluloid pinwheel for children that whistles when its tubular handle is blown through has been patented by a New York man.

By a method developed in Germany textiles, laces and other articles are plated with gold in a vacuum without the use of acids.

Tongs with which dishes can be handled while being washed without wetting a person's hands have won a patent for their inventor.

A small insect discovered in Sumatra an English scientist thinks can be used as a source of a drug with the same uses as camphor.

A new tray for holding beverage glasses and smokers' articles can be clamped to the edge of a card table, desk or flat armed chair.

## LIBERALS AND SIR A. MOND

It is probable that a by-election will be sprung on Carmarthenshire early in the summer. Sir Herbert Samuel declares that Sir Alfred Mond ought to be compelled to resign his seat, and that is interpreted to mean that Sir Herbert will do all in his power to force a contest at the earliest possible moment.

It is certain that in consequence of the recent victories, Liberals are spolling for more fight. One leader explained to me that these contests are doing more to weld the factions than all the letters, speeches, and banquets.

Rumours are being revived that Sir Alfred Mond may go to the House of Lords, which, of course, would release him from what is obviously an embarrassing position.

Under the heading of "personal," there appeared recently in a leading newspaper the following:—"Gentleman can achieve lifelong desire by gift or loan of \$1,000.—No money-lenders."

Verily it is but a modest request. But what is that "life's desire" which a thousand dollars will appease? Which among all the permutations and combinations of human desire is that which possesses the breast of this sanguine Gentleman?

And why, Madam, bar the Moneylender?

Consider. Are there not Plantagenets and Stuarts; Gordons and Montmorencys; Tudors and De Veres; men whose ancestry shines on their clean cut features and stretches back even to the time of their father Abraham, and do they not all yearn to help you? Why not harken to their cry?

Here is one of them:—"Gentleman of independent means is prepared to advance any sum from \$25 to \$25,000 immediately, without inquiry, without fee and without security."

Verily I have not found so great

## A NEW CHAPTER

IN DODGE BROTHERS HISTORY

### 20% Greater Gasoline Mileage! and Many Other New Features

20% more gasoline mileage is precisely what you can expect from Dodge Brothers remarkable new motor.

15% more power, too—20% faster get-away!

Silence unknown before in an engine of this type—and smoothness that thrills!

New standard gear-shift transmission—new hot-spot manifold—new silent-action clutch—new finger-tip steering unit—new oiling and cooling systems—and 24 other vital improvements.

Drive the car today and appraise at first hand the brilliance of this achievement.

Notice the charming new color effects, too—and the smartness of the body lines.

See, also, the fleet and stylish new Convertible Cabriolet with Rumble Seat, the latest addition to Dodge Brothers line.

Special Coupe, \$1350; Special Sedan \$1475; De Luxe Sedan, \$1600; Sport Roadster, \$1425.

Delivered fully equipped anywhere on P. E. I.

W. B. PROWSE & SONS  
CHARLOTTETOWN

faith, may not in all Israel! Your lifelong desire! Well, my hat, madam, why not go to it?

## THE ARCH-PESSIMIST

If it be true that a pessimist is he who, given a choice of two evils, takes them both, then is Old Moore, whose Almanack for 1928 is now to hand, the very Emperor of Pessimism.

For if any prophet can make glad the heart of the Gloomy for six pence Old Moore is certainly the man.

It appears that the year 1928 is to be a year of Wars and rumours of Wars in the life politic, and of murder and sudden death and all calamitous things in the world domestic, and, Oh! Bathos! it is to be the birth of a new kind of shoe!

Also a new discovery in the film world is promised. Perhaps it will be a Duchess of ancient lineage who does not wear her coronet in church, or an Englishman who

does not tuck his napkin (pardon—his serviette) into his collar-band. But who knows?

## THE FOURTH LADY

At this writing, the Fourth Lady in the Land is celebrating the first anniversary of her arrival in this vale of years. For even the Princess Elizabeth of York, granddaughter of His Majesty George the Fifth, has to encounter the pangs of teething, hence the tears—which afflict tiny maidens of one year, be they of the Blood Royal or of lowlier degree.

So let us turn from teething and tears to Toys.

From the uttermost parts of the earth, playthings, rich and rare, playthings novel, have poured down upon the little woman born to such high estate. Which, among all this Niagara of playthings will some day be her favorite?

It is recorded that Charles the Second when a little boy, surrounded

ed tho' he was by all the childish trinkets which the invention of his day could provide for his amusement, discarded all the elaborate toys, and went nightly to bed grasping tightly to his breast as his dearest treasure from which he refused to be parted "a crooked billet of wood!"

The heart of a child does not change.

## LETTER OF SYMPATHY

Mrs. J. Rackham, Hunter River

Dear Friend—The heartfelt sympathy of the members of the Women's Missionary Society goes out to you in the great sorrow you have been so suddenly called upon to pass through. From many years of association, we have come to know well your supreme faith and loyalty to your Master and our united prayer is that you may still be sustained by the unflinching trust and knowledge of the abiding presence of Him who said to the

sorrowing ones of old "I will not leave you comfortless." With love and sincerest sympathy.

MEMBERS W. M. S. Hunter River United Church

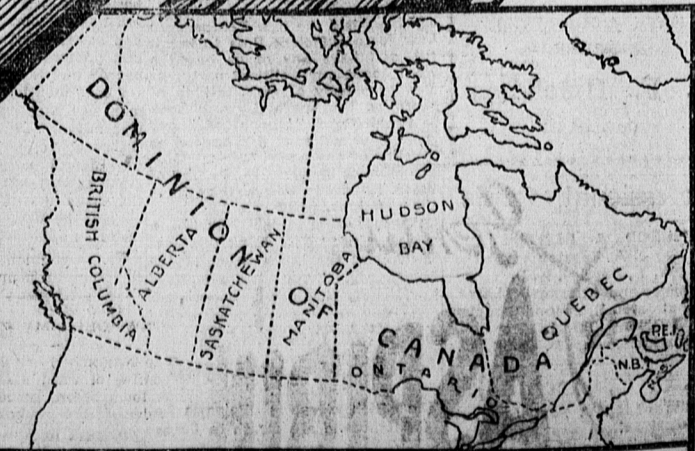

## Monuments

Parties who intend buying a Monument will do well to wait till I call or even write me for samples and prices which I will gladly submit from the "Old Reliable" firm of CHANDLER & BELL who has the largest stock of finished Granite and Marble to select from in P. E. Island.
