DID NOT USE DISGUISE

PARIS, Sept. 24 - Christel Pankhurst, England's young militant suffragette, who disclosed herself to the public here, after the London police had looked vainly for her since last March, denied in an interview with the World that she had employed any deep disguise to outwit the British detectives who sought her for connection with window-breaking outrages.

THINKS HUDSON BAY RAILWAY RISKY

WINNIPEG, Sept. 25 - I am of the opinion that the Hudson Bay railway undertaking is of so risky a nature and its ultimate success is so problematical that it should be operated by the Dominion government until its real value has been demonstrated, said Sir Donald Mann here today.

NETHERLANDS MAY NEVER AGAIN HAVE KING.

THE HAGUE, Sept. 25 - The government commission for the revision of the constitution has pointed out some articles in that instrument that may lead to difficulties in the future. A very debatable point, for instance, is the article which provides that the heir to the throne must be a male in the male line. This an eminent jurist asserts, will now that a queen reigns as sovereign, make it impossible for any male ever again to inherit the Netherlands throne, even if the queen or Princess Juliana after her were to have sons. For the succession having been regulated so that Princess Juliana may succeed her mother it will never after be the daughter who alone can inherit. Other great legal minds say that this can be disputed, but the government is not going to leave this an open question, but will frame a new article to meet all the difficulties in the future. A very delicate point, however, that is, the question whether if at any time the house of Orange, in the direct line, shall become extinct, the nation will be at liberty to name a sovereign of its own choice in preference to a descendant of one of the collateral branches of Nassau. It is urged that the name of Orange in the direct male line is extinct already.

PRaises FRENCH ARMY.

PARIS, Sept. 24 - Grand duke Nicholas of Russia and Gen. Kaulbars express today their high admiration of the great progress of the French army. They have just completed a minute examination of its work by reviewing the crack Twentieth army corps which guards the German frontier. Both are quoted in interviews as being particularly struck by the discipline, endurance and steadiness of the troops, by the perfection of their war material and by the exploits of the officers of the flying corps. The grand duke intends to make a detailed technical report to the Russian emperor and as a result it is expected that some of the perfected methods of the French army will be introduced in the Russian army.

DECLINE TO WELCOME WOMEN LAWYERS.

CARLISLE, Wales, Sept. 25 - The law society of Carlisle is opposed to women practicing law. A resolution in favor of the admission of women to the bar was defeated at the annual meeting of the society yesterday. The resolution also urged the council of the society to support a bill that is to be introduced in parliament, enabling women to practice. The chief ground for this opposition it was said, was that the competition by women would be injurious to men who practice law.

CRISIS IN BALKAN STATES IS SERIOUS.

LONDON, Sept. 25 - The crisis in the Balkan states is causing great disquietude among diplomats here. Included among the most serious of Austrian soldiers on the Serbian frontier and the firing by Turks on a Green steamer at Samos are embittering the people of the states directly interested in it. It is thought, take all the ingenuity of the Foreign offices and their representatives in Turkey to avert the Balkan outbreak so often predicted. Turkey's decision to hold military manoeuvres in the Vilayet of Ardianou when the Bulgarians are considered as likely to look upon as a threat, leads to the belief that Turkey is not adverse to a diversion which would allow peace to be signed with Italy under cover of the necessity for the protection of the Turkish frontiers. The danger of the situation places it in the forefront of the conversation at Balmoral between King George and Sergius Sazonoff, the Russian Foreign Minister. It is understood Russia will propose the adoption of an Anglo-Russian scheme of reform for submission to the Powers.

AMERICAN CARDINALS ARE GENEROUS.

ROME, September 24 - It has long been the cry in Europe that Americans have spoiled travelling for the modest tripper by their prodigality with tips and in shopping, but for the first time such a lament is being made in Rome. At the Vatican there is every prospect of another consistory in November, just about a year since the last one, in which American cardinals figured so conspicuously. Assuming the purple has always been a costly process - and one which often leaves the recipient in straitened circumstances for years, but this time the cry has gone up that it will be much more costly than ever because of the generosity of the American cardinals last year.

JOHNSON EXPECTS TO SIGN TODAY.

CHICAGO, Sept. 24 - Final arrangements for the proposed heavy-weight match between Jack Johnson and Sam Langford, to be staged in Australia, on boxing day, December 26, are expected to be made this afternoon at the Antipodean club, seeking the bout, returns to Chicago from New York. Johnson said last night that he expected to sign with Kelley today and in all probability would leave Chicago for Australia shortly, that he might have time to become acclimated before the fight.

RAILWAY TO COMPLETE WITH CANAL.

OTTAWA, Sept. 25 - That the Tehuantepec National Railway will be able to compete on almost even terms with the Panama Canal, is the opinion of A. W. Donly, for 23 years Canadian trade commissioner in Mexico, who is in Ottawa for a few days on leave. The Tehuantepec National Railway connects the two oceans from Mexico to Salina Cruz, and is about 300 miles in length. The road, Mr. Donly says, is now carrying a million tons of freight annually, including most of the sugar destined for the refineries in the eastern states. The terminal and other facilities are quite sufficient for all the traffic for some time to come.

There is, of course, the cost of transshipment, but this is likely to be largely offset by the tolls of the new canal and the necessarily lengthy passage of ships through the locks. A considerable quantity of Canadian trade goes from ocean to ocean via the Tehuantepec, there being a Canadian customs official on the ground who looks after the shipment of goods in bond.

The trade of Mexico has suffered during the last couple of years, Mr. Donly says, from the internal unrest. The foreign commerce of the country amounts to a hundred and fifty millions, of which seven per cent. is with the United States.

Mrs. Gilbert Steeves, Miss Sadie Wry and Mrs. E. Wry, Moncton, are in Charlottetown attending the exhibition.

Daniel, Steele, with the race horse Vesta Boy, arrived in Charlottetown on the Northumberland last evening from Sydney where Vesta won success in the recent races.

There will be preaching service in the Baptist church at Albany at 10:30 a. m., Tryon 2:30 p. m., and at Westwoodland, 7:00 p. m. on the coming Lord's day, Sept. 29th.

Miss Margaret and Miss Ella Aiyward, the popular manager and assistant of Trueworthy's Dining Rooms Lynn, Mass., have left via the plant line on a four-weeks, well-earned vacation to their native home in Moncton, P. E. I. They will arrive in Charlottetown tonight and the boarders wish them a pleasant trip and a speedy return.

The marriage of Miss Sadie Burleigh Craig, to James Hunter Norton of Moncton, N. B. took place at the bride's home, Middleton, Wednesday evening at 7 p. m. It was a brilliant affair, about forty-five guests, friends of the bride and groom being present. Some of the guests were from Moncton. The bride looked not only charming but pretty, she was dressed in Ivory duchesse satin trimmed with Irish point lace, veil and orange blossoms and carried a bouquet of white chrysanthemums. The bridesmaid Miss Helen D. Schurman looked lovely dressed as she was in pale blue silk marquisette over blue satin and carried a bouquet of salmon pink sweet peas. The groom's gift to the bride was a sapphire pendant and to the bridesmaid a pearl set ring and to the best man gold cuff links. The gifts to the bride were numerous and costly. Her going away suit was two toned whip cord in brown shades with hat to match. The bridal party stood under an arch of evergreens and cut flowers which was greatly admired by the party. The ceremony was performed by Rev. Alex. McKay, Professor Earl of Charlottetown played some choice selections on the piano before and after the ceremony, he played three wedding marches some very softly. Following was an excellent repast gotten up in a highly creditable manner and which was done justice to by all. The bridal table was decorated with roses and sweet peas. A very enjoyable evening was spent, after which the bride and groom left the same evening for Summerside and left by the Empress next morning for Montreal en route to the Adirondack Mountains and New York returning by way of Boston, St. John, and Moncton. The Guardian wishes the happy couple every happiness.

BABY WILL BE HEIR TO \$50,000,000.

BALTIMORE, Sept. 23 - A cablegram announcing the birth of a son to Alfred and Mrs. Gwynne Vanderbilt at Betchworth Surrey, England, was received yesterday by Mrs. C. Hazeltine Bashore, mother of Mrs. Vanderbilt, who was formerly Mrs. Smith Hollins McKim.

The Vanderbilt infant will rank with the richest children in the world and in all likelihood will become as famous as the celebrated McLean baby; it will be heir to not less than \$58,000,000 and probably considerably more, as Mrs. McKim Vanderbilt has a vast fortune.

CAREFUL DOCTOR Prescribed Change of Food Instead of Drugs

It takes considerable courage for a doctor to deliberately prescribe only food for a despairing patient, instead of resorting to the usual list of medicines. There are some truly scientific physicians among the present generation, who recognize and treat conditions as they are and should be treated, regardless of the value to their pockets. Here's an instance: "Four years ago I was taken with severe gastritis and nothing would stay on my stomach, so that I was on the verge of starvation. "I heard of a doctor who had a summer cottage near me - a specialist from N. Y. - and as a last hope, sent for him. "After he examined me carefully he advised me to try a small quantity of Grape-Nuts at first, then as my stomach became stronger to eat more. "I kept at it and gradually got so I could eat and digest three tablespoons. Then I began to have color - in my face, memory became clear, where before everything seemed a blank. My limbs got stronger and I could walk. So I steadily recovered. "Now after a year on Grape-Nuts I weigh 153 lbs. My people were surprised at the way I grew fleshy and strong on this food." Name given by Canadian Postum Co., Windsor, Ont. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

NO TENDER FOR QUEBEC DRYDOCK.

OTTAWA, Sept. 25 - A sub-committee of the Cabinet has been appointed to consider anew the scheme of improvements at Quebec with particular reference to the dry dock. No regular tender to build the dock, as a subsidized private enterprise was received, and the latest proposal is to combine the dock construction with the contract for extra wharves and docking facilities. This plan was approved at St. John.

It is represented that with only the 3 1/2 per cent. subsidy it is very difficult, if not impossible, to finance the construction of the dock as a private undertaking.

LATEST DISCOVERY OF STOLEN PICTURE.

LONDON, Sept. 26 - Leonardo Da Vinci's stolen masterpiece, Mona Lisa, is hanging on the walls of a private gallery in St. Petersburg, according to a report published in a Russian paper and transmitted today to a news agency here. The mysterious disappearance of the priceless picture - popularly known as "La Gioconda," from the Louvre Museum in Paris caused worldwide sensation in August, last year. Search has been made for it in every country without success.

GIVES UP LUXURY TO HELP IRISH POOR.

LONDON, Sept. 24 - As the result of an appeal for financial aid received by the lord mayor he has just become known that the Hon. Albinia Brodrick, sister of Lord Middleton, has cut herself off from the luxuries of society and is devoting herself to the poor peasants of a large district in Kerry, Ireland. She is now living on five shillings (\$1.25) a week in a farm cottage at Ballinacorney and from there asking help for a little hospital she has begun to build in the town. The walls and roof of the building have been finished, but she is without funds to equip and open it. She describes the peasantry as being very poor. "Their tiny homes," she says, "are overcrowded and they suffer unnecessarily when they are sick. They constantly die from

DEVISE PERSIA.

LONDON, September 21 - The practical division of Persia between Great Britain and Russia appears almost assured as a result of conferences with Sergius Sazonoff, the statesman. All the newspapers which are in the closest touch with the foreign office, particularly the Times, looked upon recently as Sir Edward Grey's mouthpiece, are forecasting this arrangement and are apparently preparing the public mind for it. The necessity of preserving order in the interest of trade is the principal reason advanced. The Manchester Guardian and other liberal papers oppose the project bitterly. The Guardian says: "The foreign office, altho not ordinarily over-solicitous about trade interests, knows well how to quote them for its own needs."

RUSSIAN WAS DISCHARGED.

MONTREAL, Sept. 25 - Judge Leeb today discharged George Zimmerman accused of selling wood alcohol to eleven Russians who consumed it and died, holding that the evidence was insufficient.
