PERSEVERANCE REWARDED.

Mrs. Berry was at First Discouraged but Afterwards Resumed Treatment and was Cured.

BEAR RIVER, N. S; Feb. 11.—Mrs. Elizabeth Berry of this place has had an experience both unique and interesting. She says: "For over eight years I suffered with chronic Kidney Disease. I tried many remedies, but with no relief. A friend advised Dodd's Kidney Pills.

"I took one box and that did not seem to help me very much I left off and concluded there was no remedy. For three years more I struggled on till at last I got so bad that I could'nt dress or undress myself and I did not sleep more than five minutes at a time day or night.

"I determined to try Dodd's Kidney Pills once more. This time I bought five boxes. When these were done I was a little better, so I got seven more. I have not finished the twelfth yet and I am completely cured of every trace of the old trouble."

ECONOMY IS IMPERATIVE.

Our times demand economy in every branch of trade. We must save the cents, and the dollar will look out for themselves. In justice to yourself look out for small leaks. In purchasing, see that nothing is charged. Pay for what you get and nothing more; in other words pay cash, and get cash prices; when you study your own interests you study ours also. Cash talks. Cash makes matters more cheerful all around. Our cash prices are so fine that you cannot make a mistake to patronize the cash tailor.

A full house and an appreciative audience greeted Mr. Welsh and music class at their entertainment last evening. That the audience were well pleased was evidenced by the rounds of applause which greeted each number. The performances of the pupils were highly creditable and showed painstaking careful teaching on the part of Mr. Welsh, even his youngest pupil acquitting herself very well. Through illness and unavoidable absence several numbers of the program had to be omitted but the omissions were made up by some of the performers contributing more than their allotted share. The soloists were all old favorites and when it is said they were at their best that is comment enough. The recitations of Miss Rattray and Miss Stentiford called forth peals of laughter. On the whole the entertainment was a success. There was not a dull number from start to finish and Mr. Welsh is to be congratulated on his first public concert.

Dairy Inspector's Report.

I have received the following report from Inspector F. T. Morrow, for the month of January, 1901:—

January 1st, visited New Perth factory; 2nd, at Murray Harbor North factory, not working but butter on hand of fine quality; 3rd, at Murray Harbor South; 4th, at Montague; 7th, Dunstaffnage; 8th, Hazelbrook; 11th, Winsloe; 14th and 15th, New Glasgow; 16th, Park Corner; 17th, Stanley Bridge; 18th and 19th, Kensington; 21st, called at Summerside factory closed for season; 22nd and 23rd, Bedeque; 24th, at Albany; 25th, Tryon; 23th, Crapaud and Hampton; 29th, 30th and 31st, at Kinkora looking out site for new factory and consulting with board of directors.

Cornwall factory was also visited during the month. In closing his report Mr. Morrow says as a general rule the milk is not plentiful, but makers are handling it to the best advantage.

The butter meets with ready sale in the local market. Some factories are only running once a week making it somewhat inconvenient to visit them on working days but made arrangements to have some change their working days to suit the time of my visit.

Mr. Morrow is preparing to visit factories in the east of the Island, and as some are now closed will be pleased to meet with the different boards of directors and the officers, and if desirable can arrange to hold some meetings on the return trip and talk over matters of general interest to dairymen. In conversation with some of the leading patrons of the Island they consider it important that ice be put up for summer use.

In hot weather milk coming to the factory long distances, and especially on Monday mornings, is too ripe and in many cases unfit for making first-class cheese.

Ice is very easily kept over summer, and anyone with a grove near their dwelling can do so without a building by simply laying some longers or poles on the ground packing 10 or 12 loads of ice carefully and covering with sawdust, black muck or seaweed.

ESCAPED BULLETS AND FLAMES

Edward Marshall, the newspaper correspondent who lost a leg in the fight at Las Guasimas, when the Rough Riders underwent their baptism of fire, made an sensational escape from the Jefferson Hotel, New York, which was burned on Wednesday. Roused from sleep he had not time to get his artificial leg, and had to hop across a plank to an adjoining building. Mr. Marshall is apparently not doomed to come to his end by either bullets or flames.

WHEN THE MAIL ARRIVES.

(The People of This Province Have Been Without a Foreign Mail For 10 Days)

There'll be many anxious parents
Getting letters from their sons;
There'll be many sons and daughters
Go for letters on the run;
There'll be lovers fondly waiting,
Adding days onto their lives;
In each sphere all will be happy
When the mail arrives.

There'll be merchants getting dunners
From their creditors abroad;
There'll be drafts and notes outstanding,
Money saved, money borrowed;
There'll be hundreds looking, searching
For there bills of merchandise;
And all our tranders will be busy
When the mail arrives.

There'll be sadness, perhaps illness,
Brought to many happy homes;
There'll be sorrow, hate and anger
Brought to bear on someone's bones;
There'll be some who look unpleasant
Where they once wore happy smiles;
And much happiness be lessened
When the mail arrives.

There'll be someone p'haps still waiting
For a letter from afar;
There'll be some one discontented.
Let the sun shine, moon or star;
For a long suspense in waiting
Stretched the heart's hope thread—it flies
Ere the letter from the loved one
In the mail arrives.
