Contract Let To Demolish Old Building

The contract for the demolition of the building formerly owned by Miss Adeline Green, on Water Street, Summerside, to make way for the erection of a new bank of Nova Scotia building has been given to M. F. Schurman Co. Ltd., and the job is expected to be completed in about two weeks. No contract has been let as yet for the new bank building, which is expected to be ultra-modern in design and much larger than the building now in use.

The tenants of the building to be demolished have made other arrangements but in some cases their new premises will not be ready for about two weeks. Bell's Book Store, Geo. T. Clarke, jeweller and Mr. E. E. Parkman, optometrist, are moving to the Regent Theatre building on Summer Street when it is completed. In the meantime temporary quarters are being arranged for Read's Studio have moved to the next building over Chan's Restaurant and Mr. R. E. Ellis will have his insurance office in the MacArthur building.

The building being demolished is probably one of the oldest buildings in town and no resident could be found that could remember when it was built. Miss Adeline Green came into possession of it in 1938 on the death of Mr. S.M. Hicks. Mr. Hicks and Mr. David McMurdo had purchased it in 1894 from Mr. Angus MacMillan and

Sport Echoes From Prince County

The "Big Five" batters in the Summerside Baseball League: (including those who have taken part in two complete games):

LABBERT, R.C.A.F.	8	1	4	500
OATWAY, KINSMEN	16	4	7	438
CARSON, R.C.A.F.	7	1	3	429
MICKUS, R.C.A.F.	8	2	3	375
SCHURMAN, Red Sox	14	2	5	337

The R.C.A.F. team which has played only two games to date will play two more on consecutive days. What this will do to the batting averages of the three airforce boys up there in the "Big Five" is pretty difficult to conjecture. Both Schurman and Oatway went hitless in the Red Sox-Kinismen game Monday evening.

Alan Stewart who let the Red Sox batters down with two hits in Monday's game looks to be the most promising youngster seen on Summerside baseball diamonds for some time. Stewart has improved a great deal over last year's performance, and he was a pretty fair performer in 1947.

Bill Fridgen, coach of the Kinismen Juniors, bids fair to win the title of "Miracle Man" in Summerside sports circles. Bill led a bunch of kids to the bantam hockey title last winter, his charges trouncing the Charlottetown entry in the finals by the convincing score of 11 to 3. Now his Kinismen baseball nine are surprising everybody with their sparkling play. They have won three games, lost one, and tied one, to place at the head of the league. In Stewart and Gay he has two hurlers who seem to be able to hold their own with any fingers in the league. Oatway, their first sacker, has shown marked improvement with the willow, and the other boys are also picking up.

Well, Bill seems to have staked his claim to the title of "Miracle Man" and now let us introduce to you "Mr. Shortston." He is no other than the little guy you see doing business down there between

second and third for the Red Sox. Hank Landry! He has accepted fourteen chances at short field this year without making an error. In the Big Leagues that wouldn't be such a much, but down here in the sticks it's quite an achievement. Besides, some of these putouts and assists were brilliantly executed, and with a polish which Hank alone knows how to spread.

We saw an unusual play during the Red Sox-Kinismen game. Oatway was being run down between third and home and Frankie went off the base-line and around Schurman to score. The run was allowed. Rule 49, sec. 7 says in part: "The base-runner is out—if, in running to any base, he run more than three feet from a direct line between a base and the next one in regular or reverse order to avoid being touched by a ball in the hand of a fielder."

The interpretation of the rule written in fine print, underneath says: "Holds the runner to the base line to avoid being touched by the ball in the hands of a fielder." The thing that complicated matters in this particular play was the fact that Schurman made no effort to lunge out and tag Oatway. If he had, and had failed, then obviously Oatway would have overstepped his limits in avoiding the tag, for the rule, if it means anything, must mean that the runner must not get beyond the normal reach of a fielder to avoid the tag. Of course the rule says "three feet" but what umpire can estimate three feet when there are no lines to help him. We will not state that the umpire was wrong, because it was a decision of judgment, and neither we nor anyone else, has a right to dispute the judgment of an umpire. But if such a decision were given very often you would certainly see some odd antics on the baselines. Some plays very much like football could develop. The runner could feint a movement in one direction and then drive for the other side hoping that the umpire would decide he had gone only two feet, eleven inches off the baseline. We shall endeavour to get some further information on this play.

A word of congratulations to Bill Brawley for his sterling work in the Halifax Olympic trials. Bill got three firsts in the jumps and though his efforts were a little be-
