HUSTLE NECESSARY TO WIN CAMPAIGN PRIZES

Contestants in Guardian's Race Must Keep Busy and Line up Friends for Struggle—Plenty of Time for Work. Next Vote Standing Will Appear Monday.

Do not feel disgruntled because your name did not appear in the initial list. It is surely to be regretted, but it can be remedied and you will reap what loss it may cost you, if you send in your application blank at once. When you ask one of your friends to subscribe to The Guardian remember you are not asking for anything. If you ask anyone for a small change for a bill of any denomination and he gives it to you, and you give him the bill, you are certainly obliged to him, but you owe him nothing but thanks for the accommodation. When you ask your friend to subscribe for The Guardian you are really under no obligations but for the votes you will receive in exchange for his subscription is value received many times over.

This campaign is not a "something for nothing game. The prizes are certainly a tangible something and you can get your share by the expenditure of a little energy.

Absolutely Fair

No unfair advantage can possibly be taken in this matter. No one can come in and buy votes at wholesale or retail. More money does not count in this campaign. All that is asked is "bonafide" subscriptions and their legitimate price in return. Do not fear that you will not get a square deal and discourage any talk about anything else, for since the world begun there has always been evil tongues, and they never fail to assert themselves, yet "the truth is mighty and will prevail."

CANADIANS HAVE DRIVEN HUNS INTO MUD OF ROULERS PLAIN

Passchendaele Village and Good Sized Semicircle of Captured Ground Now in Hands of Canadians, Germans Driven into Muddy Plan of Roulers. Wounded Canadians Returning Covered with Mud but Jubilant. 930 Prisoners Taken Since Oct. 25.

(Canadian Press Despatch) CANADIAN HEADQUARTERS IN FRANCE (by W. A. Willison) Special Correspondent of the Canadian Press.—Over Passchendaele ridge, into the mud of the far reaching Roulers plain, Canada has driven the Hun. Yesterday the men of the Dominion were well established on the crest, with Passchendaele Village in their hands and with a good sized semicircle of captured ground. Our wounded are coming down the line exhausted and covered with mud, but jubilant. With them are coming German prisoners, dazed from the terrific nature of our artillery bombardment, worn out from their experience of the last few hours and despondent at the loss of Passchendaele, but glad to be removed from a winter campaign in the mud behind Passchendaele.

Eighteen officers and nearly three hundred of other ranks have been taken prisoners by our men, making a total since the beginning of the operations, on Oct. 25, of more than thirty officers and nearly nine hundred non-commissioned officers and men.

UNWILLING GERMAN TESTIMONY TO BRITAIN'S IRRESISTIBLE MIGHT.

(Canadian Press Despatch) COPENHAGEN, Nov. 8.—Unwilling testimony to the irresistible might of the British offensive in Flanders is given by Lieutenant-General Von Ardenne, the military critic of the Tagblatt of Berlin, who sends from the Flanders front a graphic picture

of the difficulties of the German defence. No way, he says, has been devised to prevent the fire roller, as the Germans term the moving barrage, from making slow and steady gains. He reports the German losses will be very heavy if an attempt is made to hold the front line trenches in force, while a thin line adds to the sufferings of the defenders in the front line. Von Ardenne says, composed of shell holes almost filled with water, are such that the men must be relieved every two days instead of every week or ten days, as last year. The infantry now spends two days on the firing line, two in support and two in reserve until relieved.

EXTRAORDINARY IMPORTANCE OF PASSCHENDEALE

(Canadian Press Despatch) LONDON, Nov. 8.—The capture of Passchendaele is dealt with in the editorials in this morning's newspapers as of extraordinary importance and as completing the long and persistent fights for the ridges, north and north west of Ypres, which it is contended are the symbols of a great strategic conception for the development of which their capture was the essential prelude.

The Times says: "The possession of the ridges gives Haig a dominating position in West Flanders. When we choose we should be able to utilize with great profit the position we hold today."

The Daily Telegraph says: "The possession of Passchendaele is a symbol of complete success in the most

tremendous operation yet attempted by our arms. The enemy will now finally be thrust down into the soaking plains below, where every movement and every position will be under direct observation and decisive shell fire henceforth."

TWO GERMAN BATTALION COMMANDERS AND STAFF TAKEN PRISONERS.

BRITISH HEADQUARTERS IN BELGIUM, Nov. 8.—Two German battalion commanders and their staffs were taken prisoners by the Canadians yesterday, when Passchendaele fell. In the capture of one of these commanders probably lies a partial explanation of the failure of the enemy to launch a counter-attack against the village at a time when it would have stood a good chance of success before the British had begun their consolidation.

SUBMARINE SINKING AGAIN

(Canadian Press Despatch) LONDON, Nov. 8.—A marked decrease in the British merchant ships sunk during the past week is noted in the Admiralty report last night. Only eight vessels of over 1600 tons were sunk by mines or submarines and four vessels under that tonnage. No fishing vessels were sunk.

The sinkings of British merchant ships recorded in the last Admiralty report are the smallest in point of number since the unrestricted submarine warfare began early in the year.

MAXIMALISTS NOW HOLD PETROGRAD

Kerensky Has Been Deposed. Military Revolutionary Party Joined by Soldiers' and Workmen's Delegates Will Form Government and Offer Immediate Peace, Proclamation Issued to Army.

(Canadian Press Despatch) PETROGRAD, Nov. 7.—The Maximalist movement towards seizing authority, rumors of which had been agitating the public mind ever since the formation of the coalition cabinet, culminated last night, when, without disorder, Maximalist forces took possession of the Telegraph office and the Petrograd Telegraph Agency. Orders issued by the government for the opening of the spans of the bridges across the Neva later were overridden by the Military Committee of the Council of Workmen's and Soldiers' Delegates. Communication was restored after several hours of interruption.

KERENSKY DEPOSED. NEW PARTY WILL PROPOSE PEACE.

(Canadian Press Despatch) LONDON, Nov. 8.—A wireless picked up today says that Premier Kerensky has been deposed. The Maximalists are in control at Petrograd and have issued proclamation declaring that a new government will propose an immediate peace.

TEXT OF PROCLAMATION. (Canadian Press Despatch) PETROGRAD, Nov. 8.—The text of the proclamation of the Military Revolutionary Committee reads: "To the army committees of the active army and to all Councils of Soldiers and Workmen's Delegates and to the garrison and proletariat of Petrograd:

"We have deposed the government of Kerensky, which rose against the revolution and the authority of the Military Revolutionary Committee. The change which resulted in the deposition of the provisional government was accomplished without bloodshed. The Petrograd Council of Soldiers and Workmen's Delegates solemnly welcomes the accomplished change and proclaims the authority of the Military Revolutionary Committee until the creation of a government by the Soldiers and Workmen's Delegates. Announcement of this is made to the army at the front. The Revolutionary Committee calls upon the revolutionary soldiers to watch closely the conduct of the men in command. Officers who do not join the accomplished revolution immediately and openly must be arrested at once as enemies. The Petrograd Council of Workmen's and Soldiers' delegates considers this to be the program of the new authority:

First.—The offer of an immediate democratic peace.
Second.—The immediate handing over of large proprietor land to the peasants.
Third.—The transmission of all authority to the Council of Soldiers and Workmen's Delegates.
Fourth.—The honest convocation of a constitutional assembly.

The National revolutionary army must not permit uncertain military detachments to leave the front for Petrograd. They should use persuasion, but where this fails they must propose any such action on the part of these detachments by force without mercy. The actual order must be read immediately to all military detachments in all arms. The suppression of this order from the rank and file by army organizations is equivalent to a great crime against the revolution and will be punished by all the strength of the revolutionary law. Soldiers, for peace, for bread, for land and for power of the people. (Sgd) The Military Revolutionary Committee.

GR. IRA STEWART KILLED IN ACTION

Other Islanders in Casualty List

Gunner Ira Stewart, 9th Howitzer Battery, City, killed in action.

The shadow of the war has darkened another Charlottetown home, that of Mrs. D. Stewart, Prince street, who yesterday received the sad news that her son, Gunner Ira Stewart, had made the supreme sacrifice. Gunner Stewart was only 21 years of age and was one of the first artillerymen to leave the province for active service, having gone over with the first contingent. About a year ago he was transferred to the Battery commanded by Major D. A. McKinnon, where his brother Gunner John C. Stewart is also serving. Previous to enlisting he was employed as a machinist with Messrs. Bruce Stewart Ltd. He was a young man of excellent character and had hosts of friends in the City who will sincerely mourn his death. Besides his widowed mother there are left to mourn his brother above referred to at the front, and a younger brother Alexander, at home and one sister, Miss Jean, a trained nurse in Winnipeg. To the sorely bereaved mother and family The Guardian tenders deepest sympathy.

Flight-Lieut. Vernon Lord, R. F. C., Tryon, missing.

A cablegram from the war office on Friday last brought the sorrowful news to Rev. C. S. Lord and Mrs. Lord of Tryon that their son, Flight-Lieut. Vernon Lord, had been missing since October 15th. Vernon but recently returned to France fully qualified after some months spent in study and practice in England and Scotland to take charge of one of the latest and fastest air machines in use by the British.

Gunner George C. Walker, 98th Siege Battery, City, wounded.

Word came through yesterday that George C. Walker, son of Capt. Jas. Walker, has been wounded again. Gunner Walker is serving with Prowse's Coy. of the 98th Siege Battery.

ROTARY INSTITUTE IN CHARLOTTETOWN

Deputation from Halifax Yesterday Instituted the Newly Formed Rotary Club.

A deputation from Halifax Rotary Club, including the Governor of the Maritime District, Dr. D. A. McRae, of Dalhousie University, Rotarians G. E. Boak, H. H. Marshall, Wm. G. Schon, Prof. H. L. Stewart, A. M. Smith, W. Walcott, J. J. Penny, F. A. Meagher, H. Wallace, C. Butcher, J. Harrison, W. Morton, A. Phillips, J. Rowland and W. R. Scriven, visited Charlottetown yesterday and instituted the newly formed Rotary Club. The visitors were met on the arrival of the S. S. Arnamore by a committee headed by President W. Harry Tidmarsh and conveyed in autos to the Victoria Hotel. After luncheon the party drove to the Provincial Buildings where they were welcomed by Premier Arsenault. In the Council Chamber they were shown the tablet erected to commemorate the fiftieth anniversary of the first meeting of Canadian statesmen which resulted in Confederation. The Premier delivered an interesting address on the subject; and in reply Dr. McRae extended congratulations to Premier Arsenault on behalf of not only the Rotarians of Halifax, but of Halifax and Nova Scotia upon his attainment to the high office of Premier. Regarding the Rotary Club he was sure it would be a beneficent institution in Charlottetown. It might take sometime to find itself, but the principles and purposes were broad enough and powerful enough to ensure that the Club would not fail, for no club yet instituted had returned its charter.

A visit was then paid to the General Fur Farms ranch where the visitors enjoyed—many for the first time, —seeing the foxes in their pens. A run was next made to the Experimental Farm and the live stock inspected. An oyster luncheon at Stewart's followed and the party returned to the Victoria Hotel.

In the evening supper was served in the Kozey Korner. After covers had been removed, President W. Harry Tidmarsh formally welcomed the visitors, and handed over the charge of the meeting to Governor McRae, who proceeded with the institution ceremony.

Among the visitors present were Premier Arsenault, Consul Pierce, Major Bartlett, Professor Reid, Mr. S. A. McLeod, Mr. C. J. Gallagher, Professor Hinton. Vice-President VanBuskirk reported that a deputation from the Ladies' Club waited upon him and asked the co-operation of the Rotarians in bringing the exhibition of war trophies here for the benefit of the Red Cross. The President also reported that from the same source came a request that Lord Northcliffe

should be invited to come to the City and give an address. A committee was appointed to take the necessary action.

The President then introduced Governor McRae and in doing so reviewed the steps which led to the formation of the Club.

Rotarian Jack Ireland returned thanks for the welcome which the President had extended to them. He said from what he had seen of the members of the Club he felt sure that Charlottetown had the material to make a Rotarian Club second to none on the continent.

Governor McRae, having taken charge of the meeting, formally presented the Charter to the Club. He expressed the peculiar pleasure it was to him as an Islander to perform that very pleasant duty. He thought the Club was starting under very favorable auspices, and if it carried on as he had hoped it would have a very successful career. He pointed out some of the difficulties which the Club would encounter, but he saw no reason for doubting the success of the Club here. As the club grew older and larger opportunities would present themselves in good fellowship and community work, which the members would be slow to take advantage of. He then read the charter and handed over the same to the President, the number of which is 333.

President Tidmarsh accepted the Charter on behalf of the Club. Rotarian Stewart, Professor of Philosophy, delivered an eloquent address on the practical benefits of Rotarianism, full of suggestions as to subjects that ought to be avoided as well as those that might be profitably discussed. The professor is a gifted humorist and his remarks were punctuated with hearty laughter and applause. Not for many years have those present been privileged to listen to such an able and inspiring speech on the duties and privileges of fellowship and social service.

Premier Arsenault spoke of the pleasure it gave him to welcome so many eminent men from a sister province, and referred to the great assistance which a body like the Rotary Club was to legislators and those who had the public welfare at heart. He said that the public welfare required suggestions and promptings in order to further the public interest, and from what he had heard about the principles and purposes of the Rotary Club, the institution here should fill a long and useful part. He showed how in a similar character was established with the result that the spirit of progress engendered, had resulted in the population increasing from 15,000 to 75,000 and one of the largest industries in the continent had established its headquarters here. Vice-President VanBuskirk expressed the pleasure he felt in pursuing the charter of the new club that Rotary was "international." He compared the keynote of the old Guilds which was "exclusiveness" with Rotary which was "broad" and "international." He expressed his admiration for the high ideals of Rotary, and thought Rotary

should fill an important place in removing the sand from the bearings of the machinery of public life.

Rotarians Marshall, Harvey Smith, John Rowland, B. Smith, Frank Mahar, W. Scriven, J. Harrison, A. Phillips, C. H. Butcher, gave helpful suggestions regarding the methods of conducting the Club.

Rotarian Walter S. Grant moved a vote of thanks to the Governor and other visiting Rotarians which was seconded by Rotarian W. A. Stewart, and supported by Rotarian G. S. Inman and Rotarian A. E. McLarty. An enjoyable musical programme was contributed to by Rotarian Saunders, Prof. Hinton, Rotarian Gravestock, Mr. C. J. Gallagher and Prof. Barlow. Rotarian Watkis acted as accompanist.

EXCELLENT LECTURE BY REV. R. G. FULTON

Rev. R. G. Fulton delivered an illustrated lecture in Hertz Memorial Hall last night on the fascinating theme "From Ocean to Ocean." There was a large attendance and the tour through Canada under the guidance of the reverend lecturer, his graphic description of the scenes passed through—illustrated by realistic photographs projected through a powerful stereoscopic operated by Mr. W. E. Burke, was almost as enjoyable as if taken on one of the palatial trains of the Transcontinental. Some 100 coloured views were thrown on the screen and most picturesque scenes on the continent while each was pleasingly described by the lecturer. Col. H. M. Davison occupied the chair and at the close tendered the lecturer a hearty vote of thanks moved by ex-Governor McKinnon and seconded by Judge Stewart.
